MORTGAGES.

NOTE.—*The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.*

Whenever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

CO-PARTNERSHIP NOTICES.

JOHN F. DONNELL & CO, J. KASSCHAU BROTHER & CO.—This is to certify, that the undersigned have formed a Limited Partnership, pursuant to the provisions of the Revised Statutes of the State of New York.

That the name or firm under which such partnership is to be conducted is JOHN F. DONNELL & CO., at the store, and J. KASSCHAU BROTHER & CO., at the factory, both in the City of New York. That the general nature of the business to be transacted is the manufacture and sale of brass, bronze, gilded, plated and pottery ware, &c.

That the names of all the partners, general and special, are as follows: John F. Donnell, Jurgen Kasschau and Jacob Kasschau, all of the city of New York, are the general partners. And Adolphine D. C. Schonhardt, of the City of New York, is the special partner.

That the said Adolphine D. C. Schonhardt has contributed the sum of five thousand dollars as capital to the common stock, and the said partnership is to commence on the first day of April, 1881, and to terminate on the 31st day of March, 1884.

Dated, New York, April 1, 1881.

JOHN F. DONNELL,
JURGEN KASSCHAU,
JACOB KASSCHAU, } General Partners.
ADOLPHINE D. C. SCHONHARDT,
Special Partner

NOTICE IS HEREBY GIVEN THAT A LIMITED partnership has been entered into by and between Uriah Welch, Henry J. Haight and Edward C. Haight, all residing in the City of New York, pursuant to and by virtue of the Statutes of the State of New York in such case made and provided, and that the terms of such partnership are as follows:

First: The name or firm under which said partnership is to be conducted is that of URIAH WELCH.

Second: The general nature of the business intended to be transacted is the business of hotel keeping, to be carried on at the hotel, in the city of New York, now known as the St. Nicholas hotel.

Third: The name of the general partner interested therein, is Uriah Welch of the City of New York, and the names of the special partners interested therein, are Henry J Haight of the City of New York and Edward C. Haight also of the City of New York.

Fourth: The amount of capital which each special partner has contributed to the common stock is as follows: the said Henry J. Haight has contributed the sum of Ten Thousand dollars in cash, and the said Edward C. Haight has contributed the sum of Ten Thousand dollars cash.

Fifth: Said partnership is to commence on the first day of May, one thousand eight hundred and eighty-one, and is to continue until and to terminate on the first day of May, one thousand eight hundred and eighty-four.

Dated, New York, April 30, 1881.

URIAH WELCH,
HENRY J. HAIGHT,
EDWARD C. HAIGHT,

DANIEL A. SHAW.—Notice is hereby given that a limited partnership has been formed by the undersigned, pursuant to the laws of the State of New York; that the name or firm under which such partnership is to be conducted is "DANIEL A. SHAW;" that the general nature of the business intended to be transacted by such partnership is the business of marine shells and other imported merchandise on commission or otherwise; that the names of all the general and special partners interested in the said business are Daniel A. Shaw, Michael J. Dunn, and Ira Bursley; that the said Daniel A. Shaw is a general partner and his place of residence is in the City and County and State of New York; that the said Michael J. Dunn is also a general partner, and his place of residence is in the City of Brooklyn, County of Kings and State of New York; that the said Ira Bursley is a special partner and his place of residence is in the City and County and State of New York; that the amount of capital contributed by the said special partner, Ira Bursley, is the sum of Twenty thousand dollars; that the period at which the said partnership is to commence is the 5th day of May, 1881, and the period at which it will terminate is the 5th day of May, 1884.

Dated New York, May 5th, 1881.

DANIEL A. SHAW,
General Partner.
MICHAEL J. DUNN,
General Partner.
IRA BURSLEY,
Special Partner.

THIS IS TO CERTIFY THAT THE LIMITED PARTnership formed between the undersigned on the 17th day of April, 1879, pursuant to the provisions of the Revised Statutes of New York, and commencing on the said 17th day of April, 1879, and terminating on the 17th day of April, 1881, has been renewed and continued to and until and will terminate on the 17th day of April, 1884. That the name or firm under which such partnership is to be conducted is R. E. MOORE. That the general nature of the business to be transacted is the buying and selling of paintings, engravings and objects of art to the business belonging.

That the names of the general and special partners are as follows: Rufus E. Moore, who resides in the City of New York, is the general partner, and James F. Sutton, who resides in the City of New York, is the special partner. That the said James F. Sutton has contributed the sum of Twenty Thousand Dollars to the common stock.

Dated this 23d day of April, 1881.

R. E. MOORE.
JAS. F. SUTTON.

C. W. SWEET, 137 Broadway.

J. T. LINDSEY, Business Manager.

The Common Council is talking about putting the electric light on Riverside drive. If this should be done, that beautiful west side avenue might become a famous after-dinner drive. During the coming summer people who could not go to Coney Island might, after the sun went down, take an evening ride or drive on the Riverside. The electric lights would make it as bright as day, and the scene on the river and from the river would be fairly enchanting. If there is to be an electric light, let us have plenty of it. The only objection we see is the danger that if the avenue became much frequented in the evenings, it would lead to the opening of saloons and might depreciate the value of property.

What business has the Attorney General of this State interfering in stock speculation? He wants, it seems, to have a receiver appointed for the Manhattan. But that company is not in default. After July, if it should not pay the dividend, action may be taken; but it is an outrage for this country lawyer, to undertake to represent the majesty of the State of New York, in helping on a stock speculation.

On the completion of the New York elevated road, Mr. Cyrus W. Field gave a dinner to his followers at Delmonico's. It was then stated that elevated stock was earning 20 per cent., and its price was about 190. But now Mr. Cyrus W. Field is telling the newspapers that the New York elevated is not earning 10 per cent., and he says Manhattan stock is worthless. Mr. Field in this matter has been smart at the expense of the investing public. The elevated roads themselves, have been a great benefit to the community. They have increased the area of taxable property and furnished an unsurpassed means of local travel. But, strangely enough, the press and the public unite in abusing the roads, instead of the stock manipulators, Field, Navarro, Porter, Garrison and their associates, and the disposition is to punish the present innocent holders of the stock by excessive taxation, for the misdeeds of the speculators, who have pocketed their profits, and do not care what becomes of the roads or their victims.

Offices have been opened in quarters of the city, inhabited by foreigners, for the sale of emigrant tickets. Of course it is not the great lines, like the Cunard, the White Star or the Inman, but the smaller steamers, which are offering inducements for Germans and Irish who wish to send to Europe for their friends. These offices are open at night for the accommodation of working people, and are often crowded with customers. This is but one symptom of how high the fever of immigration is rising. All accounts from abroad agree that from now to harvest the numbers will be very large and that immediately after harvest they will be still larger. The government of Denmark is becoming really alarmed and proposes to stop immigration by forcible measures; while in Germany the organs of Bismarck are telling all sorts of absurd stories to check the immigration. So long as this country is prosperous and Europe is crushed by taxation and the demands of compulsory military service, there is no stopping the tide of human beings that is flowing to our shores.

ABOUT SOME NEW YORK JOURNALS.

The *Evening Post* has been purchased by Horace White and Henry Villard, and Carl Schurz is the new editor, with E. L. Godkin, late of the *Nation*, as associate editor. Messrs. White and Villard are old newspaper associates, and were correspondents at Washington when the duties on whiskey were imposed. It is said both of them made fortunes by taking advantage of the information they got ahead of other people, respecting these same duties on spirits. Mr. White subsequently bought a controlling interest in the *Chicago Tribune*, and Mr. Villard entered Wall street. They both have been working together recently in Oregon Navigation and other enterprises and have made a great deal of money.

There is room in New York for newspapers with strong editors behind them. The *Herald*, *Times* and *Tribune*, when they were edited by the elder Bennett, Henry J. Raymond and Horace Greeley, were real forces in the political and business world. These papers have little weight to-day, although in some technical respects they are better papers than they were under the old regime. The *Herald* is strong in foreign news, and the *Sun* in local information, but the whole daily press of New York, to-day, does not wield the influence which Horace Greeley did with the *Tribune* alone.

Carl Schurz, as editor of the *Evening Post*, will speak with authority. He will represent a very influential section of the Republican party. But an evening paper is at a disadvantage; its circulation is necessarily limited, as its news is confined to but a few hours out of the twenty-four. Then, its advertising is not lucrative. New York needs a morning paper, more enterprising than any now in existence, and with contributors of national reputation, whose names should be given. The *Chicago Times* last week telegraphed the four gospels of the revised New Testament, some 88,000 words. Fifteen wires were used in the transmission. Whoever heard of such a feat on the part of a New York paper? This one Chicago paper spends more money in a year for telegraphing, than the cost of the entire telegraphic service of the New York press. The enterprising papers ought to be in this city, not in Chicago. Our newspapers are also passing into the hands of the representatives of rich corporations, and cannot very well represent public opinion in consequence. We have no doubt that the *Evening Post*, under its new management, will attract widespread attention. This may lead in time to the establishment of a morning paper, with a staff of brilliant writers, whose opinions will carry weight with the public.

Those who know the new editors of the *Evening Post*, doubt whether they will be able to pull together. They are opinionated and crotchety gentlemen, in whom the critical faculty has been inordinately developed. They would naturally criticise one another, to begin with; but the disagreement, if there is one, will end with a survival of the fittest. Mr. White would do well to issue a morning edition of the *Post* and edit it himself. If some capitalists would import Murat Halstead of the Cincinnati *Commercial*, and Henry Watterson of the Louisville *Courier-Journal*, journalism in New York would recover some of its old prestige.

Mr. W. H. Lee points out to a *Tribune* reporter the benefits which New York city has derived from its system of elevated roads, and incidentally he calls to mind the mistakes which property holders are apt to make respecting improvements which they fear will injure the value of their property. It is a settled fact for instance, that property on Sixth avenue has been very greatly benefitted by the building of the elevated road. True, it is not so desirable as a residence, but its value as a business avenue has very greatly increased. When it was proposed to build large apartment houses, the adjoining property holders were apprehensive that they would be in some way injured. So when the Union League Club was projected, it was supposed it would depreciate the price of adjoining property, but as a matter of fact, it has improved the entire neighborhood. Property holders have universally opposed horse cars in front of their possessions; yet in every case the street cars have been a benefit to the street through which they ran. The late A. T. Stewart spent his life in fighting surface and underground railways on Broadway, and he succeeded in driving them to other avenues, and with the roads the retail dry goods business of the city. It was the surface and elevated road which built up Sixth avenue at the expense of Broadway. The street cars have very largely benefitted property on Fourteenth street and Twenty-third street, and it is a notable fact that the largest retail trade on Broadway, is in that section occupied by the horse cars. Yet, clear as these facts are to the blindest, the principal property holders on Forty-second street are bitterly opposed to horse cars on their street. If they were wise, they would ask for an elevated road and subscribe to build it themselves. It may be set down as an axiom, that every improvement which increases the number of

human beings who occupy or use a certain avenue, thereby increases the value of its property. And yet how difficult it is for some property holders to understand this very simple proposition.

Owners of West Side property, which has rock upon it, should take advantage of the present demand for broken stone to blast away the masses of unnecessary boulders. It can be done, we understand, for $1.25 or thereabouts per square foot; whereas in built up parts of the city where there is danger from explosions, the removal of the rock costs $3.75 per square foot and over. There has been a very general clearing out of the West Side shanties, and owners would consult their interest as well as the appearance of the West Side in blasting the rock down to the proper depth, while it can be done so cheaply as it can at present. It would greatly help the price of West Side property, if this unnecessary rock were removed.

JAY GOULD'S GREAT SCHEMES.

A representative of THE REAL ESTATE RECORD had an accidental interview a few evenings since with a gentleman connected in a business way with the Vanderbilt family, and he made certain authoritive statements of no little importance.

"New York Central," said Mr. ——, "has an undivided surplus of over $20,000,000. They are about replacing all their trestle work by solid masonry. The law forbids them paying more than 8 per cent. upon their stock, but I think I am safe in predicting that soon after Mr. Vanderbilt's return there will be a meeting of the Lake Shore directors, when the New York Central will be leased to that corporation and 12 per cent. will be guaranteed on the stock. There is no law to prevent this, and the surplus should be paid over to the owners of the stock of the Central Road. Almost alone of the great railways of the country, the Lake Shore has declined to lease any lines or build any connections. You see how promptly the report was denied that the Lake Shore was about to lease the New York, Lake Erie & Western, yet it would be a very justifiable extension of its business. But Lake Shore is waiting for the leasing of the New York Central on the terms I mentioned."

"You have a high opinion of Mr. Vanderbilt?" queried the writer.

"I consider," said Mr. ——, "that, with the exception of Jay Gould, he is the greatest railroad man in the country, but Gould has one great advantage over him."

"And what is that, pray?"

"He can form combinations and bring into his schemes the ablest men in the country. Mr. Vanderbilt has no such faculty. Indeed, the business associates which he has gathered around him since his father's death, are people of no ability whatever."

"Is not that rather rough judgment on yourself, Mr. ——?"

Mr. ——, laughing. "You have me there. It is a fact, nevertheless, but there is one exception, Cornelius Vanderbilt, his son, is a remarkably able man, and may, if he lives, far surpass in wealth both his father and grandfather. But Jay Gould, see the men he has about him. Sage, Dillon, Humphreys, E. D. Morgan, Eckert, Huntington, and a score of others, not known to the public, but who are the railroad men of the future. I also think that Gould is desirous of dealing fairly with the public and wants to establish a good reputation. He has on foot two gigantic schemes, and, if he lives, will accomplish them both."

"And they are?"

"The consolidation of all the cable lines of the world is one. He already owns the telegraphic system of this continent. He aspires to control telegraphic inter-communication between every nation on earth. He has laid a cable of his own, as you know, between here and Europe; through the Western Union he owns the communication between here and the West Indies, and his agents are to work to get control of the cable under the Mediterranean, and those which connect Europe with Asia, as well as Europe with North America. This would make him master of all the markets of the world. If he succeeds, it will stamp him as the most daring and successful operator, as well as the richest man the world has ever seen."

"What is his other scheme?"

"A consolidation of the Southwestern system with the Baltimore & Ohio system. This would embrace the New Jersey Central, the Baltimore & Ohio, the Marietta, the Ohio & Mississippi, the Missouri Pacific and nearly all of the Southwestern roads. In other words, a through line from New York to the city of Mexico, with a branch to the Pacific coast: Philadelphia, Baltimore, Chicago, St. Louis and Cincinnati as way stations. Oh, it is a magnificent scheme, and I believe Mr. Gould will accomplish it as soon as Mr. Garrett returns from Europe. By the way, Garrett is a great friend of Gould's, and Vanderbilt himself, you know, according to Dr. Norvin Green, regards the latter as the Great Mogul.

INFORMATION ABOUT MINES.

The dealing in the State Line Mines continues. These properties were offered to Daniel and Seth Cooke something over a year ago, for $125,000. They are selling to-day in the neighborhood of $9,000,000, but they are not worth much more than what the Cookes declined to give for them. No mill has been erected, and the shafts so far are mere prospect holes. Some of the ore is rich, but there is no knowing how far the ledge goes down. The deal is skillfully managed by the same gang of California operators who plundered the public in Carysolite, Hukill, and other properties. The telegraphic columns of the *Tribune* are very skillfully used to work up the excitement. The story, first of one and then of another person is told, who has been to the mines, and the impression is created that it is a second Comstock.

What a contrast the price of Standard of Bodie presents. Here is a mine which is developed 1,000 feet in depth, which has a magnificent mill and plant, which has paid 50 cents and 75 cents a month for three years and a half, which from all accounts has three years' dividends in sight, yet it is selling for 22½, or $2,250,000 for the whole property, while the State Line prospects without mill, waterpower, shafts, levels, drifts or winzes, are selling for $8,000,000 or $9,000,000.

Iron Silver is a puzzle. It is an immense and magnificent property, is well developed and producing largely, has $160,000 surplus in bank, yet the price falls off from over $4 to less than $2 within a couple of weeks. A large Chicago holder is said to have got rid of 40,000 shares.

The reports from Silver Cliff are all good; the mill is working well and the silver product is large. It ought soon to be paying dividends, but somehow the stock readily gives way. The sale of a couple of thousand shares demoralizes the market. It is known that Keene, Lorillard and Wormser carry large blocks of Silver Cliff, and should any of them attempt to realize, it would break the market down, no matter how well the mine and mill are doing. It is best to have the stock distributed so that no man has it in his power to break down the price. Silver Cliff seems cheap at the present price, unless all the accounts are outrageous lies.

In the Big Pittsburg it is expected that a new body of ore will be struck in the Lent shaft, in which case the stock may advance.

Calaveras was off in price this week, stockholders not taking kindly to the proposed debenture bonds. The stockholders of record can purchase these bonds for 40 cents on the dollar; that is, the holder of a thousand shares in the new company will get a $1,000 bond, which will cost him $400, on which interest is to be paid at par. This, it is said, the company can easily do. Th Calaveras is a fine property with great possibilities, but is controlled by one man, who, if dishonest, can get the best of the other stockholders.

Silver Cliff, it is now reported, is to be called on the London Stock Exchange. This has been made the basis of a rise of several points during the past week. If it is really a dividend-paying property, there will be a large margin for a rise, and this will establish Mr. James R. Keene's reputation as a mine promoter on the London board. He is already well known to the English public by the feats of his horses on the English turf. Should Silver Cliff go up from $6 to $12, and continue dividend paying after it commences, Mr. Keene could put other properties upon the London market. His Bradshaw and Washington are now selling at a premium on our mining exchange, and when they become better developed, they will also be listed upon the London Exchange.

Nearly the entire city press copied our article of last week on the elevated roads, and, for a wonder, gave credit. Usually the habit has been to take our real estate news every Saturday, without telling where it came from.

The *Herald* is to be congratulated on its enterprise. It gives four columns on the new buildings in New York, underway and projected, which its industrious reporter has faithfully copied from the columns of the REAL ESTATE RECORD. Of course no credit is given. The building going on in New York is remarkable, and the *Herald* shows its judgment in reproducing the facts from our columns.

OUT AMONG THE BUILDERS.

Mr. Tuthill, the architect has prepared plans for several frame cottages to be built at Tenafly, N. J. They will be 32x40 feet, two stories high and in the Jacobean style. The owner, C. F. Everett, is putting up these cottages to rent, and to meet the wants of young men of moderate means. The cost will range from $1,500 to $1,800 apiece. The same architect has also draughted plans for several unique cottages in Denver and Duluth.

F. A. Maltbee has remodeled the cottage originally built by Wm. A. Butler, at Shelter Island, according to designs of George Tuthill. It is 32x44 feet, with extension 12x20 feet, and two stories high with a strongly hipped roof on which is a tower. The cost is $2,800.

Mr. A. M. Jenny will erect four brown stone front houses on the south side of One Hundred and Eleventh street, between Lexington and Third avenues, from designs of J. H. Valentine. They will be 18.9x60 feet, four stories in height, and will cost $9,000 each.

J. H. Valentine has draughted plans for a flat, to be built on the east side of First avenue, twenty-five feet south of One Hundred and Thirteenth street. It is to be 24x68 feet, four stories high, and constructed of brick and brown stone. J. Murray is the owner, and the cost $9,000.

On the north side of One Hundred and Twenty-eighth street, two hundred and eighty feet east of Third avenue, C. L. Weiher is going to put up four brick and stone flats. Two of them will be 20x60 feet, and two 30x60 feet. They are to be four stories high and to cost $11,000 apiece. J. H. Valentine designed them.

George J. Hamilton will build five brown stone dwellings on the north side of Seventy-third street two hundred feet east of Tenth avenue. They will be 20x65 feet with extensions, and four stories in height. The cost is $70,000. Architect same as last.

On the south side of Sixty-first street, 150 west of Ninth avenue, John Molloy will erect a brown stone apartment house, 40.6x68 feet, with extension, 12x18.6 from designs by A. B. Ogden. It will be four stories high and cost $22,000.

John Molloy will build two apartment houses on the south side of Sixty-first street, 150 feet west of Ninth avenue. They will be 30x68 feet with extension, 18x22 feet, and four stories in height. They will be of brown stone and cost $15,000 each. A. B. Ogden is the architect.

Charles I. Berg has drawn plans for several buildings to be added to the Jewish Foster Home and Orphan Asylum at Germantown, Pa. The main building will hold sixty children, and is 45x45 feet, one story high, and of Germantown stone. The out building is 50x95 feet, three stories high, of Philadelphia pressed brick. The whole cost is $10,000. Mr. Berg is also making some alterations to the cottage of Mrs. W. H. Meeker at Oceanic, to cost $3,500.

Mrs. Hannah G. Gerry is going to erect a private residence on the southwest corner of Fifth

third street and Fifth avenue, on a lot 50.5x100 feet. The house will be 50.5x80 feet, four stories high, and built of Connecticut freestone. It is to be constructed in the Doric order, and to cost $100,000. James Renwick is the architect.

All that remains of the old State Prison, which was bounded by Charles, Washington, West Tenth and West streets, is being torn down to make room for the erection of a refrigerator, to be used in connection with Beadleston & Woerz's Brewery. This firm purchased the whole property, which is rich in reminiscenses, extending back into the last century, in 1846.

Mr. Carl Pfeifer has drawn plans for an apartment house to be erected by a joint stock company, composed of eight shareholders, on the northwest corner of Fifty-second street and Madison avenue. It will be 76x95 feet, and eight stories high, exclusive of basement, under-cellar and attic. The basement and first story are stone-faced, and the remaining stories are built of brick. The cost of the structure is $150,000. Mr. Pfeifer is about to form two other companies which have grown out of this one as a nucleus. He is also preparing plans for another apartment house to be built on the southeast corner of Fifty-third street and Madison avenue.

Brooklyn.

On the southwest corner of Fulton and Utica avenues Harrison Brothers will remodel three buildings into a large grocery store from plans furnished by I. D. Reynolds. The structure is to be 65x80 feet, and four stories high, with cellar. It is estimated to cost $5,000.

Messrs. Parfitt Brothers have drawn plans for a building to be known as the Industrial Association Home, and to be located on Concord street opposite Prince st. It will have a frontage of 25 feet, 32 feet rear, and a depth of 45 feet. It is to be two stories high, with attic and cellar, of brick and stone and terra cotta trimmings. Cost about $6,000.

It is now definitely settled that Tony Pastor will erect a new theatre in Brooklyn. It will be built on Fulton avenue, one block above the old Olympic theatre, and will have a seating capacity of 3,000 people. It is to be constructed under the personal supervision of Tony Pastor himself.

NEW YORK REALTY AT ALBANY.

[From our own Correspondent.]

ALBANY, May 26.

The principal event of this week relative to real interests in New York has been the passage by both branches of the Legislature of the bill to tear down the distributing reservoir on Fifth avenue, at Fortieth street. The following are its principal provisions:

SECTION 1. The reservoir in the city of New York, situated on the Fifth avenue, between Fortieth and Forty-second streets, is hereby discontinued, and the Commissioner of Public Works of said city is hereby authorized and directed, within six months from the passage of this act, to remove the pipes connecting with said reservoir, and to lay another main in Fifth avenue, between Fortieth and Forty-second streets, to connect the mains now leading in and out of the said reservoir. He is further directed to remove the structure and grade the ground now occupied by the said reservoir to the level of the adjacent streets in a suitable manner for the purpose of a park, within one year from the passage of this act.

§ 2. The costs and expenses of the removal of the pipes connected with the said reservoir, and of laying the new main as provided by the first section of this act, shall be raised by a tax upon the real and personal property subject to taxation in the city and county of New York, and included in the tax levy for the years eighteen hundred and eighty-one and eighteen hundred and eighty-two. The cost and expense of the removal of the structure of said reservoir, and of grading the ground now occupied by it, shall be paid by the owners of property within the following limits: The westerly side of Sixth avenue, the southerly side of Thirty-seventh street, the easterly side of Madison avenue and the northerly side of Forty-fifth street; the same to be assessed and collected by the board of assessors of the city of New York, in like manner as assessments for local improvements.

The third section provides that the Comptroller shall issue revenue bonds in anticipation of the assessment to pay the expenses of the removal, at the rate of six per cent., to be paid as fast as the assessments are collected.

Section four provides that the land occupied by the reservoir shall be converted into a park together with the present park west of it, to be known as Reservoir Square, laid out by and placed under the control of the Park Department, and prohibit its use for military parades, drills or reviews.

The bill in relation to buildings north of One Hundred and Fortieth street, which is of interest to property owners and builders in that section, has also passed both houses and is now in the hands of the Governor. The following is the full text of the bill:

SECTION 1. Nothing in chapter six hundred and twenty-five of the laws of eighteen hundred and seventy-one, entitled "An act to amend and reduce to one act the several acts relating to buildings in the city of New York, passed May fourth, eighteen hundred and sixty-six, May seventeenth, eighteen hundred and sixty-seven, and May sixth, eighteen hundred and sixty-eight," shall be so construed as to prohibit the building of frame buildings with shingle roofs and eight-inch brick foundation walls under the same, in the Twelfth, Twenty-third and Twenty-fourth wards of the city of New York, north of One Hundred and Fortieth street. Buildings of brick, not exceeding two stories in height above the basement, may also be erected in said district, having basement walls twelve inches in thickness and walls above the basement eight inches in thickness constructed of part brick and good mortar.

The act for the improvement of the parks and places at the intersection of Third and Boston avenues, and of Frank in and Fulton avenues, in the Twenty-third Ward, has also passed both houses, and now in the Governor's hands.

The Governor also has the bill providing that all assessment proceedings now pending, or hereafter commenced, to acquire tit e to lands in the Twelfth Ward, north of One Hundred and Fifty-fifth street, and in the Twenty-third and Twenty-fourth Wards, for a street, avenue, or public place, or for the opening or widening thereof, and for grading, paving and sewers in that territory, shall be payable in yearly installments at 5 per cent. interest, but any party may pay it all at once if he desires.

A difficulty has been discovered in connection with the bill passed and signed to open Lexington avenue through certain blocks in Harlem. It appears that the avenue has never been laid down on the map of the city through these blocks, consequently the act passed is inoperative. A supplementary bill has been introduced in both Houses, and passed by the Senate and ordered to third reading in the Assembly, correcting the omission, and providing for a street through these blocks. This, it appears, is necessary before proceedings can be instituted under the other act.

The act for changing the map, or plan, of that portion of the city between One Hundred and Forty-fifth and One Hundred and Fifty-fifth streets, west of Eighth avenue, also, the act for the laying out and changing the map in that district lying between One Hundred and Forty fifth street, St. Nicholas Avenue, the land of the Academy of the Sacred Heart and Tenth avenue, have both passed the Senate.

The act authorizing the owners of property on East Forty-second street to construct and maintain small parks has been signed by the Governor.

The street-cleaning bill has been disposed of, as far as the Legislature is concerned, by the passage of a substitute bill, which is more as the politicians want it, than that asked for by the people.

The following is a certified copy of Astor's act as signed, in regard to the sureties of contractors in the city of New York:

Passed April 29, 1881; three-fifths being present.

SECTION 1. Whenever proposals for furnishing supplies or doing work are invited by advertisement by any of the departments or officers of the city government, in pursuance of section ninety-one of the city charter (chapter three hundred and thirty five, laws of eighteen hundred and seventy-three), such department or officer is authorized and directed to require, as a condition precedent to the reception or consideration of any proposal, the deposit with such department or officer of a certified check upon one of the national banks of the said city of New York, drawn to the order of the comptroller, or of money (such checks or money to accompany the proposal) to an amount not less than three nor more than five per cent. of the amount of the bond required by the department or officer for the faithful performance of the work proposed to be done or supplies to be furnished.

§ 2. Within three days after the decision as to who is the lowest bidder, the comptroller shall return all the deposits made to the persons making the same except the deposit made by the lowest bidder for any contract; and if the said lowest bidder shall refuse or neglect within five days after due notice that the contract has been awarded, to execute the same, the amount of deposit made by him shall be forfeited to and retained by the said city as liquidated damages for such neglect or refusal, and shall be paid into the sinking fund of the said city, but if the said lowest bidder shall execute the contract within the time aforesaid, the amount of his deposit shall be returned to him.

§ 3. This act shall take effect immediately.

MATTERS AT CONEY ISLAND.

Preparations of a more extensive character than heretofore attempted are being made for the season now about opening at Coney Island, or rather in that portion of it known as West Brighton Beach. Everything remains about the same as last year at Manhattan and Brighton Beaches The hotels have, of course, received all the repairs rendered necessary by the severity of the past winter, but there are no new building operations going on, while at West Brighton Vandeveer is erecting a new bathing pavilion, immediately in front of his hotel and adjoining the new pier. This pavilion will contain, in addition to the bath houses, billiard rooms, a restaurant, ladies' sitting and waiting rooms, etc. There will be hot and cold water baths, steam power for drying clothes, and it will be lighted inside and out with electric lights. The building will be of frame, and will have a centre tower with a cupola at either end The roof of the cupola, towers, etc., will be of variegated imitation tiles. Supervisor John T. McKane is superintending the building which, when completed, will cost $40,000.

Paul Bauer is erecting a large frame structure in the rear of his hotel, to be used as an amphitheatre, and in which athletic sports and pedestrian contests will take place. The roof of this building will be covered with a preparation of paper and tar, or felt.

Work is progressing slowly on the new Brighton pier, owing to the numerous injunctions that have from time to time been granted against it. When completed it will extend about 120 feet beyond the old pier, which it will resemble in width and general structure.

A new roadway is being cut through from the concourse to the old pier, connecting with Surf avenue, and running through to the extreme westerly end of the Island.

Mr. Mason, from Gloversville, N. Y., is erecting a frame three-story and french roof hotel on the Boulevard, between the New York & Brighton Beach Railroad Company's depot and the Roman Catholic Church. Mr. Alfred Baker, who is the real estate authority of Coney Island, says that rents have advanced at least 50 per cent. since last season, and that there are but few desirable stands to rent, while the supply of cottages is exhausted. Of course, there are no sales of property on the Beach, as it is what is known as "common lands," and is leased out by the town of Gravesend for periods of ten years; it will be understood from this that the above quotation of rentals applies to sub leases. The price of freeholds in the vicinity of the Island has advanced 25 per cent. in the last twelve months.

There is a great dearth of cottages, and the authority above quoted says that structures that cost but $1,000 to build, rent readily at from $250 to $300 per season.

No doubt there would be much more extensive building on the island if cheap transportation could be found for lumber, the rates of the railroad companies being so excessive that Mr. Wm. A Engeman, sometimes called the Prince of Enterprise of Coney Island, has often found it more economical to purchase a canal boat, load it with lumber, have it towed down in front of where he wants his timber, and there beach the boat, allowing it to go to pieces.

HOUSES THAT SPEAK FOR THEMSELVES.

Mr. I. E. Doying the builder has nearly completed three houses in Sixty-seventh street, 150 feet east of Fifth avenue, from designs of James E. Ware the well-known architect. House No. 4, nearest to Fifth avenue, is 27x67 feet, with 31 feet extension, No. 6 is 22x67 feet, and No. 8, 26x67 feet, with extension of 31 feet. They are four stories in height with basement, built of the best quality of brick, with brown stone trimmings, laid on the natural bed and elaborately carved, while the foundations are laid on solid rock. The high brown stone stoops are massive in appearance, and elegantly carved. With the exception of the fourth story, the interior of each house is finished in cabinet work. The carving, which is highly artistic in design, represents vines and flowers. Different trimming is used on each floor. The basement is trimmed in ash, the front parlor with rosewood, the back parlor or library with mahogany, the dining-room and butler's pantry with English oak, and the upper floors with maple. The second story is finished in maple, and the third in ash and cherry. The halls and stairs are constructed of cherry, while the balustrades and staircases are paneled and elaborately carved. All the wardrobes are lined with Florida cedar. The mantels are provided with deep-set fire places, grates and fenders manufactured especially for these houses. Over each mantel and wash-basin are oak bric-a-brac frames with beveled mirrors, corresponding to the beaded and handsomely finished trim, which gives the dressing rooms a rich and handsome appearance. The hardware used in the basement and third stories is bronze and black, the first story of pure bronze and the second story of brass. Though the door-hinges, &c., are somewhat larger than ordinarily found in private dwellings, they are so designed as to harmonize with the surroundings. There is an invalid's hand elevator running from the basement to the fourth story, attracting no attention, and running so easily that the slighest noise is imperceptible. Each house has a burglar proof safe expressly for silverware and jewelry, lined with velvet and satin, and so constructed that the lock, which is connected with an electric bell cannot be opened without causing an alarm. Electric wires also light the gas and give an alarm if a window is opened day or night. The cellars are built of brick with artificial stone pavement. The cold-air conductor is made of galvanized iron, and so constructed that it is utterly impossible to detect the slightest signs of foul air in the rooms above. The porcelain bath tubs, which are known as the Prince Albert tub, weigh 850

pounds, and are much more expensive and perfect than those commonly used. The floors in each story are double, being of white pine one and five-eighths inches thick, and sawn from two-inch plank so that the edge of the grain will be upward. Each dining-room has an elegant mantel, bric-a-brac frame and beveled mirrors, with buffet built in the room to conform with mantel and frame. On the first story the ceilings are 15 feet in height, while the others vary slightly. The hallways are spacious, and the vestibules are tiled with Mexican onyx, brocatel and Lake Champlain marble with onyx dots. The hearths are of Mexican onyx and Belgian black marble. A heavy rich curtain separates the reception hall from the stairway. All the houses are admirably lighted and ventilated. The front areas and rear yards of the houses are laid with rubbed bluestone tiling. In the centre are small grass-plots, which render the prosaic brick and mortar less obtrusive to the eye. The laundries are provided with all the modern belongings, including porcelain washtubs. The ranges are modeled after the French style, with broilers, toasters, etc. The plumbing is a marvel of perfection, and the construction, from foundation stone to roof, of the most solid and substantial kind. These houses are built in the Colonial style. The window glass is three-eighths of an inch in thickness, and all the sashes are of hardwood. Mr. Doying has personally superintended the construction, and most faithfully adheres to the strict letter of the text laid down by Mr. Ware. The marble work and tiling is so expensive that no speculative builder has heretofore used the same kind. It is no exaggeration of speech to say that these houses are about the most perfect of their kind in this city, and Mr. Doying may well invite inspection and defy competition. Though the neighborhood is a choice one and boasts many fine dwellings, these houses, beautiful in their simplicity, eclipse them all. In saying this we have no reference to the palatial private residences on which wealthy folks lavish a mint of money.

STATEN ISLAND REALTY.

A representative of THE REAL ESTATE RECORD, on inquiring of a gentleman well posted in real estate on Staten Island as to the situation there, was met with the exclamation: O, there has been no boom on the Island! On further inquiry it was learned that this was true, but at the same time that there was a decidedly better feeling prevailing, not only among dealers in realty, but that there was some demand for investment, and that a number of residences had changed hands at prices better than could have been obtained twelve months since, in proof of which may be mentioned the purchases of Messrs. Lawrence, McNamee, Shaw, Davis Johnston, and Wendt on Castleton Heights, and the sale of the Luling and Felows estates. The demand for unimproved property is also looking up, as shown by the recent auction sale by D. T. Cornell of the Gilpin estate in Stapleton, the lots bringing under the hammer from $125 to $200 while just one year ago the same lots had to be withdrawn without a bid. There is also a strong demand for small houses along the line of the water, both from investors and tenants, and for this class of property rents have advanced at least 10 per cent., and but few desirable houses remain untenanted from the Fort to Elm Park.

Water pipes are being laid at New Brighton and Edgewater, and ere long water will be introduced into the houses of both places.

At New Brighton nearly everything is rented, and the demand for furnished houses renting for from $100 to $125 per month has already exhausted the supply.

The large number of churches of all denominations and the excellent schools in all parts of Staten Island, in connection with the delightful sail to and fro, make it a most desirable place for families to make their homes.

SALES.

D. T. Cornell has sold the Charles Kuling estate at Clifton, on the Narrows, comprising about twenty-eight acres with a magnificant mansion, to Mr. Walters, the cotton broker, for $25,000. It is said that the property cost nearly a quarter of a million of dollars. Also, the Hammond Park property on Broad street, 200x100, to the Rev. John Lewis, of St. Mary's Roman Catholic Church, Clifton, for a school, the price being $4,500.

W. A. Collins has sold the large dye factory belonging to Crabtree & Wilkinson, on Jersey avenue, New Brighton, and comprising about twenty-six lots, to the Irving Manufacturing Company, for $26,000, and the purchasers are now putting the property in first-class order. The Wotherspoon property on Tompkins avenue, consisting of dwelling and lot, 200x200, to Horace Kelly, the price being nearly $20,000. Two three-story brick and French roof houses on Stuyvesant place, 50x200 each, have been sold for $10,000 a piece.

Mr. John H. Pool has purchased a plot of ground on Richmond Terrace for which he paid over $1,000 per city lot.

Mr. Jacob R Telfair has bought a plot of ground on Stuyvesant place, 100x200.

BUILDING ITEMS.

Four cottages are being erected on the old Quarantine ground at Tompkinsville.

St. John's Guild are erecting at Cedar Grove a beautiful home for children, 120x25, with an extension, to cost in the neighborhood of $20,000. This property is finely located, being near Peteler's South Beach Pavilion, where a dock is soon to be built that will permit the largest steamers to land. There is also a fine boulevard running from Richmond avenue near the fort along the water front to Peteler's.

A new public school will soon be commenced at Clifton.

A large double brick dwelling will soon be completed on Westervelt avenue, near the landing.

Mr. Charles Hamilton is erecting two dwellings in the modified Queen Anne style on the property recently purchased by him on Stuyvesant place, near Jay street. This property was owned by George Law, of this city.

Captain King is making considerable improvements on his different ownings.

NEW MAP OF NORTH NEW YORK.

Mr. M. Dripps has just published a new map of the city north of One Hundred and Thirtieth street, and East and Westchester townships. The map shows plan of avenues, streets, and parks, as completed by the Park Commissioners. It shows, in perspective farm lines, names of owners, buildings, new rapid transit routes, also the new canal projected by Gen. Newton, connecting Hudson and Harlem rivers. The city portion, which is divided into 1000 feet squares, is shown by dotted lines. It is 36x48 inches in size and sold at the nominal price of $5.

REAL ESTATE IN NEW ROCHELLE.

In matters appertaining to real estate New Rochelle differs from all the other adjacent suburban towns that we have spoken of from time to time, in that there has been no extensive building of houses or rows of houses in advance of a demand for the same, and that the population is made up in a great measure of persons who have erected houses for themselves—persons of moderate means, and who mostly transact their business in our city. From what has been said it will be easily understood that there is but little property in New Rochelle that is for sale and that there have been no transactions in realty this spring, if we except the exchange of some unimportant parcels for New York City improved property.

There is a good renting demand for all classes of houses, and landlords hold their properties firmly at last year's prices, and nearly all of them have been able to obtain the same, consequently there are but few vacant houses.

There is a strong demand for furnished houses that rent for about $50 per month, and of which the supply is entirely inadequate.

There is also some inquiry for farms in this neighborhood, but as there are but few in the market no transactions have been consummated. As only a small percentage of the population is composed of the laboring class, either skilled or unskilled, there are no apartment houses, each family almost universally occupying a whole house.

Old residents of New Rochelle say there are more strangers sojourning there this season than ever before.

MARKET REVIEW.

REAL ESTATE.

☞ **For list of lots and houses for sale see pages v and vi of advertisements.**

Very little has been done on the Real Estate Exchange this week. Not much was offered, and all important sales were postponed. The list of conveyances shows that there is a good deal doing in real estate in a private way, more than usual at this season. The prices show that there is far more money in buying improved property, than in paying high prices for stocks in Wall street. As will be seen by the rentals which accompany our official sales of improved property, eight, nine and even ten per cent. can be made by wise investments in residence and store property. There seems to be a fever for investing in Wall street stocks. Every six per cent. loan that is offered is eagerly taken up, and is soon at a premium. Yet here are improved properties, good for eight or nine per cent., which are neglected. Cheap money will certainly very largely advance the price of real estate. Rents will advance, but the price of property itself will be raised to such a height that the rentals will only bring in five per cent. This has been the experience with cheap money in England and other continental nations.

During the week some suburban property was offered, but did not meet with ready sale. Yet we hear that tenants are unusually numerous in all the best suburban neighborhoods of New York. There are but few houses to rent at New Brighton, Staten Island, at New Rochelle, Larchmont, Yonkers, Orange and Elizabeth. Not only New York, but all its outlying province, is steadily increasing in numbers.

Investors would do well to be on hand next Tuesday 31st inst., at Adrian H. Muller & Son's sale of two entire blocks on Lexington and Fourth avenues, One Hundredth and One Hundred and First streets, the whole comprising seventy lots. This is right in the line of improvement, and the purchasers cannot fail to make a great deal of money.

Louis Mesier will sell on Wednesday next, the four-story brown stone dwelling, No. 146 West Forty-third street.

R. V. Harnett will sell on Tuesday, the five-story brick tenement house, No. 313 Rivington street, and on Thursday, the five-story brick tenements, No. 381 Avenue A, and 423 East Twenty-second street; the four-story brick flat No. 221 East Forty-first street, and the valuable dwelling No. 441 West Thirty-sixth street.

Gossip of the Week.

F. Zittel has sold the plot of ground on the north side of Sixty-second street, commencing 107 feet east of Madison avenue, 60x100, to Samuel D. Bussell, at the rate of $19,000 per city lot. Mr. Bussell will proceed to erect at once fine residences on the above-mentioned lot.

Leonard J. Carpenter has sold the five-story front and four-story rear tenement, with lot 30x139, Nos. 235 and 237 East Forty-fourth street, to M. Sheehy for $20,000.

Mr. Muldoon has recently sold one of his houses, on the north side of Sixty-seventh street, the second east of Fifth avenue, for $67,500.

Three lots on the south side of Fifty-sixth street, between Fifth and Sixth avenues, have been sold for $90,000.

The plot of land, 100x100, on the northeast corner of First avenue and Twenty-eighth street, has been sold for $24,000.

Three lots on the south side of Eighty-second street, between Madison and Fifth avenues, have been sold for $64,500.

The Tennis Building Association, of which the following gentlemen are trustees: F. H. Weeks, R. W. De Forest, C. Johnson, H. W. De Forest, L. Stewart, J. M. Bowers, O. Rhinelander, B. Wells, S. Dwight, H P. Rogers and F. S. Withersbee, have purchased, at private contract, the plot of ground on the south side of Forty-first street, 100 feet west of Seventh avenue, 111 x half the block. The association propose to erect at once a club house to cost not less than $40,000, and for which the architect is now preparing plans.

Two lots on the west side of Park avenue, below Seventy-seventh street, have been sold for $30,000.

Messrs. Benner & Zeller have sold the five-story brick tenement house, No. 18 Essex street, to Mr. Kuhn for $15,500; a fine country residence, comprising twenty acres of ground in Clarksville, Rockland County, N. Y., to Mr. Rue for $12,500, and the suburban residence of Dr. Humphreys, in Maywood, Bergen County, N. J., consisting of a magnificent dwelling house and twenty acres, to C. H. Hill, U. S. N., for $14,000.

Messrs. Butler & Matheson have sold the large irregular brick building, No. 93 Broad street, for $118,000, on account of George Sneppel.

The sale is reported of an apartment house on Madison avenue, near Madison square, for $150,000.

Mr. Blakeman, of Ivison, Blakeman, Taylor & Co., has purchased a handsome four-story brown stone residence on the south side of Sixty-third street, between Madison and Fourth avenues.

The reported purchase of eight and a half city lots by D. Willis James, in connection with his recent extensive purchases in the block bounded by Eighty-sixth and Eighty-seventh streets, and Ninth and Tenth avenues, is entirely unfounded.

Three lots on One Hundred and Thirty-first street, between Sixth and Seventh avenues, have been sold for $12,750.

Brooklyn.

Messrs. J. Burrill & Son have sold the two-story and basement stone front house, No. 297 Eighth street, for $4,400, and the two-story and basement stone front house, No. 430 Ninth street, for $5,200.

The following are the sales at the Exchange Salesroom for the week ending May 27:

** Indicates that the property described has been bid in for plaintiff's account:*

RICHARD V. HARNETT.

Elizabeth st, No. 172, e s, 25x98.9, five-story brick store and tenem't and five-story brick tenem't in rear. P. M. Platt. (Rents for $1,500)	$12,750

Myrtle av, n e cor Schenck st, 25x100, two-story frame dwell'g. Leasehold. Joseph Wurzer	3,450
Ocean av, e s, 100 n Duryea av, 50x100. George R. Waldron	400
Total	$32,130

BUILDING MATERIAL MARKET.

BRICKS.—Common Hards have met with a some what irregular market during the week. At the out set there was a slack tone on prices under a very liberal supply, made up to a large extent of the "clearing up" lots from the yards on the final shipments of the old crop. Notwithstanding the inferior character of the offerings, however, it soon began to secure attention, and by the middle of the week it had pretty much all disappeared, together with such additional arrivals as came to hand, and, as we write, the amounts available are very small, the demand still good and prices very firm at full former figures, with some indications of an advance at hand. In fact the consumption is realizing all anticipations, and it now looks as though there would be a scarcity before the new crop becomes plenty enough to meet the requirements of the market. The Jersey product has sold up close, some of the Haverstraw makers, we understand, are about commencing to deliver from their second kilns, and a few new cargoes are coming in from "Up River," but there is not enough to go around, and sellers retain the advantage. To cover all average grades $6.25@7.00 per M. is quoted, but it is a question if the latter figures will now buy the best stock. Pales are not as yet salable above $2.75 per M., except in very rare instances, but it is thought that the pressure of supplies will now be reduced somewhat, and receivers feel a trifle more confident. Fronts of all kinds continue in scant supply, and command full prices without difficulty, the market showing cheerful and encouraging features.

HARDWARE.—Business is good, and in such form as to encourage the hope of continuance for some time to come. As has been the case this year on so many other lines of merchandise, however, there is some disappointment over the volume of trade and the absence of buoyancy on values, owing to the general backward condition of the season, and some dealers are fearful that from many points orders are best. Production is continued, but with greater care, as manufacturers have no desire to accumulate a surplus. Prices remain steady for the present, but some time during the coming month it is expected that a revision of lists will take place in preparation for the fall trade. On the 1st prox the price of Ohio Grindstones will be advanced $1 per ton.

LATH.—This is simply a nominal market at the moment. The latest sale reported was at $2.00 per M, and it is believed that it could be obtained again were any stock available, but also intimated that receivers expect a still higher figure and are unwilling to negotiate at the moment. In fact, as matters stand, there is no established cargo rate at the moment.

LIME.—The position remains about the same as last week. Everything now offering finds a market, and more stock could be disposed of, which in connection with dissatisfaction among manufacturers and the probability that shipments will be curtailed gives the selling interest much advantage. Indeed, an advance is talked of as likely to take place at an early day.

LUMBER.—Pretty much everything still seems to favor the selling interest and the general tone of the market is cheerful and encouraging. Offerings are moderate and under good control, with no important additions expected; the demand, present and prospective, is keeping up well to the volume promised, and a quiet, solid confidence among the Trade is a feature of the position. Indeed all this season there has been a noticeable absence of the brag and bluster so characteristic of a certain class of operators a few years ago, and while now and then there is naturally evidences of over sanguine expectations, a careful survey of the market and its bearings leads to the conviction, that unless influences of an unexpected nature should arise the season must prove a first-class one in every respect, and especially so far as the home consumption may be concerned. It has in a few instances been suggested that the export trade must show a lull after the large amount already sent forward, but those who supply the foreign outlet anticipate no great falling away, and some look for a pretty good South American trade as soon as fresh assortments can be reached.

Spruce remains firm and the tendency on attractive parcels of random is rather upward if anything. A number of dealers could handle one, two, or even a greater number of cargoes where the cut was suited to their trade, but the offering is not making at the moment, and only moderate amounts understood to be afloat for this port. Manufacturers are also closing somewhat slowly on specials and asking quite extreme rates, more especially where buyers desire to name an early date. About the only suspicious feature of the market is the rather prominent manner in which the claim of a short supply of logs is put forward, but it is possible the story may have had some foundation in fact, previous to the recent rains. Quotations are placed at $14@16 on random and up to $18 on special. Last week there was a quiet marking down of Spruce and Hemlock on the Albany market, without comment.

White Pine has received good support, and the general market shows a firm and cheerful tone. A larger amount of stock has reached tidewater and come forward, but a goodly proportion of it was apparently sold before arrival, either for consumption or shipment, while anything not so disposed of was taken care of by dealers with the greatest confidence. Indeed, there is not much doubt that a larger quantity of desirable stuff could be placed without difficulty and at full rates, though dealers at the moment are unwilling to contract ahead for any considerable amount. At the primary points operators appear to be somewhat unsettled in their views and hardly so strong as had been anticipated. We quote $17@19 per M for West India shipping boards; $24.50@26 for South American do.; $16@16.50 for box board; $17@17.50 for do. wide and sound do.

Yellow Pine is thoroughly supported on values and retains a large amount of attention from all classes of buyers. Spot lots are wanted, especially Sidings and Flooring, and it would be a very poor offering indeed not to receive quick sale at former rates at least. In some cases our local buyers are not to be found in attendance, but they have large amounts coming forward on contract completed earlier in the season, and their place is filled by orders from a great many other points, coastwise and foreign. In fact, agents' books are full of orders, and the difficulty is to find mills ready to set a date for cutting the specifications. Orders from South America are a little more exacting as regards quality, some of the cargoes having turned out very poorly. We quote random cargoes at about $23.50@25.00 per M; ordered cargoes, $26.00@27.75 do.; green flooring boards, $24.00@26.00 do; and dry do do, $25.50@27.00. Cargoes at the South, $15.00 @19.00 per M for rough, and 20.00@24.00 for dressed

Hardwoods do not vary to any great extent. Supplies are small, actual demand good, and sellers have about all the advantages. Some buyers are talking about holding off on the possibility that as the season advances they may secure better terms on Walnut, but success in this plan is very doubtful. Dealers who have been "out West" in hopes of picking up something cheap have come back almost empty-handed in view of the rates asked on primary points, and the close control held over the most desirable accumulation. We quote at wholesale rates by carload about as follows: Walnut; $77@85 per M; ash, $35@38 do.; oak, $40@45 do., maple. $30@35; chestnut, 1st and 2d, $30@35; do. do. culls, $18@20 do.; cherry, $50@55 do.; white wood, ½ and ⅝ inch, $25@27.50, and do. inch, $33@35 do.; hickory, $35@45 do., for Western, and $65@75 for good nearby stock.

Shingles retain a fair amount of attention, with rather an increasing tendency to the home demand, and the supply under such control as to insure the maintenence of former values all around. Exporters are not, as a rule, moving, except upon a basis of positive orders. We quote Cypress at about $6.00 for saps and $8,50@9 for hearts; pine shipping stocks, $4 for 18-inch, and Eastern saw grades at $2.50@4.50 for 16-inch, as to quality and to quantity. Machine dressed cedar shingles quoted as follows: For 30-inch, $16@22.25 for A and $28.75@32.25 for No. 1; for 24-inch, $6.50@16 for A and $16.75@23 for No. 1; for 20-inch, $5@10.50 for A and $11.25@11.75 for No. 1.

From among the lumber charters and engagements recently reported, we select the following:

A Nor. barque, 437 tons, from St. John, N. B., to the East coast Ireland, deals, 58s 9d, cargo delivered; a Br. barque, 588 tons, from St. John, N. B., to Dublin, deals, 55s, cargo delivered; a Nor. barque, 438 tons, from St. John, N. B., to Ireland, deals, 55s, cargo delivered, an Am. ship, 981 tons, from St. John, N. B., to Liverpool, deals, 55s: a Br. barque, 391 tons, from St. John, N. B., to Havre, St. Nazaire or Brest, deals, 60s, option of Bordeaux, 62s 6d; a Br. schr., 125 tons, from St. John, N. B., to New York, lumber, $3; a Br. schr., 97 tons, same; a Br. schr., 104 tons, same; a schr., 156 tons, same; two schrs., 144 and 134 tons, from St. John, N. B., to New York, deals, $3; two schrs., 271 tons, each same voyage and rate; an Ital, barque, 539 tons, from Portland to River Plate, lumber $13 net; a Br. brig, 349 tons, from Portland to St. Pierre, option of a second port, lumber, $6; a Br. barque, 397 tons, from St. Simon's Island to San Nicholas, lumber, $20 net; an Am. brig. 410 tons, from Brunswick to Montevideo, lumber, $19, or Buenos Ayres, $19.50, option of up-river ports, $3 extra; a Br. barque, 531 tons, from Pensacola to Lisbon, resawed timber, £6; a Br. barque, 622 tons, from Brunswick to Buenos Ayres, lumber, at or about $18; a Dan. brig, 300 tons, from Liverpool, N. S., to Barbadoes, lumber, private terms; a Br. brig, 189 tons, hence to Arroya, P. R., lumber, $6; an Am. brig, 553 tons, hence to South Side Cuba, lumber, at or about $7; a schr., 176 tons, from Raritan River to Jacksonville, brick, and back with lumber, to New York, $11 for the round; two schrs., 513 and 406 tons, from Pensacola or Pascagoula to Oranzas Pass (several trips), railroad ties, $8; a barque, 400 M lumber, from Pensacola to New York, $9; a schr., 250 M lumber, from Pensacola to Boston, $9 per M; a schr., 200 M lumber, from Brunswick, Geo., to Providence or New Haven, $7.50 per M; a brig, 275 M lumber, from Fernandina to Philadelphia, $7; a schr., 242 tons, from Philadelphia to Savannah, coal, $1, and back with lumber, $6.50; a schr., 300 M lumber, from Doboy to Philadelphia, resawed lumber. $7, and timber $8; a brig, 466 tons, hence to Fernandina, stone, lump sum, and back to Philadelphia, lumber, $7; a schr., 425 M. lumber, from Port Royal to New York, $7; a schr., 174 tons, hence to Jacksonville, and back with lumber, $11 for the round; a schr., 350 M lumber, from Doboy to New York, $7.75—20 M per day; a schr., 262 tons, hence to Pilatka, railroad iron, $2.50, and back from Jacksonville, lumber, $9; two schrs., 120 and 125 M lumber, from Jacksonville to New York, $9; a barque, 350 M lumber, from St. Mary's to New York, $7.50—20 M per day.

Exports of lumber from the port of New York:

	This Week, feet.	Since Jan. 1, feet.
West Indies	391,255	16,732,579
South America	1,514,206	10,628,864
East Indies, Africa, etc	323,197	2,477,599
Europe, Continent	.....	524.650
Europe, United Kingdom	.....	1,879,979
Total	2,228,658	32,243,671

GENERAL LUMBER NOTES.

STATE.

Albany Lumber Market, as reported by The Argus

FOR THE WEEK ENDED MAY 24, 1881.

The receipts of pine lumber wintered over on the canal and of new have been moderate; they have been turned in on sales made ahead, thus leaving the market temporarily bare, and as a consequence quiet. Prices are steadily maintained with a good demand, principally from New York, Long Island and New Jersey, and is largely for uppers—for which, also, there is some local speculative demand—on a market which for that grade is certainly the cheapest of any point. The Saginaw and Chicago markets are notably held very high on the upper grades with perfect confidence on the part of the trade that present prices will be maintained. The new cut at Saginaw continues to be sold largely ahead and at full prices, especially on upper grades.

From Canada the advices are firm and active markets; logs are arriving freely, and there is not any further apprehension of shortage on that account.

Hardwoods are in continued good demand and unchanged in price

Coarse lumber is arriving freely by canal, and has been largely absorbed by sales made some time ahead; new orders continue to come forward and there appears to be no let up to the demand, notwithstanding the deliveries from the Champlain are far ahead of those of any previous season; of course no accumulation of stock is looked for; prices are firmly held.

At Chicago the receipts of lumber by lake and rail to May 20 were 212,500,00 feet, against 232,700,000 feet to same date in 1880; the shipments 232,302,000 feet, against 198,800,000 feet.

The receipts of lumber by lake at Buffalo for the week were 12,200,000 feet, and by rail 173 cars.

The receipts by canal at tide-water from the opening of navigation in 1881 (May 17) and the opening in 1880 (April 20) were:

	Bds.&Sctg. ft.	Shingles, M.	Timber, c.f.	Staves,lb.
1881	21,870,000	99	12,900	358,200
1880	65,951,900	312	38,000	2,824,000

Freights from Bay City to Buffalo and Tonawanda, $3 per M.; from Saginaw, $3.25. From Buffalo to Albany, $2.70 per M. Lake Ontario freights to Oswego, $1 from Port Hope; $1.25 from Toronto; from Oswego to Albany, $1.90.

River freights are:

To New York, ⅜ M ft	$ @1 00
To Bridgeport	@1 37½
To New Haven	@1 37½
To Providence, Fall River and Newport	2 00@2 25
To Pawtucket	2 25@2 50

To Norwalk	1 25@1 30
To Hartford	@2 00
To Norwich	@2 00
To Middletown	@1 75
To New London	@1 75
To Philadelphia	@2 00

THE WEST.

SAGINAW VALLEY.

Lumberman's Gazette.

BAY CITY, Mich.

The market continues active and sales of good round lots at market rates are of daily occurrence. Confidence in the maintenance of present prices is unshaken, no reason appearing why there should be a decline. The supply of the finer qualities of lumber is limited and sales of coarser stock are more frequent. Among the sales reported are 1,500,000 at $7.50, $14 and $35; 1,200,000 feet coarse at $6.50, $13 and $32; 2,000,000 feet good stock at $7, $14 and $33; 1,000,000 feet at $8 straight; 700,000 feet at same figure; 500,000 feet at $7.25, $14.50 and $35; 2,000,000 feet coarse at $6.50, $13 and $30; 500,000 feet at $7.50, $15 and $35; 1,220,000 feet coarse at $9 straight. Several other sales at about the same range of prices have been reported, but these are sufficient to show the range of prices.

The slight change in prices at Chicago will have no effect on this market. The Eastern and Ohio demand keeps this market steady.

Shingles are in good demand and the supply is not large. Sales have been made at $1.95@2.10 for clear butts and $2.95@3 10 for XXX. Some dealers give quotations at $1 95@2.15 for clear butts and $2.95@3.15 for XXX, but we hear of no sales at the outside figures.

Lake freights remain the same as previously quoted, namely $2.50@2.75 to Chicago and Ohio ports; $3@3.25 to Buffalo and Tonawanda, the outside figures from Saginaw, inside from Bay City.

The shipments the past week have been over 20,000,000 feet of lumber, 6,000,000 shingles, 1,473,000 hoops, 229,400 staves, and 500,000 lath. The shipments are over 100,000,000 feet behind last season.

General quotations here are:

Shipping culls	$6.50@ 8.00
Common	13.50@18.00
Three uppers	32.00@38.00

CHICAGO.

The *Northwestern Lumberman* as follows:

The cargo market is not so strong as it has been. Piece stuff has weakened noticeably since our last report, standard cargoes being sold to day as low as $9.50 and $9.75, and inferior ones $9.25. Yesterday a load of Manistee stuff was placed at $10, but this figure, so far as we can ascertain, was not reached in to-day's transactions. Medium mill run is also slightly weaker, though the range given covers the market. Common inch has not fallen off materially. Standard shingles have not been sold above $2 40 for some days, and that figure is now put down as the ruling price. Extra A shingles bring $2.50 and $2.60. It will be observed that there has been a slight decline in these, which is no doubt due to the determination of the buyers that they would not attempt to handle any considerable quantity of them at the figures first made. It is a question whether they will buy much more freely now, though sellers hope to get along without further concessions. Lath are steady at $1.75, none having been sold at any higher prices.

The stock of lumber for sale during the week was the largest that has been offered this season. Sunday and Monday a large fleet came in, and at the close of business to-day there was still some of it at the dock unsold. There are plenty of buyers around, or to put it a trifle more accurately, perhaps, plenty of people who would be buyers if they could get the sellers to come to their terms. The lumber arriving for sale has certainly not moved with as much celerity as would be desirable from the manufacturers' point of view, though the transactions seem to cover the larger part of each day's supply. Good inch lumber is said to be in demand, and the strongest thing on the market. Consignments on anything ranging from number one Muskegon stock upwards can be placed, it is said, without difficulty, and at about asking prices One operator on the market reports a sale of 6,000,000 feet of lumber from number one logs at figures netting him fully $1 more than the same kind of lumber brought last year.

While lumber is weakening, the prices exacted by vessel men for bringing it from the points of manufacture are getting firmer, and even advancing somewhat. The rate from Manistee is reported at $2 25; from Ludington, $2; White Lake, $1 87½; Muskegon, $1.75; Grand Haven and Spring Lake, $1 75; Menominee and Cedar river, $2.25, and Oconto, $2.50. Cedar post charters range from eight to nine cents for Green bay and west shore ports, the posts to be delivered on the rail. These figures show a considerable advance over the prices ruling at the opening of navigation, and go to show that vessel owners, for whom the season must necessarily be a short one, propose to make it as profitable as they can.

CARGO QUOTATIONS.

Joist and scantling, green	$9.25@ 9.75
Mill run, choice, green	16.00@19.00
Mill run, medium, green	12.00@16.00
Mill run, common, green	10.50@11.50
Shingles, standard	2.40
Shingles, extra A	2.50@ 2.60
Lath	1.75

HARDWOODS.—Trade for the week has been good, locally considered, but no lumber to speak of has left town All receipts by rail have been shut off, except now and then a straggling car that was switched round in spite of the strikers. The few cars that have delivered over their contents have been unloaded under great disadvantage, in some cases having been drawn from the track from among the jam of cars by horses In other cases the unloaders have been obliged to shove the lumber through two, three or more empty cars in order to get it where it could be loaded upon wagons. There is quite a quantity of lumber lying on track, the dealers having all the way from ten to fifty cars that as yet they are unable to get at. Arrivals by lake are not yet frequent. There have arrived since last writing one small cargo of 50,000 feet of red oak, one cargo of 200,000 of maple flooring, and another cargo of flooring of about the same size. Last season, vessels laden with hardwood began to arrive March 19, which is in marked contrast with the arrivals this season.

Several yards, owing to the car blockade, and tardy receipts by water, have very small stocks, and the stocks of all of them are considerably depleted on the same account. One yard that handles whitewood principally, has not to exceed 2,000 feet, and there is a poor prospect for getting any great amount immediately, as the roads at the mills in Tennessee are so bad that they will not admit of the cut being hauled to points of shipment. Whitewood box boards continue scarce, and there is not likely to be much of a stock for some time to come. Prices on everything continue firm, and there is no particular change in the local or shipping demand.

The furniture factories are, as a general thing, running full handed, though many of them still keep up the old complaint that they are not making much money, which, no doubt, is true, but as yet they do not think it advisable to make the necessary advance in the price of their goods. We saw a few cars of fine walnut being unloaded at one of the factories, which the proprietors said were bought in Tennessee at good round prices.

The *Northwestern Lumberman* has the following news from the drives:

According to what our correspondents tell us, the drives are for the most part making fair progress. Rain has fallen in some districts, in sufficient abundance to materially affect the depth of water available in the streams, and it may be said of a considerable number of the logging rivers in the Northwest that the drives in them are getting along better now than at any time since they started. There is very little reason for supposing that many logs will be hung up. Leaving out those streams that always hang up more or less of their stock, the probability is that the outcome will be satisfactory to all concerned. The high water may prove something of a hindrance where the logs are liable to be floated off by it into the surrounding country and left there; but this drawback is local to a few streams only, and in no wise counterbalances the advantage of an abundant supply of water. It certainly looks now as if the log crop would be got down with rather less trouble and delay than usually attends the work, and, consequently, we look for the mills to be fully stocked with logs. Most of them are sawing, and doing all they can to make up for lost time, which amounts probably to fully a month on the average. With full stocks, it is generally believed that the mills will cut as much as they did last year, the new ones added and the increased capacity of the others about offsetting the difference in the time they will probably run.

LUMBERMAN AND MANUFACTURER,
MINNEAPOLIS, MINN.

Business, which has been interrupted so long by the rigor of a hard winter, followed by devastating floods this spring, may now be said to be resumed, and the whole situation looks bright and hopeful in the West. The damages by water, though reaching millions of dollars, are scattered the whole length of the Missouri and Mississippi above Cairo, so that many hands are at work to repair losses. The principal question with lumbermen is how to secure cars upon which to ship goods. It is safe to say that there is not one-half rolling stock enough to do the business during the next six months in the country west of the Mississippi River. The manufacturing season has commenced, and the mills, with a largely increased capacity, are turning out more lumber than ever be ore. The log crop in the three States is being delivered at the mills with less labor and expense than usual, owing to the favorable condition of the rivers generally. Recent rains have relieved the few streams of Wisconsin which lacked water and all the logs are coming nicely. The news from Michigan, Eastern Wisconsin and the Lake Superior region is equally favorable. The lumber shipment at all points is limited by the supply of cars, and all leading houses are compelled to refuse orders constantly. Assortments are badly demoralized Prices are firm; the only change reported for the week is at St. Louis, where the list is changed slightly. The little break at Chicago last week excites but little attention elsewhere and will have no effect on figures in the Northwest.

THE EAST.

THE CONNECTICUT RIVER.

LOWELL, MASS., May 12, 1881.

Editor Northwestern Lumberman:

Spruce and hemlock, sawed to order, are higher this spring than last, but not as high as last fall. Common house and barn framing timber is selling at $14.50@15, delivered on cars in Lowell, Boston and Salem. Twelve-inch stuff is worth $16 to $17, and fourteen-inch stuff $17@18, according to length. In regard to the quantity of logs cut in New Hampshire, there are more than last year, and the demand is, and will be, large during the season. There was cut at the headwaters of the Connecticut River, in New Hampshire, last winter, 35,000 000 feet, and there was left over about as much, owing to low water. That makes about 70,000,000 feet that will be sawed on the Connecticut River this season, providing the logs all come down. Some 10,000,000 or 12,000,000 of this will be saved at McIndoes Falls; from 3,000,000 to 5,000,000 will be left at Bellows' Falls, Vt., to be cut up into pulp wood by the paper companies there, and the balance will go to Holyoke Hartford and New Haven. On the Merrimac River only about 3,000,000 feet of logs were cut, which mostly come here. There is probably 30,000,000 to 40,000,000 more cut in New Hampshire, to be sawed up at the mills near where they were cut.

The Boston Journal of Commerce reports as follows:

There has been a dull week in Western lumber, the weather having been extremely unfavorable for moving stock. Prices of pine are firmly maintained, and the hard woods remain in strong position The demand for eastern lumber continues to be of fair proportions in spite of the weather. Prices of spruce are not particularly strong, and it remains to be seen what effect the recent heavy rains will have on the market.

FOREIGN.

The London Timber Trade's Journal as follows:

LIVERPOOL.

We have again had a very quiet week, and complaints are rife amongst nearly all the merchants of the small amount of business doing in the country districts, and of the unprofitable nature of the transactions when an order is taken. There is no doubt of the keen competition that exists for even the smallest order, and at present buyers are having a long way the better of the sellers, for there is an evident desire to press sales and get rid of old stocks before the new import sets in. The future of this market looks unfavorable for importers, and if we have much sent here on consignment we may expect to see some prices taken that will astonish our sanguine Canadian friends. This will probably appeal to their own judgment most forcibly when the table of imports, present stock, &c., has been carefully read and thoroughly digested, and it is almost needless to point out the excessive quantities of yellow pine timber and deals, the former being nearly double the quantity held here last year, whilst the latter is more three times as large. Then in oak we have not only an excess of 100,000 cubic feet, but there is also an additional stock of 153,000 cubic feet of oak waggon scantling, making together an excess of about a quarter of a million of cubic feet; this too at a time when the railway waggon building trade (the great consumer of this wood) is in a condition as bad as has been known for many years.

From present appearances it will take some time before our market can right itself, and the only way this can be brought about is by a greatly curtailed import.

LIVERPOOL TIMBER SALES.

On Friday, the 29th inst., Messrs. Farnworth & Jardine offered by auction one cargo of St. John, N. B., spruce deals, about 20,000 Quebec pine deals, about 4,000 pieces of St. John, N. B., and Richibucto pine deals, with spruce boards, &c.

The attendance was limited to the local dealers, the country buyers, who usually form a good proportion, being conspicuous by their absence, and the competition for the spruce was of the most languid kind.

The auctioneer went through the catalogue twice, but £6 15s. being the highest bid for any lot, the entire cargo of spruce was withdrawn. A parcel of 2 in. Quebec pine deals, 1st quality, was likewise withdrawn, £15 15s. being the highest offer, but at that price two lots of 2nd quality, 3 in. wide, 9 to 12 ft. long, found buyers. For 3rd quality there was more competition, and one consignment sold readily. Per standard, 16 ft. 3x11, £9 17s. 6d.; 13 ft. 3x11, £9 12s. 6d.; 12 ft. 3x11, £9 7s 6. to £9 10s.; 9 to 12 ft. 3x7 to 10, $8 10s.; 13 to 16 ft 3x12 to 22, £10 2s. 6d.

The St. John, N. B., pine deals were withdrawn, only £6 12s. 6d. being offered for them, and £6 2s. 6. for the spruce boards, which also were taken in again.

A cargo of Halifax spruce deals, just arrived, sold at an average of £6 15s., and 800 to 900 logs of birch from same vessel at an average of 13¾d. Three cargoes of pitch pine sold as follows:—Mobile, hewn, from 14¼d. to 23½d., average 16½d.; Darien, hewn, from 13½d. to 21¾d., average 15d, nearly; Pensacola, hewn, 18¾d. to 20d., average 14¼d.; Pensacola, sawn, 15d. to 17½d., average 15¾.

METALS.—COPPER.—Ingot has not met with much demand, except on the ordinary run of jobbing orders, and, at times, the market was quite dull, with prices in one or two cases showing moderate shading. The accumulation, however, is under control, and owners not disposed to force business to any extent. Quoted at 18¾@19c. cash for Lake. Manufactured Copper in fair average demand, and ruling about steady on the list line of prices. We quote as follows: Brazier's Copper ordinary size over 16 oz. per sq. foot, 28c. per lb.; do. do. do., 16 oz. and over 12 oz. per sq. foot, 30c. per lb; do. do., 10 and 12 oz., per sq. foot, 32c. per lb.; do. do., lighter than 10 oz., per sq. foot, 34c per lb.; circles less than 84 inches in diameter, 31c. per lb.; do. 84 inches in diameter and over, 34c. per lb.; segment and pattern sheets, 31c. per lb.; locomotive fire box sheets, 28c. per lb.; Sheathing Copper, over 12 oz., per sq. foot, 26c. per lb., and Bolt Copper, 28c. per lb. IRON—Scotch Pig has found very light and uncertain sale, the demand seldom extending beyond the immediate wants of consumers. As a rule, holders made no special effort to realize upon parcels in store, but landing lots were freely offered "ex-ship" and from these buyers were enabled to secure what they desired, and frequently at a comparatively low range of cost. Nominally the quotations may be placed at $20@23 according to brand and quality. American Pig has been delivered with some freedom on contract, as the consumption is full in the execution of old orders. Very little new demand developes, however, and general business shows a decidedly slow and stupid tone. Production is in the meantime unchecked, and accumulations steadily pile up, while a feeling of distrust pervades the market. Values are for the present to a large extent made from a nominal basis. We quote at $23.50@25 00 per ton for No. 1 X foundry: $21.00@22.00 do. for No. 2 X do. do., and $19.00@20.00 do. for gray forge. Rails have not been very active, and while about former rates are quoted, the tone is a little slack, and sales in large quantity could only be made at a concession. Competition from foreign stock is having a weakening influence. Old Rails and Scrap Iron are under considerable neglect, and without any very positive value at the moment. We quote Rails at $44@46 for iron, and $60@62 for steel, according to delivery. Old Rails $26.00@28.00 per ton; Scrap, $ 7.00@29.00. Manufactured iron is selling fairly, and some of the companies report a full and steady demand. Values do not vary greatly, but the tendency is toward greater firmness. We quote Common Merchant Bar, ordinary sizes at 2 3@2.5c. from store, and Refined at 2 5@3.5c; wrought beams at 3.3. Fish plates quoted at 2¾@2¾c; track bolt and nuts, 3½@3¾c; railway spikes, 3c; tank, 3@3.1c; angle, 3c; best flange, 6c; and domestic sheet on the basis of 3½c, for common Nos. 10@16. Other descriptions at corresponding prices, with 1-10c. less on large lots from cars. LEAD.—Domestic Pig was tending upward at one time, but this checked demand, and holders afterward offered easier terms again, with the tone at the time somewhat unsettled. There appears to be a pretty full amount of stock available and most owners

willing to negotiate. We quote at about 43⅝@45⅝c, The manufactures of lead are steady and quoted: Bar. 6c.; Pipe, 6½c., and Sheet, 7c., less the usual discount to the Trade; and Tin-lined pipe, 15c.; Block Tin Pipe, 40c., on same terms. TIN—Pig has found only a moderate and uncertain outlet, with most of the offering coming from outside holders anxious to unload. For a while prices were fairly maintained, but subsequently developed considerable weakness. We quote 19¾@19⅞c. for Australian, 19¾@20c. for Straits, 19¾@20c. for English Refined, 19¾@19⅞c. for do. Common. Tin Plates have continued to move out slowly, and principally in jobbing lots, with advantages in favor of the buyer, though openly no important concessions named. We quote I. C. Charcoal, third-class assortment, $5.75@6 00 for Allaway grade, and $6 12½@6.25 for Melyn grade; I. C. Coke, $4.90@5.00 for B. V. grade; $5.12½@5.37 for Ysputty grade; Charcoal terne, $5.25@5.37½ for Allaway grade 14x20; $10.50@11 00 for do. 20x28; Coke terne, $4.87½@5.00 for Glais grade 14x20, and $10.00@10.12½ for do. 20x28—all in round lots. Spelter is somewhat lower in price and dull of sale, the movement rarely extending beyond job lots for immediate use. Quoted at 5@5½ as to brand, etc. Sheet Zinc in moderate request and steady at 7@7¼c. from store, according to quality, quantity, etc.

NAILS.—There is not much if any, decided change in the general situation of the market. On the surface a showing of steadiness is preserved, but the coating is thin, and evidences of an undercurrent of irregularity are not wanting, while the occasional claim of light stocks is weakened by the ease with which all calls are met. Demand continues moderate from all sources, and it now looks as though interior consumption would fall below most estimates. The general line of "list" rates is repeated, but are not in all cases adhered to.

We quote at 10d to 60d, common fence and sheathing per keg, $3.10@3.15; 8d and 9d, common do, per keg, $3.30@3.40; 6d and 7d, common do, per keg, $3.55@3.65; 4d and 5d, common do, per keg, $3.80@3.90; 3d and 4d, light, per keg, $4.55@4.65; 3d, fine, per keg, $5.30@5.40; 2d, per keg, $5.30@5.40.

Cut spikes, all sizes, $3.30@3.40; floor, casing and box, $3.80@4.60; finishing, $4.05@4.90.

CLINCH NAILS.

1½ inch, $5.50@5.60; 1¾ inch, $5.25@5.35; 2 inch, $5.00@5.10; 2½@2¾ inch, $4.75@4.85; 3 inch and longer, $4.50@4.65

PAINTS AND OILS.—Demand fluctuates somewhat, but, on the whole, preserves a good average total, and the market appears to be in satisfactory condition. Holders, however, offer supplies carefully, and are ready to increase the amount on full bids, but see no profit in standing off, as the tendency of consumption is now rather toward a decrease than an increase, especially of the coarser grades. On Paris Green some indications of the usual spring boom are to be observed, but aside from this, prices at the best are only barely steady, with White Lead in quite an unsettled condition. Linseed Oil is not much called for, and there appears to be quite an offering of stock, with more or less anxiety to realize on the part of holders, leading to a weak undertone. We quote at about 53@54c. for city, and 59@60c. for Calcutta from first hands.

PITCH.—Supplies offering are quite equal to current wants, but not excessive, and holders retain an advantage through which values are fully supported. We quote at $2.00@2.15 per bbl for city delivered.

SPIRITS TURPENTINE.—Some disappointment has been experienced on the jobbing market, the distribution failing to meet expectations. In a wholesale way there has been a fair amount sold, but in part under pressure two or three holders manifesting an inclination to close out stocks, causing lower rates. Latterly, however, the tone has strengthened again somewhat. As this report is closed the quotations stand at about 36½@38½c per gallon, according to the quantity of stock handled.

TAR.—Demand very fair and prices pretty well maintained on jobbing parcels. In a wholesale way, however, stocks have been somewhat neglected and cost eased off a trifle with more inclination to do business. We quote $2.50@2.75 for Newberne and Washington, and $2.50@2.87½ for Wilmington, according to size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee, they mean as follows:
1st—Q. C. is an abbreviation for Quit Claim deed i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.
2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.

NEW YORK CITY.

MAY 20, 21, 23, 24, 25, 26.

Leverich, C. C.—P. B. Leverich, adj land M. S. Strang, 43 acres. 1

MORTGAGES.

NOTE.—*The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.*

Whenever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) *means judgment for deficiency. * means not summoned. Judgments entered during the week and satisfied before day of publication do not appear in this column, but in list of Satisfied Judgments.*

CO-PARTNERSHIP NOTICES.

NOTICE IS HEREBY GIVEN THAT A LIMITED partnership has been entered into by and between Uriah Welch, Henry J. Haight and Edward C. Haight, all residing in the City of New York, pursuant to and by virtue of the Statutes of the State of New York in such case made and provided, and that the terms of such partnership are as follows:

First: The name or firm under which said partnership is to be conducted is that of URIAH WELCH.

Second: The general nature of the business intended to be transacted is the business of hotel keeping, to be carried on at the hotel, in the city of New York, now known as the St. Nicholas hotel.

Third: The name of the general partner interested therein, is Uriah Welch of the City of New York, and the names of the special partners interested therein, are Henry J Haight of the City of New York and Edward C. Haight also of the City of New York.

Fourth: The amount of capital which each special partner has contributed to the common stock is as follows: the said Henry J. Haight has contributed the sum of Ten Thousand dollars in cash, and the said Edward C. Haight has contributed the sum of Ten Thousand dollars cash.

Fifth: Said partnership is to commence on the first day of May, one thousand eight hundred and eighty-one, and is to continue until and to terminate on the first day of May, one thousand eight hundred and eighty-four.

Dated, New York, April 30, 1881.

URIAH WELCH,
HENRY J. HAIGHT,
EDWARD C. HAIGHT,

DANIEL A. SHAW.—Notice is hereby given that a limited partnership has been formed by the undersigned, pursuant to the laws of the State of New York; that the name or firm under which such partnership is to be conducted is "DANIEL A. SHAW;" that the general nature of the business intended to be transacted by such partnership is the business of marine shells and other imported merchandise on commission or otherwise; that the names of all the general and special partners interested in the said business are Daniel A. Shaw, Michael J. Dunn, and Ira Bursley; that the said Daniel A. Shaw is a general partner and his place of residence is in the City and County and State of New York; that the said Michael J. Dunn is also a general partner, and his place of residence is in the City of Brooklyn, County of Kings and State of New York; that the said Ira Bursley is a special partner and his place of residence is in the City and County and State of New York; that the amount of capital contributed by the said special partner, Ira Bursley, is the sum of Twenty thousand dollars; that the period at which the said partnership is to commence is the 5th day of May, 1881, and the period at which it will terminate is the 5th day of May, 1884.

Dated New York, May 5th, 1881.

DANIEL A. SHAW,
General Partner.
MICHAEL J. DUNN,
General Partner.
IRA BURSLEY,
Special Partner.

THIS IS TO CERTIFY THAT THE LIMITED PARTnership formed between the undersigned on the 17th day of April, 1879, pursuant to the provisions of the Revised Statutes of New York, and commencing on the said 17th day of April, 1879, and terminating on the 17th day of April, 1881, has been renewed and continued to and until and will terminate on the 17th day of April, 1884. That the name or firm under which such partnership is to be conducted is R. E. MOORE. That the general nature of the business to be transacted is the buying and selling of paintings, engravings and objects of art to the business belonging.

That the names of the general and special partners are as follows: Rufus E. Moore, who resides in the City of New York, is the general partner, and James F. Sutton, who resides in the City of New York, is the special partner. That the said James F. Sutton has contributed the sum of Twenty Thousand Dollars to the common stock.

Dated this 23d day of April, 1881.

R. E. MOORE,
JAS. F. SUTTON.

THIS IS TO CERTIFY, THAT THE SUBSCRIBERS have formed a Limited Partnership, pursuant to the provisions of Title one, Chapter four, Part two of the Revised Statutes of the State of New York, and of the several Acts amendatory thereof for the transaction of lawful business within the State of New York, to be conducted under the name or firm of KEMEYS & BABCOCK; the general nature of the business intended to be transacted is a General Commission Business, including the buying and selling of stocks, bonds, gold, securities, bills of exchange and commercial paper, exclusively on commission, in the City of New York; the names of all the general and special partners interested therein and their respective places of residence are as follows: general partners, Edward Kemeys and Henry D. Babcock, both of the City of New York; special partners, George G. Haven and Samuel D. Babcock, both of the said City of New York; the amount of capital which said special partners have contributed to the common stock is two hundred thousand dollars, in cash, namely: one hundred thousand dollars by said George G. Haven and one hundred thousand dollars by said Samuel D. Babcock; the partnership is to commence on the second day of May, one thousand eight hundred and eighty-one, and will terminate on the thirtieth day of April, one thousand eight hundred and eighty-four.

EDWARD KEMEYS, } General Partners.

CO-PARTNERSHIP NOTICES.

CERTIFICATE OF LIMITED PARTNERSHIP.—We, whose names are subscribed hereto, desiring to form a limited partnership pursuant to the laws of the State of New York, hereby agree and certify as follows:

First. The name or firm under which such partnership is to be conducted is FAHNESTOCK & COMPANY.

Second. The general nature of the business intended to be transacted is that of brokers and dealers in stocks, bonds and other evidences of value.

Third. The names of all the general and special partners interested in said business are as follows, to wit: The general partners are William Fahnestock and Joseph T. Brown, who both reside in the City and County of New York.

The special partner is Harris C. Fahnestock, who resides in the City and County of New York.

Fourth. The amount of capital which the special partner has contributed to the common stock is fifty thousand dollars.

Fifth. The period at which said partnership is to commence is May 10, 1881, and the period at which it will terminate is May 1st, 1882.

Witness our hands and seals this tenth day of May, 1881.

WM. FAHNESTOCK, [L. S.]
JOS. T. BROWN, [L. S.]
H. C. FAHNESTOCK, [L. S.]

In presence of

HEERMANCE, DICKINSON & CO.—CERTIFICATE of limited partnership between G. Hilton Scribner and William L. Heermance, of Yonkers, Westchester County, State of New York, and Henry A. Dickinson, of the City of New York.

This is to certify that the undersigned have formed a limited partnership, pursuant to the provisions of the Revised Statutes of the State of New York.

1. That the name or firm under which said partnership is to be conducted is HEERMANCE, DICKINSON & CO.

2. That the general nature of the business to be transacted, is the dealing on commission in provisions and staple produce, and of storing and warehousing such goods, and other goods, for hire.

3. That the names of the general and special partners are as follows: William L. Heermance, who resides at Yonkers, Westchester County, State of New York, and Henry A. Dickinson, who resides at the City of New York, are the general partners, and G. Hilton Scribner, who resides at Yonkers, Westchester County, State of New York, is the special partner.

4. That the amount of capital which the said special partner has contributed to the common stock is the sum of twenty-five thousand dollars ($25,000.)

5. That the said partnership is to commence on the 21st day of May, 1881, and is to terminate on the 21st day of May, 1883.

Dated New York, May 21st, 1881.

(Signed), WILLIAM L. HEERMANCE.
(Signed), HENRY A. DICKINSON.
(Signed), G. HILTON SCRIBNER.

City and County of New York, s. s:

On this 21st day of May, 1881, before me personally appeared William L. Heermance, Henry A. Dickinson and G. Hilton Scribner, known to me, and to me known to be the individuals described in, and who executed the foregoing certificate, and severally acknowledged that they executed the same.

Communications should be addressed to

C. W. SWEET, 137 Broadway.

J. T. LINDSEY, Business Manager.

The prosperity of the times is shown by the large demand for skilled labor. We hear that some architects and builders have come to a stop, due to the scarcity of workmen in certain branches and to the fear of advancing prices. Many builders are annoyed by the tactics of their workmen. The latter find out when a loan has been effected and a lien made against the property, and they make a demand for higher wages. The builder is forced to submit or he cannot get his money. But then, in addition, there is a scarcity of really good workmen, and this is true of all the trades in the country. When the telegraph lines were consolidated, a number of telegraph operators were thrown out of employment. So great is the increase of business, that not only have they all been re-employed, but there is an actual scarcity of good, trained telegraphers. The trades unions are not making much headway, but there is an advance in prices along the whole line. This in time will react favorably to the real estate interest. It is the laboring class after all who do the spending and who occupy most of the houses. Increased wages mean increased rents and a more active demand for houses. The real estate interest levies tribute on the entire working class, and the higher the wages the greater the tax in the way of rent.

Mr. Samuel R. Filley's statements anent the improvements going on in the Twenty-third and Twenty-fourth wards will attract attention. It seems the rapid transit company has nearly got through its preliminary work of securing title and the building of the bridge over the Harlem River at Second avenue may be commenced any day. Work on the road itself, once it has properly begun, will probably be finished much earlier than the public anticipate. The eleven miles of road will be substantially built, and we are promised real rapid transit; no such slow performances as we have had on the elevated roads. The tracks will be run under and over the streets. Iron pillars will not be used, and the underground track will be laid upon an open cut. Mr. Filley is of the impression that the central and eastern portion of these wards will be the home of working people. Whatever malaria there may be in this region is due to the damming up of the natural water courses. When these are re-opened, as they soon will be under the drainage act, the Twenty-third and Twenty-fourth wards will be as free from foul air diseases as any part of the paved portion of New York City.

It is surprising that the Riverside Drive is not more frequented by carriages. The river views are superb just now. Shade, however, s needed. and property holders would do well to urge the Commissioners to plant large and rapidly growing trees, so as to give the needed shade on hot summer days. When the Morningside Park and drive is completed so that carriages can be driven directly from the Central Park past Morningside and up One hundred and twenty-second street, the Riverside will be much more frequented, especially in the early morning and on cool summer evenings. Some riding schools advise their pupils to take the Riverside for their early morning rides, as it is well shaded during the early part of the day.

The Park Commissioners should widen the roadway just east of the reservoir in the Central Park. The throng of carriages between four and five in the afternoon is excessive, and on holidays, like that of last Monday, the delays are annoying. This roadway has been widened once and should be again. The original constructors of the Park never realized how great a throng of carriages and vehicles of all kinds would be driven through this portion of the Park

The interview with A. B. Mullett, published elsewhere, contains several points of interest. That gentleman believes that New York is destined to be a city of very large houses. He thinks that down town will, in time, be filled with immense structures, twelve and fourteen stories high, and that magnificent suites of rooms in them will be occupied by merchants and others, who will dispense with large warehouses and stores, and transact their business, as merchants do in London, by means of samples. There may be something in this. Why should not many of our wholesale houses sell by sample, and telegraph to the factories or distant warehouses to ship the goods direct to the customer? There seems to be no doubt that steel will hereafter be used very extensively in the construction of large edifices, and that, taking into consideration its lightness and strength, it is really cheaper than iron. Mr. Mullett believes in an underground railroad on Broadway, and says he constructed the Post-Office with its foundations on the water line, so that the mails could be delivered directly to and from the cars of an underground road into the basement of the Post-Office. He is of opinion that the underground road should communicate with a tunnel under the North River, which should be constructed from the Jersey shore to the Battery, and that the commerce of this port demands an elevated road running round the city on the East and North rivers, the tracks being laid upon the tops of warehouses, so that freight could be taken from or deposited directly into the vessels engaged in our foreign trade. This, if practicable, would certainly save drayage and waste, and place New York in the front rank of the commercial cities of the world.

The reduction of the rate of interest on Government bonds from 5 and 6 to 3½ per cent. is affecting very seriously the incomes of insurance companies and banks. Governments were and are likely to be the favorite investment for large incorporated companies. But doubtless an effort will be made in the Legislature of next winter to permit the permanent holding of stocks and bonds which are secure but pay better interest than the evidences of debt of the United States. The reduction of interest will also be a serious matter to tens of thousands of widows and orphans who have been dependent for a living on the returns of Government investments which yielded from 5 to 6 per cent. It will force many people to go into business who had thought they had left it for good, and will much reduce the number of our idle class.

OUR ELEVATED ROADS AGAIN.

We have never believed that the Manhattan lease of the elevated road system would finally lapse, even though there should be a default in the payment to the leased lines on July 1. The Manhattan scheme was an excellent one for utilizing to the full our elevated road system. Messrs. Field, Navarro and Garrison made a great deal of money out of it, but the investing public lost heavily, and in equity, if not in law, Field and his associates are morally responsible for pecuniary injury done to innocent investors. But because the present innocent holders of Manhattan and elevated road stock have so far lost money by the manipulations of conscienceless stock operators, that is no reason why the public should complain of the roads, or that the city should unjustly tax them. The assessment is outrageous, especially so in view of the immense benefit the elevated roads have been to New York, and the increased value they have given to low-taxed city property. Up to this time the press has very faithfully reflected the public feeling in abusing the elevated roads. But there is a sober second thought abroad, as is shown by the following extract from the *Tribune:*

> The elevated roads have found an alternative to the threatened bankruptcy—but the remedy will be worse to the public than the disease. The company proposes to pay the annual tax of $762,000 which has been imposed, and to earn the money by increasing the current rates of fare—diminishing the daily five-cent hours from six to four, and charging for a ride to Harlem River eight cents instead of five in the "commission hours," and seventeen instead of ten the rest of the time. This the company is allowed by its charter to do, and this, it estimates, will earn nearly enough to pay the taxes, which are 16 per cent. of the gross receipts, and which they regard as exorbitant and unjust. The remedy is an unpleasant one, and it ought to be avoided if possible. The elevated roads, if not all our fancy painted them, are a convenience and a benefit whose value is not likely to be overestimated. If their taxes are, as alleged, greater than that of any other piece of property in the city or any manufacturing establishment anywhere, there ought to be some means by which an equitable readjustment can be reached, without directly transferring the burden to the poorest class of travellers—the early and late workers.

It is to be hoped that the companies will not be forced to increase the morning and

evening fares, or to diminish the commission hours. But there ought to be some reorganization of the Manhattan directory. The manipulators of the stock have managed to enrich themselves, and have skillfully avoided personal responsibility by getting up a hue and cry against the roads, so as to save themselves. It would be no harm were the Manhattan to default in July; then a receiver would be appointed, and the road re-organized.

Who can doubt but what there is a magnificent future before the elevated road system. Within a few years there will be tributary to it the suburban rapid transit systems north of the Harlem. Already is the Metropolitan a link in a new way of reaching Boston. Depots have already been purchased, and are fitted up in Ninth avenue and Fifty-third street for freight and passenger stations for the New York & Northern Railway. When the excessive taxation is reduced, and the 10 per cent. lease scaled, the elevated road system will be extended on this island and the stock be more profitable than that of the horse-car companies which it will replace.

NEW YORK AND CHICAGO TO THE FRONT.

Undoubtedly St. Louis and New Orleans, with the help of Jay Gould, are trying to divert the great traffic down the Mississippi on its way to Europe. Should this movement have any success, it would be a serious matter for New York, which would loose not only the profits on handling grain at this port, but the dividends on the stock of the railroads which now bring food products from the West. In that case New York realty would suffer and the progress of our city would be retarded to the advantage of New Orleans and St. Louis.

There are two objections to the Mississippi route. One is the loss of time and extra insurance in sending grain to Europe by the way of New Orleans, and the other is the impossibility of getting return cargoes in the vessels engaged in the grain trade. A convention is shortly to meet in Davenport, Ia., which may have important results. It is called in the interest of Chicago, which wishes to deepen and widen the canal which now connects the Mississippi with the lakes at Chicago. Of course the retention of trade by Chicago involves the use of the railroads between New York and that city for the transport of grain. While the Chicago people are agitating for an improvement in the canal which connects her with the Mississippi, New York is taking the tolls off of its canal and is building and opening a number of extra lines to Chicago. The Seney line, so called, is duplicating the track of the Lake Shore road from Chicago to Buffalo. To that point from the east there are now three lines under way, the Lackawanna extension from Binghamton, the West Shore & Western, which is a practical duplication of the Central road, the connection with New York being at the west side instead of at the east side of the Hudson. This new line will commence at Weehawken and is already built to Haverstraw. It is now cutting a tunnel through West Point, and will continue up to Athens, from which point it will run west to Schenectady and on through all the principal towns on the line of the New York Central road, except Rochester, until it finally reaches Buffalo. It will run on the south side of the Erie Canal. Then, the Continental Construction Company has commenced the building of another parallel road north of the Erie Canal. This will be in the interest of Boston capitalists, who expect to use the Hoosac Tunnel for their new line.

Nor is this all. The Ontario & Western is rebuilding its road to Oswego, at which point it will receive the grain which comes through the Welland Canal, soon to be opened. So as to make assurance doubly sure, the O. & W. will also have a western railway connection by way of the south shore of Lake Ontario. It will thus be seen that New York is vastly increasing the facilities for handling the traffic of the West. It is difficult to see how all these enterprises can pay; but whether they pay or not, they are tributary to the metropolis. Hence we do not think that the competition of either New Orleans or Montreal is likely to take away from New York the vast trade of the west and northwest.

ABOUT MINING STOCKS.

We have paid attention to mining stocks in these columns because it is easy to foresee that investors will be urged to take shares in this or that enterprise and that the market in New York is destined to be a very large one. James R. Keene is credited with saying that mining will be as important an interest as any dealt in on our New York exchanges. In other words, he believes the speculative public will take their "flyers" in mining stocks as regularly as they now do in the stock market, and that seats in the Mining Board may prove as valuable as those in the regular Stock Exchange. Be that as it may, it is certain that New York hereafter is to be the great mining centre, not San Francisco.

Foreseeing the growth of this interest, we have paid some attention to mining matters for nearly a year and a half. Our readers will bear witness to the care we have taken to warn them against doubtful properties. We have really tried to tell the truth so far as we could find out; in other words, to be in the interest of the investors and not of the mine owners. With the exception of one other publication, this is the ouly paper which criticises mine management and mine operators. Those who have followed the advice of this paper in abstaining from certain mining stocks have saved their money.

And here it may be as well to say that investments in mining property are not to be commended. Nine persons in ten who invest in mining securities will lose their money or suffer heavy losses. Our warning would be, never buy a share in mining property. There is an inside ring which can profit by marketing mines, but the buyer of the so-called securities is always the victim. It is true that people who have bought Homestake, Ontario, Standard, have made some money, but the end is not yet. In the various deals with other stocks the first in and the first out may have escaped with a whole skin. But, as we have said, nine persons out of ten who have dealt with brokers of mining boards have lost money. These, however, suffer for the profit of other people and of the country. The other people are the sellers of the mines, and the country is benefitted when investors attempt to develop the mineral regions of the nation. The gold and silver production of to-day is something less than $80,000,000 per annum. It will not be many years before this production is quadrupled. We have a territory, population and a railway system to utilize our great mineral possessions, and hence the growth of interest in mining matters and the necessity for some journal which is pledged to tell the truth about mining matters, without reference to its advertising columns.

SOME DISTRICTS.

Strangers who have visited the city since the 1st of May, are fairly amazed at the amount of building and repairing which is taking place all over the city. Every street and avenue and all sections, bear witness to the extraordinary activity in housebuilding and altering. In some of the older sections, it is as marked as in any of the newer quarters of New York. Take Grand street, from the Bowery to the East River. One would scarcely look for improvement in a business street surrounded by an East Side population. But the general testimony is that the sales in the stores in Grand street have increased in value during the past two years. The need of better and larger stores is admitted and as a consequence, on the corners of several streets, old stores are being pulled down, to be replaced by improved dwellings and stores. Here, as in other parts of the city, the tendency to large houses is made manifest. The ground floors and cellars are occupied by stores and the upper parts of the dwelling are rented out in flats.

But another very busy district is that west of Broadway and north of Canal street. In this quarter of the city, the old Eighth ward of New York, will be located many manufacturers and not a few miscellaneous wholesale establishments. But all through Mercer, Greene, Wooster and Thompson stretching back almost to Eighth avenue, will be found evidences of an impending change. This was once a choice residence portion of New York, it was the home of the well-to-do middle class; but when they became rich and moved further up town, a poorer class of tenants occupied the houses and some of the streets, like Mercer and Greene, became noted for the number of questionable houses they contained. But commerce is the great extinguisher of depraved sections of this city, as is shown by the history of Leonard, Church and Mercer streets, and the same is partially true of the old Five Points. But the places that knew the viler portion of our population in the Fifth and Eighth wards, will soon kn w them no more.

New York should take warning by Buffalo. The grape sugar works are to be removed from that city to Des Moines, Iowa, because the Common Council of Buffalo fixed the water rates at a figure which would cost the company $42,000 a year. For the sake of having the works in Des Moines, the Common Council have agreed to charge nothing for the water. Coal is cheaper there, as is also corn, large items in the manufacture of grape sugar. A large starch factory has also been removed from Buffalo to Des Moines. It is not wise to make a city too costly to live and do business in. Great centres of trade should be free from imposts and exactions, such for instance as the scheme to tax brokers' sales here in New York. Buffalo has a great future. Any point where coal and iron can be brought together the most economically, is destined to be a great manufacturing point,

Pittsburg is such a point, so is Buffalo, Cleveland and St. Louis. But Buffalo cannot afford to drive away extensive manufacturing industries by heavy charges for municipal conveniences.

THE SITUATION ON THE WEST SIDE.

There is no mistake but that the West Side is beginning to look up. It has been a disappointment in the past to investors, but the time cannot be distant when activity will prevail in the entire region west of the park and north of Sixtieth street. The order of the improvements will probably be somewhat in this fashion:

I. The erection of rows of houses between Eighth and Ninth avenues, just above sixty-fifth street.

II. Pretty rapid building along the Tenth avenue, and on the side streets which lead to it.

III. The erection of stores and tenements on Ninth avenue, to accommodate the retail business of the population which have settled on each side of it.

IV. The building up of the country just north of the Central Park, caused by an overflow from the East Side. (The erection of brown stone houses in One Hundred and Fifty-third street, near Tenth avenue, may be the beginning of a building movement in that quarter.) When improvements are once under way, there will be house building down from Bloomingdale, as well as up from Fifty-eighth street, on the West Side.

V. Eighth avenue, the Boulevard and Riverside drive are not likely to be improved to any great extent until after the other and cheaper sections of the West Side are pretty well built up. Many shrewd real estate operators are still of opinion that the high-priced lots of the future are on these three avenues. But their time has not yet come, and they are likely to be neglected for some time.

The key to the building situation is the West Side elevated road. The new dwellings will naturally cluster about the depots, but builders will avoid, for the present, the streets over which the road runs.

THE FINANCIAL OUTLOOK.

The bears are beginning to growl again. They say that the bulls have not anything new to offer; that the immigration has been discounted in prices; that the refunding operations of the government are over; that cheap money as often means low as high quotations. In short, that the boom is over, and that we should naturally look for a lower range of values. It is further said that the big people are out of the market, and will do all they can to get prices lower before another rise takes place. It is admitted we may have a June boom, but this will not come until near the 1st of July, when so much speculative money is to be re-invested.

But whatever may be the immediate complexion of the market, everyone admits that between now and August the quotations will be higher than were ever known to the street. All who can carry stocks, and have good, wide margins, are quite safe in holding on. But there is no sign in the skies which indicates a crash, a panic or a heavy break in the market. But people should discriminate. There are lots of trashy things quoted at high figures, which are sure to hurt all those who hold them when pay day comes. Bonds are offered from all over the country, for all kinds of questionable railway enterprises. Investors should stick to the known and approved stocks, and they cannot be mistaken in the long run.

What sustains this market more than anything else is the incessant foreign buying. All the bankers engaged in the business, report large orders from abroad. Every decline here, induces fresh buying there. Nothing but a foreign war will prevent the steady absorption of good, dividend paying American securities by foreign investors.

The one disturbing question relates to the crops. We have had an unfavorable season so far, but the crops may turn out all right. Still, if any doubt exists, it will affect prices, and the bears will be very busy from this time forth in spreading all manner of unsatisfactory reports.

So far the advance in prices has been confined entirely to the Stock Exchange. There are reasons why there should not be any extraordinary speculation in the ordinary exchanges of commerce. It is well for the country that productions are cheap, but this cannot long continue. Nothing is more certain than that realty will show as marked an advance as have stocks. It is the wise investor who buys to-day when houses and lands are cheap, to resell, if he wishes, in the future, when the mass of ordinary speculators will be eager to give a profit to the purchasers of to-day.

The new street cleaning law has been published and we have given it a careful examination. If the right man is appointed, we think it will work well, because responsibility is fixed. If the streets are not cleaned, the Commissioner will be at fault and if he is not removed, the Mayor can be held to account. Lieutenant Gorringe and John D. Crimmins have each been offered the Commissionership and both have refused. We believe Mayor Grace will find a fit man and that the city will soon be put in a cleanly condition. It is but fair not to prejudge the operation of the new law. Should we really secure clean streets, one of the reproaches against the metropolis, as well as against republican institutions, will no longer have any force.

The strength of the market on Wednesday and Thursday was a real surprise to the leading operators in the street. They had made up their minds that the snap was temporarily out of the market, and that prices would go off. Nine out of ten of all the leading bankers held to that view, and the board itself was decidedly bearish. Every one believes in very high prices during the summer, but the large operators hoped for a break in order to again load up with stocks. But the break did not come, the public having apparently run away with the market. This is very apt to happen in bull times; what principally sustains is the heavy foreign demand. The desire of the old Government creditors to get a higher rate of interest than three per cent. is steadily enhancing the values of high priced stocks. As these diminish in investment value, the old holders buy the second-class stocks, and so the whole line advances. Another element in adding to values is the consolidations which are constantly going on. Every new combination adds to the market without reference to intrinsic value. Prices seem extravagant compared with what was obtained three years since, but the prevalent theory is that anything which pays over four per cent. will be considered cheap at par. During the week Lake Shore has been the leader of the market. The time is coming when Erie may again come to the front in its old place of furnishing the key-note for prices. The most notable thing in connection with this matter is that the great advance in prices is as yet confined to the Stock Exchange.

ACROSS THE HARLEM RIVER.

RAPID TRANSIT IN SIGHT—WORK SOON TO BE COMMENCED—ABOUT DRAINAGE IN THE 23D AND 24TH WARDS.

Mr. Samuel R. Filley, President of the Suburban Rapid Transit Company, was asked by a writer connected with this paper how matters were getting on in the Twenty-third and Twenty-fourth wards. Mr. Filley thereupon communicated some information of no little value to those interested in the prosperity of the two upper wards. His labors as Rapid Transit Commissioner and President of the Suburban Roads, as well as his large property interests, have made him thoroughly familiar, not only with the present condition, but with the probable future prospects of the Twenty-third and Twenty-fourth wards. What follows is an imperfect summary of what was communicated to the writer.

In Mr. Filley's opinion the district north of the Harlem River is destined to be the home of our working people. The census revelations demonstrated the fact that 80 per cent. of our population dwelt in tenement houses, a tenement house being defined as a dwelling in which four or more families lived. So far builders catered more especially for the patronage of the 20 per cent. rather than the 80 per cent. of our population. The time has come, in Mr. Filley's opinion, when cheap and wholesome houses should be erected in the region north of the Harlem River, for the use of the laboring classes. These people are now packed in unwholesome tenement houses or driven across the rivers to seek homes on Long Island or in Jersey. Nature made the district to the north of us perfectly wholesome. The lowest land is twenty feet above tidewater, and, had the brooks and streams which found their way into the Harlem and the Sound not been obstructed by so-called improvements which derange the natural drainage, there would not be a more wholesome district in the country. But it is possible in two years' time to thoroughly drain this region and make it unequalled for healthfulness by any location near New York City. The Central Park Commissioners are making the necessary draining maps, which have been lodged with the Corporation Attorney. Three of them are ready to go on with at once. These are known as the Millbrook Valley, the George street and the Monterey and Walker swamps districts. The work is not done, however, because the politicians wish to make a job of it. The compensation fixed by law does not suit them and they have a bill before the legislature to get more money out of this business of making the annexed district wholesome. The Park Commissioners will soon have all their drainage maps finished. The work of opening the drains would not cost much and could be completed within a short time were it at once undertaken.

Mr. Filley here produced a number of maps, showing the work that was being done on the suburban roads. The law requires that the property shall be fully described before the engineers enter upon their labors. Negotiations are now underway for acquiring title to the lands over which the track is to be built. Indeed, nearly all the preliminary work has been accomplished and nothing of importance remains to do except to build the Second avenue bridge and break ground for the construction of the railway. The New Haven road will probably be associated with the suburban rapid transit road, in construction of the bridge.

"Will the structure be of iron, so as to correspond with the elevated roads?"

"We will not use iron," replied Mr. Filley. "We doubt whether iron will prove economical for the elevated roads in the long run. Rapid transit is impossible on an iron bridge. The suburban rapid transit will not only be an elevated road, it will run partly on the surface and not a little of the way underground. But the underground portion will be an open cut; no dark holes will be tolerated. The elevated portion of the track may be constructed of yellow pine, prepared in a certain way which will make it last much longer than any iron structure. We ex-

pect to run our trains as rapidly as they do on any road in the country. I doubt if we ever can expect really quick travel over the elevated or Metropolitan roads. It is under advice, we understand, to so alter the Second avenue road, that through trains can be run from the Harlem River to the South Ferry."

"Is there much speculation along the line of the proposed roads?"

"I am glad to say," said Mr. Filley, "that there is not. The man who buys, to hold for higher prices, is a direct detriment to the district. What we want are builders and capitalists who wish to invest their money to immediately improve their possessions. This will populate the district, give business to our roads and directly benefit the community. But people who buy for an investment, without any intention of improving—well—in fact, we have enough of that kind already among the old property holders. There are altogether too many "land poor" people now in the Twenty-third and Twenty-fourth Wards. There are men who own acres, who should be content with lots, and persons with large plots of ground which they carry with difficulty. It is this class which is fighting improvement. They resist every attempt made to open streets. I have reason to believe that a great deal of building would be going on if the ordinary local improvements were completed, that is, streets opened, sewers built and the new avenues curbed and guttered."

"Ex-Senator Cauldwell told me," said the writer, "that the opposition to improvements was partly due to the magnificent charges of the new street opening commissioners. Before the district was annexed to New York the cost of this work would be trifling; but under city rule five and six hundred dollars is exacted where formerly fifteen or twenty was all that was required."

"Whatever the reason," said Mr. Filley, "the old property holders put every obstacle in the way of local improvements. This district ought to have the advantage of a great deal of light manufacturing business. Its location is better than Newark, on account of its direct access to New York both by rail and water."

Mr. Filley was also of opinion that the one location for the World's Fair was on the land lying between Fleetwood Park and the new bridge over the Eighth avenue. This included over 400 acres of land, splendidly located, and it was owned by three persons, of which Mr. Astor was one, and the largest. This particular piece of ground was the real centre of all the railroads, as well as the terminus of the horse car and elevated road systems.

THE PRODUCE EXCHANGE.

It is said that the value of the real estate purchased is in the neighborhood of $670,000. The building will be 300 feet in the front and rear, 150 feet deep and 110 feet high. It is to be built in the modified Rennaisance style. It will be constructed of brick, stone, iron and terra-cotta. The lower story, and the floor above the Exchange floor, are to be used for office and revenue purposes. It will be fireproof throughout, and 50 to 65 feet high. The stair and elevator accommodations will be ample, and special care will be taken with heating and ventilating. In the rear of the building is to be a private court extending from Stone street to Marketfield street, and a public street will run through from Marketfield to Beaver street. It is thought the whole cost will exceed $1,000,000, exclusive of the land. The northeast section of the ground floor is already rented to the Maritime Exchange, and the Pennsylvania Railroad Company will occupy the northwest section on the same floor. The old building is to be speedily demolished. G. B. Post is the architect, and it is confidently expected that the mammoth structure will be finished May 1, 1882.

Messrs. Spielman & Brush, the well-known civil engineers of Hoboken, N. J., deserve much credit for the excellent manner in which they are publishing the New York City maps, as copyrighted by them. The firm expect to deliver the entire sixty-three numbers in six months instead of twelve, as originally intended.

NEW YORK'S FUTURE.

WHAT A. B. MULLETT, LATE UNITED STATES SUPERVISING ARCHITECT, HAS TO SAY ABOUT THE BUILDING PROSPECTS OF THIS CITY.

AN ERA OF BIG BUILDINGS PROMISED.

The joint firms of Mullett & Kafka, architects, and Steinmetz & Hill, civil engineers, occupy very fine rooms in the new building, 234 Broadway, where a representative of THE REAL ESTATE RECORD paid his respects to them during the past week. This firm will be able not only to design large buildings, but will, when called upon, construct underground or elevated railways, warehouses as well as private residences, and design, if need be, the interior decorations.

All the members of the firm were present when the writer called, and in what follows, the ideas, rather than the exact words of the conversation which ensued, are given.

"So you are again at work, Mr. Mullett?" said the writer.

"Yes," was the response. "I am not happy out of my profession, and I think there is a fine chance to do excellent work in New York City. I do not believe people generally realize the splendid future of New York. I look for the almost entire rebuilding of the lower part of New York. That portion from the post-office down will probably be immense structures, ten, twelve, and even fourteen stories high."

"But," urged the writer, "some of us think that there are already too many offices down town, and that when the new buildings under way will be completed the supply will exceed the demand."

"I differ from those who think so," said Mr. Mullett. "According to my idea the lower part of this island will be to the upper portion of the city what the city of London is to the rest of the metropolis of Great Britain. I think the wholesale business of the country will be largely represented in suites of spacious rooms, which will be supplied by the buildings yet to be erected. The merchant will not care to have his goods immediately on hand; he will sell by sample, and will telegraph or telephone the orders to his factory or warehouse. In London they do not have great bales of goods in vast storehouses, in which the customer purchases; what the latter requires are the samples of the goods."

"In what respect," asked the writer, "will these newer buildings differ from the older ones?"

"In the greater use of iron, or, rather of steel," replied Mr. Hill. "It is not generally known, but steel is really a more economical material to use in the construction of buildings than iron. Being stronger, less of it can be used, and forty-five tons of steel can be made to do the same service as 100 tons of iron. Its economy in floors, staircases, roofs, and the like, is very great, because it is stronger and lighter than iron.

Writer—"Then you would have all fire-proof buildings?"

"I would not say fire-proof," said Mr. Mullett, "but incombustible buildings. Those terms are not identical, though they are generally used as such. An incombustible building is one from which a fire cannot originate, but which may be injured, or even destroyed, from a conflagation in an adjoining building. A fire-proof building is one which cannot be injured from fire, either within or from without. But, if all buildings in a certain part of the city were non-combustible, the district in which they were situated would be practically fire-proof, and that is what the immense wealth of New York imperatively demands."

"What other tendencies do you observe in building in New York besides the erection of twelve and fourteen story edifices?"

"Well, there is a tendency toward a specialization of business. One part of the city will be given over to dry goods, another to wholesale clothing, a third to insurance companies. Real estate agents will cluster in one quarter and mining brokers in another; but I think the people who do a wholesale business of a character that can be transacted by samples, as well as merchants, lawyers, bankers and brokers, will find it to their advantage to occupy a portion of the city below the City Hall Park. While concentration will be the rule in the business part of the city, population will be more and more diffused in the new residence districts."

"Do I understand you then that great family hotels or Paris flats will not be popular?"

"Why, of course they will," responded Mr. Kafka, "and the largest of them have not yet by any means been built. I think the very rich will occupy detached villa dwellings of which we probably have seen the first in those just constructed for the Vanderbilt family. In a few years you will see villas with grounds in all that region west and north of the Central Park. But those who cannot afford a very fine private house will prefer to live in these magnificent flats. They save labor to the women in the family and are, or ought to be, economical to live in, and the introduction of steam for cooking and heating and the electric light will make them more popular than ever."

"What other marked changes do you expect to see in New York?"

Here Mr. Steinmetz interposed and said: "An elevated road all along the exterior line of the city on the top of warehouses. We must abolish the heavy cost of drayage through New York, and furnish greater facilities for its shipping, or it will inevitably lose a large amount of trade. Then, too, I believe that New York will yet have an underground road."

"Would not that be smoky and unsavory like the London underground road?"

"Certainly not. The electric light would make it as bright as day, and the compressed air motor engines would not only be smokeless, but more economical than if steam or fire were used. I am assured that an 18-ton compressed air motor engine has been constructed in Philadelphia, that is a great success. I believe they will in time supersede steam engines on certain kinds of railways, and have no doubt but that the elevated roads will soon be forced to adopt them."

"Yes," continued Mr. Mullett, "there is another improvement which seems very likely to take place. Some day or other a tunnel will be built from the Jersey side to connect with the Battery, and the great bulk of freight to and from New York, will reach New York by that medium. The tunnel now building is all well enough in its way, but I'm afraid its beginning on the Jersey shore and its terminus on the New York side are not happily chosen. I started the construction of the New York Post Office at the water line, with a view to the delivery of the mails directly from the through cars, and I hope to live to see the time when the mails will be so delivered. The elevated road system is at present a great convenience, but is dangerous, as are all bridges. There is a liability to a great accident at any time. From its construction constant deaths are occurring which could not take place in an underground road, and I am confident an undergronnd road will be constructed from the Battery to Highbridge, which will have a tunnel connection under the North River with the railways which centre at that point. I believe New York has a magnificent future. It will be as populous as London, as luxurious as Paris, and from this time forth it will be noted for the magnificent and spacious edifices which will be constructed for the benefit of its business and residence popution, and be, in fact, the metropolis of the world."

Preparations are already being made for a special exhibition of building materials, raw and manufactured, to be held in Boston during the months of September and October of the present year.

This exhibition will be held in connection with the triennial fair of the Massachusetts Charitable Mechanic Association; but will be distinct and separate from it. Some thirty thousand square feet of flooring have been allotted to this depart-

ment, and from present indications it will be crowded with objects of great interest to all connected with building interests. A similar exhibition recently held in London was extremely successful, and it is fair to presume that an American one will be equally so. To the Boston Society of Architects, belongs the credit for this special exhibition.

The advantages of having building materials classified and grouped under distinct heads can not be overestimated. Exhibitors will find it a great advantage to have their goods so arranged, as to attract the notice of those they desire to interest; while builders will not be compelled to hunt for what they wish to see.

MINING INFORMATION.

From the first we warned operators from dealing in the State Line mines. The people who manipulated them on this market are Californians, who ought long since to have been earning their living in the penitentiary. They have already swindled the New York public in Chrysolite and other stock gambles. It is understood that many brokers in both mining boards have been badly injured by the breaks in these stocks. It serves them right. They knew the antecedents of the principal manipulators, and they should have warned their customers against having anything to do with the State Line stocks. The *Engineering and Mining Journal* has an able article about these so-called mines. It shows what a preposterous speculation the whole thing is. Over $9,090,000 was the market price of a series of stocks which would be dear at $100,000.

It is quite true that large quantities of Silver Cliff mining stock have been sent to the London market. It may not be the policy of the management to let the stock go up here until a sufficient amount is marketed to give the English purchasers a profit when the time to boom the securities arrives. Silver Cliff is a splendid mine, and the new mill is an undeniable success. Should James R. Keene, who is the principal owner, succeed with this mine on both sides of the Atlantic, and make it a good dividend-paying security, he can make untold millions by promoting other good mining properties. It is clerly his interest to make a good reputation. He is reported to have said recently that he was one of the first to lead the railway boom, which is true, and that he, in time, would make mining stocks as active in New York as railway stocks now are.

Calaveras seems to be all right. Our private information is to the effect that the property is a valuable one, both for its gravel beds and water privileges, and, with the $80,000 required of the stockholders, it ought to pay handsomely in the course of a couple of years. The past manipulation of the old stock of this company was disgraceful. Everything now depends upon the personal integrity of the principal owner. If he deals justly by the shareholders, an interest in the Calaveras Company will be worth having

A correspondent wishes to know about a certain Mexican mining syndicate whieh is now being very extensively advertised. We have no special information respecting the mines in the possession of this syndicate. The promoters, whose names are given, are evidently a very mixed lot. There are some good men among them, and some who are anything but good. Indeed, two or three very notorious names turn up and the whole list looks fishy. As a general thing, mines in other countries than the United States should be avoided. There is enough difficulty in looking after such properties in our own country without subjecting oneself to the losses and annoyances of mining in a country where the government cannot protect you. Some day we will annex Sonora and then we can develop its resources; but there is a large mineral region in the United States to pay handsomely for development, quite as well as any mines in Northern Mexico. There is no guuarantee of good management in a cumbrous syndicate such as that advertised. The chances are against it being efficiently and honestly managed.

The Smuggler suit has been decided against the Iron Silver Company. It involves other legal claims which may injure that fine property. Mr. Stevens could have compromised the claim for a small sum, but he is a fighter and has lost his case, and worse than that, the Smuggler is developed into a fine property since the litigation has commenced. The remarkable thing about this matter has been the vigorous denials of the officers in this city that there was a litigation going on. It was said the selling of the stock by the insiders was without any excuse.

Twenty thousand shares of Silver Cliff have been sent to the other side of the water. The price has advanced on this market and, as we believe, upon merit. The Silver Cliff region is a large one and the product from that district, within the next ten years, will be no mean addition to the silver production of this country.

There is something going on on the Pacific Coast. Sierra Nevada is very strong and there are signs of life all along the Comstock. Sutro is up in sympathy with the rest of the market. The discovery of a new bonanza in Virginia City would have a reflex action upon this coast and would make mining stocks very active. It may be that the advance in prices is due to the fact that John W. Mackay is back from Paris and on his way to Virginia City. It is thought that he would not have returned were it not that a new bonanza was about to be ushered into the world.

Some of the Bobtail stockholders are complaining at not receiving a dividend. The officers say that while they have the finest pump this side of Virginia City, a splended plant, railroad and everything for working the mine economically, yet the grade of the ore is low, because the vein had split into three parts. The ore body is now coming together again, and the results are better. This company has been quietly securing adjoining territory, and will soon be working on better ore from an extensive ore body nearer the surface of the earth. It is a splendidly managed mine, but, as yet, has not been profitable to the stockholders.

All the Gilpin County mines produce low grade ore and the rock is hard to crush. This is true of the Bobtail, Briggs, Colorado Consolidated, Hukill, Freeland, Red Elephant, Dunderberg, Terrible and scores of other mines in the same region. Individuals, or business firms, might make them profitable, but a company organization is expensive, and the mines scarcely produce enough to pay to keep them up.

It is said that the famous Emma mine is coming to the front again. It will be remembered that nearly $4,000,000 was taken out of this property, but the mine was gutted by its English owners to swindle the English stockholders. Prof. Silliman and the other experts were quite justified in what they said was in sight, but while all of this was being taken out, there were no developments of the lower depths of the mine. Undoubtedly the body of ore could be followed to much greater depths. Trenor W. Park has, it is understood, been developing the mine, and, according to reports, has found not only more silver and lead, but a fine and valuable vein of antimony. The failure of the Emma mine discredited American mining, but the real culprits were Baron Grant and the English stock jobbers.

Tiptop, which sells for about $4, is, it is said, soon to be made active. It was once largely dealt in on the market, and those who held on made money. The mine, we hear, is being thoroughly developed, and will soon be in shape for regular dividends. Mr. Haggin and the Homestake people are understood to be the owners.

Beware of copper stocks, especially Old Dominion. If you want to dabble in them, inquire of any of the great copper houses. The Arizona properties are all deceptive, for the copper is rich on the surface, but becomes lower in grade as the shafts are sunk. This is shown by the assays of the Copper Queen, which is the best of the Arizona properties. We hear there are to be new copper works put up at Bergen Point to treat Arizona ores. It is predicted that lower prices of copper will obtain, due to the influx from Arizona.

Caborca is the name of a new series of properties which the California manipulators are about to bring on the market. They have been so successful in working up an excitement over every property they have offered here that they will try to fleece the investing public again, and they will probably succeed; as with the State Line mines, the *Tribune* column is being skillfully used to commend the Caborca prospects. Those who deal in these properties should remember the fate of the stockholders in Chrysolite, Hukill, Little Chief, Little Pittsburgh and the State Line properties.

THE VANDERBILT HOUSES CRITICISED.

In a late number of the *American Architect*, Mr. Montgomery Schuyler offers some very pertinent criticism anent the Vanderbilt houses. Mr. W. H. Vanderbilt's lot takes in the entire block from Fifty first to to Fifty-second street, on the west side of Fifth avenue, one hundred feet in depth. On the northwest corner of Fifth avenue and Fifty-second street, W. H. Vanderbllt is constructing a house of gray limestone from designs by R. M. Hunt; on the southwest corner of Fifth avenue and Fifty-second street, W. H. Vanderbilt is building a house of which J. B. Snook is the architect; and on the northwest corner of Fifth avenue and Fifty-seventh street, Cornelius Vanderbilt is putting up a house in gray limestone and red brick from plans drawn by Mr. Post.

The Vanderbilt houses gave the first impetus to the recent building activity in this city, while in cost and size there has been nothing equal to them since the "palatial mansion in white marble" of the late A. T. Stewart. This edifice cost, it is said, more than any two of the Vanderbilt houses, and quite likely as much as all three. That these houses do not possess any architectural interest cannot be said without qualification. Possibly it approaches nearest to the truth of the two brownstone houses. One being so nearly a type of the other, that a description of one serves for the other. Each has slightly retiring centre and wings, carrying a blind attic, or solid balustrade, while the centre rests with the third story cornice. In the ground-floor wall are square-headed apertures, ungrouped and unsymetrical in spacing, and unmodelled jambs and lintels. An arbitrary line divides the walls at two-thirds the height of the openings. Beneath this line, the wall is triturated sandstone. Above, carved vines and vine-leaves, treated in naturalistic style, overspreads it. At the openings this carving is stayed by miniature pilasters corresponding in height to the fascia of foliage. A taller story towers above this, strengthened at the angles by double pilasters, and single pilasters between the apertures. In this story the apertures are square-headed, but covered with developed lintels, treated and carved with foliage similar to that below. Still above comes a shorter story, formed of round-arched openings with archivolts extremely narrow, clustered over the wings, and divided by pilasters extending to the very edge of the apertures. In the story below the angles at the openings intrench on the lines of the pilasters. A broad and deeply cut frieze, of foliage patterned after the conventional Roman style, passes through the middle of the upper story. Above this story rises an undecorated convex frieze, with an entablature, and a cornice adorned with lion-headed antefixae. No roof is visible. It is a marvel that so well constructed buildings should appear so ineffective. Both the material and design detract from the effect of the buildings. Strictly speaking there is a conspicuous absence of architectural design. The main difficulty is they cannot properly be called buildings. No harmony or combination of parts is discernable. The aim seems to have been to do something without regard to effect. Everything is designed helter-skelter. One may well pause and ask what was in the designer's mind, and the chances are he will ask in vain. In short the attempt at decoration and design may fitly be called a promiscuous and inartistic conglomeration. Let us hope the fruitless experiment will not be copied.

A pleasant relief is found in the house directly opposite designed by Mr. Hunt. This is distinctly a building in design, while the others are only so mechanically. Simplicity marks the plan. The main building is nearly square, with extension one story beneath, on the side street end, and projecting into the center of the Fifth avenue front, containing on the first floor the doorway, on the second a recessed balcony, and, above a rich cornice and dormer window, the aperture of which is decorated with a pointed round arch, flanked by pilasters, united by flying buttresses placed diagonally with corbelled pinnacles. From a rich corbel in the first story beginning at the inside angle of the projection rises a full stage above the cornice line a rounded urret, with a steep hooded crown. The north-

ern wing has one story less than the southern. Both wings have square-headed openings in each story. The dormer window above is flanked by pinnacles similar to the central dormer, the opening being surmounted by a moulded and ornamented ogee. On the side near the corner rises a three-sided bay with a round corbelled oriel near the centre, with dormers corresponding to those of the principal front. The style is fifteenth-century French gothic. Perhaps it would be nearer the mark to call it a mixture of the style of the Palais de Justice and the Hotel du Bourgtheroulde at Rouen, of the Hotel Cluny at Paris, and of part of the Chateau of Blois. The treatment throughout is rich and ornate, with grotesques which in many instances mar the symetry. Despite the elegance of the house an impression of mass and weight still remains. Square-headed openings, steep-hipped roofs, steep-hooded crowns to cornice lines, and what not, all mingle in rich and varied confusion. The remark of Horace concerning the length of a play ought to have been prayerfully considered by Mr. Hunt before attempting to portray several different styles, yet, on the whole, evidence of much careful study is shown in the edifice. But a sad and lingering regret remains that a piece of domestic architecture so successfully treated in parts is not more perfect. The consoling reflection is left, however, that art is long.

The house designed by Mr. Post is a corner house, of the same material with the exception of red brick, as that designed by Mr. Hunt. The roof is of red slate, and the style the earlier French Renaissance. Classic detail characterizes the work of Mr. Post. An unbroken avenue front is found here, with the main entrance on the side street. On the ground are three large, deep, round-arched apertures of two orders. The inner voussoirs have separately decorated faces, while projecting keystones and decorated mouldings distinguish the arches. A cornice, strongly fashioned, divides this story from the one above, made up of square-headed openings adjusted to the line of those below, but separated by mullions and by pilasters in the central openings. In this story, at the outer corner of the wall, a small, round turret in the story above is supported by a twisted shaft, while a still smaller turret, extending through both stories, occurs at the outer corner. A balcony rests at the turret above the second story. The square-headed openings, with quoins and jams, in the third story, are distinct from those below. Above this story rises a rich, deep and very emphatic cornice, decorated with a shell frieze, with a crowned balustrade, similar in treatment to the balcony underneath, and a richly treated two-story gabled dormer appears over the centre of the wall. The centre of the street front, crowned with like dormer, is rendered conspicuous by a highly ornamented segmental bay.

The development of the floor lines into emphatic horizontal belts is the chief motive of this building. A less broken composition distinguishes it from the house by Mr. Hunt, and the building proper is covered with a four-hipped roof. The admixture of material makes the color effect noticeably unfortunate, while the sky-lines seem out of harmony and very ill proportioned. The red brick used gives a patchy appearance. The effect would be happier had it been omitted. Lack of vigor characterizes the whole structure.

To sum up it may be stated that as a type of domestic architecture these houses are a shining example of successful design, while as architectural works the other two are a sad botch, incident to a reaching a desire after imposing effect.

A NEW SEA SIDE RESORT.

The Atlantic Highlands Association, composed of leading clergymen of several Evangelical denominations, but principally Methodists, recently purchased a tract of land comprising more than 400 acres, on the northern part of the Highlands of Navesink, which has long been celebrated as the highest ground on the Atlantic coast. This property almost adjoins the famous Navesink Park, owned by Judge Henry Hilton, Henry Morgan and other millionaires.

The intention of the association is to form a seaside resort to be conducted on temperance and religious principles. On Wednesday last they held their first auction sale of lots. The attendance was large, the bidding spirited and the sale was a great success, some eighty lots being sold for a total of $39,000.

The lots are somewhat irregular in form, the streets being semi-circular or like an amphitheatre, with Leonard's Knoll as the centre. The most desirable parcels are 53.6 in front, 100 in depth and 40 in the rear. The officers of the association are: President, Rev. J. E. Lake, B. D.; Vice-President, Rev. S. L. Baldwin, D. D.; Secretary, Capt. S. T. Champion; Treasurer, Thomas Leonard, Esq.

CONCERNING CONSTRUCTION COMPANIES.

(From the Hour)

The securities which are most in favor with the inside rings of operators are not those which are openly quoted upon our exchanges. The general public is invited to buy first and second mortgages, income bonds, preferred and common stock. The financial literature of the day is filled with discussions about the fluctuations in these so-called securities, while the magnates of the street and their particular friends are all the while dealing in the stock of companies which come before these public evidences of debt or property, and in which there is not only an assurance against loss, but a certainty of a large profit.

When any new enterprise is suggested the first step is the formation of a Construction Company. Even if an old road is to be extended, the actual building of the new line is entrusted to a private syndicate. The money they are supposed to put in represents the real cost of the road. The figures represented by the bonds and stock which are subsequently issued, are what the public is called upon to pay for that road or extension. The actual cost of an ordinary railroad in this country is about $30,000 per mile. This sum will build and thoroughly equip any line upon which there are no unusual engineering difficulties; but the average capitalization of railroads is from $60,000 to $80,000 a mile. The New Jersey Central has a bonded and stock debt representing $200,000 a mile. A new railroad between Cleveland and Chicago is to be completed this year and equipped in the most thorough manner for $22,000 a mile. It runs parallel, for its whole length, to the Lake Shore road, which pays good interest on $106,000 a mile. Jay Gould's American Union Construction Company, when the deal was finally made with the Western Union, netted a profit of nearly 300 per cent. The stock of the Construction Company, to extend the Missouri, Kansas & Texas road to the City of Mexico, is selling at a premium of 26 per cent., and among the unlisted stocks, the quotations of which are occasionally given, will be found the names of other construction companies, every one of which is at a premium. Of course, the scrip of the most profitable companies never comes upon the market.

The point to be borne in mind is, that in the present railway speculation it is the inside operators who are getting all the cream; the so-called "investing public" has to live upon the skim-milk and water. The subscriptions to the original syndicate are never open to the public. The stock is distributed to the favorites of the great railway magnates, and what costs the insiders $25,000 a mile is sold to the public at from $50,000 to $100,000 a mile. Sometimes a still more select inner ring of favorite contractors make a handsome profit on the work they perform.

There is but one end to all this. No road is intrinsically worth much more than its original cost. The people who pay two, three and four dollars for what costs one dollar finally lose their money, and thus we have to pass through that bitter experience so well known in this country and England—a financial panic. We are only in the beginning of a new railway mania, and it may take several years before the evil days come, but come they most assuredly will, and the foolish investing public will find its so-called "securities" valueless and the railway property they represented again in the possession of the original construction syndicates.

A WALL STREET A. B. C.

Never take a bull point in bear times, nor a bear point in bull times.

Buy on a heavy break and sell on a sharp advance.

Have margin enough to hold on to your "longs" or "shorts." Every dog has his day on the "street," and you will be sure to make money if your staying qualities are good.

During dull or bear times haye nothing to do with clicked, unknown stocks, or those companies in which there is only a small number of shares, the merits of which are known only to a few; it is better to deal in securities for which there is always a market.

Confine your operations to two or three stocks of which you have made a study.

The most conservative way to speculate is to keep cash in hand and operate only three or four times a year, buying dividend-paying stocks outright when a break occurs, selling again when the market goes up. There are never less than two breaks in the course of a year, which occur usually in the spring and fall.

Remember that there is a rythmic motion in prices; whenever they go very high they are sure to rebound, and *vice versa*.

A dull stock market is a weather breeder and generally brings on lower prices.

Sell on the rallies in a bear market and buy on the setbacks in a bull market

It is safer to be a bear over Saturday nights than a bull. The accidents of the market are generally in favor of the bears.

In the long run it pays better to be a bull than a bear. We live in a prosperous era, in which money is cheapened and prices are advancing.

When any disaster occurs to any one property in a certain section, or representing a certain interest, it is safe to sell properties similarly situated. If there is a sudden drop in St. Paul, sell Northwest; if in Lackawanna, sell Delaware & Hudson.

For permanent investments or slight fluctuations, deal in the bonds and securities of communities in which there are diversified industries, in preference to sections of the country where everything depends upon one interest. For instance, Central and Lake Shore will be steadier in price than the northwest and southwest stocks, which are hign priced only when the agricultural classes are prosperous.

Depend upon your judgment rather than upon special points, and do not believe anything you hear.

If you stand over the tape every day, you are pretty sure to lose your money. The commissions will eat you up.

If you have been unsuccessful in other business, Wall street is no place for you.

Pay little attention to the opinions of the newspapers; they are generally in the interest of big operators, not of the outside public.

All excited bull markets end in a break.

The close of a bear campaign is marked by a semi panic.

Look out for a reaction on the third day of a heavy break.

Finally, if you are wise and have any respectable calling, never buy what you can't pay for or sell what you have not got. In other words, don't speculate.

NEW YORK REALTY AT ALBANY.

[From our own Correspondent.]

ALBANY, June 2.

The excitement over the Senatorial controversy has prevented the Legislature from attending to its usual business, and but little is being done in connection with making laws. Only two hours are spent each day in the consideration of legislative business, and during these two hours the members are in a constant wrangle and accomplish but little.

Some progress has been made with measures affecting property interests since my last letter. A bill has been introduced—passed the Senate and ordered to third reading in the Assembly—widening and extending Manhattan street, in Manhattanville, from Twelfth avenue to the bulkhead line on Hudson River, making it a continuous wide street to that point.

The new bill relative to the opening of Lexington avenue through certain blocks in Harlem, making the act previously passed operative, has passed both houses and in the hands of the Governor.

The amendments made by the Senate to the Spuyten Duyvel Parkway bill have been concurred in by the Assembly, and that act is now in the hands of the Governor. It discontinues that road or parkway and the small parks laid out in connection therewith and strikes the parkway, or avenue, and all the parks and places from the map. It directs the Park Department to lay out a new street, not to exceed 60 feet wide, following the general direction of the Spuyten Duyvil Parkway from the depot to Broadway and to connect it with all the streets in that section not stricken from the map, and to lay out and drain the district through which said road passes; also to make application to the Supreme Court as soon as the new map is filed for the appointment of commissioners of estimate and assessment to acquire title to the property required for the new street and for its connection with Riverdale avenue.

It discontinued the proceedings instituted to acquire title to lands required in the establishment of the proposed Spuyten Duyvil Parkway and the local improvement connected therewith, in which Chester A. Arthur, Samuel A. Lewis, and Nathaniel Jarvis were commissioners, declaring all proceedings had therein, null and void. The bill, however, provides for the payment of these commissioners, their surveyors, clerks or assistants, for the services rendered, to the extent of their proper charges and necessary expenses incurred therein, which shall be or shall have been taxed and adjusted by the court in which the Commissioners were appointed. This amount to be paid by the Comptroller from the fund provided for the payment of judgments against the city.

The Governor has signed the bill providing means for the enlargement of the building in Central Park, east of the old receiving reservoir, or the museum of art building. This is to be done at the expense of the city upon plans adopted by the trustees of the museum. Also the bill given in the Albany letter of last week, relative to the character of buildings that may be constructed north of One Hundred and Fortieth street.

There are two or three bills vigorously pressed in relation to the supply of pure and wholesome water in New York. One of these has passed the Senate

and contains all the powers necessary for the construction of a new aqueduct. Its principal provisions are as follows:

SECTION 1. For the purpose of providing a further supply of pure and wholesome water for the city of New York, the commissioner of public works of said city is hereby authorized to lay such pipes and to construct such aqueducts, reservoirs, dams, sluices, canals, pumping works and such other appliances and appurtenances, and to make such changes and removals therein as in his opinion may be necessary to collect or retain the water in or from any lakes, reservoirs or streams heretofore or hereafter acquired or taken, or to be acquired or taken, under lawful authority, for or in behalf of the mayor, aldermen and commonalty of the city of New York, or which may be necessary to conduct such water or any water that may be lawfully taken or used for said purpose, to and through said city.

§ 2. The comptroller of the city of New York is hereby authorized and directed, upon the requisition of said commissioner of public works, to raise from time to time on bonds of said city, in addition to the amounts which he is now authorized to raise for such purposes, such sums of money as shall be sufficient to pay for any real estate, or for the extinguishment of any right, title or interest therein acquired or extinguished under authority of law, together with all expenses necessarily incurred in surveying, locating and acquiring title to such real estate, or in extinguishing claims for damages thereto; and as shall also be sufficient to pay for the furnishing and laying of such pipes and the construction of such aqueducts, reservoirs, dams, sluices, canals, pumping works and other appliances and appurtenances; and for surveying and locating the same, and the preparation of the necessary plans and estimates in connection therewith, and for supervision of the construction thereof; and all such payments shall be made by the comptroller on the certificate of the said commissioner of public works approved by the board of estimate and apportionment of said city, which board is hereby authorized to give such approval.

The bonds issued by the comptroller in pursuance of the act shall be called "additional water stock of the city of New York," and bear interest not exceeding 6 per cent. and redeemable in not less than 10 or more than 50 years.

Another water bill has been reported in the Senate to prevent the waste of Croton water, which has the appearance of a water meter bill. It was introduced by Senator Bixby, and the following are its essential provisions:

SECTION 1. For the purpose of ascertaining, locating and checking the waste of the water supply in the city of New York, and discovering the causes thereof, the commissioner of public works of said city is authorized to make such orders and regulations as he may deem necessary or proper; and if, in his discretion, he shall deem it necessary, he shall also have power to make such addditions to, and alteration in the water mains and service pipes within the public streets, and to adopt such methods and appliances as he may deem most suitable and effective for discovering, locating and checking the waste of the water supply, subject to the approval of the mayor and the comptroller of said city, and the chief engineer of the Croton aqueduct, or a majority of them; and whenever it shall be ascertained that the water is being wasted in any building or upon any premises, the said commissioner is authorized to require such waste to be discontinued, and repairs to be made to the water supply fixtures in such building or premises, by the owner or occupant thereof, if necessary, in order to stop waste; and, in case of neglect or refusal to stop such waste and to make such repairs, the said commissioner is hereby authorized to limit the supply of water in such building or upon such premises, in such quantities and to such hours of the day or night as he may deem expedient, as a penalty for said neglect or refusal, provided that nothing in this act contained shall be so construed as to confer any additional authority on said commissioner of public works to require the use of water meters beyond the authority for such purpose which he now has by law.

The Senate Committee on cities has transferred the bill for repaving Fifth avenue between Washington square and Fifty-ninth street, and made it look like a job. As it passed the Assembly it provided that it should be repaved by the commissioner of public works and $220,000 to pay the expenses. The Senate has changed it by inserting a commission to be composed of the commissioner of public works, Charles Johnston and Samuel Lowden and the repaving to be done under their direction at an expense of $400,000. Controller Campbell stated before the McCarthy committee that the avenue could be repaved in a proper and substantial manner for $220,000, by the constituted authorities, but the Senate committee has added two persons to the authority in charge and increased the sum to be expended $180,000 or $90,000 for each person added to the commission. If the increase of the expense is to be at that rate for each person added to the commission the property holders of New York ought to be thankful that Woodin's committee of the Senate did not add more men. If the bill passed the Senate in that form, it will have to go back to the Assembly for concurrence and it is possible that the lower house will stand by its original action. The danger, however, is that in the confusion of the closing hours the amendment may slip through that body. There is enough in the increase to buy it through in the present state of the Assembly.

The much talked of charter for the city has been lost sight of in the excitement over the Senatorial question, and it is doubtful if it will be revived.

The scheme to appoint water inspectors in Putnam county, to be paid by the city of New York, with authority to determine how much water the city may take from the lakes and rivers in that county, and stop the taking of the water whenever the inspectors may so will, has been ordered to third reading in the Senate in spite of the united opposition of all the Senators from New York city. This bill places the supply of water to the million and a quarter inhabitants at the mercy of those inspectors, but it has been pushed along on a bargain with Mr. Everett that he will vote against the re-election of Mr. Conkling to the United States Senate if the present Senate will pass it. It has already passed the Assembly.

The bill authorizing the construction of a pier or dock at the Battery, for the Police Department, has finally passed the Assembly. While this measure was pending in the Senate, an amendment was put in for a pier at the foot of Twenty-third street, for the Twenty-third Street Railroad. It was so located as to take one-half of one of the ferry slips leased to the Erie Railroad, and in violation of an agreement made between that company, the Dock Department and the Twenty-third Street Railroad, in reference to dock privileges for the latter at that point. This amendment blocked the bill in the Assembly, until finally the street railroad parties were compelled to consent to its being changed to correspond with the agreement made with the Dock Department. The bill having been changed in accordance with that plan, it has now passed the Assembly.

The Governor heard parties to-day for and against the bill for the removal of the distributing reservoir at Fortieth street and Fifth avenue. The parties opposed to it present, were George B. Baxter, Mr. Webb and O. B. Potter, and their argument was that its removal would decrease the water supply in a portion of the city, and its retention necessary for the storage of water to be used in case of fire.

The advocates of the bill present were Mr. Birdsall, engineer in the Croton Water Department, Mr. Bloodgood, an engineer, Rev. S. D. Berchard and Senator Astor. The engineers demonstrated that the reservoir was no longer of any practical use in connection with the water system. The impression is that the bill will be approved by the Governor.

OUT AMONG THE BUILDERS.

Hon. H. C. Van Vorst is about to remodel and enlarge his summer residence at Nyack, on the Hudson. The building is in the Swiss style, and Horace G. Knapp, 61 Broadway, is the architect. The cost of the improvement is $2,000.

Horace G. Knapp, architect, 61 Broadway, is engaged in the preparation of designs for a cottage for Mr. Charles N. White, paymaster on the N. Y., L. E. & W. R. R. The building will be erected at Nyack, and is to cost $4,000.

Mr. Wm. C. McBride, of Raritan, N. J., whose house was recently destroyed by fire, has commenced the erection of a new building on the old foundations. It is to be 31x58 feet and is under contract for about $5,000. Horace G. Knapp is the architect.

The Long Island City Hotel, at Hunter's Point, has just been completed and opened to the public. Its cost was about $25,000. It is a part of the estate of the late Oliver Chardick. Architect, Horace G. Knapp.

Dr. Wm. M. Reynolds, of this city, is having designs prepared for an elegant cottage to be erected at Homer, N. Y. It will be 37x51 feet and will cost about $4,500 Horace G. Knapp, architect.

The Hubert Apartment Association are about to erect a number of new apartment houses, with duplex floors in the rear, in the following locations: On Fifty-ninth street opposite the park, between Sixth and Seventh avenues, and Seventh avenue and Broadway, each to be 75x90, seven-story brick, with brown stone trimmings; the corner of Twenty-eighth street and Madison avenue, 75x95, and the northeast corner of Eightieth street and Lexington avenue, 75x95. All of these houses are to be erected on the same general plan, and will be supplied with all the modern improvements.

The association have nearly completed the erection of their building on Fifty-first street, between Sixth and Seventh avenues, at a cost of nearly $125,000.

C. F. Gennerich will erect a four-story brown stone front dwelling, with stable in rear, on West Forty-fourth street, between Ninth and Tenth avenues, from designs of Wm. Kuhles. The house is 25x60 feet, and the stable 21x25 feet. The cost is $16,000.

Work has commenced on the *Tribune* building extension and is being pushed rapidly.

On the southwest corner of First avenue and Sixty-first street, J. E. Redman is about to build four tenement houses, 25x70 feet and five stories high, from designs by A. B. Ogden. They will cost $10,000 each.

Three houses will be erected on the south side of Sixty-first street, 100 feet west of First avenue, 28x70 feet, and five stories in height. Owner and architect, same as last. Cost, $30,000.

Mr. Redman will build four more tenement houses on the north side of Sixty-first street, near First avenue. They will be 25x70 feet, five stories high, of brick with stone trimmings. A. B. Ogden is the architect, and the cost $40,000.

Mr. Ogden has draughted plans for five apartment houses, 20x54 feet, and five stories high. They are to be constructed of brick with brown stone trimmings. Joseph E. Redman is the owner, and the cost $50,000.

At Avenue B and Seventeenth street the new buildings of the United States Electric Light Company have just been completed. The belt by which the machinery is run is a huge one weighing some nine tons. The building is brick 100x100 feet, and six stories high. It was formerly owned by T. G. Tripler, and used as a warehouse. When in order it will employ one thousand men. The engine room and warehouse will be on the first floor, and the upper floor will be devoted to the incandescent department.

Messrs. Dun, Wiman & Co., having recently purchased a plot of ground on Park street, near Pearl, 70 x an average of 70 feet and very irregular, for $23,000, are about to erect a six-story brick building with an iron front, to be used as a printing and binding establishment in connection with their Mercantile Agency. The cost of the building will approximate $40,000. During the excavation for the foundations a number of tan vats were discovered ten feet below the surface, the property having been used many years since as a tannery; in addition to this, a well of pure water was also found, which will be utilized for mechanical purposes, thus saving about $300 per annum.

Brooklyn.

On Pulaski street, near Reid avenue, Mr. Bragg is about to make extensive alterations to his frame dwelling, from designs of Mercein Thomas.

Mr. Kellogg is going to erect four brick houses, 12.6 x45, and 2½ stories in height, on Third place, near Court street. M. Thomas is the architect, and the cost, $3,800 each.

At Sterling place, near Seventh avenue, A. Le Rogers will build a brick stable, 63x100 feet, and 2 stories high, with attic. R. Dixon is the architect, and the cost $12,000.

On the northwest corner of St. John's place and Seventh avenue, T. Fagon is going to build 5 houses. The corner house is 20x50 feet. They are four stories high, with French roof, and constructed of brick, with brown stone trimmings. R. Dixon designed them. Cost, $10,000 apiece.

GOOD GOVERNMENT IN NEW YORK.

Editor REAL ESTATE RECORD:

I am impelled by your reiterations as to the cause of the excessive death-rate in this city to ask why it is that the number of deaths which you attribute to excessive cold should increase with the warm weather, and suggest as a possible explanation an incident that came under my observation recently. On a certain East Side block were counted four hearses backed up to houses and eight houses with crape on their doors. The streets were lined with heaps of stinking filth, on which were hordes of children playing, driven from the houses by fouler sights and stenches. An employee of the Street-Cleaning (?) Department spoke of it as an every-day occurrence, and said that the street had not been cleaned since last October and was not likely to be soon. If you would show the same zeal in stirring property-owners up to a realization of their duty and danger that you do in attempts to allay their fears you would serve your patrons' interests better and contribute more to an increase of realty values than by helping to precipitate an epidemic with all its depressing consequences.

New York blamed Memphis for inviting yellow fever by allowing its streets to be foul. What will Memphis have to say this summer?

CONSTANT READER.

[Our correspondent cannot have read THE REAL ESTATE RECORD if he imagines that it has in any way countenanced the supineness of the Police Department in not cleaning the streets of the city. Our city government is a shame to every citizen and landlord. Our complaint of the *Herald* was that it tried to spread the impression that New York was worse off than its neighbors so far as the death-rate was concerned. There has been a great deal of sickness everywhere, and there is no use of making bad worse to the injury of the property of New York. By all means let us have good government, clean streets and the best possible sanitary arrangements. The property-holder who does not work for these good objects is short-sighted from a business point of view and an unworthy member of the community.—ED.]

ANSWERS TO CORRESPONDENTS.

MORRISANIA.—It is not customary for real estate brokers to charge any commission for making leases when they have the collection of the rent. The usual charge for the collection of rent for a store occupied by one tenant is 2½ per cent., for a house or office building 5 per cent.

OUR HEATING ARRANGEMENTS.

Few topics, indeed, are of more absolute importance than the proper method of securing warmth and ventilation in our dwellings, school-houses and places of public assemblage. A writer some years since advocated the theory of constructing an open fireplace in the cellar with a chimney extending to the roof, for the purpose of ventilation, in which occasional fires should be built. Were this done, there would probably be less fevers of all kinds. A visit to Harvey's salesroom, at 1325 Broadway, where a specialty is made of ranges and furnaces, will convince the most skeptical that he can supply this long-felt want. In passing, we may state that the hot air gas-consuming furnace manufactured by W. N. Harvey has won an enviable reputation solely through its indisputable merits. Its large radiating surface is calculated to secure a larger percentage of heat than any other furnace in use. Being simple in construction, and controlled by one damper, a child can manage it. It is sufficiently powerful to heat any ordinary-sized house, in the coldest weather, without the use of extra stoves. Until very recently these goods have advertised themselves. They are highly recommended by all first class builders, and are in use in many of the finest churches and residences in the city. There are over 3,000 now in use in New York. They may be seen in the buildings being erected by the Astor estate, and in most of the fine houses in the Lenox Hill quarter.

Sauntering up Water street you come to the salesroom of the Barstow Stove Company, an old and reliable firm, with an established record of upwards of fifty years. Their goods have a world-wide reputation, and the fineness of their castings gives them an acknowledged superiority. In calling attention to this salient feature, we do not exaggerate, as the most inexperienced eye can detect at a glance their marked superiority over other goods of the same class. The Dome Portable Furnace is in all respects a superior heater—combining as it does all the valuable qualities of other cast iron furnaces, with many new and valuable improvements. Only the best material is used and the same careful attention is given to the fitting and mounting, as is given to the fine grade of parlor and cook stoves. We noticed here the Dome brick furnace for anthracite and bituminous coal, which is very popular, combining economy and power, with large radiating surface, together with a height especially adapted to low cellars. But the great feature of this establishment is the introduction of their new wrought iron furnaces, for setting in brick masonry, or in portable form. In a sanitary point of view, they are undoubtedly the most perfect heaters in existence, as being entirely free from gas and dust, and the thickness of the fire bricks surrounding the five chambers, prevents any part of the furnace from getting over heated. The surface over which the cold air passes is so great, and so evenly heated, that the air diffused from it into the apartments, is so soft, mild and bland that it resembles more the warmth we derive from the sun than any other artificial heat. A model elevated oven range, which for beauty of design, weight, quality of material, and thorough workmanship in mounting cannot be excelled, is displayed by the same firm. The construction of the oven is simple yet perfect, while the tops are large and spacious, giving ample room for surface cooking. A large trade is done with China, Africa, the Sandwich Islands and South America, in addition to an extensive home trade. Their manufactory is located at Providence, R. I., while they have branch stores in Boston and New York. These goods are in use in all the best public and private buildings in this city and throughout the civilized world. The castings of the stoves, ranges and furnaces resemble very closely castings in bronze. How the effect is produced many other manufacturers would no doubt like to learn.

In Murray street, a look into the warerooms of Janes & Kirtland, where a miniature fountain is playing, will well repay the connoiseur in furnaces and ranges. The Beebe cooking range seems admirably adapted to meet the requirements of the most exacting housekeeper. Furnaces for wood and coal are displayed in endless variety. A short visit to the different salesrooms where these goods are kept, will give one a better idea of the quality and style than could be obtained in visiting hundreds of houses and public buildings. Convenience and utility, rather than ornate and elaborate decoration seems to possess the minds of all artists in this line. Economy of fuel, combined with great heating power, is an important item in a city where fuel is necessarily high.

It is but a step backward to the days of Dutch ovens and brick and stone fire places. Not many generations ago the only heating and cooking apparatus the houses of our ancestors boasted was a rude fire place. Suspended on a ponderous iron crane hung the capacious dinner pot, whence the olden time house wife could serve a dinner fit to set before a king. In those days three frugal, yet substantial, meals were in order. Lunches were not then in vogue, except for the swift mowers, who laid low the dew besprent grass. At evening the family gathered around the broad hearth, where the huge back logs roared and crackled and shot their sparks skyward. In an economic point of view the ancient fire place was not a success; but its genial light and ruddy blaze cemented family ties that have been gradually severed by the introduction of the modern range and furnace. How to heat a large or small house thoroughly, and at the same time cheaply, was long an unsolved problem. Contrast the parlor or sitting room of to-day with those of fifty years ago, prim, cold and often cheerless; and you will have some conception of the improvements made in heating dwellings and public edifices. While many must continue to use stoves, there are still a large number who will use ranges and furnaces. Indeed, nearly all first-class hotels, apartment houses and private residences—especially in cities and the larger towns—are now using ranges and furnaces. A visit to the salesroom of Uzal Cory & Co., in Water street, will convince the most skeptical of the truth of this assertion. In a great city like New York, where economy of space is a necessity, the high and spacious cellars and kitchens of the country villa or farmhouse give place to lower and narrower cellars and kitchens. To meet this want the firm has produced the Gothic elevated oven and low down ranges. They also manufacture the excelsior hot-air furnace, a very desirable furnace of its kind. In design the Gothic is free from the meaningless and grotesque ornamentation such as birds, griffins, fishes, &c. Nickel-plated ranges seem to be out of date, as the writer in his travels saw none of this kind. The aim has been to make the construction complete in every detail, symetrical in proportion and perfect in appointments. For strength, beauty and convenience it is unequalled.

The Excelsior Furnace now in use in many of the public and private buildings of this city is a model of its kind. The chief design has been to obtain the largest amount of radiating surface consistent with economy and durability. So large a radiating surface gives the furnace an advantage over heaters depending mainly on the amount of fuel consumed. Being self-cleaning, and having stood the test of twenty years, it is no longer an experiment. Both furnace and range are made to harmonize with the interior decorations. In the mechanical construction all ranges are essentially alike, differing only in the style of ornamentation.

SOME NEW BUILDINGS.

S. J. and S. O. Wright have just completed eight modest, but substantial houses on the south side of One Hundred and Twenty-seventh street, between Seventh and Eighth avenues. They are 16.8x50 feet, three stories high, with basement, and constructed of brick with brown stone fronts. These neat and tasty houses are located in a thriving district in Harlem, within three minutes walk of the Eighth avenue elevated road, and are well worthy the inspection of buyers. Of course, in building the houses the Messrs. Wrights have not catered to the whims of the wealthier and more fastidious class of people, but rather to the tastes of persons of moderate means. All of the dwellings are finished in cabinet style, one being finished in cherry and ash, and the other seven in black walnut. The stairs, staircases, and balustrades are very tastefully designed, while the balustrades and staircases are carved and paneled. The mantels in each story are unique in design, and decorated to harmonize with the trimmings. The bath tubs, washbasins, &c., are first-class in every respect. Patent concrete cellars and double floors are among the solid features of the houses. Console frames and pier glass mirrors add to the beauty of the parlors and other rooms.

Particularly noticeable are the metal picture rods. Each house has stationary ranges, and refrigerators of the newest designs. The plastering is unsurpassed, and shows the careful supervision of the owner. Mr. Wright has watched the construction so closely that no flaw can be detected from foundation to gable. The plumbing, which is now considered an important part of every well finished house, has been conscientiously done. Each house is so nearly a counterpart of the other that to describe one is to describe them all. We have inspected them carefully, and have no hesitancy in saying that the minutest detail has been carefully executed. As an investment these houses are certainly worthy the attention of purchasers. Harlem is being rapidly built up, and in the near future this property must be greatly enhanced in value. The Messrs. Wrights are so well known as builders to up-town owners that the mention of their names with any house gives tone and character to it. There is an air of comfort and genteel plainness about these buildings which will most certainly commend them to all who value utility above gaudy display. While no attempt at striking architectural effect is seen in the exteriors, the interiors are arranged with an eye to fitness and taste. A moderate sum of money will buy one of these houses. We commend them then to public inspection in the firm belief that they will sell on their merits.

BUILDING DELAYED.

For the past three weeks there has been a great decrease in the number of new buildings projected, owing no doubt to the marked advance in the price of labor. Bricklayers now get four dollars a day, and in many cases cannot be had even at that price. A corresponding advance in the wages of carpenters has taken place.

One builder has already stopped work in Fifty-eighth street on this account. People seem to be getting scared at the sudden rise in the labor market. If this state of affairs continues the building interest is likely to receive a serious check. Very few plans for new buildings can now be found in the offices of the different architects.

MARKET REVIEW.

REAL ESTATE.

☞ **For list of lots and houses for sale see pages iii, iv and v of advertisements.**

The first of June is usually signalized by the entry of many conveyances in the Register's office, but a holiday, taking one working day out of the week, has made the number about the average. On the Exchange but little was done. The notable sale of the week was the lots in the two blocks bounded by One Hundredth and One Hundred and First streets, and situated on Third, Lexington and Fourth avenues. The attendance was large, the bidding spirited, and the prices obtained were higher than were anticipated. The purchasers were evidently builders, who intend to improve the property in the near future. People who buy improved property continue to get bargains.

On Thursday a house was sold on the corner of Twenty third street and First avenue, for $22,050, the rent of which is $3,850. Seventeen per cent. is not bad in these cheap money times. A house on Twenty second street sold for $18,500, which rents for $2,400, something over 13 per cent.

Among the notable sales during the coming week, is the one which will take place on Tuesday, June 7th. Bernard Smyth will then sell under Supreme Court partition, three lots on the west side of Greene street, 95 north of Prince, and one lot on Prince, 25 west of Greene, all occupied by two-story brick buildings. The time cannot be distant when all this region will be in demand for great business warehouses. Ten lots are also to be sold, fronting on South and Front streets, near Montgomery.

Every one is noticing the great amount of building and repairing which is going on in all parts of the city. This is having its natural effect in causing a demand for workmen and increasing the price of wages. Indeed some instances have come to a standstill because of the scarcity of workmen in certain departments of building. The apprentice regulations of the various trades unions are now showing their bad effect. Although the exchange is neglected, the list of conveyances and mortgages shows how large a business is being done in real estate.

Messrs. A. H. Muller & Son will sell on Thursday the plot of ground and brick church thereon at the southeast corner of Christopher and Bedford streets.

R. V. Harnett will sell on Thursday the lot No. 1119 First avenue, 20x70.

Hugh N. Camp will sell on Thursday the four-story brown stone dwelling, No. 32 West Thirty-third street, 17.6x55x98.9.

J. Cole will sell on Thursday next at the Commercial exchange, Brooklyn, seventy-one lots of ground located on Morse, Liberty, Locust, Fountain and Atlantic avenues, for account of the Knickerbocker Life Insurance Company, plantiffs, against William S. Conant and others, defendants.

Among the out-of-town properties sold this week was the late residence of Christopher R. Roberts, deceased, at Throgg's Neck, directly on the Sound and comprising about eight acres of land, with stone cottage, barn, stable, etc. The purchaser of this valuable country seat was F. C. Havemeyer, who secured a bargain at $16,750.

Many persons generally well posted in the value of realty, thought the prices obtained for the lots sold by A. H. Muller & Son on Tuesday last, and which are bounded by One Hundreth and One Hundred and First streets and Third and Fourth avenues, to be equal to their full value, were laboring under the impression that there was a considerable amount of rock on this

plot. The fact is, there is but little rock, and less than one year since a well-known contractor offered to remove the rock and gravel for 62 cents per cubic yard.

Gossip of the Week.

Randolph Guggenheimer has purchased for his clients, Leissner & Louis, of Fourteenth street and Broadway, four lots on Seventy-first street, between First avenue and Avenue A, 100x100, and on which they intend to erect an extensive paper warehouse.

William A. Christie has purchased from S. Marx the lot at the southwest corner of Avenue A and One Hundred and Twenty-third street, for $6,500, and on which he will erect a five-story brown stone flat, eighty feet in depth with two entrances.

Dennis Loonie has sold two of his elegant flats on Fifty-third street, near First avenue, 25x62x100, for $21,500 cash each.

Leonard J. Carpenter has sold the three-story brown stone dwelling No. 167 Lexington avenue, 21.11x55x100, to Mr. Simmons for $15,000.

The lot at the southeast corner of Fifth avenue and Sixty-sixth street has been sold for $75,000, to Dr. White, who will erect a handsome residence on his return from Europe, for which he sails to-day.

Four lots on the south side of One Hundred and Twenty-fifth street, between Seventh and Eighth avenues, have been sold for $27,000.

The plot of ground, comprising seven city lots, on One Hundred and Twenty-eighth street, 205 east of Third avenue, have been purchased by Enoch C. Bell for $28,000.

The leasehold No. 320 west Forty-sixth street, has been bought by Theodore Connelly for $5,000.

Mr. J. H. Romer has sold for E. H. Munson four lots, two on One Hundred and Twenty-fifth street and two on One Hundred and Twenty-fourth street, 150 east of Eighth avenue, for $27,000.

The same broker has also sold a three-story brick building and lot on the north side of One Hundred and Thirty-second street, between Sixth and Seventh avenues, 18.8x45x100, for $7,750.

The seventeen cottages, erected at Long Beach during the past winter, have all been rented to prominent New Yorkers, with the exception of Nos. 1 and 2, which have been leased by the Knickerbocker and University Clubs, respectively; No. 3, by Henry Graves; No. 4, by Dr. George G. Wheelock; No. 5, by J. D. Hardy; No. 6, by Ex-Mayor W. H. Wickham; No. 7, by Dumont Clark; No. 8, by Simon J. Drake; No. 9, by Rev. Morgan Dix; No. 10, by A. A. Low; No. 11, by Conrad N. Jordan; No. 12, by F. Robinson; No. 13, by Frederick Payson; No. 14, by John D. Dos Passos; No. 15, by Henry B. Bacon; No. 16, by Henry C. Warner; No. 17, by J. H. Work. These cottages are built in the Queen Ann style, and are of different sizes.

Jose F. Navarro has purchased the whole front on the east side of Seventh avenue, between Fifty-eighth and Fifty-ninth streets, for $205,000.

Four lots on the south side of Sixty-third street, between First and Second avenues, have been sold for $3,750 each.

The four-story brick store No. 930 Broadway, 20x120, has been sold for $80,000.

Messrs. Butler & Matheson have sold for account of Mr. Henry Rogers the four-story brick building No. 317 Canal street, 18.9x70, for $30,000, the purchaser to give one year's lease to the seller free of rent, making the price equal to about $33,000.

D. H. McAlpin has bought the block of ground bounded by One Hundred and Fourth and One Hundred and Fifth streets and Eleventh avenue and the Boulevard for $100,000.

Brooklyn Gossip.

In proof of the activity spoken of in the REAL ESTATE RECORD two weeks since of realty in the neighborhood of Commodore Maxwell's recent purchase at the corner of Eighth avenue and Union street, dealers will note the sales by the Wyckoff Brothers of two lots on the north side of Sackett street, between Sixth and Seventh avenue, one lot on the south side between Sixth and Seventh avenues, five lots on the corner of Sackett street and Seventh avenue, four lots on the south side of President street, between Seventh and Eighth avenues, the plot of ground, 71x100, on the north side of President street, 100 feet west of Eighth avenue, and three lots on the north and three lots on the south side of President street, near Seventh avenue.

The following are the sales at the Exchange Sales room for the week ending June 3:

** Indicates that the property described has been bid in for plaintiff's account:*

Total..... $50,075

Proposals will be received by the school trustees of the Fifth Ward at the hall of the Board of Education, until Wednesday, June 15th, 9:30 A. M., for alterations on Grammar Schoolhouse No. 44, on North Moore street, corner of Varick.

Proposals for doing the work and furnishing the materials required in the erection of a house for each of the following named companies of this department to wit: Engine Company No. 37, and Hook and Ladder Companies No. 16 and 18, will be received by the Board of Commissioners until 10 A. M., Wednesday, June 15th.

BUILDING MATERIAL MARKET.

BRICKS.—The strength shown on the market for common hards at the close of last week has been well maintained and prices gradually worked upward until there is an advance of fully 25c. per M. established, with still a little buoyancy shown. Haverstraws are now valued at $6.75@7.25 per M., with not many sellers willing to negotiate below $7, and for "up rivers" of good quality $6.50 seems to be considered rather an inside figure. The excavating of cellars and the tearing down of old buildings have now made such progress that a large percentage of new work is fairly under way, and this of course tends to swell the consumption of brick very rapidly. A great deal of stock has of course already been secured "to commence," but contractors have not all been so lucky and the new demand is growing daily. Manufacturers are getting supplies forward as rapidly as circumstances will admit, and according to all accounts everything available in the way of production is in use, but the output is not fully equal to the wants of the market. The East too is drawing upon stock to some extent, and we hear of several shipments to Fall River, Providence, &c. Pale brick remain steady and fair demand for good stock at $2.50@3 per M., but some inferior offerings have sold lower. We hear of sales of "lammies" at $2.50@2.75 for fair quality. Fronts retain a firm position all around and find a good general demand prevailing, which exhausts the bulk of the supply.

CEMENT.—Of foreign the supply coming to hand has been very full, but a considerable portion went out at once on contract, and what remains does not appear to worry holders much, in view of the continued good inquiry for all attractive stock. Prices generally are well maintained. Domestic also is selling first rate and ruling firm with the price of Rosendale advanced to $1.15 per bbl. on the 1st inst., as forecast in the RECORD some little time ago.

GLASS.—Demand still without much positive animation, but appears to be improving a trifle and the tone of the market is better. Stocks of all kinds are full and well assorted, but domestic is receiving no additions, the stoppage of production on the 1st inst., one month earlier than usual, leading to the formation of a somewhat better basis to work from should business secure a fresh start, and this latter desideratum now appearing very probable. From list the discounts stand at 50 and 10@60 and 5 per cent. on foreign, and 60 and 20@70 and 5 on American.

HARDWARE.—The demand has shown an absence of animation, and was confined, in the main, to small parcels required for immediate use. Indeed, on general hardware it is believed that trade must rule dull until the fall season, and dealers generally are much discouraged. Values are somewhat unsettled, but no important changes are contemplated for the present. On a list recently issued, the manufacturers of Cordage marked an advance of ½ cent per pound on Manila and a decline on Sisal of 1 cent per pound, subject to the usual Trade discount. The following are the figures of the revised list: 1¼-inch cir. and upwards, 15c. per lb.; 12 thread, or ⅜ diameter, 15½c. do.; 6 and 9 thread, or ¼ and 5-16 diameter, 16c. do.; Hay Rope. 2, 3, 4 or 5 thread, 15c. do.; Bolt and Point Rope, 16½c. do.; Tarred Rope and Lath Yarn, 14½c. do.; Stave, Leather and Hop Twine, 15½c. do. Sisal Rope—1¼-inch cir. and upward, 10½c. per lb.; 12 thread, or ⅜-inch diameter, 11c. do.; 6 and 9 thread, or ¼ and 5-16th diameter, 11½c. do.; Hay Rope, 2, 3, 4 or 5 thread, 10½c. do.; Tarred Rope and Lath Yarn, 10c. do.

LATH.—Demand has been very good and afforded an outlet for the few additions to the supply about as fast as they came to hand. Receivers, however, did not succeed in getting quite the full figures anticipated, and while $2.00 per M may be considered as well maintained, it is the highest price we learn of on ordinary wholesale lots within reasonable delivery.

LIME.—A continued good demand and only a scant offering of stock, as compared with the outlet, has, as anticipated, kept the advantage well in sellers favor, and Eastern stock is now quoted firm at the advance to $1 for Common and $1.10 for Finishing, with State grades showing a corresponding hardening.

LUMBER.—Our wholesale market has fallen into a sort of rut from which it is difficult to draw many new features of interest from week to week. Business continues good all around, supplies are generally

selling close to the offering, especially for near-by delivery, and prices are well maintained for all attractive goods and assortments. In fact, it is a good, healthy and cheerful market, with no reason to expect the favorable elements will vanish for some time to come. Consumption is unabated, indeed for building, stock tends toward an increase. Dealers are on the look out for additions to assortment and the interest of exporters is retained to a very fair extent, though on some grades the foreign demand has been diverted to parcels at primary points. Choice well-seasoned stuff of all kind is becoming somewhat scarce, and holders who have anything of the kind in stock talk rather firmer.

Spruce still appears to be under very good control and seller's views comparatively extreme, especially on full sizes, of which there is a very small amount within reach. Logs are more plenty at the mills, but a goodly number of orders have been awaiting them and the additional product will not disturb the condition of the market. Agents have been unwilling to quote randoms positively in the absence of business of a fairly testing character, but on a general range to cover all grades about $14.00@16.00, way named, while on specials the line may be extended up to $17 00, to cover all sizes and deliveries, but no higher than the latter figure is now me tioned.

Piling is plenty and dull with values fluctuating slightly, though about 4c per foot seem to be the average rate Exactly what has possessed producers to send forward the stock they have this spring it is difficult to determine, as some of the winter accumulation still remains unsold and is difficult to work out.

White Pine does not appear to have changed in any important particular since our last. The demand from home sources continues good and general, all regular descriptions and sizes being wanted, and the orders coming from pretty much every source ordinarily represented. Larger quantities and better assortments are becoming available, but the limit of valuation is full and deficiencies here cannot be replaced at any reduction on cost. Exporters move with some showing of caution, but are pretty good customers still with dealers who cater to the foreign outlet, confident that their business will hold good. We quote $17@19 per M for West India shipping boards; $24.50@26 for South American do.; $16@16.50 for box board; $17@17.50 for do. wide and sound do.

Yellow Pine continues to be reported in the same strong and cheerful manner by pretty much the en tire trade, but shows no positively new features. Supplies immediately available are small and poorly assorted, the principal mills have orders to keep them busy for many weeks to come, even on an uninterrupted run of saws, and new orders and specifications are daily coming to hand. Agents are also figuring on a pretty good run of orders for shipment direct from the South. Prices strong and inclined to an advance if anything. We quote random cargoes at about $24.00@26.00 per M; ordered cargoes, $26.00@28.00 do.; green flooring boards, $24.50@26.50 do; and dry do do, $27.00@29.00. Cargoes at the South, $15.00@19.00 per M for rough, and 20.00@24.00 for dressed.

Hardwoods continue quite generally in sellers favor the good control of the desirable stock at primary points and the apparent wants of jobbers and consumers inspires much confidence among holders. No further positive additions to value, however, have of late been noted and indeed at the prices asked some buyers are refusing to operate as "there is no money in it." We quote at wholesale rates by carload about as follows: Walnut; $77@85 per M; ash, $35@38 do.; oak, $40@45 do., maple. $30@35; chestnut, 1st and 2d, $30@35; do. do. culls, $18@20 do.; cherry, $50@55 do.; white wood, ½ and ⅝ inch, $25@27.50, and do. inch, $30@35 do.; hickory, $35@45 do., for Western, and $65@75 for good nearby stock.

Shingles have been selling to about the ordinary extent and without change in tone or prices. We quote Cypresss at about $6.00 for saps and $8.50@9 for hearts; pine shipping stocks, $4 for 18-inch, and Eastern saw grades at $2.50@4.50 for 16-inch, as to quality and to quantity. Machine dressed cedar shingles quoted as follows: For 30-inch, $16@22.25 for A and $28.75@32.25 for No. 1; for 24-inch, $6.50@16 for A and $16.75@23 for No. 1; for 20-inch, $5@10.50 for A and $11.25@11.75 for No. 1.

At the yards business is good and general and dealers appear to be having a first rate season as a rule. Some complain of competition compelling them to sell on a very narrow margin.

From among the lumber charters and engagements recently reported, we select the following:

A Br steamer, 847 tons, from St. John, N. B., to Liverpool or Bristol Channel, deals, 55s; a Br brig, 410 tons, from Calais to Montevideo or Buenos Ayres, lumber, $13.50; a barque, from Mobile to Surinam, lumber, and back to Boston, $30.00; a Nor. barque, 535 tons, from Pensacola to Cork and United Kingdom, sawn timber, £6 2s. 6d.; a Nor. barque, 434 tons, from Philadelphia to Oporto or Lisbon, barrel staves $27, and pipe staves $42.50; An Am. brig, 388 tons, from Portland to River Platte, lumber, $14.50 net; an Am. brig, 310 tons, from Portland to Cardenas or Matanzas, shooks and heads, 20c; a schr, 187 tons, from St. John, N. B., to Washington, D. C., laths, 55 c. ₱ M; an Am. brig, 553 tons, hence to the south side of Cuba, lumber, $6; a schr, 387 tons, from Port Royal to Philadelphia, lumber, $6.50, a brig, 230 M lumber, from Pensacola to New York, $9; a schr, 225 M boards, from Darien to Baltimore, $7—40 M ₱ day; a schr, 170 M lumber, from Jacksonville to Philadelphia, $8.50 option of New York, $9; a schr, 250 M lumber, from Brunswick to Providence, $7.50; a schr, 200 M lumber, from Bucksville to Philadelphia, $7.50; a schr, 150 M lumber, from Jacksonville to Philadelphia, $8; a schr, 300 M lumber, from Brunswick to New York, $7.50; a schr, 200 M lumber, from Jacksonville to New York, $9, free of wharfage.

Exports of lumber from the port of New York:

	This Week, feet.	Since Jan. 1. feet.
West Indies	440,102	17,172,681

Europe, United Kingdom	108,000	1,987,979
Total	1,469,914	33,713,585

GENERAL LUMBER NOTES.

STATE.

Albany Lumber Market, as reported by The Argus

FOR THE WEEK ENDED MAY, 31 1881.

The market for pine lumber is getting into good shape; new lumber from the upper lakes is arriving freely, the deliveries here to-day being the largest of any day this season Prices are firmly held with a steady inquiry. The Saginaw and Canada markets are very firmly held.

Hard woods are in continued good demand at steady quotations.

In coarse lumber there is not any change in quotations; the receipts though free—probably as much for the fractional part of May this year as for the whole of May, 1880—are not enough to supply the demand. The production at the northern mills so far this season has been very large.

The receipts of lumber by lake at Buffalo for the week were 6,794,000 feet, and by rail 137 cars.

Freights from Bay City to Buffalo and Tonawanda, $3 per M. feet; from Saginaw, $3 25. From Buffalo to Albany, $2.50 per M. feet. Lake Ontario freights to Oswego, $1 from Port Hope; $1.25 from Toronto; from Oswego to Albany, $1.80@$1.85; from Ottawa to Albany, by boats, $3@3.50 per M. feet.

River freights are:

To New York, ₱ M ft	@1 00
To Bridgeport	@1 37½
To New Haven	@1 37½
To Providence, Fall River and Newport	2 00@2 25
To Pawtucket	2 25@2 50
To Norwalk	1 25@1 30
To Hartford	@2 00
To Norwich	@2 00
To Middletown	@1 75
To New London	@1 75
To Philadelphia	@2 00

THE WEST.

SAGINAW VALLEY.

LUMBERMAN'S GAZETTE,

Bay City, Mich., May 31.

The full tide of the spring trade is flooding this market, and activity and eagerness bear rule. There have been a good many buyers in the valley the past week, and the receipt of orders has been quite large. While there has not been such a boom in transactions as occurred several times last season, a goodly number of advantageous sales have been effected. The tone of the market may be inferred from the refusal of a dealer of $8, $16 and $35, for 5,000,000 feet choice stock. Among the transactions of the week we note the sale of 500,000 feet at $7 50, $15 and $35; 1,500,000 feet at $7 25, $14.50 and $32; 1,000,000 bill stuff at $8; 1,000,000 feet good stock at $7 25, $14.50 and $35; 6,000,000 feet at $7, $14 and $35; 3,000,000 feet at $7 50, $14.50 and $35, and 500,000 feet at $7.25, $14.50 and $35. Several lots of coarse lumber have been placed at $6.50 and $13 and $30 and $32. The best grades of lumber are in limited supply, and the new cut is being sold ahead. The weather since the cutting season began has been the best kind for seasoning lumber, the hot air and brisk wind driving the moisture out rapidly. New lumber is maturing very fast in the pile.

Shingles are in good demand and prices are steady. Sales are made at $1.90 to $2.10 for clear butts and $2.90@3.15 for XXX., outside figures for best river brands.

There has been no rain for three weeks, and in some of the streams the driving of logs is rendered difficult. But a good many logs are already in safe water, and it cannot yet be said there is any danger of the mills running short of logs.

Shipping by water is active, and rates for freight are firmly maintained. The rate on lumber is $3 from Bay City to Buffalo and Tonawanda, and $3.25 from Saginaw. To Ohio ports and Chicago, $2.50 from Bay City and $2.75 from Saginaw. The fleet is fully employed.

The *Northwestern Lumberman* as follows:

NEWS FROM THE DRIVES.—Our reports this week are not so encouraging as they might be. They tell, with unpleasant frequency, of low water and hung up logs. The situation is rather less satisfactory, as a whole, than it has been, though it is perhaps no worse than usual at this time. The June rains are yet to come, and, as so little water has fallen this season, it is not unreasonable to expect that they will be copious ones. The Lumberman does not think there is any occasion for alarm as yet. A large part of the stock is already secured, or is at least in safe water, and there remains an abudance of time to drive the rest. Some logs will be hung up; this is to be expected as a matter of course; but the season will have to be further advanced than it is now before we shall be willing to believe that the stock is to be materially reduced in this way.

CHICAGO.

The receipts of lumber at this port for the past week have been quite heavy, the figures showing 54,136,000 feet, being in excess of the receipts of the corresponding week of last year to the extent of 9,305,000 feet. Notwithstanding these large arrivals, the amount offered for sale at the cargo market has at no time been large, and for a good part of the time the docks have been comparatively deserted. We believe in no case has any lumber remained over night unsold, each day's transactions sweeping the docks clear. The contest between the bulls and the bears has been quite spirited, and while the latter claim that each day's transactions have shown a decided tendency downward, or at least a weakness on the part of the sellers, the former contend that their ground is well maintained, and point with satisfaction to empty docks and a well cleared market in evidence that what stock is not taken by one is wanted by another.

Prices have ranged at an average of about $9.25 on piece stuff, some cargoes of White Lake inferior grade selling at $9, while Muskegon and Manistee stock of ordinarily fair quality has brought $9.25 and $9.50, and even higher. Long lengths, of course, have sold at higher prices according to the proportion of desirable sizes and long lengths embraced in the cargo, and dry lumber has been quick at from 75 cents to $1 above green.

One-inch good average mill run, green, has ranged from $10.50 to $15, and higher grades of mill run, green, from $16.50 to $23. We hear of a quotation on 750,000 feet of dry inch of a fair average mill run ranging as low as $16.50 and as high as $16.50. Of course the condition of the stock and the percentage of pickings it will afford is the only true index as to values. In shingles, standards delivered at yard docks have ranged from $2.40 to $2.50, with star A at $2.55@2.60, and clears, $2.60@2 65. Shaded A have sold at 80@90 cents, but these should properly be classed as No. 1 when judged by the standard of Chicago rules. Green lath have sold on the market at $1.60. The range of prices quoted on the various items under consideration embraces the lowest and the highest of which we can learn. A great majority of the lumber arriving during the week has gone at once to the yards, and the offerings upon the market have in comparison been light.

CARGO QUOTATIONS.

Joist and scantling, green	$9.00@ 9.50
Mill run, choice, green	16 00@19.00
Mill run, medium, green	12.00@16.00
Mill run, common, green	10.50@11.50
Shingles, standard	2.40
Shingles, extra A	2.50@ 2.60
Lath	1.60

Receipts and shipments of lumber and shingles from January 1 to and including May 24:

	Receipts.		Shipments.	
	Lumber.	Shingles.	Lumber.	Shingles.
1881	252,978,000	120,265,000	220,082,000	38,792,000
1880	266,025,000	138,659,000	210,233,000	36,027,000

HARDWOODS.—Trade for the week has not been large owing to the scarcity of stock. Never in the history of the city have seasoned hardwoods been so scarce as they are to-day. The railway blockade stopped arrivals, and there was not enough dry lumber in town to bridge over the interval. There will be some relief soon as there is considerable lumber on the road, one firm having seventy cars that were due sixty days ago. Several cargoes have arrived since our last writing, but receipts by water are by no means free as yet. We notice one cargo of 100.000 feet of maple flooring, one of 140,000 feet of thick maple, one of 50,000 feet of basswood, and three mixed cargoes, composed largely of basswood, the balance being hickory, ash, cherry and birch. By rail we note the arrival of 300.000 feet of fine thick ash. There is a lot of walnut in Tennessee that the owner intended to place on this market last fall, but owing to bad weather the shipment of it was delayed, and it will come forward soon.

One firm at Bear Lake, Mich., has placed 1.200.000 feet of maple here this spring, and will place about 4,000,000 in all. Some of it goes to the yards, but quite a portion of it to the furniture factories. We stated awhile ago that about 8.000.000 feet of maple would probably come here from Michigan, but in the light of recent operations from 2,000,000 to 4,000,000 feet should be added to it. Some dealers who handle maple largely, are of opinion that the large receipts will cause a decline in prices. A lot of 50,000 feet of clear and flooring that will arrive soon was bought for $20 We know of but little, though, that was bought at such figures, prices ranging from $22 to $24, which is from $2 to $4 more than the manufacturers received last year. The furniture men use principally common for which they have paid on contract from $13 to $16.

The scarcity of dry stock has naturally had a tendency to advance prices. A box boards, in whitewood, have advanced from $2 to $5; everything in ash from $2 50 to $7; oak timber, $2; oak flooring from $3 to $4; cherry in both inch and plank, $5; maple flooring, $2; hickory axles, 4½x6, and 5x6, 25 cents, and sweet gum, $5. No good would come from revising the prices for walnut. At present it is a catch-it-as-you-can market, and prices are so varied, that no figures would be a correct guide. Within the past week we know of dealers asking $50 for culls, but we doubt if many, or any, in fact, have sold at such figures. Some of the furniture men are on the ragged edge, and hardly know whether to shut up shop, or try and weather it through.

Oak has grown firmer in most of the eastern markets, and scarce in some of them. At producing points short has not materially changed in price, but long is worth more. A gentleman who buys extensively for railways informs us that at some points in Indiana $2 has been bid above his contract prices of last winter. Usually, at this season of the year, manufacturers of oak lumber and timber come here to drive bargains with dealers and manufacturers, but if there has been one in the city for a month we have not heard of him. Nothing shows more clearly that all of their oak is sold at home at satisfactory prices. The unexpected firmness in the oak market has caught some of our dealers in bad shape. They have given their attention to securing other woods, knowing that oak was plentiful and little dreaming but it could be bought at last winter's prices at any time,

The making of more soft wood furniture than formerly has caused the veneer trade to improve wonderfully. The dealers in veneers are both busy and happy, and are carrying largely increased stocks. They have a larger proportion of foreign wood veneers than usual, the supposition being, we suppose, that if a man uses pine, basswood or whitewood furniture, he can afford to have it well faced.

THE EAST.

The Boston Commercial Bulletin as follows:

There is a moderate business doing in Western pine but the commission dealers complain that it is difficult to make any profit at the present high figures which they have to pay for lumber in the West. Fine common and better grades of Western pine are certainly in strong position. With the exception of walnut the market is well supplied with hardwoods. There is a fair movement, but trade is less active than a month ago. Walnut retains its strength. At a meeting of the furniture trade on Wednesday it was voted to recommend an advance in prices, owing to the higher figures on walnut and other woods.

We have to chronicle an easier feeling in spruce, owing to the heavy rains, which, it is thought, will secure all the drives to the millmen. The local demand for spruce is good and stocks are being taken from the wharves faster than the cargoes arrive. The best quality Hemlock is firm at old prices, but the poorer grades show a decline. Prices of city Eastern pine are well maintained but green stock is weak. Southern hard pine is firm at the rates quoting Clapboards are scarce—in fact, have not been in so

short supply for ten years. Shingles are firm at an advance of one-eighth of a dollar on the best grades.

FOREIGN.

The London Timber Trade's Journal to May 21st, says:

Prices at Messrs. Simson & Mason's sale on Wednesday were irregular enough; 1st Quebec spruce 12 ft. 3 x9 at £8 15 s. per Petersburg standard must be a dead loss to somebody, while 3x9 unsorted Miramichi fetched the rather respectable figure, according to late sales, of £7 5s., and 3x9 yellow deals, low quality, ex Pontecorvo, over 1,100 pieces, 11 to 21 ft. long, went at £6 10s.; the price for 5ths quoted lately by our Swedish correspondent f. o. b. was £5 5s., and freight and charges about 50s. additional, total £7 15s., showing a loss of £1 5s.

British timber importers are constantly threatened with the "great" continental demand—to stimulate their speculative faculties, we suppose; but when we look to cargo lists it is not easy to discover it, and at each year's end, when the returns of the timber shipping ports are made up, the quantities taken by this country completely overshadow those of the rest of Europe. In our list of clearances from the British American ports, at any rate, not one ship in ten is for any other country but the United Kingdom.

LIVERPOOL.

We are glad to say that there is every appearance of more business being done, the railway and canal companies' wharves wearing a more lively aspect than they have done for some time past.

The slightly better tone is owing in a great measure to the fact that the effects of our long and severe winter have passed away and we are now feeling the effects of that return to mild weather which is so necessary to the builders that we might reasonably have expected six weeks ago.

Several large public companies have been in this market recently; and as their orders are now being executed the consumption will in comparison with preceding ones be favorable as showing an increase.

As we said above, the general tone is better, though there are exceptions where such goods as oak wagon scantling, &c., have been imported, far beyond the requirements of the market, and the extent to which this has been done will have a material effect upon the price of Quebec oak for this season's arrival.

The latest mail advices from Rio Janeiro (May 4th), per C. A. Nathan & Co., are as follows:

Pitch Pine Deals—The arrivals consist of 285,682 feet per "Adela," from Darien, and 367,798 feet per "Amicus," from Pensacola, the former sold to arrive and the latter on arrival, both at 40$000 per dozen 3x9x14, at which price the market closes steady. We are informed that both the above-mentioned cargoes will suffer an abatement for sap, as in the cases of the cargoes per "Anita," "Berwind," "Herbert," "J. Olive" and others.

Spruce Pine Deals—No arrivals. Market unaltered, say 34$000 per dozen.

White Pine Lumber—Market weak at 105 reis per foot. We have to note two arrivals, both from New York, the "Galathea," with 197,373 feet, sold at 110 reis per foot, and the "Grace Andrews," with 175,000 feet, sold at 105 reis per foot.

NAILS.—Business has an irregular tone, and the reports vary in consequence. Sellers, however, do not seem to be gaining much advantage, and when any change is made on East, it is in favor of the buyer. Supplies are full and pretty well assorted, with an occasional intimation that holders would like to reduce accumulations a little faster, even if they allowed a quiet concession.

We quote at 10d to 60d, common fence and sheathing per keg, $3.10@3.15; 8d and 9d, common do, per keg, $3.30@3.40; 6d and 7d, common do, per keg, $3.55@3.65; 4d and 5d, common do, per keg, $3.80@3.90; 3d and 4d, light, per keg, $4.55@4.65; 3d, fine, per keg, $5.30@5.40; 2d, per keg, $5.30@5.40.

Cut spikes, all sizes, $3.30@3.40; floor, casing and box, $3.80@4.60; finishing, $4.05@4.90.

CLINCH NAILS.

1¼ inch, $5.50@5.60; 1¾ inch, $5.25@5.35; 2 inch, 5.00@5.10; 2½@2¾ inch, $4.75@4.85; 3 inch and longer, 4.50@4.65

PAINTS AND OILS.—Business is not very liberal at the moment, and the tendency seems to be toward a rather quiet tone all around. Consumption has passed the first spring flurry and jobbers are dropping back into the old form of operating only in small invoices suited to the immediate and urgent wants of the moment. Paris green is an exception, the cost of which tends decidedly upward in view of the demand from the country for use as a potato-bug poison. Leads in oil are unsettled, with a tendency in buyers' favor. Linseed oil has been very irregular under pretty heavy offerings of stock, and prices were reduced on all grades. Some outside parcels are said to have sold at quite a slaughter. For the time being valuations are slightly nominal We quote at about 50@52c. for city and 58@59c. for Calcutta from first hands.

PITCH.—The demand does not vary to any great extent, and in a general way the market remains nominally unchanged. Supplies sufficient for the present outlet. We quote at $2@2.15 per bbl. for City, delivered.

SPIRITS TURPENTINE.—The distribution on jobbing account has been moderate, and even on small lots buyers frequently gained some concessions. Parcels from first hands moved out slowly, and most of the business was of a speculative character. Prices have of late shown only moderate fluctuation. As this report is closed the quotations stand at about 37½@38½c. per gallon, according to the quantity of stock handled.

TAR.—The jobbing distribution keeps up to about the ordinary volume and at well supported rates. Large invoices, however, are not much wanted, and rather lack strength on the general line of values. We quote $2.50@2.75 for Newberne and Washington, and $2.50@2.87½ for Wilmington, according to size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.

Release and discharge of the Executor and Trustee of P. Hogg, Effie L. and George J. Laighton to Cornelius H. De Laurater, individ. and exr. and trustee as above. 25,500

MORTGAGES.

NOTE.—*The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.*

Whenever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

Plan 402—Charles st, w s, 100 n Sands st, raised 6 feet; cost, $415; owner, A. Haviland; builder, John Guilfoyle.

NOTES AND ITEMS.

Another mammoth elevator is to be added to the grain-storing and shipping capacity of Chicago. Geo. L. Dunlap has taken out a permit to erect a brick elevator, 103x380 in ground area and 142 feet in height, at the juction of the Chicago River and Thirty-third street, to cost $400,000.

R. Montgomery Sears, Esq., purchased, last week, the Brattle Square Church in Boston for $81,000, and which cost, ten years ago, $284,000.

It is probable that the valuation of real and personal estate now being made by the City Assessors of Brooklyn will show an increase of nearly $10,000,000 over that of last year. The tax rate is now on the average $2.69 per $100, and some members of the Board think by another year it will be reduced to $2.50 or even lower. The total valuation of real and personal property last year was $234,835,991.

Nautilus Hall, at Tompkinsville, has been repaired and refitted at considerable expense by its owner, George Law, Esq.

Nelson Sherwood, Esq., has purchased the Freeman property, at the corner of the Richmond and Old Town roads, Southfield.

The Sisters of Mercy have advertised St. Catharine's Convent, located at Houston and Mulberry streets, for sale. The property is valued at $200,000. The sisters intend to move up-town.

Work on the Bruff Elevated Railroad, on Washington street, is progressing rapidly.

After many days an effort is going to be made to clean out the Wallabout slip, called the offal dock. Proposals to dredge the slip and remove a sunken boat have been advertised for.

The new rapid transit company, recently organized under the name of the Myrtle Avenue Underground Railway, has a capital stock of $1,000,000.

The contract for building the rectory of St. John's Church at Clifton, S. I., has been awarded to J. W. Winmill, at $12,000.

Permission has been asked of the Queens County Board of Supervisors to build a draw bridge across Broad Channel, Jamaica Bay, to be used for railroad purposes. It is asked by a representative of a contemplated railroad to run from Canarsie to Rockaway Beach, connecting with the Manhattan at East New York. It is said that this project will meet with much opposition in Jamaica and Hempstead.

Three hundred workmen are to be put upon the new cathedral school at Garden City, L. I., in order that it may be completed at the opening of the school year in September.

A large building is to be put up at Bergen Point to be used as a smelting works for reducing Arizona and New Mexico copper. Heretofore this work has been done at Baltimore.

The growth of the West was never so great as it is this spring. One cannot pick up a newspaper either from Iowa, Kansas, or Nebraska, without reading of the demand for and the scarcity of dwellings.

The assessed value of real estate in New Jersey, according to the last census, was $436,032,638, sand of personal property, $126,215,985; the total atate indebtedness was $53,828,247.

CO PARTNERSHIP NOTICES.

STERLING & CO.—LIMITED PARTNERSHIP. NOtice is hereby given that a limited partnership has been formed by the undersigned, pursuant to and by virtue of the statutes of the State of New York, in such case made and provided; that the name of the firm under which said partnership is to be conducted is "STERLING & CO.;" that the general nature of the business intended to be transacted is a general commission business, and dealing in hollow ware, nails, iron goods &c.; that the names of all the general and special partners, interested therein, are: Henry S. Sterling, residing in the city, county and State of New York, and Frederick Sterling, residing in the city of Bridgeport, in the State of Connecticut, who are the general partners; and Walter Scott Andrews, residing in the said city, county and State of New York, who is the special partner; that the amount of the capital stock contributed by the said special partner, Walter Scott Andrews, is the sum of five thousand dollars; and that said partnership is to commence on the first day of June, in the year one thousand eight hundred and eighty one and is to terminate on the thirtieth day of April, in the year one thousand eight hundred and eighty-two.

Dated New York, June 1, 1881.

HENRY S. STERLING,
FREDERICK STERLING,
WALTER SCOTT ANDREWS.

CO-PARTNERSHIP NOTICES.

NOTICE IS HEREBY GIVEN THAT A LIMITED partnership has been entered into by and between Uriah Welch, Henry J. Haight and Edward C. Haight, all residing in the City of New York, pursuant to and by virtue of the Statutes of the State of New York in such case made and provided, and that the terms of such partnership are as follows:

First: The name or firm under which said partnership is to be conducted is that of URIAH WELCH.

Second: The general nature of the business intended to be transacted is the business of hotel keeping, to be carried on at the hotel, in the city of New York, now known as the St. Nicholas hotel.

Third: The name of the general partner interested therein, is Uriah Welch of the City of New York, and the names of the special partners interested therein, are Henry J. Haight of the City of New York and Edward C. Haight also of the City of New York.

Fourth: The amount of capital which each special partner has contributed to the common stock is as follows: the said Henry J. Haight has contributed the sum of Ten Thousand dollars in cash, and the said Edward C. Haight has contributed the sum of Ten Thousand dollars cash.

Fifth: Said partnership is to commence on the first day of May, one thousand eight hundred and eighty-one, and is to continue until and to terminate on the first day of May, one thousand eight hundred and eighty-four.

Dated, New York, April 30, 1881.

URIAH WELCH,
HENRY J. HAIGHT,
EDWARD C. HAIGHT.

DANIEL A. SHAW.—Notice is hereby given that a limited partnership has been formed by the undersigned, pursuant to the laws of the State of New York; that the name or firm under which such partnership is to be conducted is "DANIEL A. SHAW;" that the general nature of the business intended to be transacted by such partnership is the business of marine shells and other imported merchandise on commission or otherwise; that the names of all the general and special partners interested in the said business are Daniel A. Shaw, Michael J. Dunn, and Ira Bursley; that the said Daniel A. Shaw is a general partner and his place of residence is in the City and County and State of New York; that the said Michael J. Dunn is also a general partner, and his place of residence is in the City of Brooklyn, County of Kings and State of New York; that the said Ira Bursley is a special partner and his place of residence is in the City and County and State of New York; that the amount of capital contributed by the said special partner, Ira Bursley, is the sum of Twenty thousand dollars; that the period at which the said partnership is to commence is the 5th day of May, 1881, and the period at which it will terminate is the 5th day of May, 1884.

Dated New York, May 5th, 1881.

DANIEL A. SHAW,
General Partner.
MICHAEL J. DUNN,
General Partner.
IRA BURSLEY,
Special Partner.

THIS IS TO CERTIFY THAT THE LIMITED PARTnership formed between the undersigned on the 17th day of April, 1879, pursuant to the provisions of the Revised Statutes of New York, and commencing on the said 17th day of April, 1879, and terminating on the 17th day of April, 1881, has been renewed and continued to and until and will terminate on the 17th day of April, 1884. That the name or firm under which such partnership is to be conducted is R. E. MOORE. That the general nature of the business to be transacted is the buying and selling of paintings, engravings and objects of art to the business belonging.

That the names of the general and special partners are as follows: Rufus E. Moore, who resides in the City of New York, is the general partner, and James F. Sutton, who resides in the City of New York, is the special partner. That the said James F. Sutton has contributed the sum of Twenty Thousand Dollars to the common stock.

Dated this 23d day of April, 1881.

R. E. MOORE,
JAS. F. SUTTON.

THIS IS TO CERTIFY, THAT THE SUBSCRIBERS have formed a Limited Partnership, pursuant to the provisions of Title one, Chapter four, Part two of the Revised Statutes of the State of New York, and of the several Acts amendatory thereof for the transaction of lawful business within the State of New York, to be conducted under the name or firm of KEMEYS & BABCOCK; the general nature of the business intended to be transacted is a General Commission Business, including the buying and selling of stocks, bonds, gold, securities, bills of exchange and commercial paper, exclusively on commission, in the City of New York; the names of all the general and special partners interested therein and their respective places of residence are as follows: general partners, Edward Kemeys and Henry D. Babcock, both of the City of New York; special partners, George G. Haven and Samuel D. Babcock, both of the said City of New York; the amount of capital which said special partners have contributed to the common stock is two hundred thousand dollars, in cash, namely: one hundred thousand dollars by said George G. Haven and one hundred thousand dollars by said Samuel D. Babcock; the partnership is to commence on the second day of May, one thousand eight hundred and eighty-one, and will terminate on the thirtieth day of April, one thousand eight hundred and eighty-four.

HEERMANCE, DICKINSON & CO.—CERTIFICATE of limited partnership between G. Hilton Scribner and William L. Heermance, of Yonkers, Westchester County, State of New York, and Henry A. Dickinson, of the City of New York.

This is to certify that the undersigned have formed a limited partnership, pursuant to the provisions of the Revised Statutes of the State of New York.

1. That the name or firm under which said partnership is to be conducted is HEERMANCE, DICKINSON & CO.

2. That the general nature of the business to be transacted, is the dealing on commission in provisions and staple produce, and of storing and warehousing such goods, and other goods, for hire.

3. That the names of the general and special partners are as follows: William L. Heermance, who resides at Yonkers, Westchester County, State of New York, and Henry A. Dickinson, who resides at the City of New York, are the general partners, and G. Hilton Scribner, who resides at Yonkers, Westchester County, State of New York, is the special partner.

4. That the amount of capital which the said special partner has contributed to the common stock is the sum of twenty-five thousand dollars ($25,000.)

5. That the said partnership is to commence on the 21st day of May, 1881, and is to terminate on the 21st day of May, 1883.

Dated New York, May 21st, 1881.

(Signed), WILLIAM L. HEERMANCE.
(Signed), HENRY A. DICKINSON.
(Signed), G. HILTON SCRIBNER.

City and County of New York, s. s:

On this 21st day of May, 1881, before me personally appeared William L. Heermance, Henry A. Dickinson and G. Hilton Scribner, known to me, and to me known to be the individuals described in, and who executed the foregoing certificate, and severally acknowledged that they executed the same.

W. C. KING,
[L.S.] Notary Public,
City and Co. N. Y.

CERTIFICATE OF LIMITED PARTNERSHIP.—We, whose names are subscribed hereto, being desirous of continuing the limited partnership heretofore formed pursuant to the laws of the State of New York, have agreed and do hereby agree and certify as follows:

First. The name or firm under which such partnership is to be conducted is "HILMERS, McGOWAN & CO."

Second. The general nature of the business intended to be transacted by such partnership is exchange and general brokerage, and its principal place of business is in New York City, in the County and State of New York.

Third. The names of all the general and special partners interested in said business are as follows, to wit:

The general partners are Herman C. Hilmers, whose place of residence is the said City of New York; Henry D. McGowan, whose place of residence is the City of Brooklyn and State of New York, and John W. Balfour, whose place of residence is the said City of New York.

The special partner is James Jennings McComb, whose place of residence is the said City of New York.

Fourth. The amount of capital contributed by the special partner to the common stock and continued therein is eighty thousand dollars.

Fifth. The period at which said renewal of the partnership is to commence is the first day of June, one thousand eight hundred and eighty-one, and the period at which it will terminate is the first day of June, one thousand, eight hundred and eighty-five.

Witness our hands and seals this thirty-first day May, one thousand, eight hundred and eighty-one.

City and County of New York, } s. s.:

Herman C. Hilmers being duly sworn, deposes and says that he is one of the general partners named in the foregoing certificate, and that the sum of eighty thousand dollars specified in the said certificate to have been contributed by the special partner therein mentioned to the common stock of the said copartnership has been heretofore actually and in good faith paid in cash, and is continued in the business.

H. C. HILMERS.

Sworn to before me this 31st day of May, 1881. } C. S. SIMPSON, Notary Public, N. Y Co

Communications should be addressed to

C. W. SWEET, 137 Broadway.

J. T. LINDSEY, Business Manager.

It seems the famous Arcade scheme is to be revived. Melville D. Smith, its originator, sometime since secured the charter of the Beach Pneumatic Tube through Broadway, and has had that document so altered by the Legislature that it enables him to introduce all the old Arcade features. The Governor has approved the charter as amended by the Legislature. If Mr. Smith can carry out his programme, we will have an underground Broadway, 80 feet wide, lighted by day with patent lights and at night with the electric light capable of accomodating through and way trains, as well as all kinds of vehicles, and which would connect the Forty-second street depot with the Battery. If carried out it will make Broadway the most valuable thoroughfare in the world, for the hotels and great stores will cluster on the street which has a monopoly of delivering goods and passengers from steam cars at their basement steps.

This enterprise must not be confounded with the Central Underground road, of which General McClellan is the nominal head. The last has been on foot for a great many years, and every few months the daily press tells the wonderful things it is going to do. But so far all its performances have been in the newspapers. It is rumored that the Vanderbilt interest is back of this new Arcade scheme, but it is so immense an undertaking that we would prefer to see the list of incorporators and the amount subscribed, before taking it for granted that such a road will be built.

The situation in the labor market is causing serious disquiet among builders and those who have large contracts ahead. The unpleasant fact stares contractors in the face that there is a scarcity, not only of skilled, but of all kinds of labor. In some cases hodcarriers get as much as $2.50 a day and bricklayers are making their boast that they may yet demand $5 a day. The building activity is extraordinary and the outlook is entirely favorable, except on this one vital matter of the price of labor. Persons making contracts ahead, should consider this matter. It would, we judge, be wise to take large contracts ahead for building materials at their present rates. There is every prospect of an enhancement in values during the coming fall, for while consumption is enormous, supplies are light and as the price of labor is rising in every department of trade, there is a fear of an enhancement of values. It is an undoubted fact that there is a scarcity of not only skilled, but of common labor in the building trade.

Certain amendments to the mechanics' lien laws have been under consideration in the Assembly, which, if passed, and approved by the Governor, would doubtless put a stop to any new building enterprises in this city until the next Legislature would again amend the law. Had these amendments passed, every claim of the laborer or mechanic would have taken precedence of a mortgage or any other means of raising money for prosecuting the work of building. Of course money could not be borrowed, as the lender would not run the risk which the law would impose. Happily the most dangerous amendments have been eliminated, and the act, if it passes, leaves matters about as they were. It puts, however, the burden of proof upon the mortgagee. There will be a sense of great relief when this Legislature adjourns, for while it is in session there is danger of the passing of enactments which would affect most injuriously the business interests of the community.

WHO GETS THE WEALTH?

Henry George has written a very remarkable work, entitled "Progress and Poverty." It has already passed through several editions, and has been translated into French and German. Political economy as taught in England and France has never been popular in this country, and the American writers who have upheld the doctrines expounded by Bentham, Cobden, Mill and Bastiat have not had large followings. Mr. George's work criticises unsparingly the underlying principles of the political economy taught in the schools of the Old World. This part of his work seems to us striking and valuable. His remedy for the ills of society is not so happy, nor will it meet with acceptance, but the point he particularly insists upon is vital to real estate owners or those who expect to become such. According to Mr. George it is written in the book of fate that the owners of the land must in time monopolize the wealth of the State. He alleges that, as society progresses, rent swallows up the profits of production, reduces the wages of labor to a minimum, and, in time, takes to itself the natural increase of capital. In other words, that as all wealth is derived from the land by labor, as the population becomes denser the competition for land results in the gradual absorbtion of all the wealth of the community by the landowner. Where land is abundant and population sparse, wages are high and the rate of interest generous. But the more efficient labor becomes the better, it is organized, the poorer the pay, and where wealth is concentrated in the largest masses the rate of interest rules low. The carpenter in the mining region to-day earns six dollars a day; one per cent. a month for the use of money is not considered excessive, but three per cent. per annum is all that money is worth on call in this city, while the carpenter is satisfied with three dollars a day.

Mr. George's cure for the ills of society is that all the taxes should be levied on real estate, so as in time to confiscate it for the benefit of the community. He would have the Government the only landowner. This idea is not new, for it has been advocated by Turgot, Quisnay, and Herbert Spencer. But to get rid of private property in land is so purely theoretical and fanciful that practical men need not discuss it.

But is Mr. George's leading idea true, that the landowner is destined to absorb the wealth of the world? Undoubtedly private property in land in a growing community is the surest and safest of all investments. Stocks may go up or down, but as population becomes denser, the average price of land steadily rises. This is proved by the past history of the country. True, railroads, by rendering large sections of wild lands available, have equalized values, and have rendered some Eastern farms temporarily of less value than they were. But the average of price has been a rising one, even in the worst of times. From this it follows that where land is bought at its market value and held, it is the most certain of all investments. This has proved true in all settled countries like Great Britain. It is the great landlords who are the richest and most powerful. The most solid fortunes in city, State, or nation are those which are based on realty. The corporate enterprises of modern times, including the handling of great national debts, have gathered a large share of the wealth of the community into the hands of bankers and large owners of corporate securities. In the middle ages and down to recent times, it was the merchants who made the most money. But the telegraph is rapidly taking away the profits from trade by equalizing prices the world over. Where are now our merchant princes? Our very rich are the bankers and railway manipulators. A. T. Stewart was only a great shopkeeper. It was as a retail dealer that he was best known to the world. But may we not be passing through a transition era, when the exceptional wealth of the railway manipulator will find its way in the pockets of the owner of realty? This is clearly the view of Mr. Henry George, and he looks for the time when the landowner will be recognized as the master of labor and the controller of the available capital of the community.

THE SITUATION IN THE STREET.

The stockmarket has some very peculiar features. After the great spring rise, it was but natural that there should be some hesitancy in the market. Many of the operators were off to Europe, others sold out and there was a general willingness that prices should go off. There is every reason to believe it would have fallen off much more, were it not that the bears overdid the business. All the active members of the board were selling short and they succeeded in depressing New York Central, Lake Shore and Erie. But the rest of the market was stubborn. The outside stocks were marked up and Jay Gould and Woerishoffer kept their specialties well in hand. The current belief in the street

now is that there cannot be any serious break while Gould is developing his Southwestern scheme. His friends say that the new stock and certificates of Western Union will sell at par, Missouri Pacific at 130, Kansas & Texas at 160 and Texas Pacific at 90, before Gould will give his signal to unload.

There is immense activity in railway circles and large calls for money. Where the money comes from to take up all the bonds, is a standing puzzle to the street. There is a very rapid absorption of capital all over the country, not only in new railways but in buildings. What we see in our own streets is parallelled all over the country. This, in time, ought to add to the value of money. Yet it is the impression of Fiske & Hatch that money will loan this summer at less than 2 per cent. We adhere to the impression that sometime during the summer there will be seen the highest prices ever paid for stocks.

THE FALL PROSPECT.

Some far-sighted speculators are under the impression that the early fall will witness an advance in prices in other saleable articles than stocks. These last have had a great advance, due in part to the great cheapness of all usable products, and the great additions to our currency. But is not consumption overtaking production in some articles? Take the metals, for instance. It is known that the supplies of copper and lead are light, and that the consumption is enormous, but buyers have got so habituated to low and steady prices, that they purchase literally from hand to mouth. A little extra demand would put the price of all the metals up several points. The state of the markets shows that general business was never so active. The exchanges during the month of May were extraordinarily large. The strikes of the mechanics and laborers, and the success which attends them, shows that business is everywhere active, and manual labor in demand. There is no cloud in the sky so far as the business world is concerned. The banks are increasing their issues; the Treasury keeps on coining silver dollars and issuing certificates against them; exchange keeps low enough almost to induce gold shipments. In short, there is every reason to believe, even should the crops not be up to the average, that immense business activity will prevail during the fall season. The cheapness of money all over the world has so far affected government bonds and first-class public securities. Its next effect will be to swell the volume of prices and all merchantable articles will be affected. And then will come the time for real estate. It will be the last to boom, but it is the surest and wisest of all investments.

THE LEADERS OF THE "STREET."

In Wall street there are always certain noted people whom the smaller speculators follow. Now it is one person, then another; but the most powerful operator is he who for the time can command the largest and the strongest following. There have been some important changes recently. For a long time James R. Keene was one of the magnates in the speculative arena, but he lost prestige in the spring of 1880, for he got on the wrong side of the market and stayed there. What little credit he had left, he has lost entirely during the past spring, as he stuck to the bear side all through a bull market. He has no following to-day, though he still influences powerful newspapers. He is so disgusted himself with his position, that he seriously talks of confining himself to the mining business, in which he is at home.

Next after Jay Gould, the most powerful manipulator of stocks is Charles F. Woerishoffer, the German banker. His ability to mark prices up and down comes chiefly from his German following. He has Amsterdam, Hamburg, Berlin and other great German cities behind him, and this gives him a large American following. His specialities are St. Paul, Denver & Rio Grande, Colorado Coal, Ontario & Western; but he does not confine himself to these stocks, for he is a heavy dealer in New York Central and Lake Shore. There is a story to the effect that on the Saturday when the refunding scheme was announced, his chief clerk asked him what he should do on Monday morning. "Buy," said Mr. Woerishoffer, "500 shares of every stock on the list." He is understood to be a bull on the general situation to-day. Mr Woerishoffer is not only taking Keene's place, but has been his active Wall street opponent. He accuses Keene, it seems, of playing him false in a deal in Ontario & Western, and he has gone for the Californian with great effect in St. Paul and other stocks of which Keene was short.

Should there be a great fall in stocks, ex-Surrogate Hutchings will come to the front as one of the most daring and far-seeing speculators of the day. Should, however, the market continue strong or become bull again, he will not only lose credit, but a portion of his large fortune. He was wonderfully successful in the fall of 1879 and the spring of 1880, as well as in the fall of 1880. He is, however, a sensational operator, and may come to grief through over-confidence in his own power.

REAL ESTATE TITLES.

Mr. Dwight H. Olmstead is now preparing the draft of a law to be submitted to the Legislature next winter, having for its object an important and far-reaching change in the official registry of real estate titles. Mr. Olmstead declares that the present system cannot last much longer; that there is such an accumulation of indexes that it has become physically impossible to make a perfect search of a title to real estate. It has got to be so onerous to search a title that lawyers accept the official transfers as accurate, when they know that there is great liability to error, not from fraud, but because of unavoidable mistakes in the copying out of papers.

The writer had a conversation with Mr. Olmstead on this subject during the past week, and was much impressed by the facts which were brought out. Mr. Olmstead showed him several of the printed abstracts of title, which, it was plainly to be seen, would take a world of labor to verify. It has been proposed in other quarters to get rid of the verbiage and leave out the technicalities which now cumber the deeds and indexes. In short, that the deed, like a well-written letter, shall tell the story of the transfers without any unnecessary words. But Mr. Olmstead wants to do more than this. His object is to give every real estate owner a title which is as certain and as easily transferred as if it was a Government bond or evidence of ownership in a railway company. Why, he asks, should not the possessor of a piece of realty be able to transfer his evidence of ownership as readily as Vanderbilt or Jay Gould could buy or sell ten thousand shares of railway stocks? That can be done in a few minutes; but when Gould or Vanderbilt purchases real property he must submit to tedious delays, and even then is not sure of his title. In short, Mr. Olmstead would get rid, if he could, of all the legal fictions and survivals of feudal usages which surround the transfer of real property from one person to another.

"When I delivered my lecture," said Mr. Olmstead, "on this subject, I supposed the politicians and lawyers would very generally oppose any change; but I find that I was mistaken. I have received scores of letters from lawyers, warmly advocating the change. They all admit the evils of the present system and say they cannot do their clients justice."

A reform, such as that proposed, would have many important consequences. It would abolish the right of dower, as well as the courtesy in an estate. Land would be capitalized and certificates of ownership would be negotiable in the banks. Business would be enormously stimulated if titles to real estate could be used as collateral for call and time loans. In other words, real estate would become a collateral on which money could be temporarily loaned. This, in itself, would be an immense stimulus to trade all over the country. Its effect on prices would also be worth considering. Would not realty become very much more valuable, if it could be readily bought and sold. It is safe to say that it would add from two to three hundred millions to the assessable value of land on this island.

Mr. Olmstead is hopeful that this matter may be taken up by the great insurance and money lending corporations. They are now forced by law, in their charters, to invest a great portion of their assets in realty. The reform proposed would save them time, money, and give them perfect titles which they cannot have under the present system. It would do much more; for if their real estate was immediately negotiable like bonds and stocks, it would be a far more desirable investment than now.

The present system is certain to break down within a few years. The indexes are accumulating so rapidly, that the most acute and industrious lawyer despairs of being able to search titles properly. All we have to do is to copy the New Zealand law, to rid ourselves of the doubt about our titles, and the needless expenditure of time and money in selling or buying real estate.

ABOUT FINANCIAL WRITERS.

The agent of the Associated Press, over his own name, charges that there is a regularly organized conspiracy on the part of certain persons to disseminate false news for the purpose of depressing values on the Stock and Produce Exchanges. The *World* newspaper says that this "syndicate of liars" has wide ramifications, that they have Chicago and London agents, and that at least three New York papers are in their interest. It is undoubtedly true that the New York *Herald*, in its financial columns, has done all it could to help the bears in stocks. Any one influenced by the *Herald* lost his money, for it has told all the bear stories and given them currency.

The *Herald* has vainly tried to keep its financial columns pure, but, notwithstanding the care exercised, the temptation has been too much for the various editors. Among the people who are said to have made money out of the *Herald* this way were John Bonner, the defaulter, and Edward N. Hudson. But few of its financial editors, in thirty years, have not used the paper for their private ends. A sketch of the financial editors of the daily press would be very instructive. One money editor of the *Tribune*, named Snow, died worth a quarter of a million of dollars, while his salary was but twenty-five dollars a week. He was succeeded by a man named Clark, who made a fortune while financial editor of the *Express*. The Brooks Brothers sued him for the money he made, but while the suit was pending, the *Tribune* appointed him its financial editor. The *World* had a financial editor for the first twelve years of its existence who used the money columns of his paper for his private gain. The managing editor tried to oust him, but could not do it, as he was backed by the publisher and chief proprietor. But all financial editors are not dishonest. The chief writer on the *Tribune* is nearly always wrong, but no one doubts his incorruptability. The *Evening Post*, also, is well served in this respect. The readers of its money articles can rest assured that they will not be tampered with, as the writer is an honorable gentleman. The new management in the paper did a wise thing in retaining his services.

It cannot, however, be said that a perfectly trustworthy money article appears in any of the New York papers. With the two exceptions named, they are all suspected of being in the interest of the great speculators of the day. James

R. Keene, although nobody in the street to-day, is very powerful in the press, and is the inspirer of the bear articles and talk which is served up by the morning and afternoon journals.

MINING INFORMATION.

Subscribers to Bradshaw and Washington stock have been delayed in getting their certificates because of a number of calls that were out to favored persons. It seems that in order to float the stock of these two companies Keene, Prince & Whitely, Logan, or whoever were the chief manipulators, gave calls to certain brokers and influential men below the subscription price. It may interest persons who subscribed to know that their broker or the gentleman who urged them to do so got one or two hundred shares of Bradshaw and Washington—the one for $2.50, the other for 75 cents. Still, the properties may be good ones to deal in, and those who were first in will probably make a profit.

A gentleman just from California says that "Jim" Fair told him that there will soon be music on the Comstock. It would not be a matter of surprise if a new bonanza was unearthed. But New York traders would do well to keep out of the San Francisco market. There are plenty of mining stocks to gamble in here, and one has a better chance of saving his money by dealing in home securities. Buying mining stocks on the Comstock puts you at a disadvantage, for you are one day behind the quotations. So mercurial are stocks on the Pacific coast that the difference of a day is often the difference of a fortune.

There has been a spurt in Horn Silver, but we have reason to believe the property is very badly managed. The gentlemen having it in charge formed wide connections in the steamship business, but so far every outside enterprise they have touched has been a disappointment. Horn Silver is a wonderful mine, and in competent hands would pay dividends, but the present stockholders must be contented with promises so long as the executive officers now in control retain their position.

The Hukill mine shares are depressed just now, but there are whispers that it is for a purpose. John W. Mackay is largely interested in this property as well as several adjoining mines. He is said to have $300,000 invested in Colorado at the suggestion of his friend Osbeston of the Hukill. The next deal may be in the Clear Creek county mines, which have been very quiet for some time past.

The last payment of $40,000 on the Silver Cliff was made last Tuesday, All that the company now owes is $45,000 on a note due next November, on money advanced by James R. Keene. Every effort is made to conceal the assays and the most contradictory reports are afloat, but the large holders of the stock will not sell it.

The speculation in Arizona copper stocks continues, but they are very dangerous, as the investors in Old Dominion copper will find out some day.

Persons who know about the Con. Virginia mine are surprised at the recent purchases. The mine is worked out and assessments are now in order; but Colonel Fair told Mr. Robert Barton, ten days ago, that there was money to be made in the Comstock. But eastern people would do well to keep out of it. The Standard of Bodie continues to pay its regular 75 cents a month dividend. The officers claim that there are several years' dividends still in sight, while it is hinted that some of the new developments promise rich results. The stock has been stronger lately.

We have received certain statements from the office of the Brettenstene Silver Mining Company, which we decline to publish. The *Tribune* and other journals, giving mining information, for the sake of their advertisements, publish these *ex-parte* statements. But we cannot give them to the public, unless we know they are true. At least one of the persons who figures as an officer of this company, has had an unfortunate record in connection with other mining enterprises.

WHAT NEW YORK NEEDS.

A KEW GARDEN WANTED IN THIS CITY—WHY WEST SIDE PROPERTY MUST ADVANCE.

"We ought," said Mr. Dwight H. Olmstead, "reproduce the Kew Gardens in Central Park. The forty acres west of Mount St. Vincent, known as the meadows, would make a magnificent site for a palace of iron and glass, containing an immense botanical garden in which rare plants from all parts of the world would be exhibited It would attract tens of thousands of people to our city had we anything as good even as the *Jardin des Plantes* in Paris."

"What else should be done ?" asked the writer.

"We should immediately improve all our parks, that is Manhattan Square, Morningside Park and Mount Morris. It may interest you to know that Wray Mould, the architect, has furnished a beautiful design for the drive on the top of the hill which overlooks Morningside Park. I doubt if many New Yorkers realize what a charming region that will be, as soon as the park and drive are finished. I believe that hill will yet be the choicest quarter of this island and the most valuable."

"Why," asked the writer, "is the West Side so backward, in view of the special efforts that have been made to attract public attention to it ?"

"I look," said Mr. Olmstead, "for a rapid building movement on the West Side during the coming two years. House property has advanced, I think, all it should ; lots are very cheap compared with houses. Mr. Clark, you know, is digging the foundations for the fine blocks of houses he proposes to build in Seventy-third and Seventy-fourth streets and Eighth and Ninth avenues. A number of other builders have contracts out, and I think I am safe in saying that the ground between Eighth and Ninth avenues and north of Seventy-second street, will soon be the scene of great building activity. Lots now range from $5,000 to $8,000 apiece, and see how much cheaper houses can be furnished on the West than on the East side. A $12,000 house, built on a $7,000 lot, can be sold for $23,000 to $25,000. But a $12,000 house on a $12,000 lot would not be offered for less than $28,000. I think next fall will see a rapid equalization in the values of desirable lots. The Metropolitan Elevated road people have discovered that they cannot run swift trains. The passage of the trains and the stoppage is jarring the structure, so as to necessitate the rebuilding of the elevated tracks in a very few years. This slower train service will hurt to the region north of the Harlem River, but it will help property just west and north of the Central Park. Population will cluster along the line of the elevated roads, especially near the depots. There is a great deal of property bought on Tenth avenue in a quiet way. This is one of the longest, straightest and finest avenues in the city. I am inclined to believe that the Hudson River road on the West Side will be in demand as a means of rapid transit. The old track, you know, runs along the edge of the river down to Thirtieth street, and might just as well be used if a connection was to be made with the elevated road."

There was much more said that was interesting, but this will suffice for one day.

COMFORT FOR THE BULLS.

The *Public* points to the immense increase in exchanges to show how wholesome is the general condition of trade. The business of May exceeded that of any other month in the history of the country. The returns for the first week in June show no falling off. After reviewing the situation from every point, the editor of the *Public* comes to the following conclusions:

(1) The money market is more favorable than it ever has been for ten years to a great advance in prices of securities. In fact, its condition is such that a gigantic speculation seems to be almost inevitable. (2) The business of the country is larger and more prosperous than it ever has been before. (3) The buying of good securities by solid investors, home and abroad, has gone so far already that Wall street undoubtedly holds fewer of such stocks than it has held at any other time in ten years. (4) The confidence of foreign investors has been incalculably increased by the startling success of refunding operations. (5) The antagonism which formerly existed between Messrs. Vanderbilt and Gould has given place to such perfect accord that they find it difficult to keep up the pretense of fighting when executing one of their little theatrical performances for the delusion of the dear public.

This is all very well, but the market has been "ragged" for the last eight days, and were it not for Woerishoffer and Gould it would have gone much lower. The street operators are all bearish, and the market is sensitive to reports about the crops. Some very longheaded operators think that the market will be lower before it is higher.

OUT AMONG THE BUILDERS.

J. McKenna will erect a brass foundry, 50x98.9, at 424 and 426 East Twenty-third street, from designs by J. M. Dunn. It will be of brick, 2 stories high in front and one in the rear; cost, $7,000.

The new two-story pier, soon to be built by the Pennsylvania Railroad Company, at the foot of Sussex street, Jersey City, will be 500 feet long by 130 in width. It will be covered with corrugated iron. Double tracks, leading to the tracks of the railroad, will be laid for freight cars along the pier. The largest Atlantic steamers can receive Western freight direct from the cars alongside this pier. J. J. Richards is the architect, and the cost from $90,000 to $100,000. There will be a dock on each side, about 190 feet wide.

Some $450,000 have been appropriated for the purchase of a site and the erection of a House of Refuge for Women, outside the limits of New York and Kings Counties. It is for the benefit of women all over the State outside these counties, not under sixteen nor over thirty years old, who have been guilty of the minor crimes only. The following persons have been appointed managers: Congressman William A. Sackett, of Saratoga; Benjamin D. Hicks, of Queens County, and Edward Clark, Mrs. Dr. Guernsey and Mrs. Charles S. Spencer, of New York. They are to hold office for from one to five years.

Considerable discussion is going on over the proposed new bridge across Harlem River at Madison avenue. Whether it shall be a stone structure or trestle-work bridge is the problem to be solved by the Park Commissioners.

Mr. Hume has draughted plans for the south wing of the little building now approaching completion at Westchester. It is owned by the New York Catholic Protectory. It is a part of a building having a frontage of 300 feet, and will cost $50,000. He also designed the parochial residence now being built at Westchester by the same society which is to cost $20,000.

Plans were prepared by the same architect for the new insane asylum being erected at Harrison, N. Y. It will be 50x100, four stories high, and will cost $40,000.

Mr. Charles Banks is now laying the foundation for a first-class brown stone house at No. 14 West Fortieth street. It will be 25x60 feet, two-story extension running back to the rear of the lot. The main building is to be four stories high with basement. An elaborately finished bay window will extend through all the stories of the front. W. H. Hume designed it. Cost, $45,000.

On One Hundred and Twenty-second street, near Lexington avenue, the Reformed Dutch Church of Harlem will build two private residences from designs of Mr. Hume. They are to be 14x56 feet, three stories high, with basement and cellar, and built of Philadelphia brick with stone and terra-cotta trimmings Cost, $20,000.

The same association will build a house in One Hundred and Thenty-third street, 22x38 feet, and three stories in hight. It will be of the same material, and cost $7,000. Architect same as last.

The Hotel Brunswick, at the corner of Twenty-seventh street and Fifth avenue, is to be enlarged by an additional seven-story building in the rear of the hotel. It will be 50x85 feet, and will cost $68,000.

Brooklyn.

At Ewen street and Graham avenue a new Roman Catholic church is going to be built on the site occupied by Trinity Church.

Jersey City.

G. W. La Bau & Son have drawn plans for four first-class flats, to be erected on Eighth street, between Erie and Grove streets, 28x80 feet, and four stories high, with basement. They will be constructed of brick, with stone and terra-cotta trimmings, and cost $35,000.

Charles E. Gardner will build a store and flat at the corner of Eighth and Grove streets, from designs of G. W. La Bau & Son. It will be four stories high with basement, 25x65 feet, with Philadelphia brick front and side, and stone trimming. It will cost $12,000.

The same architects have draughted plans for a flat on Eighth street, between Coles and Jersey avenues, 25

x56 feet, four stories in height, with cellar. It will be of brick, with stone trimming, and cost $8,000. Prof. J. M. B. Dwight is the owner.

G. W. La Bau & Son have plans for a suburban frame residence, 22x50 feet, and three stories high, with basement; cost, $5,000.

On Grove street, corner of Bay, Mrs. Williamson will build six apartment houses, 25x57 feet, and four stories high. The first floor is to be used for stores. They will accommodate eighteen families in all, and cost $36,000. L. H. Broome is the architect.

Wm. B. Van Vorst is going to build a two-story brick stable, on Montgomery street, corner of Monmouth, from designs by Mr. Broome. It will be 27x40 feet, and will cost $7,500.

THE HEBREW ORPHAN ASYLUM.

On August 1 this association will break ground for an Asylum on Tenth avenue, between One Hundred and Thirty-sixth and One Hundred and Thirty-eighth streets. It is expected that the structure will be completed on May 1, 1883. It will face on Tenth avenue, with a front 50 feet back from the avenue line. The whole frontage on Tenth avenue will be 250 feet. The main or central building will be 60x150 feet, four stories high, with two wings 50x145 feet, and three stories in height. It will be constructed in the Rennaisance style, of pressed brick relieved with stone trimmings from the Little Falls quarries. The avenue front is to be arranged for the administration department of the institution. In front of the main edifice will be found a tower extending an additional story, and terminating in a steep mansard roof. The approach to the building is through a porch forming three sides of an octagon; advancing, we come to the vestibule, 11x20 feet; next we reach the main hall, 20x50 feet, out of which rises the grand staircase. Corridors 10 feet wide run north and south from the main hall. To the right as you enter is the general office, next the superintendent's office, and library, with trustee's room at the end of the corridor. This latter is a very fine room, 23x47 feet, lighted from the centre by a large bay window, on either side of which are mullioned windows. On this side of the structure, opposite the library, are two committee rooms. On the left as we enter are the reception rooms and ladies' sewing room, which is the same in style and size as the trustees' room. Class rooms for girls are located in the first story of the south wing, and for boys on the first story of the north wing. Off the main hall is the physicians' examining room, dispensary, ante-room, toilet rooms, &c. In the rear of the first story may be found the lecture-room, which will accommodate 500 persons. Still back of the lecture-room is the dining-room, reached from the main hall and either wing by a broad corridor. Passing on we reach the kitchen and necessary store rooms, while yet further in the rear is a detached building used as a boiler-room and laundry. The edifice is amply provided with retiring-rooms, water closets, hat and cloak rooms, &c. On the second story front is a suite of four rooms for the Superintendent and his family, which is reached by a private hall. There are also rooms for the Assistant Superintendent and matron. The second story of each wing, together with second story rear of the main building, are arranged as dormitories to accommodate 100 children each. Each dormitory has attendant's room, blanket-room and a wardrobe sufficiently large to keep the clothing of each child separate. To the rear of each dormitory is a lavatory fitted with slate troughs, so that a whole class can wash at once. Here are baths, water closets, &c. The third story is arranged similar to the second. The resident staff, teachers and others having rooms on the front, while the wings and rear of main building are arranged as dormitories same as the story below. The fourth story consists of the main building only, separated into two infirmaries, one for boys and the other for girls. The rear portion is reserved as an auxiliary dormitory. In the basement will be found the children's play rooms, baths, water closets and two swimming baths, which will meet the wants of forty children. A general view of the plans shows a very complete arrangement of the stairs, there being six pairs in all running from the basement to top. They are placed so as to give an exit at the end of each projection of the building, thus rendering it almost impossible to close the avenue of escape in case of fire or other peril. All the rooms open on the external air, doing away with artificial light. A novel feature is that you do not have to pass through one room to reach another. The stairs are inclosed in brick and iron, rendering them entirely fire-proof. The building will be heated by steam and have improved appliances for ventilation. Mr. W. H. Hume, who won the right in competition to draught plans for the building, has carefully studied the details so as to meet the wants of the children, who will find a home here. The structure will accommodate 600 children and cost $250,000.

NEW YORK REALTY AT ALBANY.

[From our own Correspondent.]

ALBANY, June 9.—But little legislation has been done this week, but there are several bills affecting streets and improvements in the upper part of the city of New York, which are liable to be reached and acted upon whenever an hour or two is found to devote to law making. On Monday three bills which have passed the Senate, and sometime pending in the Assembly, relative to changing the map and opening streets in the section west of Eighth avenue from One Hundred and Thirty-fifth to One Hundred and Fifty-fifth street were all ordered to third reading in the Assembly, and may be passed before the week ends.

The act alluded to last week relative to further supply of water for New York, which gives all the necessary power to build another aqueduct, has passed both houses, and only awaits the approval of the Governor to become a law.

The act to prevent waste of water in the city, giving the Commissioner of Public Works power to adopt such measures as he may deem best for that purpose, has passed the Senate and ordered to third reading in the Assembly.

The bill providing additional means for the improvement of Riverside park and drives has also passed the Senate, but it was only yesterday announced in the Assembly.

The act to secure the registration of plumbers and the supervision of plumbing and drainage by the Boards of Health in New York and Brooklyn was approved by the Governor last Saturday, and is now the regulation for all who construct buildings in those cities.

The Governor has also signed the bill for the removal of the old distributing reservoir on the Fifth avenue, extending from Fortieth to Forty-second street, and the conversion of the site into a park.

The second bill for the opening of Lexington avenue through certain blocks in Harlem, requiring the change proposed to be placed on the map of the city, has also been signed, as has also the bill for the improvement of the parks and places in the Twenty-third Ward at the intersection of Third and Boston avenues. Also of Franklin and Fulton avenues.

The Governor has signed the bill reviving the charter of the Beach-Broadway Underground Railroad. This gives two charters for underground railroads which run over the same routes, except from City Hall to Fourteenth street, one being under Broadway in that section, and the other east of that thoroughfare for that distance, but intersecting below City Hall and above Fourteenth street. The approval of this measure will prevent the introduction of a road for some time, unless the two parties behind the two projects compromise and combine. If that is not done, litigations in court will follow, lasting—no one knows how long, and it is hinted that the litigations and delay was one of the purposes of the approval of the bill, as an indirect step to prevent competition with the elevated railroads.

The Governor has vetoed the bill to revive the charter of the old proposed three-track rapid transit road, which was proposed to be constructed through the blocks, with one track under ground, one on the surface and one elevated above it. This, when originally framed, proposed to run through the blocks between Sixth and Seventh avenues part of the distance, and between Seventh and Eighth the balance, but those trying to revive it contemplated running through the block west of Eighth avenue. It is, perhaps, a good thing for the owners of property there that its revival has been checked by the Governor.

The bill for the erection of a building to be leased as a place of refreshments on the site of the Mount St. Vincent building in Central Park, which was destroyed by fire some months since, has also been vetoed by the governor.

The following bill, of interest to every taxpayer in the city of New York, has passed the Senate. The first section is intended to relieve the street railroads of a portion of their taxes, which, of course, other property will have to pay. It has not yet passed the Assembly:

SECTION 1. Any corporation which has heretofore lawfully paid into the treasury of any city, village or town in this State, in which its corporate business is carried on, any sum of money for the purchase in any manner of the privilege or right to carry on such business, shall be entitled, in the year eighteen hundred and eighty-two and each year thereafter, to a deduction from its assessments for taxation in said city, village or town, of the amount so paid into the treasury thereof; and every company which under existing laws shall hereafter pay into the treasury of the city, village or town in which its said business is carried on, any tax on its gross receipts, or license fees or per centage on gross receipts, shall be entitled in the year eighteen hundred and eighty-two and in each year thereafter, to a deduction from its assessment for taxation of a principal sum, the interest of which, at the rate per cent. of tax levied or imposed in said city, village or town, for the year ending on the thirty first day of December preceding, shall produce a sum equal to the amount so actually paid into said treasury for and during such preceding year. And it shall be the duty of the assessor in said city, village or town, or ward of said city, in ascertaining the taxable property therein, to make the deduction allowed by this section to every company entitled thereto.

§ 2. Steamship companies created by any law of this state and engaged in foreign commerce are hereby exempted and released from the payment of all taxes, state and local.

The reference to companies which have paid any sum into the city treasury for the purchase of the privilege or right refers to the Twenty-third street and the One Hundred and Twenty-fifth street railroads, whose franchise was bought at auction when Mr. Hoffman was governor. The purpose is to deduct from their assessments each year the amount thus paid. This has been pressed by those roads, and engineered to get around the act which has been passed and signed declaring railroad tracks as land for the purpose of taxation.

The Senate has passed Mr. Browning's bill limiting the assessments for street extension and widening in all that portion of the city below Fourteenth street to 30 cents per square foot on the property benefitted. It now goes to the Governor.

A bill introduced by Senator Foster passed the Senate to-day in relation to changing the present grades and establishing new grades for the streets west of the Broadway boulevard, between Eighty-fourth and Ninety-sixth streets. The following is an abstract of the principal sections.

1st. The Commissioner of Public Works of New York shall have power within six months after the passage of this act to change the present grades for the streets bounded by Eighty-fourth and Ninety-sixth streets, the Boulevard and Harlem River.

2d. The Commissioner of Public Works shall immediately proceed to regulate and grade such streets.

3d. The Board of Assessors are directed to assess upon the owners of the property intended to be benefited in the manner provided by law for making assessments for local improvements.

A rider has been placed on Mr. Thickman's bill for the relief of sureties of contractors by the Senate, but it has not been announced for concurrence in the Assembly as yet. The bill as changed provides that in the event of failure of contractors on work obtained from the city, the sureties can go on and complete the work on the same terms. It also gives parties connected with First avenue contract and West street a standing in court to argue their claims for allowances.

The bill for repavement of Fifth avenue as transferred by the Senate has not been announced yet for concurrence by the Assembly in the increase of expenditures.

THE IRON PIER AT THE BATTERY.

The Iron Steamboat Company have nearly finished an imposing edifice at Pier 1, North River. It covers the whole pier except 35 feet fronting on the river, exempted according to regulations of the Dock Department, and is 480 feet in length. The main building is 75x75 feet, with a pavilion 400 feet long in the rear. It is located in the so called second story of the pier, and built with rolling iron shutters on the sides, that may be opened or shut as occasion requires. It will be used for dancing and various entertainments. The building proper will be occupied by the company offices, a restaurant, storerooms, dormitories and a bar-room. Under the partition a large open space will be devoted to the comfort of passengers, 300x85 feet, exclusive of ice houses, store-rooms and coal bunks. It will cost $70,000, and accommodate 5,000 to 6,000 people. Sixteen electric lights will light it. Afternoon and evening concerts will be a feature of the summer season. In the early autumn the main pier will likely be leased to some ocean steamship company.

CHILDREN'S PAVILION.

Mr. Joseph M. Dunn has drawn plans for a pavilion, to be erected by Henry G. Marquand, on the Bellevue Hospital grounds, at the northeast corner of Twenty-sixth street and First avenue. It will be 24x88 feet, and constructed of pressed and moulded brick and terra cotta, with Wyoming blue stone trimming. The main wards wil contain twenty-four beds for children, together with nurses' room and clothes room.

A special ward, in which will be found a physician's examining room, dining room, scullery, bath rooms, water closets and lavatories. In front is a spacious piazza. On First avenue and Twenty-sixth street is a large lawn, the front and side inclosed with an ornamental wrought iron railing seven feet high. It is to be built in the Queen Ann style.

The two-story corner building is 14x42 feet, and contains three rooms for special cases. It will be finished in hardwood throughout. The upper part o the windows will be stained glass.

The corridors are eight feet wide, and tiled with marble.

The walls of the lavatories and water closets ar

lined six feet high with encaustic tiling. On First avenue is a handsome porch, supported by pediments. The main building is twenty-five feet high, and the two-story structure thirty-five feet. It is estimated to cost $25,000.

THE NEW BARGE OFFICE.

The new barge office will front on Battery Park, and be built of Maine granite and iron. The main building will be two stories high, with basement, and the north end is a tower 104 feet in height. The style of architecture is composite. The inspecting shed, which fronts on the river is 110x172 feet, and 35 feet high.

This will be so arranged that the baggage of incoming passengers can be inspected with the least possible delay. The main structure will have 108 feet front by a depth of 48 feet. Underneath the tower is to be a broad driveway over which the baggage carts will pass to and from the shed.

The whole structure will probably cost $310,000. It is expected that it will be completed by October 1 next year. It is said that the tower will be used as an observatory and signal station.

THE REGISTRATION OF PLUMBERS.

In view of the interest felt in the business, we give below the act to secure the registration of plumbers and the supervision of plumbing and drainage in the cities of New York and Brooklyn:

SECTION 1. On or before the first day of September, eighteen hundred and eighty two, every master or journeyman plumber, carrying on his trade in the cities of New York and Brooklyn shall, under such rules and regulations as the respective boards of health of the health departments of said cities shall respectively prescribe, register his name and address at the health department of said city; and after the said date it shall not be lawful for any person to carry on the trade of plumbing in the said cities unless his name and address be registered as above provided.

§ 2. A list of the registered plumbers of the city of New York shall be published in the City Record at least once in each year.

§ 3. The drainage and plumbing of all buildings, both public and private, hereafter erected in the city of New York or in the city of Brooklyn shall be executed in accordance with plans previously approved in writing by the board of health of the said health departments of said cities respectively. Suitable drawings and descriptions of the said plumbing and drainage shall in each case be submitted and placed on file in the health departments of said cities respectively, and said boards of health respectively shall approve or reject the same by its decision in writing within twenty days after the filing thereof. The said boards of health are also authorized to receive and place on file drawings and descriptions of the plumbing and drainage of buildings erected prior to the passage of this act in their respective cities.

§ 4. The board of estimate and apportionment of the city of New York shall add six thousand dollars, or so much of said sum as shall be necessary to the apportionment of the health department for the year eighteen hundred and eighty-one, and shall insert the same in the tax levy, to provide for carrying out the provisions of this act, so far as it relates to the city of New York.

§ 5. Any court of record in said cities respectively, or any judge or justice thereof, shall have power at any time after the service of notice of the violation of any of the provisions of this act, and upon the affidavit of one of the commissioners of health of the said cities, to restrain by injunction order the further progress of any violation named in this act, or of any work upon or about the building or premises upon which the said violation exists, and no undertaking shall be required as a condition to the granting or issuing of such injunction, or by reason thereof.

§ 6. Any person violating the provisions of this act shall be deemed guilty of a misdemeanor.

§ 7. Nothing in this act contained shall be construed as affecting or changing any existing law or regulation regarding plumbers' permits or licenses as now granted and regulated by the department of public works of the city of New York, or by the commissioners of city works of the city of Brooklyn.

§ 8. This act shall take effect immediately.

The above was approved by Governor Cornell on June 4, 1881.

MARKET REVIEW.

REAL ESTATE.

☞ **For list of lots and houses for sale see pages iii, iv and v of advertisements.**

Although but little was done at the Exchange this week, the official list of transfers shows that a large volume of business is doing. The brokers are having their harvest and there does not seem to be any check to the number of transactions. Prices are like the "Propontic Sea," whose tide "knows no retiring ebb." There is no boom, no excitement; but a steady, wholesome market and an absorption of desirable property by strong investors. No one expects any marked excitement this summer; but the fall will undoubtedly see higher figures. The apparent failure of the World's Fair project, has made vacant lots dull and weak on the northwest side of the city. Then, it seems to be settled that the Metropolitan road can not be depended upon for swift transit. The trains will have to run slowly. This will not hurt property west of the Central Park; but it certainly does not help real estate on the other side of the Harlem.

There seems to be but very little demand for out-of-town property, no matter how desirable it may be, and the auction sales of this class of realty attract little attention and few bidders, the latter being composed of regular habitues of the Exchange, who are ever alert for a bargain, and who rarely buy except at an extremely low figure. Out-of-town property is almost invariably offered without being properly advertised, and so but few persons know anything about the sale, except the class above mentioned. On Wednesday a choice property located in Greenwich, Conn., consisting of thirty-three acres of ground, a portion of which are under cultivation, a three-story dwelling, a barn, carriage-house, etc., and near the properties of Lawrence Barrett, Frank Hardenburgh, and the former residence of Edwin Booth, was sold at the Exchange to N. J. Newitter, for the small price of $7,950, and for which he has since refused $12,000.

The sale on Tuesday last by Bernard Smyth of the property on Greene and Prince streets attracted a large number of bidders. The four parcels—three on Greene and one on Prince street—were first offered at an upset price of $100,000; this not being overbid, the property was offered in single lots, for which the excellent total of $98,650 was obtained.

The purchaser of the Prince street property was C. H. Woodbury, who also bought the adjoining property on the northwest corner of Prince and Greene streets at private contract about four months since from Gottlieb Rosenblatt for $36,000, who, in turn, bought it at auct on a little more than a year ago for $29,000.

Mr. Woodbury bought the corner subject to a lease extending to May 1st, 1882, at the expiration of which it is his intention to erect an extensive first-class store, to cover the whole plot, 50x95.

The other parcels were bought by Mr. Miller and Mr. Sylvester Brush.

Realty in this neighborhood is likely to appreciate greatly in value, the large number of improvements already commenced and projected in the shape of office buildings and wholesale stores, in connection with the driving out of the proprietors of the numerous disreputable houses which have so long been a disgrace to this section of our city must beyond a doubt make this a most desirable locality for business purposes, and should the Sixth avenue be extended through to Canal street the purchasers at to-day's prices could not fail to realize a handsome profit.

The ten lots on Front and South streets, near Montgomery, were withdrawn, the Supreme Court having placed an upset price of $35,000 upon them and directing their sale in one parcel, which price could not be obtained.

L. J. & I. Phillips will sell on Wednesday next the five three-story brick buildings Nos. 415, 417-419 Eighth avenue, and Nos. 304-306 West Thirty-first street, the five-story brick building, Nos. 163-165 Prince street, and the three-story brick building, No. 126 Thompson street.

Bernard Smyth will sell on Friday the three-story brown stone house, No. 1048 Second avenue, and on Thursday the three-story brick house, No. 448 East One Hundred and Twentieth street.

Hugh N. Camp will sell on Wednesday the four story and basement brick store and tenement, No. 405 Greenwich street, 25x40x100, and as the terms of sale are liberal this property should command a good price.

The following sales in partition will take place during the coming week: the four-story dwelling No. 239 East 10th street, by A. H. Muller & Son; the vacant lot No. 8 West 18th street, by P. F. Meyer; the four-story dwelling No. 49 West 28th street, by H. W. Coates; and the lot on south side of 145th street, 74 east of Willis avenue, by Jere Johnson, Jr.

Justice Westbrook has ordered Receiver Fish, of the Globe Insurance Company, to sell the premises Nos. 106 to 120 West 123d street, which were mortgaged to the company for $180,176.

Messrs. Benner & Zeller have sold the four-story double brown stone flat, No. 318 east 80th street, 25x 65x102, to J. L. Renner for $13,000.

Gossip of the Week.

Jacob Cohen took title to the three-story dwelling, No. 129 Macdougal street, 20x65, on Thursday last, the consideration being $6.100 Mr. Cohen yesterday refused an offer of $9.000, and claims that the successful consummation of the plans of the New York Tunnel Company will create an active demand for property in this locality.

Miss Ella Green has sold two plots of ground on Ocean avenue, between the West End Hotel and Green Pond, Long Branch, 150 x about 400 each, to Mr. King and Leon Mandel for $10,000 apiece.

The plot of ground, comprising four city lots, at the southeast corner of Madison avenue and Fifty-first street, has been sold by Mr. J. A. Page to Mr. William T. A. Hart, Sexton of the Cathedral, for $70,000

Mr. William R. Garrison, son of Commodore Garrison, has rented two of John Hoey's new cottages, on Cedar avenue, Long Branch.

The same gentleman has also purchased from Mr. Hoey, nine acres of land, including West Farm Hill, situated south of Hollywood, and on which he proposes to build a handsome villa, at an expense of more than $50,000.

V. K. Stevenson, Jr., has sold the four-story high stoop brown stone house, No. 115 East Thirty-seventh street, 21x60x100, to F. K. Trowbridge, for $29.000, account of E. L. Owen, and the four-story brown stone dwelling, No. 50 West Fifty-second street, 20x55x100, to John Ross, for $32,000.

Albert M. Billings, of Chicago, has purchased under foreclosure 600 acres of Rockaway Beach, between the westernmost point and the great hotel, for $235,000.

Mr. Robert G. Roberts has purchased the northeast corner of Broadway and Thirty-eighth street, 98x140, for $215,000.

Theodore Schumacker has bought from James Brady the five four-story tenements at the northeast corner of Avenue A and Fifty-seventh street for $82,500.

Messrs. L. J. and I. Phillips have sold over $1,000,000 worth of realty during the past week, and although this firm are ever reticent in speaking of their own transactions, yet we learn the following particulars from authentic sources: The property known as the Cheeseborough Farm, bounded by Broadway, Tenth avenue, One Hundred and Seventy-eighth and One Hundred and Eighty-second streets, comprising about thirty-nine acres was sold to ex-Governor E. D. Morgan for $450,000. This sale was the subject of much comment in real estate circles, and the unanimous opinion was that the ex-Governor had made a splendid purchase. The plot of ground comprising six lots at the northeast corner of Sixty-ninth street and Madison avenue changed owners, the price being $200,000. Also the sale in two parcels of improved and unimproved property on the west side amounting to over a quarter of a million of dollars.

Brooklyn Gossip.

Messrs. Benner & Zeller have sold the four-story English basement brick house No. 635 Lafayette avenue, 20x40x100, to J. L. Renner for $4,000

Paul C. Grening recently sold property, 50x100 feet, on Monroe street, between Ralph and Patchen avenues, for $2,100.

He has also sold the two-story brown stone house at 383 Lewis avenue, at $4,500; and a two-story brick house at No. 313 Monroe street, for 4,000.

Mr. Grening has just sold two brown stone houses, located at 297 and 301 McDonough street, for $4,500 each, together with a lot on Gates avenue, between Nostrand and Marcy, at $1,800.

James C. Eadie, the well known real estate broker, has sailed for Europe on the steamer *Gallia* of the Cunard line.

Jere Johnson, Jr., will sell on Wednesday, five lots with improvements thereon located on Sackett and De Grauw streets, 150 feet from the Gowanus canal

The following are the sales at the Exchange Salesroom for the week ending June 10:

** Indicates that the property described has been bid in for plaintiff's account:*

Bids will be received at the Department of Public Works until Monday, June 20th, 1881, at 12 M., for the following: furnishing and delivering four hundred and twenty-five tons twelve inch pipe, six hundred and ten tons six inch pipe, and one hundred and fifty tons of branches and special castings.

Estimates for building four iron bridges over the Bronx River, one at Williams Bridge, one at Boston road, one at Samuel street, and one at Fordham and Pelham avenues will be received at the Department of Public Parks until 9.30 A.M., the 22d day of June.

Bids will be received at the office of the Department of Public Works until Monday, June 20th, at 12 M., for furnishing materials and performing the work in the erection of portions of Fulton Market.

BUILDING MATERIAL MARKET.

BRICKS.—While no positive change has taken place in the price of Common Hards up to the present writing, the position is a strong one and the indications very much in favor of the seller. Supplies have come to hand in moderate quantity only and were quickly absorbed, with prices ruling full up to former figures and submitted to without much complaint on the part of buyers. Indeed, receivers think they could have placed more stock if here and consider the outlook very promising not only for the sale of all the stock likely to come forward for some time, but also predict higher prices. The protracted storms this spring have come at a time when they did no great harm in obstructing consumption, but have seriously interfered with the production, and it will require a long period of favorable weather to enable mauufacturers to recover lost ground. In the meantime, the wants of builders are just setting in fairly, and as these wants promise to develope enormous volume it does not now look as though buyers could gain advantage for a long time to come. Indeed, the feeling is that with no untoward influence the season will prove a most satisfactory one. The principal fear is upon the subject of labor, as some of the current indications lead to the impression that trade unionism is likely to run rampant and attempt to force such high rates for wages as to prostrate the building industries. About $6.50@7.25 covers the present general range of prices for all kinds of Hudson River bricks. The distribution has been almost entirely local, the Eastern orders falling off. Pale brick received fair attention, but the demand is scarcely in proportion to that for other qualities and prices do not improve. The bulk of the business is at $2.50@2.75 per M., though $3 is reached when quality proves extra fine. Fronts in good, full demand and very firm with most grades on the upward turn.

HARDWARE.—The market is spoken of cheerfully but mostly by dealers who make a specialty of mechanic's tools and of builders' hardware. The call for the latter is still in some cases quite slow, but is sure to come in large volume soon, and will, it is thought, extend well into the summer. Supplies are pretty full and very well assorted, with production unceasing and no immediate danger of scarcity exists. On prices some irregularity is known to prevail with the advantage in buyers' favor, but the quoted figures are unchanged on pretty much all grades of stock and no important revision of lists will for the present be made.

LABOR.—In commercial parlance the market is "nominally unchanged." We hear, however, of an advance made on ordinary labor to $2.50 per day in some cases, while generally the tone is very strong, with an upward incline. There is no doubt that skilled labor is not only scarce now, but likely to become more so as the stupendous amount of building projected makes more rapid progress, and it is hardly reasonable to suppose that masons, bricklayers, &c., will neglect the opportunity to force higher wages. Preliminary demonstrations, in fact, are already making, and while many workmen will violate their pledges to the "bosses," given when the late advance was allowed, should they attempt a strike there is little doubt this will not act as an influence to prevent further demands. Some of the rates talked of are simply ridiculous, and if a disposition is shown to ask them contractors can only "shut up shop" and let work stand idle or proceed under heavy loss. The labor question, in fact, is the disturbing element in the building trade, otherwise in a healthy, promising condition.

LATH.—Up to the present writing we hear of no change in value, but the market is very firm at full former figures. Fair amounts have come to hand and were readily taken at $2 per M., with sale for a larger quantity if offered. Still buyers do not appear anxious enough to bid with any freedom on parcels to arrive, and some seem to think they may gain something by holding off. Receivers, however, entertain a different opinion, and consider the outlook as very promising.

LIME.—A firm, uniform market is reported, with the demand and tendency to improve all the stock on the spot finding sale and some engaged to arrive. Manufacturers generally are said to entertain very confident views and will refuse to make shipments on any less favorable showing.

LUMBER.—The great majority of dealers appear to be in a happy frame of mind and the condition of the market is evidently satisfactory throughout. In fact while free from excitement or flurry there is a full steady business and though one or two grades will probably have to shade somewhat when in the natural course of the season, supplies become more plenty, there is no reason to anticipate any serious break so far as can be judged from the present outlook. How far the assured large local consumption has been anticipated by contract is not clearly defined but it is certain that a great deal of stock has yet to be bought and those who want it are somewhat nervous over the outlook. Export movements are doing well and would be better still it is asserted with a fuller assortment to select from, though on the other hand some of the shippers are inclined to hold off a trifle in hope of securing better terms.

Spruce in a general way shows about old features. The actual demand is good and a large amount of stock will be required to satisfy all the wants of the market. Buyers, however, watch all their chances, and are quick to withdraw under any signs of an increased offering, in hopes that better terms will be named by receivers as an attraction for handling stock. Manufacturers seem to hesitate about entering into contracts, and claim all sorts of trouble. The latest story is that instead of too little there has been too much water causing loss of many logs and difficulty in handling the remainder. Mill owners always appear like the farmers, apprehensive of some impending evil, but generally managing to escape anything very serious. Of recent arrivals a large proportion came on contract, but some randoms have sold at $14@16. On specials $17 remains as about the top rate.

White pine continues to increase somewhat, both in quantity and assortment, but without materially affecting the position. Some operators have claimed an easier tone, but those engaged in actual buying assert that they do discover an opportunity to secure a gain, and sellers without exception repudiate the idea of weakness. A few local consumers have shown a somewhat indifferent tone owing to parcels expected from the interior, but aside from this demand retained about its usual volume and force. We quote $17@19 per M for West India shipping boards; $24.50@26 for South American do.; $16@16.50 for box board; $17@17.50 for do. wide and sound do.

Yellow Pine shows a continued one-sided market. Demand is just about as full as ever for all kinds of stock and all forms of delivery, and there is no increased facilities to meet the call. The advantage, therefore, is entirely with sellers, and full rates are, as a matter of course, insisted upon. Some odd steamer lots, forced to a sale, brought low figures, but these do not influence the general market. We quote random cargoes at about $24.00 @26.00 per M; ordered cargoes, $26.00@28.00 do.; green flooring boards, $24.50@26.50 do; and dry do do, $27.00@29.00. Cargoes at the South, $15.00@19.00 per M for rough, and 20.00@24.00 for dressed.

Hardwoods show scarcely any change. An offering of attractive stock is sure to receive immediate attention, but there is rarely anything available calculated to draw demand, and business rules quiet. We quote at wholesale rates by carload about as follows: Walnut; $77@85 per M; ash, $35@38 do.; oak, $40@45 do., maple, $30@35; chestnut, 1st and 2d, $30@35; do. do. culls, $18@20 do.; cherry, $50@55 do.; white wood, ⅛ and ¼ inch, $25@27.50, and do. inch, $33@35 do.; hickory, $35@45 do., for Western, and $65@75 for good nearby stock.

Shingles are steady all around with about the usual demand in form and volume, and no great amount of stock available. We quote Cypress at about $6.00 for saps and $8.50@9 for hearts; pine shipping stocks, $4 for 18-inch, and Eastern saw grades at $2.50@4.50 for 16-inch, as to quality and to quantity. Machine dressed cedar shingles quoted as follows: For 30-inch, $16@22.25 for A and $28.75@33.25 for No. 1; for 24-inch, $6.50@16 for A and $16.75@23 for No. 1; for 20-inch, $5@10.50 for A and $11.25@11.75 for No. 1.

From among the lumber charters and engagements recently reported, we select the following:

A Br. ship, 1,299 tons, from St. John, N. B., to Liverpool, deals, 54s.; an Am. barque, 766 tons, from St. John, N. B., to Australia, deals, £5; a Br. steamer, 1,109 tons, from St. John, N. B., to Liverpool, or Bristol Channel, deals, 55s. 6d.; a Nor. barque, 620 tons, from St. John, N. B., to Cork Quay, deals, 55s.; a Swe. barque, from St. John, N. B., to Bristol channel, deals, 56s. 6d. per standard; a Nor. barque, 513 tons, Miramichi to the United Kingdom, deals, private terms; an Aust. barque, from St. John, N. B., to Marseilles, deals, 70s., c. d.; a Swe. barque, 250 M. lumber from Montreal to Montevideo, or Buenos Ayres, $17; a Nor. ship, 790 tons, from Pensacola to a direct port United Kingdom, or Continent, timber, 40s. and sawn, £6; a Br. barque, 942 tons, from Pensacola to the United Kingdom, hewn timber, 40s., and sawn, £6; a Br. barque, 356 tons, from Bear River, N. S., to Port Spain, lumber, $7.50; an Am. barque, 521 tons, from Pensacola to Sagus, lumber, and back to port north of Hatteras, sugar, $6, net for the round; a Br. barque, 794 tons, from St. Simon's Island to Montevideo, lumber, $18, net; a schr., 140 M. lumber, from Wilmington to Moule, Guadaloupe, $12; a schr., 172 tons from Portland to New Haven spool wood, $2.35 per M.; a schr., 280 tons, hence to Brunswick, general cargo, and back with lumber, $9 for the round; a schr., 194 tons, hence to Jacksonville, general cargo, and back with lumber, $11 for the round; a schr. 200 M. lumber, from Union Island to New York, $7.50; a schr., 200 M. lumber from Jacksonville to Elizabethport, $9; a schr., 110 M. lumber, from Jacksonville to New York, $9, option of Albany, $10; two schr., 425 and 300 M. and a brig, 300 M. lumber, from Pensacola to New York, or a Sound port, $9; a schr., 270 M. lumber, from Brunswick to New York, $7.50; a schr., 180 M. lumber, from Wilmington to New York, $7; a schr., 280 M lumber, from Jacksonville to Washington, D. C., $9; a schr., 220 M. lumber, from Brunswick to New York, $7.50; a schr., 280 M. lumber, from Pensacola to New York, $9; a schr., 180 M. lumber, from Brunswick to Saco, $8.50.

Exports of lumber from the port of New York:

GENERAL LUMBER NOTES.

STATE.

Albany Lumber Market, as reported by The Argus

FOR THE WEEK ENDED JUNE 7, 1881.

Pine Lumber has been in free receipt, with a good trade during the past week, mainly to New York and Brooklyn; from Brooklyn a number of buyers have, within the last few days, been in the district. A large sale, but of which we have not any particulars, is reported to have been made yesterday for Greenpoint. Prices are held with much firmness on a freely moving market. From the Saginaw and from Canada, active markets are reported at very firm prices; indeed, at all manufacturing points the markets are stiff, and buyers are meeting manufacturers at their prices.

In Hardwoods there is a steady trade at quotations.

Coarse Lumber is moving as brisk as ever; the receipts are coming in free, and going out, on sales ahead, as fast as received; prices are very firm.

The receipts of Lumber by lake at Buffalo for the week were 13,697,000 feet, and by rail 122 cars. The receipts during May from the opening of lake navigation to May 31st were 20,133,000 feet, against 47,408,000 feet for a corresponding period in 1880. The receipts by lake at Oswego for the week were 6,720,000 feet.

The receipts by canal at Albany from the opening of navigation to June 1st were:

	Bds. & Sctl., ft.	Shgles., m.	Timber, ft.	Staves, lbs.
1881	20,708,000	48	.....	459,000
1880	49,982,000	100	.....	.....

Freights from Bay City to Buffalo and Tonawanda, $3 per M.; from Saginaw, $3.25. From Buffalo to Albany, $2.50 per M. From Tonawanda to Albany, $2 40. Lake Ontario freights to Oswego, 90c. from Port Hope; $1.15 from Toronto; from Oswego to Albany, $1.80@1.85. From Ottawa to Albany, by boats, $3@3.50 per M. feet.

River freights are:

To New York, ₰ M ft	$ @1 00
To Bridgeport	@1 37½
To New Haven	@1 37½
To Providence, Fall River and Newport	2 00@2 25
To Pawtucket	2 25@2 50
To Norwalk	1 25@1 30
To Hartford	@2 00
To Norwich	@2 00
To Middletown	@1 75
To New London	@1 75
To Philadelphia	@2 00

THE WEST.

From the Northwestern Lumberman we take the following news from the drives:

Reports from the logging streams are rather more encouraging this week than they have been. In the district west of Lake Michigan rain has fallen in considerable quantities, and most of the rivers are at a fair driving stage. Many of the hung up logs have been started with a pretty good prospect of getting through to their destinations without further trouble. In Michigan the progress of the drives is still delayed to some extent by low water, though we believe none of them are in such bad shape as yet as to be considered permanently hung up. The fact that no rain to speak of has fallen this spring leads the operators to believe that it cannot be much longer delayed, and they are hopeful that when it does come it will be in such quantities as will give them a good stage of water in the streams. Altogether there is very little in the situation that lumbermen can reasonably complain of. There appears to be a good supply of logs at all points for present sawing, and the prospect is certainly as good as it usually is for getting the rest of the stock. We think there is no reason yet to look for any considerable part of the logs to be hung up. A large part of the supply is already in the booms, or where it can be got when it is wanted, and unless the present month should be an unusually dry one the chances are that within thirty days the remainder of the stock in the principal streams will also be secured. At all events, there is no occasion to worry about the logs at present.

CHICAGO.

The receipts of lumber at this port during the past week have aggregated 51,751,000 feet, and of shingles 24,062,000. Of these, a fair proportion has been sold on the market at the Franklin street dock, though by far the greater bulk has at once proceeded to the yards, for which it had been purchased before arrival. Taking the season as a whole, the receipts have not yet reached the aggregate to the same date last year by 11,299,000 feet of lumber and 20,395,000 shingles. For the week the receipts of lumber have been larger than for the corresponding week of 1880 by 2,738,000 feet; the shingle receipts have fallen short 1,991,000.

Prices during the month of May at the cargo market were as our readers know, somewhat unsettled, owing to the difference of opinion between buyers and sellers as to the value of lumber. For some time the market showed signs of weakness under the persist-

ent endeavors of the bears to pull it down, dropping from $10 on piece stuff at the opening, to $9.50 on the 13th, and so low as $9.25 on the 23d. The past week, however, prices have advanceed to nearly, if not fully, the opening quotations. During the closing days of the month a decided firmness of feeling developed, and for the past two or three days, green piece stuff of ordinary length has sold up to $9.50 and $9.75, while a fair admixture of lengths above 16 feet, has readily commanded $10, and at this writing we may truthfully speak of the market as firm and quiet at these quotations. This, in face of the fact that the receipts since Sunday have been larger than for some days, leads to the opinion that the tendency of the market is to still higher figures. Sales of one-inch lumber may be quoted at from $12.50 for ordinary green, to $14.50 on a better grade, while $16 and $17 have been paid for fair to good mill run. Dry lumber has brought $1 above these figures, and is quick at from $16 to as high as $22, according to richness in picking qualities and condition of seasoning. Shingles have participated in the firmness, and standards which have sold as low as $2.40, are now steady at $2.45@2.55. Extra A's, which have sold at $2.45@2.50 now command $2.55@2.65. Lath have not fluctuated so much, and we quote from $1.60@1.65 for green and Norway, to $1.80@1.90 for dry. Selected pickets have brought $11.75; common 7 and $8.

The general tone of the cargo market is much firmer than at any time since the opening of navigation, and the opinion is expressed by both bulls and bears that the firmness will continue.

CARGO QUOTATIONS.

Joist and scantling, green	$9.50@ 9.75
Mill run, choice, green	16.50@19.50
Mill run, medium, green	12.50@16.50
Mill run, common, green	10.50@12.50
Shingles, standard	2.45@2.55
Shingles, extra A	2.55@2.65
Lath	1.60@1.80

HARDWOODS.—There is no particular change in the state of the yard trade. For a long time we have not heard a complaint from a dealer that trade was poor, except when a light stock or a small assortment was the cause of it. Receipts by water are tardy as yet, and there have been but few arrivals since our last report. The furniture men have been receiving some by water, and among the cargoes that have reached the yards we note two of maple of about 150,000 feet each. The manufacturers of agricultural implements will probably not get much lumber by water for some time yet, as they do not want the care and trouble of receiving it until their machines are in great part off their hands. Considerable lumber has been coming forward by car, most of which has been on the way for some time. At one yard there was received about 150,000 feet of walnut, four or five cars of which was dry, and that means now-a-days anywhere from three to six months from the saw. It used to take a year for an inch walnut board to thoroughly dry in the open air, but anything that has been stuck so long is now called more than dry—it is bone dry.

We make several slight changes in our price list this this week. Dry one and a half inch walnut culls have sold, since our last report, at $55. One of the largest business houses here, and one not at all identified with the lumber trade, has offered $200 a thousand for any quantity of dry walnut counter tops, 16 and 18 feet long, 20 inches, or over, wide. They must be exceptionally good, but such figures indicate the state of the walnut supply. A large quantity of whitewood lumber has been sold, to arrive, at $30 for clear and $25 for seconds. Much of it goes to coffin makers, and must be wide. There seems to be no trouble in placing orders for whitewood, and some mill owners in Tennessee have a season's work on their order books. Now that so much veneered furniture is turned out, more whitewood is used than formerly, and the same may be said of basswood.

We add to our list this week gray elm. We believe there is no such species of elm laid down in the text books, but it goes by that name in this market. It is the water elm cut from high lands, and the prospect is good that it will come into pretty general use. It is really a new wood in market, and one that until recently has been not only let alone, but despised. One firm will put in 500,000 feet this year, and a few other houses handle it in a small way. Its worth for certain parts of farming implements is recognized, and manufacturers who used it last year will continue to do so. It is plentiful in Michigan, and promises to be a somewhat valuable addition to our stock of hardwoods. At other leading points stocks remain light with prices unchanged.

LUMBERMAN AND MANUFACTURER, MINNEAPOLIS, MINN.

The condition of the lumber market on the Mississippi river is all that any one could desire. From St. Louis to the head of the river every one who makes and sells lumber is overrun with orders for stuff, which their yards do not contain or which they can not furnish out of the mill cut in any reasonable time Raft lumber in the water at points between the lower rapids at St. Louis is worth $13.50 for dimension and $16 for boards and strips and selling at those figures for ordinary Wisconsin rafts. The yard stocks on the river are as low as they have been for many years, especially in dry lumber and all the mills are overrun with orders for timbers and dimension yet to be sawed out, all of which are being sold at about the same price which any logs that will make them will bring on the market at Stillwater (indeed we hear of sales at less than the log values.) Great complaint is made that Wausau and other interior points in Wisconsin are throwing away lumber of the timber and dimension class at extremely low figures and we are inclined to believe it. That section can probably furnish about 25,000,000 feet of bridge stuff and we strongly advise all the trade north of Davenport to refer all orders they can not fill to the several mills on the Wisconsin river and the railroad mills of that section, until they are loaded down with orders at present figures. It will take but 20 days to do the business.

The drives are all coming along as nicely as could be wished on the several streams and the bulk of all the crop will be safe in the main booms as soon as they are needed.

THE EAST.

The Boston Journal of Commerce reports:

The general appearance of the market is about the same as last week, and dealers report the demand as very good. Prices are firm, and will probably remain for some time as now quoted, unless hardwoods advance in sympathy with the western markets. Reports from the west show seasoned hardwoods to be very scarce, and in some cases the supply is so low as to be hardly equal to the demand. As a consequence, whitewoods have advanced $2.00@5.00, and ash $2.50@7.00. Oak has also advanced, both in timber and flooring. The Eastern markets, as yet, remain unchanged, and this upward turn at the West will probably subside as soon as shipments from primary points begin to come in and stocks are replenished.

FOREIGN.

The London Timber Trades Journal as follows :

Several firms here who represent large shipping houses abroad still think prices will mend by and by, but do not state the ground on which they found their impressions. The spring fleet for Quebec have, many of them, arrived out seeking, while several vessels are chartered from the lower ports and may be expected any time after the middle of June. In the meanwhile the market will have to bear the brunt of all the ships from the Baltic, which, heretofore, the frost has kept back ; hence the prospect of prices rising is not promising while the stagnation of trade continues.

LIVERPOOL.

The import during the past week has been very small, owing in a great measure to long prevalence of easterly winds, which have kept back the vessels bound to this port with cargoes of spruce deals and pitch pine ; consequently there has been less animation observable at the wharves, as the effects of the recent auction sales are becoming less apparent, through the bulk of the wood sold having already been shipped off to the buyers.

The tone of the market does not improve, and, low as prices are at present, we cannot see how they are to become better in the face of the general outcry of bad trade and disheartening reports brought in by travelers from the country.

We have had no auction sales during the week excepting those of Wednesday, when both Messrs. Farnworth & Jardine and Messrs. Edward Chaloner & Co. offered their stocks of Circassian walnutwood burrs, amounting in the aggregate to about 500 tons. This sale, so long advertised, brought forth but a small company, and the bidding was so widely divergent from the values put upon the lots as to be almost ridiculous. Lot after lot was passed without an offer being made, and at others £5 per ton was bid. Messrs. Farnworth & Jardine's sale closed with the sale of one burr, weighing 11 cwt. 1 qr. 21 lb., at £41 per ton.

Messrs. Edward Chaloner & Co. had a little better competition, and sold 15 burrs at £8 10s., 12 burrs at £8 10s., 23 burrs at £15, 30 burrs at £21, 44 burrs at £15 and 22 burrs at £20 per ton, the total being about 50 tons sold.

Messrs. Farnworth & Jardine offered a cargo of St. John spruce deals imported last year, consisting of 35,000 pieces, of which about half were sold as follows:

12 to 15 ft., 3x11, £7; 12 to 15 ft., 3x9, £6 17s. 6d.; 16 ft. and upwards, 3x7, £6 10s.; 12 to 15 ft., 3x7, £6 7s. 6d.

Second Quebec pine deals, Eddy's:

10 to 16 ft., 11 in., £14; 10 to 16 ft., 12 in. and upwards, £14 15s.; 10 to 16 ft., 7 to 10 in., £13 15s.

The attendance of buyers was small and confined chiefly to local dealers, and there was a marked absence of competition excepting for certain dimensions specially wanted.

GLASGOW.

The arrivals of foreign timber to Clyde during the past week have been very limited, amounting to about 1,000 loads in all, consisting of one cargo pitch pine planks from Pensacola, and several parcels of various woods, per steam liners, from New York, Boston, Sweden, &c., parcels imported by these steamers being apparently on the increase.

AUCTION SALES.

On 19th inst., at Greenock, Messrs. Edmiston & Mitchell, brokers :—Quebec prime waney boardwood, 55 c. ft. avg. per log 2s. 4o; 35 c ft. avg. 1s. 6½d. to 1s. 8d. Do. yellow pine joiner wood—60 c. ft. avg. per log 1s. 5¾d. Do. red pine—30 c. ft. avg. (278 logs) 11½d. and 11¼d; 30 c. ft. avg. (40 logs) 11d. Sawn pitch pine timber—35 c ft avg. per log (120 logs) 1s. 4½d.

On 24th inst., at Glasgow, Messrs. Wm. Connal & Co., brokers, Mexican (Minatitlan) mahogany, 130,000 ft. sold at 4¾d. to 10d. per ft., averaging 5 27-32d. Nine lots of the cargo were withdrawn, prices offered not being satisfactory to the brokers.

Messrs. Brownlee & Co., of the City Saw-mills, following the above sale, offered by auction parcels of American ash, sycamore, and maple, which sold as undernoted:—Ash, 2s. 3½d. to 2s. 5½d. per c. ft, string measure; Sycamore, 3s. 6d. to 4s., per c. ft, string measure; square maple logs, 2s. to 2s. 2d., per c ft, string measure; Whitewood, 3s. 4d., per c. ft, string measure.

METALS.—COPPER.—Ingot has become quite dull, and even in a jobbing way it was difficult to secure the attention of buyers. Stocks in the meantime were offered with some freedom, which, with danger of early competition from new sources of supply, weakened values. At the close there appears to be a little more steadiness, but no increase of demand. Quoted at 18@18⅛ at Lake. Manufactured Copper has been moderately active with the general line of prices unchanged. We quote as follows: Brazier's Copper ordinary size over 16 oz. per sq. foot, 28c. per lb.; do. do. do., 16 oz. and over 12 oz. per sq. foot, 30c. per lb.; do. do., 10 and 12 oz., per sq. foot, 32c. per lb.; do. do., lighter than 10 oz., per sq. foot, 34c. per lb.; circles less than 84 inches in diameter, 31c. per lb.; do. 84 inches in diameter and over, 34c. per lb.; segment and pattern sheets, 31c. per lb.; locomotive fire box sheets, 28c. per lb.; Sheathing Copper, over 12 oz., per sq. foot, 26c. per lb., and Bolt Copper, 28c. per lb. IRON—Scotch Pig is held about as for some time past on small parcels from store, but there has been a considerable amount of stock forced to sale in a quiet way and undoubtedly at much lower rates. It is feared that additional hypothecated must soon be unloaded. Nominally the quotations range at $20@23 per ton according to brand and quantity. American Pig has met with neglect from about all the ordinary sources of demand, and the market was dull and flat. Better terms have been openly offered without attracting buyers, and through secret negotiation, it is rumored, a very decided trading on cost is promised to customers who will handle large amounts of stock. No one, however, is willing to anticipate future wants. We quote at $23.50@24.00 per ton for No. 1 X foundry; $21.00@22.00 do. for No. 2 X do. do., and $19.00@20.00 do. for gray forge. Rails again show a dull market, with prices weakening on both iron and steel. The latter feel the influence of sharper competition from foreign product, and the former are only wanted by "cheap" roads. Old Rails have been very dull, and Scrap Iron continued under neglect with holders more anxious to realize, and prices weakening. We quote Rails at $44@46 for iron, and $56@60 for steel, according to delivery. Old Rails $26.00@27.50 per ton; Scrap, $27.00@29.00. Manufactured iron has been dull, and the movement evidently disapponting to many of the trade, prices a little unsettled, hough on the geneeal range quoted about as before. The stocks are ample and well assorted, and will further accumulate, unless consumption increases. We quote Common Merchant Bar, ordinary sizes at 2 3@2.5c. from store, and Refined at 2.5@3.5c; wrought beams at 3.3. Fish plates quoted at 2¾@2½c; track bolt and nuts, 3½@3⅝c; railway spikes, 3c; tank, 3@3.1c; angle, 3c; best flange, 6c; and domestic sheet on the basis of 3½c, for common Nos. 10@16. Other descriptions at corresponding prices, with 1-10c. less on large lots from cars. LEAD.—Domestic Pig sold moderately as wanted, in the ordinary course of trade, but found no general or active demand, and with fair offerings prices have favored the buyers. We quote at about 4¼@4½c. The manufactures of lead are steady and quoted: Bar, 6c.; Pipe, 6½c., and Sheet, 7c., less the usual discount to the Trade; and Tin-lined pipe, 15c.; Block Tin Pipe, 40c., on same terms. TIN—Pig not much wanted, the supply equal to all calls, and the tone of the market easy throughout until the close, when holders show more confidence. We quote 20¼@20½c. for Australian, 20⅛@20⅜c. for Straits, 20⅛@—c., for English Refined, 20⅛@20¼c. for do. Common. Tin Plates meeting with a light, uncertain jobbing demand, but large parcels rarely wanted, and prices on the whole are slack. We quote I. C. Charcoal, third-class assortment, $5.75@6.00 for Allaway grade, and $6.12½@6.25 for Melyn grade; I. C. Coke, $4.90@5.00 for B. V. grade; $5.12½@5.37 for Yspitty grade; Charcoal terne, $5.20@5.37½ for Allaway and Dean grade 14x20; $10.50@11.00 for do. 20x28; Coke terne, $4.87½@5.00 for Glais grade 14x20, and $10.00@10.12½ for do. 20x28—all in round lots. Spelter remains dull and more or less nominal, in the absence of fairly testing sales. Quoted at 4⅞@5¼ as to brand, etc. Sheet Zinc jobbing out fairly, and ruling about steady at 7@7¼c. from store, according to quality, quantity, etc.

NAILS.—More or less of the old uncertainty may be noted on this market, and matters are not in fully satisfactory condition. Buyers appear to be all right one day, and the next day scarcely a call will be made, causing constant fluctuation in the demand and a doubtful business. On prices the feeling is also unsettled, but the old list rates are retained for the present.

We quote at 10d to 60d, common fence an sheathing per keg, $3.10@3.15; 8d and 9d, common do, per keg, $3.30@3.40; 6d and 7d, common do, per keg, $3.55@3.65; 4d and 5d, common do, per keg, $3.80@3.90; 3d and 4d, light, per keg, $4.55@4.65; 3d, fine, per keg, $5.30@5.40; 2d, per keg, $5.30@5.40.

Cut spikes, all sizes, $3.30@3.40; floor, casing and box, $3.80@4.60; finishing, $4.05@4.90.

CLINCH NAILS.

1½ inch, $5.50@5.60; 1¾ inch, $5.25@5.35; 2 inch 5.00@5.10; 2½@2¾ inch, $4.75@4.85; 3 inch and longer 4.50@4.65.

PAINTS AND OILS.—The movement of supplies has been moderate and as a whole the market was not in very satisfactory shape. The accumulation of both domestic and foreign goods, however, appeared to be well under control and holders refrained from pressing sales, though admitting that this would be about the only means likely to secure an increased movement. Leads in oil are occasionally offered lower from outside sources but the regular dealers continue to quote at old figures. Dry lead about steady. Chalk and whiting firmer. Paris green tends upward but the demand not quite so brisk. Linseed oil shows much the same general features before noted, the market lacking animation and competition over such demand as does exist keeping the tone easy. The supply is fair. We quote at about 50@52c. for city and 58@59c. for Calcutta from first hands.

PITCH.—Business fairly active, and in about the usual form, with stock enough for the outlet and former rates ruling. We quote at $2.00@2.15 per bbl. for city, delivered.

SPIRITS TURPENTINE.—The market has been moderately active in a jobbing way, with prices held about steady. On wholesale parcels, however, considerable irregularity was shown with, at times some indications of pressure to realize, but most of the principal holders seem confident in the outlook, and of late have asked pretty full figures. As this report is closed the quotations stand at about 38@40c per gallon, according to the quantity of stock handled.

TAR.—The market remains in very good shape for jobbing parcels, and dealers appear satisfied. Beyond this, however, business is dull, and the tone somewhat unsettled, although the amount of stock offering is not large. We quote $2.50@2.75 for Newberne and Washington, and $2.50@2.87½ for Wilmington, according to size of invoice.

CONVEYANCES.

NEW YORK CITY.

JUNE 3, 4, 6, 7, 8, 9.

Allen st. No. 104, e s, 129.5 s Delancey st, 24.8x87.6, five-story brick store and tenement. Adolf Meyer to Joseph Gottlieb. All title. C. a. G. May 31. $1,500

Plan 427—Kosciusko pl, No. 15, raised one foot stone foundation beneath; cost. $200; owner and builder, Geo. F. Chapman, on premises.

NOTES AND ITEMS.

There is a great activity in real estate at Cape May, N. J., and it is said there will be more buildings erected, at this Philadelphia's favorite seaside resort, after the close of the present season, than there have been for several years combined.

It is reported that the necessary funds have been subscribed for the erection of the new Calumet Club house in Chicago, and that architects will now be invited to submit plans for the same.

There seems to be a difference of opinion between the members of the Union League Club, of Philadelphia, as to the desirability of expending $37,000 on the contemplated annex to their palatial club house on Broad street.

The taxpayers of the town of Salem have voted to exempt the Delaware & Hudson car shops from taxation for a period of five years, provided that they are rebuilt and work continued in them. President Dickson has given assurances that this will be done.

The Rockaway Beach Transit Company are about to build a marine railroad along the water's edge on the bay side from the big hotel to Block House Point, returning on the surf side, 250 feet from high water mark.

The New York Tunnel Railway Company, which was organized nearly one year ago, propose taking the following route, starting from a point near the outlet of the Hudson River Tunnel in Washington square, thence under Wooster street and University place to Fourteenth street, thence to Fourth avenue, under and up which it will run to the "Fourth avenue improvement," which begins near Forty-second street.

The object of this company is said to be the transfer of passengers and freight under this city, so that cars may be run direct from Montreal to New Orleans and intermediate points without a delay incident to a New York transfer.

A company have purchased a number of farms on the Atlantic coast, commencing seven miles below Cape Henry, and running southward along the beach for six miles, for the purpose of establishing a first-class seaside resort. The same company have acquired the right of way for a railroad from Norfolk to their property, a distance of fifteen miles.

The Department of Public Works have been directed to proceed without delay with the repairing of the pavement of the roadway of Third avenue, between Harlem Bridge and One Hundred and Forty-seventh street, and also with the relaying of the flagging and the resetting of the curb and gutter stones on the streets intersecting said avenue between said limits where the same was lately removed for the purpose of regrading the avenue.

Francis Cook has removed his old established iron works to No. 407 West Thirty-sixth street. Mr. Cook makes a specialty of all kinds of iron work used in breweries and ice houses.

Mr. Albert Hirsch has nearly completed his new building and yard extending from 531 to 539 West Fourteenth street, and 528 to 536 West Fifteenth street. It is to be used for the general lumber business, as well as for sawing, cleaning and turning. It will be one of the most complete establishments of the kind in the country. Mr. Sigmund Harris, of the famous glove firm, will be a special partner. The specialties of this firm in lumber will be white pine, North Carolina and yellow pine and spruce. Mr. Hirsch is well known in connection with the old firm of Bucki & Hirsch. What he does not know about lumber is not worth knowing. Such an establishment as this was needed, and there is no doubt but what the new firm will do an immensely profitable business.

The offices of the Board of Assessors of Brooklyn are crowded every day with property owners complaining of the valuations which have lately been made on both improved and unimproved real estate, and it is claimed that the assessed prices are not just and equal. Some properties, notably "The Abbey," on Fulton street, and the steamboat block opposite the Court House, have had their valuation increased, while others, for instance the Long Island Savings Bank at the corner of Fulton street and Boerum place are assessed at lower figures than those of last year. For the first time the assessors have included in the taxable property the church parsonages, the value of which has been placed at $700,000. It is also claimed that the increased valuation on the above mentioned properties should have been much greater.

MISCELLANEOUS.

CO-PARTNERSHIP NOTICES.

THIS IS TO CERTIFY, THAT THE UNDERSIGNED have formed a limited partnership pursuant to the provisions of the Revised Statutes of the State of New York.

That the name or firm under which such partnership is to be conducted is the continued firm name of DAVID BEIR & COMPANY.

That the general nature of the business to be transacted is the manufacture and selling of cigars and the purchase and sale of tobacco.

That the names of all the general and special partners are as follows: DAVID BEIR who resides in the City, County and State of New York, is the general partner and ALEXANDER RICH who resides in said City, County and State of New York, is the special partner. That the said ALEXANDER RICH has contributed the sum of forty thousand dollars in cash as capital to the common stock. And that the said partnership is to commence on the 8th day of June, 1881, and is to end on the 30th day of June, 1886.

Dated this eighth day of June, one thousand eight hundred and eighty-one.

DAVID BEIR,
General Partner.
A. RICH,
Special Partner.

City and County of New York, s. s.:

On this 8th day of June, 1881, before me personally appeared DAVID BEIR and ALEXANDER RICH to me known and known to me to be the individuals described in, and who executed the foregoing instrument and who severally acknowledged that they executed the same.

MORRIS S. WISE,
Notary Public,
New York Co.

CO-PARTNERSHIP NOTICES.

NOTICE IS HEREBY GIVEN THAT A LIMITED partnership has been entered into by and between Uriah Welch, Henry J. Haight and Edward C. Haight, all residing in the City of New York, pursuant to and by virtue of the Statutes of the State of New York in such case made and provided, and that the terms of such partnership are as follows:

First: The name or firm under which said partnership is to be conducted is that of URIAH WELCH.

Second: The general nature of the business intended to be transacted is the business of hotel keeping, to be carried on at the hotel, in the city of New York, now known as the St. Nicholas hotel.

Third: The name of the general partner interested therein, is Uriah Welch of the City of New York, and the names of the special partners interested therein, are Henry J Haight of the City of New York and Edward C. Haight also of the City of New York.

Fourth: The amount of capital which each special partner has contributed to the common stock is as follows: the said Henry J. Haight has contributed the sum of Ten Thousand dollars in cash, and the said Edward C. Haight has contributed the sum of Ten Thousand dollars cash.

Fifth: Said partnership is to commence on the first day of May, one thousand eight hundred and eighty-one, and is to continue until and to terminate on the first day of May, one thousand eight hundred and eighty-four.

Dated, New York, April 30, 1881.

URIAH WELCH,
HENRY J. HAIGHT,
EDWARD C. HAIGHT,

DANIEL A. SHAW.—Notice is hereby given that a limited partnership has been formed by the undersigned, pursuant to the laws of the State of New York; that the name or firm under which such partnership is to be conducted is "DANIEL A. SHAW;" that the general nature of the business intended to be transacted by such partnership is the business of marine shells and other imported merchandise on commission or otherwise; that the names of all the general and special partners interested in the said business are Daniel A. Shaw, Michael J. Dunn, and Ira Bursley; that the said Daniel A. Shaw is a general partner and his place of residence is in the City and County and State of New York; that the said Michael J. Dunn is also a general partner, and his place of residence is in the City of Brooklyn, County of Kings and State of New York; that the said Ira Bursley is a special partner and his place of residence is in the City and County and State of New York; that the amount of capital contributed by the said special partner, Ira Bursley, is the sum of Twenty thousand dollars; that the period at which the said partnership is to commence is the 5th day of May, 1881, and the period at which it will terminate is the 5th day of May, 1884.

Dated New York, May 5th, 1881.

DANIEL A. SHAW,
General Partner.
MICHAEL J. DUNN,

(Signed), G. HILTON SCRIBNER.

City and County of New York, s. s:

On this 21st day of May, 1881, before me personally appeared William L. Heermance, Henry A. Dickinson and G. Hilton Scribner, known to me, and to me known to be the individuals described in, and who executed the foregoing certificate, and severally acknowledged that they executed the same.

W. C. KING,
[L.S.] Notary Public,
City and Co. N. Y.

CERTIFICATE OF LIMITED PARTNERSHIP.—We, whose names are subscribed hereto, being desirous of continuing the limited partnership heretofore formed pursuant to the laws of the State of New York, have agreed and do hereby agree and certify as follows:

First. The name or firm under which such partnership is to be conducted is "HILMERS, McGOWAN & CO."

Second. The general nature of the business intended to be transacted by such partnership is exchange and general brokerage, and its principal place of business is in New York City, in the County and State of New York.

Third. The names of all the general and special partners interested in said business are as follows, to wit:

The general partners are Herman C. Hilmers, whose place of residence is the said City of New York; Henry D. McGowan, whose place of residence is the City of Brooklyn and State of New York, and John W. Balfour, whose place of residence is the said City of New York.

The special partner is James Jennings McComb, whose place of residence is the said City of New York.

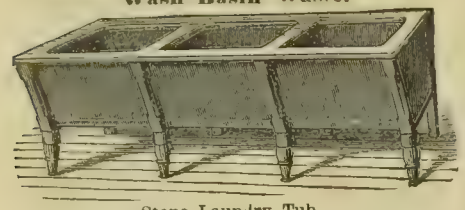
Fourth. The amount of capital contributed by the special partner to the common stock and continued therein is eighty thousand dollars.

Fifth. The period at which said renewal of the partnership is to commence is the first day of June, one thousand eight hundred and eighty-one, and the period at which it will terminate is the first day of June, one thousand, eight hundred and eighty-five.

Witness our hands and seals this thirty-first day May, one thousand, eight hundred and eighty-one.

H. C. HILMERS, (Seal.)
H. D. McGOWAN, (Seal.)
J. W. BALFOUR, (Seal.)
per H. C. HILMERS, (Seal.)
J. J. McCOMB, (Seal.)

State of New York, } s. s.:
City and County of New York, }



Herman C. Hilmers being duly sworn, deposes and says that he is one of the general partners named in the foregoing certificate, and that the sum of eighty thousand dollars specified in the said certificate to have been contributed by the special partner therein mentioned to the common stock of the said copartnership has been heretofore actually and in good faith paid in cash, and is continued in the business.

H. C. HILMERS.

Sworn to before me this 31st day of May, 1881. } C. S. SIMPSON, Notary Public, N. Y Co.

Communications should be addressed to

C. W. SWEET, 137 Broadway.

J. T. LINDSEY, Business Manager.

It is rumored that there will soon be serious trouble with the employees of the railroad and telegraph companies. The really extraordinary demand for skilled telegraph operators has led to the formation of a secret union and a demand, it is said, will be shortly made for a large and permanent advance in the wages, as well as a reduction of what are deemed excessive hours of labor. In the cable dispatches, it will be noticed, that the employees of the government telegraph in England have united in demanding better treatment and shorter hours of labor. Rumors in regard to the intention of our American engineers are indefinite, but it is believed that all the railroad employees expect to get better wages this summer. This desire for higher wages and better treatment on the part of the working classes, is not an unfavorable symptom in itself. It shows that the times are prosperous, and that the working classes think they ought to share in the large profits of business. But a concerted movement of the railway employees and telegraph operators, might tend to depress the price of stocks.

The outcry against the "syndicate of liars," by the *World* newspaper, was one of the most magnificent specimens of audacity known to journalism. There was, it is true, a syndicate of liars, but the leading members were William Henry Hurlbut, Hugh J. Jewett, of the Erie road, Commissioner Fink, Gould's broker, Connor, who supplies the points for the gossip of the *World*, as well as some less well-known followers of Jay Gould and the bull party. It now turns out that the crops are deficient, that the railroads are and have been cutting rates, and that there has been the most persistent and vigorous lying on the bull side of the market. The agent of the Associated Press did what he could to help the bulls by issuing the circular upon which the charge of lying against the bears was based. Although William H. Vanderbilt's name was used, we do not believe that he ever denied that the rates were being cut. Indeed, there is evidence to show that he commenced cutting rates himself, his probable object being to depress stocks before the next rise was inaugurated.

The continuous rains have so far done no harm in the East. Indeed, for several years our rural population have suffered from a deficiency of rainy weather during the summer season. This last winter and spring, however, have supplied so much moisture that the ground is thoroughly saturated, the wells and the cisterns are full, amd the streams unusually high. There is no danger of plenteous June rains, so far as the East is concerned, but if the stormy weather prevails during July, the effect on the crops will be serious. There will, however, be plenty of feed for cattle, and we ought to have an abundant hay crop.

WHAT IF JAY GOULD SHOULD DIE?

The agent of the Associated Press declined to publish a dispatch, which stated that Jay Gould had been shot at S. Louis. It is alleged this report was gotten up by a "syndicate of liars" who wished to depress prices on the stock list. But would the news of the death of Jay Gould affect stock prices unfavorably? The same thing was said of Vanderbilt when he was alive, yet his decease had no perceptible influence upon the market. This may have been because a long sickness preceded his decease and the effect of his death, if any, had been discounted. In all human probability when Mr. Gould dies, it will not be by the hand of an assassin. He is a frail, sickly man and when his time comes, he probably will take to his bed and be kept alive for weeks, if not months, affording abundant time for any unfavorable effect of his death to be discounted.

The reason why it is feared that Mr. Gould's death might affect the market, is because of the vast consolidating schemes he has on hand. There is the southwestern system yet to be perfected, and it is more than probable that other combinations still more comprehensive are under way. Mr. Gould is understood to be engaged in an enterprise having in view the consolidation of all submarine cables of the world. It is also believed that if he lives, the country will be startled by a connection from St. Louis to the east, which will put him in practical control of more than half the railway system of the country.

But it should be borne in mind that the work of consolidating railway companies began before Mr. Gould commenced his railroad career, and will continue for many years after he is dead. Everything conspires to unify the railway system of the country. It is certain that at some time or other, the Central Pacific will make a combination with the Union Pacific, so as to form a line under one management from New York to San Francisco. The St. Paul and Northwestern systems will certainly unite some day and a connection between them, the Northern Pacific and the Oregon Navigation Company, seems to be written in the book of fate. Then, Mr. Jay Gould is exceptionally fortunate in having for his lieutenants some of the ablest financiers and railroad men of the country. Solon Humphreys, Russell Sage, Sidney Dillon, General Eckert and a score of others less known, will continue the work Mr. Gould begun, should any fatal accident befall him. We judge then that, while his sudden taking off might depress stocks, the probabilities are that if he dies in his bed like other men, there will be no great change in the price of securities because of his decease.

But what a curious change of feeling these speculations about Mr. Gould's life show, on the part of the press and the public. When Gould and Fisk were associated together in the Erie management, the death of either or both of them would have been regarded with sublime indifference, if not with secret satisfaction by the great mass of the business community. But now the whole speculative world regards with breathless apprehension the possibility of Jay Gould's death. There must have been some mistake about this man's character and intentions. Either he was misunderstood at the opening of his career, or he is overappreciated now, when he is apparently at the height of his wealth and power. But what a career it has been. What a contrast there is between Jay Gould coming to New York to sell a patent mouse trap, and the same man who stands to-day in the railway and financial world like "great Jove among the gods, to to whom there is no second."

HOW THINGS LOOK OUT WEST.

One of the *attaches* of THE REAL ESTATE RECORD has just returned from a flying visit to the West. In view of the interest which attaches to the crop question, a statement of what he saw and heard may be of some value to those who have interests in the stock and grain markets. Winter wheat is undoubtedly very seriously damaged in Ohio, Indiana, Illinois, Michigan and probably further West. At the best it cannot be more than a two-thirds crop. There is time enough for it to turn out somewhat better than the present promise, but heavy western grain men fear the worst and are bulls on the price of winter wheat.

The spring wheat crop, so far, looks fairly well. It promises an average yield, and the weather lately has been highly favorable. The return per acre will be about eqnal to last year. Still, it is too early to speak with any certainty about spring wheat. In view of the exceptional weather we are having all this year, the worst is to be feared.

The corn crop has been delayed in its planting several weeks and in many cases had to be replanted. The acreage will be large, but if we have a cool, wet summer, the crop will fall far behind that of last year.

All through the West it was noticeable that business activity was very great. There is a building mania under way, and in every city and town the number of new buildings is something extraordinary. All the railways seem to have as much traffic as they can handle. There was, however, cutting of rates on east bound passenger fares and freight. At any of the hotels, tickets from Chicago to New York could be bought for $15. There is a great deal of stock operating in the New York market on the part of operators in the Western cities. Just at present the Western operators are bulls on grain and bears on railway stocks. A great part of the immense short interest in Wall

street is on Western orders. It is Europe and the East that are buying, the West is selling stocks.

Money is very abundant all through the West. At Rockford, Illinois, where only five years since money loaned at 8 and 10 per cent., now the banks find great difficulty in getting 6. At Newark, Ohio, farmers were reluctant to pay more than 5 per cent. for mortgages. In fact, there was a plethora of money everywhere. There was an expectation of an advance in prices, labor was increasing its demands, and hence all materials involving labor, are regarded cheap at present figures. The expectation was that the coming fall months would show a boom in merchandise and other commodities, including land and grain.

ABOUT THE ELEVATED ROADS.

The price of the elevated roads keeps up wonderfully well in view of the depressing reports which are circulated in regard to the financial condition of the Manhattan Company and the deterioration in the roads themselves. One stockholder in the elevated road suits said that Samuel J. Tilden told him that the deterioration of the roads themselves was so great that they would all have to be replaced within a few years. Mr. Tilden not only sold his stock, but his bonds, as he feared that they would depreciate when it was found that the roads would have to be rebuilt.

Mr. S. R. Filley, of the Suburban Rapid Transit Company, says that in the portions of his roads which run on artificial supports, seasoned yellow pine will be used. There is some patented process that protects the wood against the ravages of time and the weather. He says that iron is the very worst material that can be used for elevated steam roads. It is known that the Metropolitan road now runs on slow time, so that there shall be very little wear and tear. The constant jarring and pounding of iron disintegrates it. The time comes when the particles fall apart, as it were, and the metal crumbles.

Then, it is said, when July comes it will be found that the Manhattan Company will be without means to pay the 10 per cent. on the leases and the interest on the bonds. All the figures given show that there will be a deficiency of more than $600,000.

Notwithstanding all these disquieting statements, the price of the various elevated securities keeps up very well indeed. The holders see that the public like this means of transit so much that no system of underground roads will ever deprive it of popularity. Then, the growth of New York is so great that the time must come when this popular system of travel will pay handsomely. There is an abiding faith that, no matter what accidents may come, the elevated road system is a permanent thing, and in some way will get out of its present monetary troubles.

Let the discomforted bulls of the stock market take courage. Stocks may and will undoubtedly go up again, but if they market their holdings, a handsome profit will be shown, which, if they are wise they will put into real estate. Stocks are dear, but land is relatively cheap, and is certain to show an improvement, indeed a very large improvement within the coming year.

It is hardly worth while commenting upon the plumbers' registration bill, in view of the fact that no registration is required before March, 1882. The plumbers intend to have the law abridged or amended by the next Legislature, and they will probably be backed by the whole building interest. The law is considered defective, if not oppressive, and a determined effort will be made to have it repealed.

THE FINANCIAL OUTLOOK.

The markets have been mixed during the past week and a feverish feeling has obtained in stock, due to the cutting of rates on the grain carrying roads. It is very certain that for some time past, ever since Mr. Vanderbilt's return from Europe, if not before, there has been a secret war among the trunk lines. More than three weeks ago tickets covld be purchased from New York for the West on the New York Central road for less than schedule rates. It is, however, an open question whether this cutting has been done to secure more business or to depress the stock market. It was reported that Mr. Vanderbilt had denied that rates were being cut, but there is no such notification over Mr. Vanderbilt's own name, nor has any reporter claimed to have had a denial from his own lips. It is, however, true that Mr. Hugh J. Jewett and Commissioner Fink did deny that there was any cutting, and that the *World* newspaper, under the inspiration of Jay Gould, declared that these reports as well as the stories about bad crops were gotten up by a syndicate of liars. At the close of the week prices were decidedly off, and were it not for Jay Gould and Woerishoffer stocks, with the help of some specialties, the market might have declined fifteen points. The downward movement would have been aided by the unfavorable crop reports, for no matter how abundant money may be, if there is little grain to be carried during the next season, the present range of prices cannot be maintained.

The *Public* takes a hopeful view of the situation, however. It says the exchanges last week were the largest ever known in the country. Compared with the same week last year, they show an increase of 49 per cent. But may not this extraordinary activity in all kinds of business be a reason why stocks are not so active. We cannot eat our cake and have it too, and if land buying, building, manufacturing and commercial affairs generally are so active, there cannot be so much money to spare in the bulling of stocks. Indeed, the *Public* itself confirms this view by publishing a table showing that the banks which do a speculative stock business have not increased their loans to anything like the extent of the banks that do a general business. The same paper touches a number of very vital points, in the following, which we copy:

> Meanwhile, the traffic of the railroads has been larger since the opening of navigation than it was during the same period last year, *even from the lake and river ports*. But an increasing quantity of traffic comes to the roads from other points, and that gain this year has been large. The receipts down to the first week in June indicate plainly that the roads have not been suffering for want of business, though in some cases—as in that of the Canada Southern—the transfer of business to other roads has operated unfavorably. It may be said in general, that as to any movement based upon railroad operations, there can be no occasion whatever for a reaction as long as the business of the railroads is as profitable as it has been to the date of the latest reports, and there is no evidence thus far that the disposition or the power of the managers to make it profitable has diminished.
>
> Crops are going to fail, others say. We counsel anybody who is inclined to believe the persistently circulated reports to this effect to take up his files of the newspapers and notice how persistent and positive were the similar reports early last year. When summer approaches, and a great quantity of grain remains unsold, there are many people who have a powerful interest to tell and believe gloomy accounts about the next crop. It has not happened once in the last ten years that these accounts have not been widely circulated about this season, and yet the crop of wheat has doubled within that period, increasing almost every year. This year the statements made have more semblance of truth than usual. But it must be admitted also that the syndicate of liars is a great deal abler, bolder and better organized than ever before. Many of the stories told are certainly false; many more are certainly of such a character that no one can yet know whether they will prove true or false; and some others are palpable exaggerations. It is a suspicious circumstance that both in the Atlantic and the Pacific States the accounts of probable failure of crops are most positive and most gloomy that come from the quarters where it is known that the largest largest stores of old wheat remain unsold. The truth is that it is yet too early to form a trustworthy opinion regarding the wheat crop as a whole; beyond this, that it is likely to prove larger than ever in states which produce more than half of the total crop, namely, in Ohio, and the states east and south of that, in Kansas, and in the Pacific states; that it is likely to be much below that of last year in Michigan, Illinois, and parts of Missouri and Iowa; and that the increase of acreage has been very large in the upper tier of Northwestern states.
>
> The condition of the wheat crop will hardly begin to affect the earnings of railroads for nearly two months. It will not be so known as to affect the value of railroad properties materially for some weeks to come. When any effect is felt, it will be decidedly unequal—favorable to some properties and unfavorable to others. No influence of that character can be expected to produce a reaction of importance until the general disposition to buy securities for investment in place of government bonds has been nearly exhausted. The recent course of the market shows that this disposition is still in force, and large orders to buy, from abroad and from the interior, are still felt at evey decline. Until that evidence of strength disappears, we doubt whether those interested in maintaining prices can be overpowered as long as they have before them the prospect of great payments by the Treasury in July and August. On the whole, therefore, we infer that any considerable reaction is improbable prior to the second week in July, and conditions must then have changed materially to make such a reaction probable even at that time. Thunderbolts sometimes come out of clear sky, it is often said. But a man has about as much chance of being struck by lightning with no cloud in sight, as of being overwhelmed by a financial disaster of which no cause is visible before the disaster comes. In ninety-nine cases out of one hundred, it happens as it did in February, that men are amazed only because they refuse to see a storm-cloud that is close at hand.

A HINT TO INVESTORS.

A subscriber wishes to know what we think of Western Union Telegraph stock and whether it is worth while to retain the ownership of certain shares in the Pullman Palace Car Company.

In regard to Western Union the opinion in the "street" is that the shares are worth more than they are selling for. The recent report shows that the company is earning over 8 per cent. on a capital stock of $80,000,000. There is every reason to believe that the next quarterly report will be still better. The increase in the business of the country is very great, and the telegraph shares in, and helps the general prosperity. There can be no effective opposition for the next two years, and by that time the growth of the business will be such that the new Mutual Company can find enough to do without interfering to any great extent with the Western Union. The latter company has a railway connection, which gives it a great advantage over any rival. But it should be borne in mind that Jay Gould is a very peculiar person and he may some day do something which would depreciate the value of telegraph stock.

Then as to Pullman Palace Car. The stock in this company has recently had a large advance. It is a close corporation, and its exact financial condition is known only to th

insiders. It has undoubtedly profited by the immense extension of the railway business of the country. It manufactures cars and car wheels and owns quite a large town just south of Chicago. It has put up immense works and is understood to have very large orders under way. But when financial trouble comes great manufacturing companies are apt to be the first sufferers. George H. Pullman does everything in a lavish, costly way, and we doubt whether Pullman Car stock would be a good thing to own in a panic.

While it is likely that both Western Union and Pullman Palace Car may go much higher, we think that real estate on the island is much more likely to be permanently valuable than either of them. The price of labor has got to be so high that the materials which enter in the construction of buildings must advance in price. It follows that buildings cannot be replaced at the prices which have heretofore obtained. People who buy houses or lots will be sure of an advancing market for a long time to come. For, as the experience of the last panic shows, real estate recedes very slowly in price. It is the last kind of property to get the full effect of a "boom" and holds its own long after stocks and general merchandise have declined in value. Riverside Park lots sold for higher figures in '76, three years after the panic, than they did at the sales held recently on the Real Estate Exchange. Real property, for a permanent investment, is the safest and surest now as always.

AMERICAN MINES ABROAD.

The investors of Great Britain are again turning their attention to mining investments, and from this time forth a great deal of British gold will be put into mines and the shares of mines located in the United States. While the experience of British capitalists in some American mines has been unfortunate, it is still true that some properties have paid the English investors handsomely. The Richmond of Eureka, Nevada, is the greatest and most productive mine so far as we know, now in existence. It has paid generous dividends for the last eight years, and has more productive ore in sight than any mine on this Continent. Every share of it is held in England. English companies own two other mines in California, the Sierra Butte and the Empire Eureka, which are among our very best mining properties The plethora of capital on the London market, is forcing investments into every enterprise which promises a profit. The English newspapers are full of advertisements of mining ventures in Africa and elsewhere. A certain East Indian gold mine is said to have proved wonderfully productive, and now quite a number of American properties have been placed on the London market. John Ponder has recently sold a mine in London and some 30,000 shares of Silver Cliff have been sent abroad by Heath & Co. James R. Keene, it is understood, as soon as his Bradshaw and Washington are well under way in New York, will have them listed upon the London stock board. His notoriety on the turf, since his horse Foxhall won the Grand Prix, will give him a great advantage in whatever properties he is known to be backer of. His friends say that he intends to make a great feature of mining enterprises, hereafter, both at home and abroad. Professor Rothwell, of the *Engineering and Mining Journal*, has placed the stock of a Canadian gold mining enterprise in London, and is now examining a Jamaica gold mine for certain English capitalists. There is every reason therefore to believe that a great deal of English money will be sent to this market, in return for interests in American mines. It is to be hoped that most of these ventures will be profitable, for our mineral resources are practically unlimited. Our bullion product can easily be doubled within the next five years and quadrupled in ten years.

SUBURBAN RAPID TRANSIT.

Certain impatient people on the other side of the Harlem, are complaining of the tardy action of the Suburban Rapid Transit Company. They have applied to the Mayor to have a new rapid transit commission appointed and a new route laid out, work to commence as soon as possible, and the Mayor has unwisely granted the petition. The Suburban Company has been engaged in indispensable preliminary work and are nearly ready to commence building the road. Maps had to be drawn, surveys made, right of way secured, and materials contracted for, before work could commence. All this, as we understand, has been done and breaking ground for the road and getting ready for the Second Avenue bridge cannot be very far off. There is a suspicion that connection will be made with the New York Central sunken track, so as to secure expeditious travel down to Forty-second street. The surburban road is to be so constructed that it will admit of as rapid travelling as the best railways in the country; but it is now settled that there can be no really rapid transit on the elevated roads. There is talk of a new track being laid on the Second Avenue road, built so as to admit of the running of rapid through trains; and this must in some way be accomplished, to secure the success of rapid transit in the annexed district. Then, sometime or other, or somehow or other, there will be an underground road from Forty-second street to the Battery, taking the line of Broadway. As we announced last week, Governor Cornell has approved the amendments to the Beach Pneumatic Railway under Broadway. The charter of that organization is held by Melville D. Smith, of Arcade fame, and it is said that he and his friends contemplate making a new street under Broadway, extending from curb to curb, and available not only for steam-cars, but for street-cars and all manner of vehicles. Should this splendid scheme be carried out, any part of the Twenty-first and Twenty-second Wards would be within three-quarters of an hour of the Battery. But the Arcade plan is almost too magnificent to be possible.

The Springfield *Union* calls attention to a real want in all our cities in the following paragraph :

Something in the shape of houses between the cheap tenement and the palatial residence is loudly called for in all our cities. People of moderate means, but of respectable connections and proclivities, want decent houses in respectable localities. It may be said that they are too fastidious, but tastes are not to be discussed. A man cannot be argued into liking what he dislikes. He may assent to the statement that he is no better and earns no more than the man with whose social tastes he has no affinity, but he will not associate with such a man, and does not care to be his next-door neighbor. Some houses are building in this city which meet the requisition of the "respectable man of moderate means," but many more are wanted, as the great demand for decent tenements shows. Such men make good tenants, and it will pay well in the long run to build decent houses for them.

Builders and capitalists will persist in catering for the wealthy. The census statistics show that eighty per cent of our populations live in tenement houses, but this fraction of our population is not, as a general thing, comfortably housed. There is more money to-day in building comfortable houses for the mass of the population, than in erecting dwellings for the well-to-do, who are already abundantly supplied.

DISTINCTIVE PRIVATE HOUSES.

With but few exceptions the rich men of New York have so far preferred to build and live in inconspicuous houses. The brown stone front is a democratic institution; it being the most elegant and fashionable style of house, millionaires have been satisfied to show their splendor rather by interior decorations, pictures and statuary, than by fine architecture or external magnificence. The first really pretentious house was the white marble mansion of the late A. T. Stewart, corner Fifth avenue and Thirty-fourth street. But Stewart's example was not followed until the erection of the new Vanderbilt houses. These are clearly intended to be showy beyond their fellows, and they probably mark a new era in house-building in the metropolis. In San Francisco and other cities very rich people have built themselves palaces; having plenty of ground, they have erected fine dwellings with artistic approaches. Of late years a fashion of erecting fine country places, near the cities, has become common. In times gone by the rich New York merchant had his country seat upon the Hudson, but at a later period places like Dobb's Ferry, Irvington, and Tarrytown have been beautified by magnificent dwellings, erected for rich people who do business in New York. Unless all the signs fail the Riverside Drive, the Boulevard, Morningside Park, and Washington Heights will be adorned in time with magnificent private residences, finer than any New York has yet seen. The fortunes of some few men have got to be so colossal, that they will naturally desire to make it known to their less favored fellow citizens by their splendid private residences. There is less jealousy of the very rich in large cities like New York, than in small communities like San Francisco, and it is possible to build on this island in locations which will insure against crowded neighborhoods. The tides of travel will be confined to the leading avenues and business streets; but apart from the carriages there will be nothing to intrude on the privacy of people who build on the west or northwest side of the city, near the great parks or fronting on the river.

Our architects should bestir themselves. Let them get up fine and unique designs. When a man is known to be very rich, without a house, they should be canvassed to spend their money on some really fine building. The new houses should be distinctive. The brown stone era is passing away, and wealthy men owe something to the city in which they make their fortune. Let them erect buildings worthy of the metropolis. By so doing they advance art, beautify and benefit the city of their residence, and secure a permanent credit for themselves. There is no monument so enduring to a man's fame as a noble dwelling, the plans of which were of his own selecting.

People in general do not look with favor on the appropriation of an extra million for the Brooklyn Bridge. We heard it stated only a day or two ago that when the bridge was completed Brooklyn would have a populption of 1,500,000 inside of two years.

MINING INFORMATION.

A Montana mine—Eureka—is soon to be listed upon the Mining Exchange. It is well spoken of and will be strongly backed. Some day Montana will occupy a great deal of attention from Eastern capitalists. Mr. D. P. Webster, well known in this city, writes us as follows from Helena, M. T.:

"There are some five mines within twenty miles of this place; one—the Drum Lomond—owned by an illiterate Irishman, who refused an offer of $1,000,000 for it. Butte City, about sixty-five miles south of this place, has some very valuable mines, among others, the Alice and Lexington, each of which is worth over $1,000,000. The ore is rich, a mixture of copper and silver, 50 to 40 per cent. of the former and 20 to 120 per cent. of the latter. The Alta Montana, about twenty miles from here, is very valuable; they are having new reduction works in place of those just burnt down. The Bonanza Chief is five miles from here; it is a large vein of low grade ore, worth $10 a ton, or less. The machinery is inadequate and the management considered bad."

Although Tip Top shows lower quotations in San Francisco, there is reason to believe that the stock will yet command high figures. It is owned by Haggan, and instead of assessing, the profits have been used in developing the mine. There is a large amount of development work ahead, and when dividends are commenced they will probably be continued.

Camanche and Tower is the name of a new Nevada property soon to be put upon this market. It is in the Candalaria district, a very rich mineral region, but which is deficient in water. Columbus or Candalaria district is where the famous Northern Belle mine is situated. In a few years it will be an immense producer of silver and other metals.

The reports from Standard of Bodie still continue good. The shaft in the Bodie mine goes down slowly. It was about 630 feet at last reports. It may be September or October before there is a cross cut. There are great possibilities in Bodie stock, but there will be delay.

Bulwer still hangs about $3 or under and looks like a purchase. Apart from what may be found in the mine, in the cross cut from the Standard, there is so much profit from the mill, that it ought soon to pay small dividends.

The Castle Dome is the name of a large and magnificent mining property in Southern Arizona. There are several mines and the ores are galena, which pay in silver and lead about $80 to the ton. The company own great reduction works in San Francisco, which pay a handsome profit. So far this has been a private company, the stock being held by a few capitalists, but it may some time be placed on the market. Professor Blake is one of the owners.

The California operators with bad reputations, who are running the State Line mine speculation on this market, are trying to bolster up the price of their stocks by statements made by sundry persons unknown to mining engineers. "Jim" Selover testifies that two of the mines are all right. True, the water is sixteen miles away, and the pipe is defective, and then the greatest depth is only 136 feet. A Mr. Ewing also testifies to the value of the mines. But why is it that there is no evidence from any mining engineer that these properties are of any value? There are well known experts who could speak with authority, such as Ashburner, the brothers Janin, Hague, Blake, Boyd and others of equal standing. There is no expert evidence of the slightest value that the State Line mines are what is claimed for them. They have been a very good thing for the manipulators. It is said John W. Mackay will take a look at them on his way home to Virginia City.

The Central Arizona company has been crushing ore since last December. No dividends yet. It is said they soon expect to reach better ore, when the milling will become profitable. When the mine was called the Vulture, the ore had to be teamed fourteen miles, and the mine was gutted of its best ore, hence the poor stuff on which the company has been working lately.

The Dunderberg mine has been leased, which means that after the company developed the property it did not pay to work it. Leasing a mine means that certain contractors are willing to take the risk of getting out the ore in sight to pay the cost of the milling, but will do no developing work, and this means the ultimate ruin of the mine.

THE NEW TAX LAW IN VERMONT.

It was a subject of complaint among the Vermont farmers that taxes were so levied as to discriminate against them and in favor of corporations and capitalists; so a new law was passed last year, and it is very interesting to note its effect upon the taxpayers in the State. The first effect has been that while the returns have increased, the percentage of the tax to be raised has diminished.

This year blanks were furnished to each taxpayer to fill out, thus virtually making him an appraiser of his own property. The law further provided that in case he did not return a true list, said list could be doubled by the listers, which in many cases has been done. Although the taxpayer was obliged to subscribe to an oath vouching for the truthfulness of his list, some have had the temerity to return a false list. The law makes it necessary for every one owing money to state how much and to whom. On the one hand the debtor objected, fearing it might injure his credit and cripple his business, and on the other the creditor, who lived in another town or county, objected because he could no longer escape taxation. As an instance of the shifts resorted to to avoid taxation, it may be stated that one of the richest men in St. Johnsbury came to Shelburne, Vt., so as to be there on the first day of April, and be taxed there where the burden was lighter. Others deposited their money outside the State. Ex Gov. John B. Page, and H. H. Baxter, both of Rutland, have invested in Brooklyn realty during the past year, in order to get a better per cent. on their capital, the rate of taxation being about the same in one place as in the other. The tax in the town of St. Albans is 2.20 cents on the dollar for this year. This seems high for a town of 10,000 inhabitants. It is safe to say that the grand list of the State under the present law has increased 20 to 25 per cent. Probably no law will ever be passed in any State that will equalize taxation as it should be. Realty is tangible and money is not, so what is in sight must suffer for what is unknown or unseen.

LAWYERS ON TITLES.

Mr. Chamberlain, of the firm of Deane & Chamberlain, says that Mr. Olmstead is wholly incorrect in his first statement in regard to the sweeping change advocated in the official registry of real estate titles. He avers that no radical change can be made until the law is changed. He freely admits that the present law is intricate and might be simplified somewhat. If you could go back of 1856 and index the titles it would be a good thing. From 1869 he does not well see how any improvement could be made. No paper can undertake to give a complete index of titles. While he says that the mode of searching titles is wearisome and perplexing, he sees no short cut to it. Official searches are expensive, but it must be remembered that those whose business it is to examine titles have spent fifteen or twenty years to get their books in such a shape that they can unriddle the most complex title in half an hour. If they charge $50 or $75 for a search it is not exorbitant. A strenuous effort has been made to lessen the fees charged in the Register's office. Mr. Chamberlain thinks that this is the poorest paid office in the city, considering the amount of service rendered. In the West, where transfers are less frequent, searching titles is not so onerous. There it is only necessary to go back a few years, or at most only back to the Government title. In New York the case is reversed. We must go to the records and look up the old farm title. Where property has changed hands at least a score of times in the course of a generation or two it takes some time to determine the validity of a title. Only a short time ago Mr. Chamberlain had to examine a title for a wealthy client. At the outset the title seemed perfect, but on further search it appeared that the estate had been sold under foreclosure, and there being infants in the case, who should have been summoned to appear in court, but were not, their guardian appearing in their behalf, the title was found imperfect. It took a considerable force a day to make the search, and it will cause a delay of at least six months before the party can acquire a title. The real estate lawyer of to-day must have a complete knowledge of the geography of the island and be well up in all the laws that pertain to real property. This firm claims to have the most complete set of indexes to titles of any office in New York. These indexes are arranged under the vowels and show at a glance what is desired. A member of the firm of Lord, Day & Lord considered Mr. Olmstead's plan utterly impracticable. Real estate could not be made negotiable like bonds and stocks. If it were so it would be as unstable in value as bonds and stocks. Render it more easily negotiable and you remove its boasted security.

THE CAUTIONS AGAINST FIRES IN EUROPE.

In Florence and other towns in Italy, dwelling-houses of the commonest kinds, so stringent are building laws, must be made practically fire-proof. No timber is allowed in the construction of floors, but light arches of brick 1½ inches thick are built, and these are covered with an incombustible floor. The United States consul there affirms, that not more than one building has burned in thirty-four years. If a fire did occur, it generally caught on the roof and did not extend beyond. It is claimed that in Paris, even in the poorer quarters, the houses are exceptionally well constructed. All the floors are water-tight, the plaster used being nearly fire-proof. Loss of life by fire is less in Paris than in London.

Of late, in all the cities and large towns of France, there is a growing tendency to construct fire-proof structures. This has been brought about by the Civil Code, which imposes legal responsibllities on landlords and tenants.

Article 1733 of the Code, makes the tenant answerable for a fire unless it can be shown it was accidental, or was due to the superior force, or caught from an adjoining building. According to article 1383, all persons are responsible for fires due to their own acts, culpable negligence or imprudence. Under this and similar acts, the landlord from whose house the fire takes, must indemnify those who have suffered loss.

Berlin has a very strict building act. The chief officers of the fire companies are generally architects. In Berlin, the police make judicial inquiries into all cases of fire, either on suspicion of fraud or not, and the Attorney-General decides on the report whether to prosecute or not. Some such regulations in New York might work a beneficent change.

Visitors to San Francisco are all struck by the method in which street cars are propelled. They are run by an endless chain, moving in a trench placed below the middle of the track and clutched or disengaged at will by the driver, steam power being used to move the cable. No horses are needed of course. The cost of these lines is said to be $55,000 a mile. Chicago intends to follow the example of San Francisco, so also does Philadelphia. In the latter the experiment is first to be tried on the Columbia avenue track. If successful, a hundred miles of the new track will be laid. The only doubt about the enterprise is the fear lest the trench would be filled with snow and ice during the winter season. We hear that a company proposes to try the experiment at Brooklyn if the Philadelphia line succeeds.

A great deal of rubbish has been written in the health journals about the danger to health from hot air furnaces and cast iron stoves. Professor Ira Remsen, of John Hopkins' University, has been testing this matter, and he says the quantity of carbonic oxide which escapes is so small as not to endanger health. Many people lead uncomfortable lives in winter by keeping their windows open. Usually there is an abundance of ventilation through the fire-place, the doors and the interstices of the windows.

NEW YORK REALTY AT ALBANY.

[From our own Correspondent.]

ALBANY, June 16.

A bill has been passed by both houses amending the acts of 1877 and 1879, for the perfecting and perpetuating the title of the city of New York to property, water rights and privileges heretofore taken or used, or which may be hereafter taken or used by the city to increase the supply of pure and wholesome water for the use of the city, and for the payment and extinguishment of all claims or damage growing out of the taking of such rights.

When it came up in the Assembly, Mr. Everett, who was smarting under the vetoe of his water inspection bill, said that the bill wiped out all the lakes that are left in Putnam county, and that the bill ought to be defeated.

M. C. Murphy replied that all there was in it was an authorization to the corporation counsel of New York to perfect the title of the city to certain property along the Bronx river. The principal provisions of the bill are as follows:

9. Whenever there shall be one or more of the estates enumerated in article one of title two of chapter one of the second part of the Revised Statutes, entitled "Of the creation and division of estates," in any real estate, as the term real estate is defined in this act, required by the city of New York for the purpose of this act, such estate and real estate may be acquired by said city by means of the special proceedings authorized by this act.

In every such case the commissioner of public works, in addition to the statements now required by the said act, shall set forth and state in his petition the facts, so far as the same can with reasonable diligence be ascertained, in relation to any such estate, and the person, persons, or class of persons, then in being or not in being, who are or may become entitled in any contingency to any estate as aforesaid in such real estate, and may pray that such estate may be acquired and such persons may be bound by the said proceedings; and thereupon the court to whom such petition is presented, if there be no attorney appearing in their behalf, shall appoint some competent and disinterested attorney or officer of the court to appear in such proceedings and represent the rights, interests and estate of the person, persons, or class of persons aforesaid in such real estate, and to protect the same on the appraisal and proceedings aforesaid; and it shall be the duty of the court, on or after the confirmation of the report of appraisal, to ascertain by such report or by a reference for that purpose or otherwise, in its discretion, the rights, interest and estate of such person, persons or class of persons, in the real estate so appraised and in the compensation awarded therefor, and to make an order determining the amount of share of such compensation to which such person, persons, or class of persons are or may become entitled on account of such estate, as the same shall arise or become vested in them respectively, and to direct and to provide for the payment, investment or securing thereof, for the benefit of the person, persons, or class of persons aforesaid, who are or who may, in the contingency upon which such estate arises, become entitled thereto; upon the payment or deposit by the comptroller of the city of New York of the sums to be paid for the acquisition of such real estate in the manner provided in section eight of this act, and in the manner directed by order of court the said commissioner of public works, for and in behalf of the said mayor, aldermen and commonalty of the city of New York, shall be entitled to enter upon, take possession of and use the said real estate for the purposes indicated in this act, and such person, persons, or class of persons as are or may become entitled to such estate shall be barred of and from all right or claim in and to such land adverse to its use and occupation by the said commissioner or by the said, the mayor, aldermen and commonalty.

§ 2. This act shall take effect immediately, and the provisions hereof shall apply to all special proceedings heretofore brought, under chapter four hundred and forty-five of the laws of eighteen hundred and seventy-seven, and the various acts amendatory thereof, and which shall not be completed at the date of the passage of this act.

The act providing for changing the map and laying out a new street between Tenth and Avenue St. Nicholas, and to alter the map of the section between One Hundred and Thirty-third and One Hundred and Forty-third streets, passed the Assembly on Tuesday, and has gone to the Governor. The changes authorized by the act are as follows:

SECTION 1. The Commissioner of Public Works of the city of New York is hereby directed, immediately upon the passage of this act, to lay out and establish a street of a width of not less than 60 feet, running from the Tenth avenue to the Avenue St. Nicholas, with such windings and turnings, course and direction as to him may seem expedient, in that section of the said city bounded northerly by a continuation to the Avenue St. Nicholas, of the northerly line of One Hundred and Forty-third street, westerly by the Tenth avenue, easterly by the Avenue St. Nicholas, and southerly by the northerly and northeasterly line of the Female Academy of the Sacred Heart, and the southerly line of One Hundred and Thirty third street extended and continued, until it meets the said north easterly line of the said lands of the said female academy, and to fix and establish the grade thereof.

The bill passed last week which gave the Commissioner of Public Works full power to construct a new aqueduct to convey water to New York city, is objected to on the part of the Mayor and Controller of the city on account of the lack of restriction and safeguards in reference to contract. A resolution was passed to-day recalling the bill from the Governor for the purpose of amending it by inserting the restriction and limitation which the Mayor and Controller consider necessary.

A new bill has been introduced reviving the charter of the Metropolitan Transit Company, or the proposed three-track railroad through the middle of the blocks. Its promoters believe that they have so drawn this new bill as to meet all the objections raised by the Governor to the first act passed and vetoed. The second bill passed the Assembly yesterday.

The development of the corruption in the passage of the bill to revive the charter of the Beach Broadway Underground bill, bids fair to make that act valueless under the decisions of the courts. It seems to have been run by Mr. Dixon and his lobby agent, Edwards, in the Half-breed political rut, and the two men were inseparable companions, and have been shown to have been unable to decide where the lobby fund for the railroad bill left off and that for Senator commenced, running the two in so close together as to scandalize both. It is this that has led to the exposure of the use of corrupt means in its passage through the Assembly. The open association of the promoter of the bill with one of the most notorious lobby characters, led to suspicion of improper means being used when under consideration, and the Senatorial scandal has developed the suspicion into a reality.

The bill referred to in letter of last week as having passed the Senate, providing for the change of the grades of the streets from Eighty-fourth to Ninetieth street, west of the Boulevard, and establishing new grades, passed the Assembly to-day and now goes to the Governor.

An act for the laying out of streets from One Hundred and Fifty-ninth street, and north of that street through what is known as the Jumel property, was favorably reported in the Assembly this morning. Since the Legislature will, in all probability, remain here for a month yet, there is time for its passage, as well as several other real estate measures yet unacted upon.

A concurrent resolution has passed both houses providing an amendment to section 11 of article 8 of the Constitution, which is of interest to property-holders in all large cities of the state, and to less extent to those holding property in villages. It, however, has to be acted upon and adopted by another legislature before it can be submitted to the people, but its provisions are such as to call forth discussion.

It provides that no city, town, village or county shall hereafter give money or property, or loan its credit in aid of any individual, association or corporation, or become owner of stock in, or bonds of any association or corporation, nor incur indebtedness except for city, town, village or county purposes. It also provides that no county containing a city over one thousand inhabitants, or any such city, shall be allowed to become indebted for any purpose or in any manner to an amount which, including existing indebtedness, shall exceed 10 per cent of the assessed valuation of the real estate of such county or city subject to taxation, as it appeared by the assessment rolls of said county or city on the last assessment for state or county taxes prior to the incurring of such indebtedness; and all indebtedness in excess of such limitation, except such as may now exist, shall be absolutely void, except as herein otherwise provided. No county or city, whose present indebtedness exceeds 10 per cent. of the assessed valuation of its real estate, subject to taxation, shall be allowed to become indebted in any further amount until such indebtedness shall be reduced within such limit. This section shall not be construed to prevent the issuing of certificates of indebtedness, or revenue bonds issued in anticipation of the collection of taxes, for amounts actually contained, or to be contained in the taxes for the year when such certificates or revenue bonds are issued and payable out of such taxes. Nor shall this section be construed to prevent the issue of bonds to provide for the supply of water, but the term of the bonds issued to provide for the supply of water shall not exceed twenty years, and a sinking fund shall be created on the issuing of the said bonds, for their redemption, by raising annually a sum which will produce an amount equal to the sum of the principal and interest of said bonds at their maturity. Any city whose debt now exceeds said 10 per cent shall decrease the amount each year, at the rate of at least 1 per cent. on the assessed valuation of the taxable property of said city, until such debt is reduced to an amount equal to the rate of said 10 per cent. The amount hereafter to be raised by tax for county or city purposes, in any county containing a city of over one hundred thousand inhabitants, or any such city of this state, in addition to providing for the principal and interest of existing debt, shall not, in the aggregate, exceed in any one year 2 per cent. of the assessed valuation of the real and personal estate of such county or city, to be ascertained as prescribed in this section in respect to county or city debt.

OUT AMONG THE BUILDERS.

At No. 220 West Fifty-ninth street, C. E. Appleby will build a six-story apartment house from designs by Wm. Howe. It will be 25x96 feet and constructed of brick with Dorchester stone trimmings, and cost $30,000.

On Eighty-seventh street 300 feet west of Ninth avenue, six three-story brick houses, with brown stone trimmings, are soon to be put up. Two will be 15x50 feet, two 18x50, one 20x50, and one 14x50 feet. They are to be used as private residences, and will cost about $50,000.

It is stated on good authority that Mr. Edward Clark will not build a block of houses on Seventy-third street, between Eighth and Ninth avenues, under six months at least. The rock now being excavated is to be used in the construction of his new hotel.

Contracts have just been awarded for the erection of an eight-story office building at Nos. 44 and 45 Broadway, and running through to New street. It will be 40x175 feet, and built of brick, terra cotta and granite. Col. V. K. Stevenson is the owner. D. & J. Jardine are the architects. Cost, $110,000.

Mr. Wm. Kuhles has recently completed plans for a dwelling house, and stable in the rear, connecting with a coach house and riding school in One Hundred and Twenty-fifth street near Sixth avenue. Judge John J. Freeman is the owner.

The old house at No. 27 Waverly place, is being remodelled into a four-story apartment house, 33x80 feet, from plans prepared by Paul Beck. It will be constructed of brick and cost $15,000. It is owned by the Estate of C. F. Beck, of Philadelphia.

At Washington Heights, Mr. Dubois is about to build, four houses from plans drawn by Charles Baxter. One will be 30x64 feet, and two stories high, with basement and mansard roof. It will be finely finished and have bay windows and tower. Cost $30,000.

Mr. Dubois will also erect three more houses, two 25x55 feet, and one 16.8x55 feet, two stories high, with basement and mansard roof. They will all be constructed of brick and cost $70,000. C. Baxter is the architect.

F. R. Walker is going to build a private stable on the north side of Eighty-first street, 200 feet west of Lexington avenue. It will be 25x65 feet, and three stories in height. It is to be constructed of brick with Wyoming blue stone trimming. A. B. Ogden is the architect, and the cost $6,500.

The New York Mutual Improvement Company are going to put a row of eight houses, 18.8x42x100, on One Hundred and Sixty-fifth street, between Grove and Jackson avenues. These houses will be erected on property consisting of 29 lots, just purchased by the company, and are of brick, containing seven rooms each. When completed they can be bought for $2,000 apiece, including the lot. Four per cent. of the cost will buy one of them, and the balance can remain on mortgage, payable in sums of $100 annually. Silliman & Farnsworth are the architects.

The same company are buying property on the East side, below Ninetieth street, for the purpose of erecting dwellings on the same plan.

PROTECTION OF IRON COLUMNS IN BUILDINGS.

There are two simple and inexpensive ways to protect iron columns from the action of fire. The first is to enclose the column in ornamental terra cotta rings; while the second, and it would seem the better, is to fill the columns with water. To render this plan feasible, openings are made in the plates, or castings, placed between the columns, thus giving free communication from top to bottom through the several columns. Short pipes connect them at each floor, where the columns are already in place. The top column has a small escape pipe passing through the roof. From the base of each tier of columns a pipe extends to the street mains in order that all the columns may be supplied with water permanently or as emergency requires. Columns thus filled with water and having an escape for the expansion of water or steam, would stand when every floor was burned. Should the girders be hollow and filled with water, both girders and columns would doubtless stand until the floors and roof fell in. They would then be available in rebuilding. But a more desirable plan still would be to have the whole building constructed of incombustible material. It is to be hoped that all those who are now building and shall build hereafter will bear this fact in mind.

Mr. Hoyes, of the Brush Electric Light Company, looks with favor on the plan of lighting Central Park with three electric lights of 3,600 candle power each.

The Park Commissioners have ordered that gas pipes shall be laid in the approaches to the Bronx River.

MARKET REVIEW.

REAL ESTATE.

☞ For list of lots and houses for sale see pages iii, iv and v of advertisements.

Although the offerings at the Exchange have not been of much consequence, the increasing interest in real estate is shown by the large attendance of investors, and the excellent prices which are paid for all the property offered. Of course the bulk of the business is done in the brokers' offices, where the transactions continue large. The list of conveyances shows that there are as eager buyers as in the best of times. The situation in the real estate market may be summarized as follows:

I. There is no speculative boom as yet, that is, there are but few sales, and re-sales of contracts, nor is there buying of large plots to be immediately retailed at higher figures to smaller purchasers.

II. The buying is by investors for permanent holding or for a large advance in the future. A good deal of the money in Wall street is finding its way, in a quiet way, into improved and unimproved real estate.

III. Tenement house property, which was considered very undesirable a few years back owing to the difficulty in collecting rents, is now in eager demand, owing to the better wages of the working people, who pay readily when they have plenty of work and good wages.

IV. Speculative building is steadily increasing, as shown by the legal records against builders and the proprietors. There is reason to fear that not only in New York, but throughout the country, there is more building than is warranted by the demand. The population of the country is increasing, of course, but if building continues in the present way, there will be more houses than people to occupy them.

If things continue as they have begun, it really looks as if the long expected boom may come next fall. There is plenty of opportunity for operators to buy cheap during the present summer, that is, cheap relatively, for past experience goes to show that the present excitement in the stock market will extend to the real estate market, and that too before many months are over.

Certain property holders have a way of getting favors out of the city, for which there seems to be no equivalent. On the 15th instant, certain lands in the Twelfth Ward were sold at public auction to perfect title. It seems their water fronts, in which the city has some technical rights, were offered to get rid of the claims of the municipality, the sale was practically without competition, the lands being put up upon an appraisement. The city, it seems, goes to all the expense for the benefit of these private persons.

The advertised legal sales do not amount to a great deal this week, but some interest will attach to the offering of lots on the Dykeman estate. It is to be seen what effect upon prices the abandonment of the World's Fair project at Inwood will have.

R. V. Harnett will sell on Monday next, the four-story brick house, No. 325 East Ninth street.

Gossip of the Week.

E. B. Harper & Co., recently sold a five-story brown stone flat, 25x60x100 at 437 east Fifty-eighth street between First avenue and avenue A, for $16,000 cash.

Scott & Myers lately sold two lots on the north side of Eighty-ninth street, between Eighth and Ninth avenues, for $3,000 apiece; also on the north side of Seventy-seventh street, 167 feet east of Fifth avenue, a four-story brown stone house and lot to James H. Sterling for $29,000 cash.

Randolph Guggenheimer and John Sullivan have purchased three excavated lots on the north side of Ninety-first street, between Lexington and Third avenues, for $20,000, and resold them with a loan on terms that have not transpired. Three first-class flats will be erected on this plot.

A bid of $80,000 was refused this week for the ten lots, five on either side of the church, on the north side of Eighty-fourth street, between Lexington and Fourth avenues. These lots are 25.6 each by 100 in depth.

John D. Crimmins has bought a lot on the south side of Sixty-third street, between Second and Third avenues, for $6,000, and, also, one on the north side of Seventy-seventh street, known as No. 111 East Seventy-seventh street, for $7,000.

Messrs. Benner & Zeller have resold the dwelling No. 318 East Eightieth street to Mrs. M. A. Farrell for $13,500. The same firm sold it last week for $13,000 as stated in this column in our last issue.

Messrs. Butler & Matheson have sold for account of Messrs. Ottinger Bros. to the Board of Education, the four-story brick building, No. 68 Pearl street, 19.5x81.4, for $14,000. This building is to be altered into a school house and will be occupied in the autumn by Primary School, No. 15, whose removal from No. 1 Stone street was made necessary by the building of the new Produce Exchange. Messrs. Butler & Matheson were also the brokers who negotiated the sale of the Sixth avenue front, extending from No. 416 to 426, which was reported a short time since.

The property known as the Cheseborough farm, whose sale last week to ex-Gov. E. D. Morgan attracted so much attention, was settled for by the payment of $50,000 in cash, the transfer of the property at the northeast corner of Madison avenue and Sixty-ninth street, 100.5x150, and a mortgage of $200,000.

The purchase by Mr. W. J. Barnes of the three-story brick house, No. 448 East One Hundred and Twentieth street, for $5,000, was the best bargain disposed of at the Exchange this week.

P. S. Treacy has sold the three-story and basement brown stone house, 19.7x53x98.9, at 540 West Forty-second street, Morris Row, for $7,000.

Max Danziger has bought the plot of ground at the southeast corner of Seventy-ninth street and Second avenue, 102.2½x127, for $40,000, and the plot comprising about eighteen lots on the northeast corner of One Hundred and Eighth street and Third avenue, running through to Second avenue, 50 feet on each avenue, for $60,000.

Messrs. L. J. and I. Phillips again report large sales of realty of which we give the following: For account of Russell & Erwin, the corner of Broadway and Fifty-ninth street, 115 on the street, and 105 on Broadway, for $162,500; a piece of Broadway property below Prince street for $90,000; for account of the Fernando Wood estate, the whole front on the west side of the Boulevard, between Eighty-first and Eighty-second streets, comprising eight lots on the Boulevard, four on the street, and four on the West End avenue, for $115,000; a house on Madison avenue, north of Seventy-fifth street for $35,000; a brown stone dwelling on the north side of Fifty-third street, between Fifth and Sixth avenues, for $30,000; for account of Mr. A. Don Smith, the front on St. Nicholas avenue, west side, between One Hundred and Sixteenth and One Hundred and Seventeenth streets, comprising about twelve city lots, for $60,000.

Brooklyn.

Judge John McMahon lately purchased a large tract of land near the bridge connecting Coney Island with Sheapshead Bay. He will put up a fine hotel on it.

Charles A. Seymour & Co. have this week sold seventeen lots on the southeast corner of Fulton street and Grand avenue to Cornelius Donnellon, the builder, for $4,250 each. The frontage on Fulton street is 354 feet, and on Grand avenue 100 feet. Mr. Seymour advertised these lots in THE RECORD, and that accounts for the early sale of this desirable property.

Staten Island.

The sum of $27,800 was realized for the Hodge property at Clifton. Frederick Bachmann purchased the whole front and 200 feet deep for $7,900.

Everett P. Wheeler bought the house nearest to Maple avenue at $4,500, and Mr. Bachmann purchased two for $12,500. Mr. Wheeler paid $2,800 for the cottage.

New Jersey.

Edward P. Hamilton has just sold a residence and grounds on Mountain Side at South Orange, to Oliver F. Berry, for $9,500. Also, the elegant residence of John G. Whiting on Harris street, Orange, to Mr. A. Palmer, for about $25,000.

The following are the sales at the Exchange Salesroom for the week ending June 17:

** Indicates that the property described has been bid in for plaintiff's account:*

A. H. MULLER & SON.

West Broadway, No. 156, w s, 25.2x53.3, two-story frame store and dwell'g. P. Fox.... $9,400
York st, No. 10, s s, 30.8x87.5, irreg, three-story brick stable. P. Fox.... 10,100
10th st, No. 239 E., n s, 35x94.10, four-story brick dwell'g. Louis Ash.... 9,350

RICHARD V. HARNETT.

Greenwich st, No. 237, e s, 20.9x75.4, five-story brick store and tenem't. Leasehold. Augustine Healy. (Amount due, abt $9,450). Leased May 1, 1871, terms, 21 years, ground rent, $1,500 per annum.... 5,000

L. J. & I. PHILLIPS.

Prince st, n e cor Thompson st, 44x95.10; Nos. 163 and 165 Prince st, five-story brick building; No. 126 Thompson st, three-story brick building. Jonas Strauss.... 36,500
8th av, s w cor 31st st, 46.4x100, five three-story brick buildings. James J. Coogan.... 75,250

C. J. LYON.

40th st, Nos. 308 and 310 E, s s, 50x98.9, frame dwell'g and frame shop. Sarah Lippett. (Amt due, abt $4,450).... 8,400
64th st, n s, 150 w 4th av, 25x100.5; vacant. (Amt due, abt $1,900).... 2,081

VAN TASSEL & KEARNEY.

41st st, Nos. 206 and 208, s s, 105 e 3d av, 50x98.9, four story brick and frame factory. S. W. Millan; assignee's sale. (Sub water tax).. 18,115
41st st, No. 315, n s, 170 e 2d av, 20x98.9, three-story brick dwell'g. G. S. Stratton; assign. sale.... 10,943

H. N. CAMP.

Hudson st, No 531, w s, 21x—two-story brick store and dwell'g. J. W. Dimick. (Amt due, abt $4,600).... 8,000

H. W. COATES.

28th st, No. 49, n s, 121.10 e 6th av, 21.4x98.9, four-story brick dwell'g. Louis L. Todd; partition sale.... 22,500

P. F. MEYER.

18th st, No. 8 W, s s, 27x92, vacant. E. H. Ludlow.... 12,550

W. R. ROBERTS.

*80th st, No. 177, n s, 150 w 3d av, 16.8x100, three-story stone front dwell'g. Willett Bronson. 2d mort. (Amt due, abt $2,625) 9,779

BERNARD SMYTH.

120th st, No. 448 E, s s, 85 w Pleasant av, 20x105.6, three-story brick house. W. J. Barnes.... 5,000
2d av, No. 1048, e s, 40.5 n 55th st, 20x63, three-story stone front dwell'g. J. W. England... 10,000

LESPINASSE & FRIEDMAN.

*79th st, Nos. 309 and 311, n s, 145 e 2d av, 40x102.2, two four-story stone front dwell'gs. (Amount due, abt $13,700)... 26,000

Total.... $278,968

BROOKLYN, N. Y.

In the city of Brooklyn Messrs. T. A. Kerrigan, J. Cole, Cole & Murphy and J. Johnson, Jr., have made the following sales for the week ending June 15:

*Canton st, e s, 173 s Flushing av, 18.3x80. Merchants Ins. Co.... $3,000
Pacific st, s s, 205 e Nevins st, 25x100. Carrie M. Knapp.... 3,400

*6th av, n w s, 152.4 n e Prospect av, 18x80. Horace W. Day exr.... 3,400

Total.... $37,655

BUILDING MATERIAL MARKET.

BRICKS.—Common hards have retained a very firm market, and secured a higher range of valuation, with an advance of at least 25 cents per M., and some effor to make the improvement still greater. This brings the figures up to $6.75@7.00 for "Up rivers," and $7.25@7.50 for Haverstraws, with the outside prices not difficult to obtain on anything really attractive. Consumption has improved to some extent, but the higher market appears to be attributed more to the scarcity of supplies than to any great anxiety among buyers, as the demand is confined solely to the imperative wants of the hour, and very little stock is taken for the future. The recent stormy weather, delay in the production, and difficulties in the way of securing desirable transportation are named as the main causes of the limited offering, and to some extent operate to produce this result; but holding back of stock is also indulged in to some extent in the effort to force up rates. The latter may prove the proper policy, but we find the opinion of many prominent operators taking a somewhat different view of the matter, and inclined to the belief that manufacturers are rather hasty in forcing a good thing, and may eventually suffer from the effects of a serious reaction. Pale bricks are also a shade firmer, and the best lots quoted at $2.75@3.00 per M., with the demand somewhat quicker, leaving a smaller amount unsold. Fronts receive full proportionate attention on all grades, and are commanding extreme prices with a limited supply of stock available.

HARDWARE.—The business in tools and builders' hardware continues very good, and for the latter is increasing, but beyond this a dull market reported. Indeed, the backward condition of the spring lost many orders which it is now thought cannot be recovered, and manufacturers and agents give up hopes of animation until fall. The undertone of the market, however, is cheerful, and we hear frequent predictions that when business does once again set in it will be of heavy volume. Prices still without many changes and may be considered as generally steady. A revised list for Machine Screws has been published, from which the discounts are as follows: Iron and Steel Set Screws, 60 per cent.; Square Head Cap Screws, 55 per cent., and Hexagon Head Cap do., 50 per cent. B. Rowland & Co. will issue a revised list of Shovels, Spades, Scoops, etc.

LATH.—With one of those sudden changes to which this market is frequently subject, the advantage of the selling interest has suddenly been lost, and qui

a little break on values is to be noted. The full figure asked all last month and during the early portion of this month proved a temptation to manufacturers and induced shipments in this direction rather in excess of immediate requirements, and with this gain buyers were enabled to assume an indifferent tone, which soon resulted in obtaining better terms. The cost dropped off to $1.70 per M. and at this the feeling is still a little slack, with fair offerings to arrive both near-by and distant, and not much demand, though one or two dealers are fairly inclined to negotiate and some receivers ask a fraction higher.

LIME.—The general market continues in sellers' favor, and full former rates are obtained without difficulty. Indeed, the demand for Eastern exceeds the supply, and the prospects not very good for early relief. Most of the vessels bound East from this direction for some time past have been delayed by adverse winds, and the transportation facilities at primary points are, in consequence, greatly reduced. It is, therefore, anticipated that arrivals will be limited for several weeks and receivers are, in consequence, very confident.

LUMBER.—Business generally continues satisfactory in form and volume, and dealers do not, as a rule, find much to complain of. The buoyant tone on values has of late been checked, and in some cases it is likely the extreme figures must be moderately shaded, but there is nothing to indicate any serious reaction upon standard or attractive goods, for the present at least. A full consumption in all forms is assured, and scarcely any of the yards have as yet been enabled to make more than a fair accumulation against any new wants. There is, however, likely to be some improvement on the latter score, as purchasers on contract are commencing to come in, and will be more plenty as the mills gradually obtain relief from the extreme pressure to which they were subjected at the opening of the season.

Spruce has a somewhat irregular tone and probably less general strength. Buyers cannot dictate terms by any means and generally find the limit of valuation pretty full on really desirable stock, but the mills are in better position to turn out supplies and this has opened just enough competition to admit of careful customers occasionally securing small advantages. This is probably most decided on specials, no recent sales exceeding $17.00, even on the most difficult, and some agents admitting this to be extreme. Randoms quoted at $14@16.00 with a better chance for a good cargo at the latter rate than for any thing undesirable at the inside figures, dealers do not want to put common stuff into yards except at very low cost.

White Pine is reported quite firm on most grades with a fair prospect of holding its own. Occasional irregularities are heard of on price but they do not lead to any general change and the outlook is favorable for sellers on all first-class stock. Arrivals are gradually increasing but a large proportion appear to be wanted on contract and there is little surplus left to accumulate for stock. We quote $17@19 per M for West India shipping boards; $24.50@26 for South American do.; $16@16.50 for box board; $17@17.50 for do. wide and sound do.

Yellow Pine in some cases is reported as less active and in others agents claim just as much business as they can attend to, and evidently have visions of plenty more to come. It is likely, however, that the aggregate volume of demand is somewhat reduced and buyers moving a little more carefully. A large percentage of the near-by heavy work is provided for on the early-made contracts; the yards are commencing to get an odd cargo now and then for stock, and buyers in consequence compete less. Values, however, are well maintained, particularly for special cuts. Agents continue to receive a fair number of export orders. We quote random cargoes at about $24.00 @26.00 per M; ordered cargoes, $26.00@28.00 do.; green flooring boards, $24.50@26.50 do; and dry do do, $27.00@29.00. Cargoes at the South, $15.00@19.00 per M for rough, and 20.00@24.00 for dressed.

Hardwoods develope no new features. The demand is well up to the supply of seasonable and desirable stuff, and buyers submit to full terms without complaint. We quote at wholesale rates by carload about as follows: Walnut; $77@85 per M; ash, $35@38 do.; oak, $40@45 do., maple, $30@35; chestnut, 1st and 2d, $30@35; do. do. culls, $18@20 do.; cherry, $50@55 do.; white wood, ⅛ and ⅝ inch, $25@27.50, and do. inch, $33@35 do.; hickory, $35@45 do., for Western, and $65@75 for good nearby stock.

Shingles in good home demand and find fair export orders, with prices strong on all grades and the supply rather moderate at the moment. We quote Cypress at about $6.00 for saps and $8.50@9 for hearts; pine shipping stocks, $4 for 18-inch, and Eastern saw grades at $2.50@4.50 for 16-inch, as to quality and to quantity. Machine dressed cedar shingles quoted as follows: For 30-inch, $16@22.25 for A and $28.75@33.25 for No. 1; for 24-inch, $6.50@16 for A and $16.75@23 for No. 1; for 20-inch, $5@10.50 for A and $11.25@11.75 for No. 1.

From among the lumber charters and engagements recently reported, we select the following:

An Aust. barque, 845 tons, from St. John, N. B., to Marseilles or Cette, deals, 70s; a Br. barque, 1,351 tons, Quebec to the United Kingdom, timber, private terms; a Br. brig, 517 tons, from Pensacola to a direct port United Kingdom, hewn timber, 40s, and sawn, £6; an Am barque, 494 tons, from Mobile Bay to Rio Janeiro, lumber, $19 net; a Nor. barque, 250 M lumber, from Wilmington, N. C., to Rio Janeiro, $19 net; a Br. barque, 942 tons, from Montreal to Montevideo or Buenos Ayres, lumber, $14.50 net; a Nor. barque, 250 M lumber, from Wilmington, N. C., to Pernambuco, $19 net; an Am. schr., 171 tons, from Wilmington, N. C., to Martinique, lumber, $10; an Am. brig, 431 tons, from Pensacola to Aransas Pass, railroad ties, $8; a Br. barque, 361 tons, from Portland to San Nicholas, lumber, $14.75; an Am. schr., 211 tons, from Bangor to Grenada, lumber, $6.50; an Am. brig, 331 tons, from Bangor to St. Croix, lumber, $6.50; an Am. brig, 438 tons, from Bangor to Palermo, box shooks, 4c; an Am. barque, 388 tons, hence to Havana, white pine lumber, $7, Spanish gold; an Am. brig, 367 tons, from Pensacola to Matanzas, lumber, $12; a Br. brig, 233 tons, hence to Point-a-Petre, general cargo, 70c per bbl., and lumber, $5; an Am. brig, 363 tons, from Bucksport, Me., to Pensacola, hay, $5, thence to Sagua, with lumber, $11, Spanish gold; a schr., 394 tons, from St. John, N. B, to Baltimore, laths, 55c; two Br. schrs., each 99 tons, hence to St. John, N. B., oak lumber, $3 per M, and sand, $1.10; three schrs., from 150 to 175 M lumber, from Norfolk to New York, $3; a schr., 375 M lumber, from Savannah to New York, $7; a schr., 140 M lumber, from Cedar Keys to Philadelphia, New York or Boston, $11; a brig, from Apalachicola to Boston, lumber, $9.12½; a schr., 240 M lumber, from Fernandina to Baltimore, $7; a schr., 200 M lumber, from Brunswick, Geo., to Calais, $7; a schr., 250 M lumber, from Apalachicola to Newburyport, $10, option of Philadelphia, $8.50; a schr., 220 M lumber, from Jacksonville to Philadelphia, $8.50; a schr., 200 M lumber, from Cedar Keys to New York, $12, out in ballast; a schr., 216 tons, hence to Jacksonville, stone, $1.60, and back to Elizabethport, lumber, $9.25, or New York, $9.50; a schr., 190 M lumber, from Jacksonville to Albany, $10 and river towage; a barque, 400 M lumber, from Pensacola to New York or Sound ports, $9; a schr., 250 M lumber, from Fernandina to Philadelphia, $7.15; a schr., 190 M lumber, from Jacksonville to New York, $9 50; a schr., 286 tons, hence to Jackson ville, stone, $1.60, and back with lumber, $9; a schr., 238 tons, same voyage, $11 for the round.

Exports of lumber from the port of New York:

	This Week, feet.	Since Jan. 1. feet.
West Indies	1,183,157	19,433,520

Total	1,696,178	37,200,321

GENERAL LUMBER NOTES.

STATE.

Albany Lumber Market, as reported by The Argus

FOR THE WEEK ENDED JUNE 14, 1881.

Although we have not any change to note in quotations, the market is very firmly held. The attendance of buyers has been good, and a steady trade is reported. The market is well stocked and the assortment is good. The receipts by canal are free; most of last year's cutting of Michigan lumber has been received. The Saginaw markets are very active, and at no yielding in prices on good stock. From Georgian Bay sawing is much restricted for want of water, and for the same cause, the anticipations indulged in early in the season that the sawing in Ottawa, in consequence of additional mills, would be very large, it would seem are not to be realized; the deficiency is now estimated at 25,000,000 feet to 30,000,000 feet.

Hardwoods are in steady trade, supply good and prices unchanged.

Sawing at the Northern Mills is restricted by want of water; the canal needs all the surplus, and some of the mills in consequence are working on short time. The receipts are sent forward as fast as received; the demand is good and trade active at quotations.

The receipts of lumber by lake at Buffalo for the week ending June 8th were 6,560,000 feet, and by rail 131 cars. The receipts by lake at Oswego for the week were 2,528,000 feet.

The receipts by canal at Albany from the opening of navigation to June 8th were:

	Bds.&Sctl.,ft.	Shgles,m.	Timber, ft.	Staves,lbs.
1881	40,096,000	48	.....	459,000
1880	67,518,600	100	.....	.....

The receipts of lumber at Chicago, from January 1st to June 10th, were 372,128,000 feet, against 360,674,000 feet for a corresponding period in 1880; the shipments, 278,270,000 feet against 245,287,000 feet.

Freights from Bay City to Buffalo and Tonawanda, $3.00 per M.; from Saginaw, $3.25. From Buffalo to Albany, $2.25 per M. From Tonawanda to Albany, $2.15. Lake Ontario freights to Oswego, 90c. from Port Hope; $1.15 from Toronto; from Oswego to Albany, $1.80@1.85. From Ottawa to Albany, by boats, $3.00@3.50 per M. feet.

River freights are:

To New York, ₱ M ft	$ @1 00
To Bridgeport	@1 37½
To New Haven	@1 37½
To Providence, Fall River and Newport	2 00@2 25
To Pawtucket	2 25@2 50
To Norwalk	1 25@1 30
To Hartford	@2 00
To Norwich	@2 00
To Middletown	@1 75
To New London	@1 75
To Philadelphia	@2 00

THE WEST.

SAGINAW VALLEY.

Lumberman's Gazette.

There has been a good attendance of buyers in the market and transactions have been numerous. The views of manufacturers are as firm as ever and the indications are that buyers are meeting those views pretty liberally. The aggregate of sales would make a large sum, but a number of specimen sales will suffice to indicate the temper of the market. So far as we can learn the feeling among manufacturers is one of confidence that prices will not recede from prevailing rates. We quote the sale of 3,000,000 feet at $6 and $12 for coarse aud $7 and $14 for better grades; 300,000 feet coarse stock at $6.50, $13 and $30; 250,000 feet good at $7, $14 and $32 and 7,50, $14.50 and $35; 500,000 feet choice at $8, $16 and $36; 1,500,000 feet at $7.50, $14.50 and 32; and 2,000,000 feet choice at $8, $16 and $36.

Reports from the east show the market there to be firm in tone, with an occasional doubt expressed of the possibility of maintaining prevailing prices, but no reasons are expressed of any serious break at the present.

Shipping contlnues lively, and the fleet is actively employed. Rates are firm, at the following figures: Bay City to Buffalo and Tonawanda, $8; Bay City to Ohio ports $2.50; Saginaw to Buffalo and Tonawanda, $3.25; Saginaw to Ohio ports, $2.75. To Chicago rates are same as to Ohio ports.

The total shipment of lumber, lath and shingles from the river to date, with comparisons, was as follows:

	1880.	1881
Lumber	194,320,191	135,825,837
Lath	6,016,650	2,126,000
Shingles	30,737,000	28,498 600

General quotations here are:

Shipping culls	$6.00@ 8.00
Common	12.00@16.00
Three uppers	30.00@36.00

The following extracts from the Northwestern Lumberman:

NEWS FROM THE DRIVES.—Considerable rain has fallen during the past week in the Northwest, but it is impossible to say definitely how much it has benefitted the lumbermen. West of Lake Michigan there seems to be plenty af water in the streams, and, as a rule, the logs are all moving along satisfactorily. On most streams a large part of the stock has already reached the boom, and though some logs may be hung up, the prospect is that the drives will be cleaner than usual. In the district east of the lakes it is not so easy to say what the present conditions are. For several days this week it has rained in diffenent parts of the Northwest pretty steadily, and a fair supposition would be that the Michigan streams have received some benefit from it, as well as those further west. There is no doubt as to the fact that rain was very much needed in that district. Advices from streams, dated last Saturday, report them very low, and the logs in some cases hung up. We think, however, it is pretty safe to assume that there has been some change in the situation during the last two or three days, and it may be that some of the stranded logs have been started. The fact that so little rain has fallen this season, affords some ground for the belief that the present month will be a comparatively wet one, and, consequently, that most of the streams will rise sufficiently to bring out the greater part of their stocks, if not the whole of them. At this writing we cannot see that the probabilities in regard to hung up logs have been materially changed. A small percentage of the entire amount will no doubt remain in the streams in any event, this being almost invariably the case, but with the rainfall that may reasonably be expected this month we do not think there is any reason to anticipate a material shortage in the quantity that will be available for this season's sawing.

CHICAGO, June 8, 1881.

The cargo market during the past week has been active to the extent of the supply, which has hardly been as large as it should have been, considering that twice as much lumber was received as came in for the corresponding time last year. The greater part of the time, the dock has been clear of cargoes, which is explained partly by the fact that no large fleet has arrived. The lumber has come in more evenly than it usually does, and as it has sold almost on arrival, there has been no chance for it to accumulate and make a large showing. Up to this time, the quantity reaching this city overruns that of 1880 to the same date, but comparison of the amounts offered on the market would show, we fancy, a considerable decrease this season. Plenty of lumber comes in, but a large part of it belongs either to those who own mills and manufacture their own stock, or to those who have purchased at the point of production. We are inclined to think the latter class of operators own a good deal of it. Reports from the other side of the lake say that Chicago buyers have been visiting the producing points in that district pretty generally, and the large number of arrivals that go directly to the yards may be looked upon as one of the results of their explorations in that direction.

Sellers report a very brisk demand for everything that comes to the dock. Cargoes are frequently sold within a few minutes after their arrival, buyers not being disposed to dispute very much about terms. The demand, in fact, is better than the supply. A good many country dealers are in town, and are regular attendants upon the daily sales at the cargo market. They come, of course, mainly from points near-by in this State, or to which shipment may be made by canal. No difficulty is experienced in placing anything offered, and the day's stock is usually all sold long before noon.

Prices advanced a trifle, piece stuff being held twenty-five cents above last week's quotations. Manistee and Ludington stock, short lengths, sold at $10 easily, and a small amount of extra lengths would probably raise the price above that point. Inferior stock is quoted at $9.75, and at that price is firm and steady. Inch lumber we also quote a shade higher, anything desirable selling quickly. Good lumber is wanted, and no trouble is experienced in obtaining full prices for it. Shingles and lath are without change, but the market for them is firm at the prices named below. In short, the list all through is fully sustained in selling, and the tendency of the market on some things is said to be in the direction of still higher prices.

Probably next week a larger fleet will put in an appearance, but we do not anticipate that it will weaken the market any. The lumber seems to be wanted, and present indications lead to the belief that it will be taken in much larger quantities than have been sold without much haggling over prices.

Lake freights are somewhat easier, though we learn of no change in the rates. Rather more vessels are offering than have been available for some time past, and shippers have less difficulty in getting what they want. Grain rates are also a trifle lower, which may have a tendency to reduce coarse freights somewhat. Up to this time, however, we believe the vessel men have succeeded in getting the quoted rates, there being no excess in the supply of room.

CARGO QUOTATIONS.

Joist and scantling, green	$9.75@10.00
Mill run, choice, green	16.50@21.00
Mill run, medium, green	12.50@16.50
Mill run, common, green	11.00@13.50
Shingles, standard	2.45@2.55
Shingles, extra A	2.55@2.55
Lath	1.60@1.75

LAKE FREIGHTS.

Manisteee	$2.25
Muskegon	1.75
Ludington	2.00

Grand Haven	1.75
Menominee	2.25
Sturgeon Bay	2.25
White Lake	1.87½
Ford River	2.12½

HARDWOODS.—The receipts of hardwood are reported to have been rather larger during the week than previously this season. Most of the lumber coming in reaches the city by rail, the arrival of a considerable quantity of oak from the interior being noted. Vessel receipts of hardwood are not very heavy as yet, though some cargoes have reached the docks, since our last issue, from Michigan points. There will undoubtedly be a considerable quantity of hardwood of different kinds received from the east shore of Lake Michigan during the present season, but we doubt very much whether it will amount to enough to influence prices to any important extent. The mills are all busy turning out stock, and the shipments of it will soon begin to be large.

There has been no particular improvement, nor change of any kind, in the condition of stocks. Dry hardwoods of nearly all sorts continues scarce, and seasoned stuff meets with a ready sale at full prices As lumber is coming in now by both rail and lake, the supply in market will soon be larger, but there does not seem to be much prospect that the amount of dry stock available will equal the demand for it, unless there should be a greater falling off in the latter than anyone now anticipates. Some varieties of wood, as we have already noted in these columns, are almost impossible to obtain in a dry condition, and in anything like satisfactory quantities. Walnut and oak, particularly, continue to be very desirable articles, and the present prospect is that they will be more or less scarce and high through the season.

Trade at the hardwood yards in this city continues good, though we do not observe that it is any better than it has been for some weeks. Anything that is dry enough for use, or approaching that state, is placed very readily and brings the quoted figures without any difficulty. The dealers, generally, regard the present demand as reasonably satisfactory, and look forward to a good trade through the rest of the year, basing their expectations, to a considerable extent, upon the general activity in all branches of business.

Among the transactions this week, we note the sale of a quantity of walnut, about half dry, running two-thirds to thick culls and the remainder common, which brought $60. A car of dry one-inch ash on track, was held at $38, and a cargo of ash, measured and merchantable, sold at $28.

At points outside of Chicago we have learned of no important changes in the condition of trade or prices. The former continues good, and the latter firm for all desirable stock.

LUMBERMAN AND MANUFACTURER,
MINNEAPOLIS, MINN.

The "bears" of Chicago have the usual attack of "Spring pouts," a disease arising from the poisonous malaria which comes from the grand sewer which runs through the lumber district. Many of them to be uncertain whether they should give away their stocks or not, for the purpose of killing off the manufacturers who supply the city.

They fill the columns of their organs with rumors of cut-lists, discounts, rebates, and all sorts of demoralizing reports, to destroy the effect of a most extraordinary demand for lumber, backed by a determination on the part of all competitors to uphold prices.

The receipts and shipments report show that the city is at least 50,000,000 better off than one year ago Cargo prices are reported on piece stuff at $9.50 to, $10, and it costs $2 to handle, while the "organ" reports sales from the yards at $11.50. We mention the fact to show the true inwardness of the report.

Saginaw reports a grand business, at full strong prices. Toledo has all she can handle. Tonawanda still more. St. Louis ships from 1,200,000 to 1,500,000 per day—all she can get cars to ship on. Her receiving wharves are full of rafts and everything is as lovely as could be wished for. The several river cities are overrun with orders which they can not fill, and no one asking for cut prices. Heavy contractors and railroads are sending bills all over the west for estimates on large bills, which go into the waste basket in most cases, and then agents are sent out to find out who will cut prices to secure the order. Rumors of some shading for orders come to us from Wisconsin railroad mills, but nothing serious. Everybody now seems ready to go up on the price of timbers and long dimensions.

Shipments from the northwest continue to be all that the railroads will carry, as will appear from the reports of Minneapolis, which are hereto appended. Dry stuff is exceedingly scarce for a large part of the standard sorts.

News from the drives are of the most favorable character. The particulars we give elsewhere.

The crop of 1881 for Wisconsin and Minnesota west of Wolf river will be over 2,000,000,000 feet.

THE EAST.

The Boston Journal of Commerce as follows:

The present week has been more active than its predecessor, and prices are somewhat firmer. Advices from the West still show that holders are disposed to press for higher prices, and at the present writing stock could hardly be purchased at the West at prices ruling a week ago. Pine has been having an especially good call. Spruce has also been in good request. Of the hardwoods, walnut seems to be the most sought, although the other woods are in good demand. The Eastern markets adhere to previous prices, and we do not, as yet, hear any intimation of a change. Some of the largest Eastern and Northern manufacturers are full of orders up to August. Southern lumber is in demand, and prices continues as quoted. Flooring boards and ship planks are wanted, though the supply is about equal to the demand. Timber is firm.

FOREIGN.

The London Timber Trades Journal, of June 4th, as follows:

The spring fleet from Quebec promises to be unusually early this season. The Surrey Commercial Dock Company have recently berthed the first ship of the year from the port named. The vessel, which was laden with timber and deals, had a remarkably quick passage, and was fortunate in being, by the extraordinary mildness of the spring out there, able to navigate the St. Lawrence, which she successfully accomplished; had a cold wind set in, or a sudden atmospheric change, as is not unusual in those latitudes, her position would have been a very critical one. We are informed by the Dock Company that they have no previous record of any vessel from Quebec arriving so early.

LIVERPOOL.

The business of this port has been for the past week very limited, and has shown a marked decrease from the preceding portion of the month. Much of the large consumption and the busy aspect of affairs is attributed to the fact of large purchases being made by public companies in addition to the auction sales, and the forwarding of these goods alone is enough to give a lively appearance to the quays and wharves.

Still the business done is not healthy, since much of it is forced, and consequently done at a rate which can not cover cost of importation, and must result in loss to those concerned in importing. We shall have prices lower before they are higher, in spite of all the talk of shippers, whether they be Russian, Scandinavian, or Canadian, and the sooner they decide to lower prices, or what is much more to the purpose, curtail their production, the better it will be for them.

Reading the quantities shipped during the past month in comparison with those of last year at the same time, the business done appears in a very favorable light, but when it is considered that much of it is the result of auction sales and of large orders from public companies, and taken also in conjunction with the fact that the stocks on hand are most excessive, it may be at once concluded that the present condition of the timber trade here is not what it ought to be.

LIVERPOOL MAHOGANY SALES.

Messrs Chaloner & Co. held one of their sales of mahogany, cedar, satinwood, walnut, &c., which was well attended. There was a fair demand for good Honduras mahogany, and the cargo sold well, but there was no disposition to buy the Mexican wood, and all the cargo, excepting twenty logs, was withdrawn.

The details are as follow:

RESULT OF AUCTION SALE MAY 27, 1881.

Description.	Feet.	Prices	Average per foot.
Mahog. St. Dom.	6,187	5¼d to 3s	8 1-16d
" "	332	1s 1d & 1s 8d	3 3-16d
" "	1,651	10d

Lig.-vitæ, Jam.	7½ tons	£7 10s to £11 per ton.	
" "	7 tons	£7 5s "	

Advices from Brazil, per Rio News, May 24th, as follows:

Pitch Pine.—The arrivals consist of 342,080 feet, per F. W. from Pensacola, which have been sold at 41$000 per dozen. The market continues firm.

White Pine—There have been no arrivals, but there is also no demand, the market being well supplied. We quote 110—115 reis per foot.

Spruce Pine—No arrivals. We quote nominally 35$000—36$000 per dozen.

Swedish Pine—No arrivals. Good demand. Last sale was at 38$000 per dozen.

NAILS.—Demand has fluctuated to a considerable extent, and rarely reached full proportions, most buyers operating on the hand-to-mouth policy. Consumption is good, with a tendency to increase if anything, but the plan seems to be to allow accumulations to remain as near first hands as possible until actually wanted. About former rates quoted, but are full high, and would, no doubt, be shaded to secure desirable orders.

We quote at 10d to 60d, common fence and sheathing per keg, $3.05@3.15; 8d and 9d, common do, per keg, $3.30@3.40; 6d and 7d, common do, per keg, $3.55@3.65; 4d and 5d, common do, per keg, $3.80 @3.90; 3d and 4d, light, per keg, $4.55@4.65; 3d, fine, per keg, $5.30@5.40; 2d, per keg, $5.30@5.40.

Cut spikes, all sizes, $3.30@3.40; floor, casing and box, $3.80@4.60; finishing, $4.05@4.90.

CLINCH NAILS.

1½ inch, $5.50@5.60; 1¾ inch, $5.25@5.35; 2 inch, $5.00@5.10; 2⅛@2¾ inch, $4.75@4.85; 3 inch and longer $4.50@4.65

PAINTS AND OILS.—Business in most kinds of paints and colors continues moderate and somewhat uncertain, and the tone of the general market is by no means satisfactory. Holders have stocks well enough under control to prevent any direct or serious effort to realize, but the offering is fair, and on most kinds of stock the terms would be comparatively easy to desirable customers. An impression prevails that interior points, dependent upon this market, carry only light stocks, and must eventually be heard from to good advantage. Linseed Oil has shown one or two small flurries of animation, but the general movement is not free, and values rule somewhat unsettled. We quote at about 50@52c. for city and 58@59c. for Calcutta from first hands.

PITCH.—Operations have been of about the usual form and size, and the market shows no positively new features. Supplies are ample. We quote at $2@ $2.15 per bbl. for City, delivered.

SPIRITS TURPENTINE.—Buyers for actual consumption have not been plenty, and only a small amount of stock was actually distributed. In a wholesale way, however, the market has been active and excited at times, with considerable irregularity on values, though the tendency principally in sellers' favor. Short supplies and a speculative feeling have proven the main stimulating elements. Since the increase of cost business has been less active. As this report is closed the quotations stand at about 42@44½ c. per gallon, according to the quantity of stock handled.

TAR.—Business in a jobbing way fair, and at a comparatively steady line of values. From first hands the distribution slow and uncertain, and prices somewhat nominal, though of late the tendency has been toward greater strength. We quote $2.75@3.00 for Newberne and Washington, and $2.87½@3.00 for Wilmington, according to size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee they mean as follows:

1st—Q. C. is an abbreviantee, for Quit Claim deed i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estat econveyed may be impeached, charged or incumbered.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

NEW YORK CITY.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) *means judgment for deficiency. * means not summoned. Judgments entered during the week and satisfied before day of publication do not appear in this column, but in list of Satisfied Judgments.*

NOTES AND ITEMS.

The German government having driven all French insurance companies from Alsace-Lorraine, the French papers are naturally urging the expulsion of German companies from France.

A French insurance journal, the *La Semaine*, does not like the competition of the New York Life Insurance Company. Americans are too enterprising for them.

It is said that the administration of the building department has greatly improved since coming under control of the Fire Commissioners.

The fire department of Philadelphia seems to be in a bad way. One wing of the Council want the Mayor to appoint the chief engineer, and the other wing want to choose him themselves.

The recent report of the insurance commissioner of Canada states that the year 1880 was the most prosperous ever known. It is the first time in twelve years that the losses have been below 50 per cent. of the premiums.

The sum of $165,000 has been appropriated by the New York insurance companies for the maintenance of the fire patrol for the next two years.

In Illinois they have a law insuring against loss by tornadoes. A law giving indemnity for rash speculation would be the thing in New York.

Mr. John A. Monsell, the well-known dealer in realty, saved the life of a German sailor a few nights since while out yachting. It was a very stormy night, and about twelve o'clock Mr. Monsell thought he heard cries of some one for help, and immediately ordered his men to lower a boat; this they were unwilling to do at first, thinking Mr. Monsell was mistaken, but he insisted, and the result proved he was correct. The man was exhausted, and in a few minutes would have sank for the last time.

The new building for the Harvard Medical School is going to stand at the corner of Boylston and Exeter streets, Boston. There will be a facade on each street, with the main entrance on Boylston street. It will be constructed of brick and sandstone, in the renaissance style, and will be four stories high, with basement. On Boylston street, between the second, third and fourth floors mezzanine stories will be inserted in the middle section. It will be 99x130 feet, and 90 feet in height at its highest, the main building being 80 feet high.

The new machine shops and roundhouses of the Long Island Railroad Company will soon be built near Newtown creek.

BUILDINGS PROJECTED.

NEW YORK CITY.

Plan 647—Thirteenth st, Nos. 105 and 107 East, one four-story brick stable, 49x77, tin or gravel roof, iron cornice; cost, $10,000; owners, Johnston & Hart, 1252 4th av; builder, Jno. McCool.

CO-PARTNERSHIP NOTICES.

THIS IS TO CERTIFY, THAT THE UNDERSIGNED have formed a limited partnership pursuant to the provisions of the Revised Statutes of the State of New York.

That the name or firm under which such partnership is to be conducted is the continued firm name of DAVID BEIR & COMPANY.

That the general nature of the business to be transacted is the manufacture and selling of cigars and the purchase and sale of tobacco.

That the names of all the general and special partners are as follows: DAVID BEIR who resides in the City, County and State of New York, is the general partner and ALEXANDER RICH who resides in said City, County and State of New York, is the special partner. That the said ALEXANDER RICH has contributed the sum of forty thousand dollars in cash as capital to the common stock. And that the said partnership is to commence on the 8th day of June, 1881, and is to end on the 30th day of June, 1886.

Dated this eighth day of June, one thousand eight hundred and eighty-one.

DAVID BEIR,
General Partner.
A. RICH,
Special Partner.

City and County of New York, s. s.:

On this 8th day of June, 1881, before me personally appeared DAVID BEIR and ALEXANDER RICH to me known and known to me to be the individuals described in, and who executed the foregoing instrument and who severally acknowledged that they executed the same.

MORRIS S. WISE.
Notary Public,
New York Co.

NOTICE IS HEREBY GIVEN THAT A LIMITED partnership has been entered into by and between Uriah Welch, Henry J. Haight and Edward C. Haight, all residing in the City of New York, pursuant to and by virtue of the Statutes of the State of New York in such case made and provided, and that the terms of such partnership are as follows:

First: The name or firm under which said partnership is to be conducted is that of URIAH WELCH.

Second: The general nature of the business intended to be transacted is the business of hotel keeping, to be carried on at the hotel, in the city of New York, now known as the St. Nicholas hotel.

Third: The name of the general partner interested therein, is Uriah Welch of the City of New York, and the names of the special partners interested therein, are Henry J Haight of the City of New York and Edward C. Haight also of the City of New York.

Fourth: The amount of capital which each special partner has contributed to the common stock is as follows: the said Henry J. Haight has contributed the sum of Ten Thousand dollars in cash, and the said Edward C. Haight has contributed the sum of Ten Thousand dollars cash.

Fifth: Said partnership is to commence on the first day of May, one thousand eight hundred and eighty-one, and is to continue until and to terminate on the first day of May, one thousand eight hundred and eighty-four.

Dated, New York, April 30, 1881.

URIAH WELCH,
HENRY J. HAIGHT,
EDWARD C. HAIGHT,

STERLING & CO.—LIMITED PARTNERSHIP. NOtice is hereby given that a limited partnership has been formed by the undersigned, pursuant to and by virtue of the statutes of the State of New York, in such case made and provided; that the name of the firm under which said partnership is to be conducted is "STERLING & CO.;" that the general nature of the business intended to be transacted is a general commission business, and dealing in hollow ware, nails, iron goods, &c.; that the names of all the general and special partners, interested therein, are: Henry S. Sterling, residing in the city, county and State of New York, and Frederick Sterling, residing in the city of Bridgeport, in the State of Connecticut, who are the general partners; and Walter Scott Andrews, residing in the said city, county and State of New York, who is the special partner; that the amount of the capital stock contributed by the said special partner, Walter Scott Andrews, is the sum of five thousand dollars; and that said partnership is to commence on the first day of June, in the year one thousand eight hundred and eighty one and is to terminate on the thirtieth day of April, in the year one thousand eight hundred and eighty-two.

Dated New York, June 1, 1881.

HENRY S. STERLING,
FREDERICK STERLING,
WALTER SCOTT ANDREWS.

CO-PARTNERSHIP NOTICES.

CERTIFICATE OF LIMITED PARTNERSHIP.—We, whose names are subscribed hereto, desiring to form a limited partnership pursuant to the laws of the State of New York, hereby agree and certify as follows:

First. The name or firm under which such partnership is to be conducted is FAHNESTOCK & COMPANY.

Second. The general nature of the business intended to be transacted is that of brokers and dealers in stocks, bonds and other evidences of value.

Third. The names of all the general and special partners interested in said business are as follows, to wit: The general partners are William Fahnestock and Joseph T. Brown, who both reside in the City and County of New York.

The special partner is Harris C. Fahnestock, who resides in the City and County of New York.

Fourth. The amount of capital which the special partner has contributed to the common stock is fifty thousand dollars.

Fifth. The period at which said partnership is to commence is May 10, 1881, and the period at which it will terminate is May 1st, 1882.

Witness our hands and seals this tenth day o May, 1881.

WM. FAHNESTOCK, [L. S.]
JOS. T. BROWN. [L. S.]
H. C. FAHNESTOCK, [L. S.]

In presence of
THOS. S. WILLIAMS.

HEERMANCE, DICKINSON & CO.—CERTIFICATE of limited partnership between G. Hilton Scribner and William L. Heermance, of Yonkers, Westchester County, State of New York, and Henry A. Dickinson, of the City of New York.

This is to certify that the undersigned have formed a limited partnership, pursuant to the provisions of the Revised Statutes of the State of New York.

1. That the name or firm under which said partnership is to be conducted is HEERMANCE, DICKINSON & CO.

2. That the general nature of the business to be transacted, is the dealing on commission in provisions and staple produce, and of storing and warehousing such goods, and other goods, for hire.

3. That the names of the general and special partners are as follows: William L. Heermance, who resides at Yonkers, Westchester County, State of New York, and Henry A. Dickinson, who resides at the City of New York, are the general partners, and G. Hilton Scrioner, who resides at Yonkers, Westchester County, State of New York, is the special partner.

4. That the amount of capital which the said special partner has contributed to the common stock is the sum of twenty-five thousand dollars ($25,000.)

5. That the said partnership is to commence on the 21st day of May, 1881, and is to terminate on the 21st day of May, 1883.

Dated New York, May 21st, 1881.

(Signed), WILLIAM L. HEERMANCE.
(Signed), HENRY A. DICKINSON.
(Signed), G. HILTON SCRIBNER.

City and County of New York, s. s:

On this 21st day of May, 1881, before me personally appeared William L. Heermance, Henry A. Dickinson and G. Hilton Scribner, known to me, and to me known to be the individuals described in, and who executed the foregoing certificate, and severally acknowledged that they executed the same.

W. C. KING,
[L.S.] Notary Public,
City and Co. N. Y.

CERTIFICATE OF LIMITED PARTNERSHIP.—We, whose names are subscribed hereto, being desirous of continuing the limited partnership heretofore formed pursuant to the laws of the State of New York, have agreed and do hereby agree and certify as follows:

First. The name or firm under which such partnership is to be conducted is "HILMERS, McGOWAN & CO."

Second. The general nature of the business intended to be transacted by such partnership is exchange and general brokerage, and its principal place of business is in New York City, in the County and State of New York.

Third. The names of all the general and special partners interested in said business are as follows, to wit:

The general partners are Herman C. Hilmers, whose place of residence is the said City of New York; Henry D. McGowan, whose place of residence is the City of Brooklyn and State of New York, and John W. Balfour, whose place of residence is the said City of New York.

The special partner is James Jennings McComb, whose place of residence is the said City of New York.

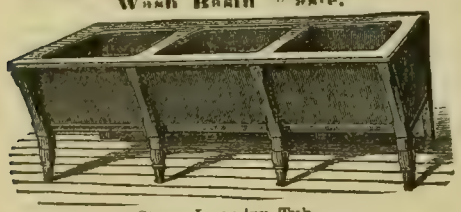
Fourth. The amount of capital contributed by the special partner to the common stock and continued therein is eighty thousand dollars.

Fifth. The period at which said renewal of the partnership is to commence is the first day of June, one thousand eight hundred and eighty-one, and the period at which it will terminate is the first day of June, one thousand, eight hundred and eighty-five.

Witness our hands and seals this thirty-first day May, one thousand, eight hundred and eighty-one.

H. C. HILMERS, (Seal.)
H. D. McGOWAN, (Seal.)
J. W. BALFOUR, (Seal.)
per H. C. HILMERS, (Seal.)
J. J. McCOMB, (Seal.)

State of New York, } s. s.:
City and County of New York, }



Herman C. Hilmers being duly sworn, deposes and says that he is one of the general partners named in the foregoing certificate and that the sum of eighty thousand dollars specified in the said certificate to have been contributed by the special partner therein mentioned to the common stock of the said copartnership has been heretofore actually and in good faith paid in cash, and is continued in the business.

H. C. HILMERS.

Sworn to before me this 21st day of May, 1881. } C. S. SIMPSON, Notary Publi N. Y Co.

REAL ESTATE RECORD

AND BUILDERS' GUIDE.

VOL. XXVII NEW YORK, SATURDAY JUNE 25, 1881 No 693

Published Weekly by The

REAL ESTATE RECORD ASSOCIATION

TERMS:

ONE YEAR, in advance - - - - - $6.00

Communications should be addressed to

C. W. SWEET, 137 Broadway.

J. T. LINDSEY, Business Manager

The building furore shows no signs of abatement. On the contrary, our lists of new buildings and mortgages show that new building firms are entering the field, and there is every indication that large quantities of houses are being put up on speculation. There has been no such building, as is now going on, within the memory of the oldest real estate operator. All kinds of houses are being projected. The greatest opera house known to this continent is one, while immense buildings, for offices, stores, warehouses, as well as great apartment flats, are under way. There is no danger of building being overdone in this city for many years to come. The additions to our trade are very great, and everything tends to swell the population of the metropolis. Of course, the time will come when speculative builders will be pinched, but there are no signs of any catastrophies of this kind, either this year or next.

Dwight H. Olmstead is of opinion that some day a tunnel, or rather an open cut, will be built from the foot of One Hundred and Twenty-fifth street and North River, down to Fifty-seventh street, so as to supply steam travel on a surface road to those who live on the West Side. The elevated road runs too near the Central Park, and people who live midway between the Park and the river, or near the river, will want swift travel down town. Of course at One Hundred and Twenty-fifth street the open cut would connect with the Hudson River road. Mr. Olmstead is also of opinion that the Hudson River road on the West Side will yet play an important part in supplying rapid transit for up-town people. He thinks something should be done to unite the elevated system with the Hudson River road at Thirtieth street.

There is no mistake about it, that building has commenced on the West Side. Two apartment houses are projected at the lower part of the Grand Boulevard, and some ten other enterprises are under way, which will involve buildings west of the Central Park. Crowds of workmen are employed at Mr. Clark's magnificent apartment house, and the first story will soon be under way. Two years' time will make a marvellous change. Both builders and buyers will naturally prefer houses built on $6,000 and $8,000 lots, to those for which $18,000 and $20,000 are asked. West Side property is still very, very cheap.

The act of the Legislature, defining the erm "land," when used in a legal way, is very sweeping. It includes soil under as well as above water, all substructures and superstructures erected thereon, all wharves and piers, all telegraph lines, all surface, underground or elevated railroads, all mines and quarries. "Real estate" and "real property" has the same meaning as "land." It is evident the State is determined to widen as far as possible the field of her taxation.

WHY A NEW RAPID TRANSIT COMMISSION?

Mayor Grace was formally petitioned to appoint a new rapid transit commission for the annexed district. He did not want to do so, but he supposed that the law was mandatory, and that he could not help himself. There is real danger that a new commission may so tangle matters up as to prevent any rapid transit in the Twenty-third and Twenty-fourth Wards. In other words, it is feared that what has occurred in Brooklyn may happen again in the annexed district, and several new companies be organized, one to interfere with the other. The facts with regard to rapid transit in the annexed district are as follows:

Some years since the engineers of the Central Park Commission made a survey of the Twenty-third and Twenty-fourth Wards, and laid out the route for three railroads, all of which would converge at the Second Avenue bridge. These three roads would fairly accommodate all parts of the annexed district. The first rapid transit commission that was appointed had a careful scientific survey of the district made, and their engineers agreed with those of the Central Park Commission as to the necessity for three parallel roads, converging at the Second avenue, but having an outlet also to the sunken track of the Harlem road. The Jeromes and others who had their personal axes to grind, raised a clamor about the action of the suburban rapid transit commission, and the second commission was appointed by Mayor Cooper. This commission, after another careful investigation, endorsed the plan of the Central Park Commission engineers and the engineers of the first commission. A company was finally organized to build the roads decided upon by the three sets of engineers, as being the best and most practicable.

But, of course, certain powerful local influences would not be satisfied with any plan. People who live within ten minutes walk of the Second and Third avenue bridges, are opposed to any suburban rapid transit routes. Then, the property holders on Third avenue, at the other side of the Harlem, want only one road to run upon that avenue, so as to benefit a small section of the district at the expense of the proposed improvements east, west and north. But the stockholders of the suburban rapid transit company object. They say the whole district must be considered, and not the now populous part of it. Third avenue, above the Harlem River, is only 80 feet wide, with 15 feet of sidewalk, and the storekeepers who reside upon it would not patronize an elevated road. It would be absurd to sacrifice the whole district for the benefit of a very few property holders in the central or lower portion of it.

According to the last census, the total population of the Twenty-third and Twenty-fourth wards was 42,300. Nearly 30,000 of these lived below One Hundred and Seventieth street and near the line of the Harlem road. It follows that a system of rapid transit roads, to become profitable, must help to create the conditions that will invite a large population. The present inhabitants of the annexed district used the Porchester, the Harlem, the New York and North rn and the Hudson River road, as well as the horse cars. To make the Surburban roads pay in addition, the population must at least be quadrupled.

The majority of the new commissioners appointed by Mayor Grace, are reputable gentlemen. They in all probability will endorse what has been done by their predecessors. The preliminary work of the Suburban rapid transit company is about completed, and they will soon be ready to commence actual road building. They believe the Twenty-third and Twenty-fourth wards, all, save the West Side, are the predestined home of the working classes of New York. They think the toilers will find cheap and wholesome homes upon the routes of their proposed rapid transit lines. They are understood to be desirous also of securing some assurance of rapid transit on New York Island. Forty-one minutes from the South Ferry to the Harlem River, is the schedule time on the Third avenue elevated road, but forty-five minutes is the real time. Matters must be so adjusted, that any part of the Twenty-third and Twenty-fourth wards will be within half an hour of Chatham Square. This is a *sine qua non*. It is believed that the elevated road people are willing to run a through train on the Second avenue road, which will reach down town in twenty minutes from the Harlem River. The friends of the officers of the Suburban company say, that if they are not interfered with, all the roads will be completed within two years' time.

THE SITUATION ON THE STREET.

There seems to be an impression that there will be a reasonably strong market in stocks, between now and the 3d of July. On the first of the new fiscal year, large sums of money are to be paid out by the Government and by the various dividend paying corporations. This money belongs to people who are natural investors, and who are not likely to keep it idle. It is not considered probable that the great operators will make stocks cheap for the benefit of this class of investors; it is far more likely that prices will be advanced, so as to encourage these owners of unemployed money to invest it and then rates will be easy, the price of interest low, and there will not seem to be much object in keeping money unemployed.

But how about the crops?

The feeling between the Fourth of July and the twentieth, will be one of great anxiety, with the chances of a lower market. The probabilities are that an impression will prevail that the crops are a failure. It is already very well settled that the harvest abroad will be very large. From every part of Europe come reports to the effect that magnificent crops will be reaped during the coming summer. Our winter wheat crop was certainly injured, and will not be within 30 per cent, of the yield of last year. Spring wheat is late, corn is very backward. There is sure, in any event, to be disappointment, for a comparison with last year and the year before will necessarily show a large falling off. Those were extraordinary years for crops, and we may not see their like again for a decade. It follows that when, sometime during July, it is fully realized that Europe will not need so much from us, and that our own crops will be deficient compared with last year, there will be disappointment and a gloomy feeling as to the value of the grain carriers. Hence a "slump" may be looked for, to be followed later on, when the immense Government disbursements are due, by higher figures. It is an open secret that the great German bankers predict the highest figures known to Wall street, during August.

The reasoning runs in this way. The country is exceptionally prosperous, the immigration is so great, the internal travel so enormous, that it will more than make up for any deficiency in the harvest. The Government disbursements settle the question that money will be very cheap during the summer and early fall months. The great activity in buildings and manufacturing, will keep all the roads fully occupied with business up to the meeting of Congress. Much has been said about the immense sums invested in new railway enterprises. But two facts in this matter it would be well to keep in mind. One is, that two-thirds of the money subscribed belongs to foreign holders, and another is, that as yet few payments have been made. The subscriptions are for the future, and of all the mass of bonds put upon the market, the payments are not to be made in full for several years. Hence it cannot as yet be said that floating has been changed into fixed capital to any great extent. Despite the demand for money in manufacturing and building enterprises, it is still very cheap and likely to be so until fall.

Certain newspapers, the *Herald* among others, are predicting a tremendous revulsion during the coming summer. But these fears are clearly imaginary. There are none of the conditions for a great panic. There is an abundance of money, trade is prosperous, every one can pay his debts. A panic is always preceded by a long period in which it is difficult to meet engagements and money is scarce and commands a high premium. There is nothing the Government can do to reduce the volume of currency afloat. As yet there is no evidence of any drain of gold to Europe; the banks are increasing their issue, we retain the $80,000,000 per annum of gold and silver which we produce, and hence the volume of our currency is constantly being added to. Beyond the depression which may last for some time upon the discovery that the crops are short, there is no apparent cloud in the financial sky.

MINING INFORMATION.

Standard of Bodie has been a noble mine. Nearly $5,000,000 has been taken out of it since it opened, and last year nearly $1,000,000 was paid in dividends. But the big holders have sold out. The leading officers have only five shares apiece in their own name. The names of Lent and Schaffler, who brought it on this market, no longer appear on the books.

The price of Mono has been advanced to $3.50 a share. We believe, in time, it will sell much higher, but there can be no development before next fall. Mono may have to pay two more assessments before the real deal commences, and we expect to see a dollar assessment on Bodie before the summer is over. There will be no cross-cutting for several months to come, and, therefore, no new development, but there will be a big deal in Bodie some day.

Silver Cliff is off in price, due to some disappointment in the mill returns. It is said that there is a larger percentage of waste than was expected, and the tailings sent to the customs mill yielded very little profit, due to the high charges, when it was expected they would have paid all the running expenses. It is worthy of note that these bad accounts come immediately after the payment of the last installment due on the mill. It now looks as though the stock was being depressed so that enough of it can be put in the hands of English holders before a rise is inaugurated, so as to put the Englishmen in good humor and induce them to take Bradshaw and Washington, in which Mr. James R. Keene is largely interested.

Mr. J. D. Prince, of Prince & Whitely's, has gone to Europe. He has taken with him a lot of Bradshaw and Washington and Silver Cliff. It is expected the London market will absorb a great deal of American mining stocks.

The news from Bull Domingo is unfavorable. People who profess to know say it can never pay a dividend. The rich ore was on the surface, but the further they go down the more broken and poorer does the ore become. The cost of concentrating uses up the profits.

The Comstock again looks sick. That promised bonanza has not yet been discovered. John W. Mackey, it is said, is going back to Europe, and Fair does not spend his time in Virginia City.

STREET RUMORS.

A high official in the New York Central Road is advising his friends to buy the stock. The company has a surplus of $20,000,000 which it cannot distribute in dividends, as it is against the law to declare more than 8 per cent. To get around the law, they talk of issuing a 4 per cent. income bond to the stockholders of record, the new bond to pay 4 per cent. in case that amount is earned over the 8 per cent. Nothing can be done, however, until the Legislature adjourns.

Western Union officials say the new stock will certainly reach par within sixty days. They claim that it earns 8 per cent. on $80,000,000.

Northern Pacific is on the road to par. There is talk of making it an income bond. Our own opinion is that the Northern Pacific is a huge bubble which will burst some day.

Two powerful railroad combinations are competing for Alton & Terre Haute, which practically connects St. Louis with Alton. It is a closely cliqued stock, but it is claimed that before the 15th of July, its earnings will show that it earns a 7 per cent. dividend on the common stock.

The point is given to buy Northwest, and some people believe it will sell at 175 before the close of the year.

It is claimed that Missouri, Kansas & Texas is earning 6 per cent. on its common stock, and that Missouri Pacific earns 11½ per cent.

There is something up in Illinois Central. Some disposition is to be made of the St. Louis & New Orleans stock, so as to relieve the road of a portion of its indebtedness; 175 is said to be the figure for Illinois Central.

Something is to be done with Cincinnati & Sandusky which will make it go to par. It may be the stock will be doubled.

NEW YORK REALTY AT ALBANY.

[From our own Correspondent.]

ALBANY, June 23.

The Fifth avenue re-pavement scheme has been defeated by the Assembly refusing to concur with the amendments made by the Senate, and following it by a refusal to reconsider the vote. This bill, as it originally passed the Assembly, provided that the avenue should be re-paved by the Department of Public Works, with the best kind of stone blocks, from Washington square to Fifty-ninth street, and provided $220,000 to pay the cost. The Senate completely changed the bill, named a commission of three to take charge of the re-pavement, increased the amount to be expended to $400,000, adding $180,000 to the house bill, and inserted a provision suspending as far as that avenue is concerned, the provision in the city charter which prohibits the use of patent pavement in any of the streets of the city. This gave color to the charge that it was intended to saddle upon the city the expense of some patent pavement for that avenue.

The promoters of this plan managed to hold the bill back over two weeks after it passed the Senate before announcing it for concurrence in the Assembly. It was announced then last Saturday, when Mr. Hamilton of New York moved to non-concur in the Senate amendments, and appoint a conference committee. This motion was rejected and a motion to concur made, which failed to receive the necessary sixty-five votes, falling twelve short in a light house. A motion to reconsider that vote was tabled. Subsequently dispatches signed by Mayor Grace and Comptroller Campbell were read, protesting against the bill and insisting that it should be defeated. The advocate of the measure persisted in pressing it, and yesterday, in a full house, called up the motion to reconsider, drummed up all the votes possible, but failed, only receiving fifty-nine votes, whereas it required sixty five, and the motion was declared lost. This ends the matter for under the rules, a motion to reconsider when defeated, cannot be made the second time. But for the uneasiness that exists over the effort in the Grand Jury to obtain facts in reference to the use of corrupt means in Legislature, and the activity of the lobby for this measure, it probably would have passed.

The bill of Mr. Thielman's for the laying out and improvement of that portion of the city of New York between One Hundred and Fifty-ninth and One Hundred and Seventy-fifth street and east of St. Nicholas avenue and the Kingsbridge road, has been advanced to third reading the Assembly. The bill provides that:

The commissioner of public works of the city of New York shall, within six months from the date of the passage of this act, make such changes and alterations in the map or plan made by the commissioners of the Central Park, by virtue of the power and authority conferred upon them by chapter five hundred and sixty-five of the laws of eighteen hundred and sixty-five, of that portion of the city of New York bounded on the south by the northerly line of One Hundred and Fifty-ninth street; on the west by the easterly line of St. Nicholas avenue and Kingsbridge road; on the north by the southerly line of One Hundred and Seventy-fifth street, and on the east by High Bridge Park and the Harlem River, by closing and discontinuing such streets, avenues and roads designated and laid out on said map, but not yet legally opened or in public use, and by laying out such new streets, avenues or roads within the limits aforesaid, and by establishing the grades of such new streets, avenues or roads, and changing the existing grades of intersecting streets, avenues or roads to correspond with the grades of new streets, avenues or roads so established, as in his judgment may best subserve and promote the interests of the city and of the owners of property affected thereby.

A bill has passed both houses and gone to the Governor incorporating a company known as the New York Building Company, with power to purchase real estate, erect buildings, or contract for their construction, and all the necessary powers for that purpose.

The corporators named in the bill who are to exercise the powers of the building company, are Frank Jenkins, John Tracy, Thomas A. McIntyre, Arthur Macy, John W. McLean, Henry W. Curtis, Richard M. Martin and Murthe Thompson. The capital stock is fixed at $500,000, with power to increase it to $3,000,000. They are authorized to organize and commence business when $100,000 of its capital is subscribed and paid in.

The Dayton bill amending the mechanics' lien law makes slow progress in the Senate. It has been so amended that its promoters care but little about it.

The following amendment to the lien law, making it applicable to all work and materials for public works in all the cities of the State, has been signed and is a law:

CHAP. 429.

AN ACT to amend chapter three hundred and fifteen of the laws of eighteen hundred and seventy-eight, entitled "An act to secure the payment of laborers, mechanics, merchants, traders and persons furnishing materials towards the performing of any public work in the cities of the State of New York."

PASSED May 28, 1881; three-fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

SECTION 1. Chapter three hundred and fifteen of the laws of eighteen hundred and seventy-eight, entitled "An act to secure the payment of laborers, mechanics, merchants, traders and persons furnishing materials towards the performing of any public work in the cities of the State of New York," is hereby amended by adding thereto the following section, to be numbered sixteen, and to read as follows:

§ 16. This act shall apply to and include all cases and contracts under which work and materials have heretofore been, or shall hereafter be done and furnished upon any land, the title of which was, at the time of the making of the contract, and now is in any city, and for the performance of which appropriations have been, or shall hereafter be made and raised by any city; and shall apply to and include actions now pending for work done and materials furnished under any such contract.

§ 2. This act shall take effect immediately.

There are several bills on the calendar of third reading in the Assembly, affecting street openings and improvements in New York. These in ordinary course of events would have been disposed of sometime since, but the Senatorial contest delays action. A special effort is to be made in the next two or three days to act upon all these measures.

The Governor has signed the bill providing for the payment of assessments for street openings and improvements in the Twenty-third and Twenty-fourth Wards in annual instalments at 5 per cent. interest.

OUT AMONG THE BUILDERS.

Mr. H. J. Hardenbergh is now completing plans for an apartment house, 100 feet square, at the corner of University place and Eleventh street.

On the north side of Eightieth street, 175 feet east of Second avenue, Francis McQuade is going to build three brown stone apartment houses, 25x60 feet, with extension 10x14, and four stories in height. A. B. Ogden is the architect; cost, $45,000.

T. Schriver & Co. will erect an iron foundry on the north side of Fifty sixth street, 350 feet west of First avenue. It will be 38x60 feet, two stories high, and constructed of brick. Cost, $2,000; architect, same as last.

Mr. Henry Weiler, the builder, is about to build a large flat at No. 12 St. Mark's place. Size, 26x90 feet, and five stories high. It will have a brown stone front and cost $22,000. Wm. Jose is the architect.

On the northwest corner of Lexington avenue and Eighty-fourth street, James A. Frame is about to erect a building from designs of H. J. Dudley. It will have a frontage of 100 feet on Lexington avenue, and be constructed of brick and stone. It will be five stories high, with basement, and cost $20,000.

Mr. Dudley has prepared plans for four French flats, to be put up on the north side of Fortieth street, about 200 feet west of Seventh avenue. They will be five stories high, with basement, and built of brown stone. The dimensions are 25x82 feet; cost, $20,000 each; owner, same as last.

On the site of the old Theatre Comique Messrs. Livingston and De Forest are going to erect a six-story building with basement. It will take in lots Nos. 512, 514, and 516 Broadway, and extend through to numbers 56 and 66 Crosby street. On Broadway will be a frontage of 75 feet, and 151 feet on Crosby street. The depth of it is 195 feet. The structure will be over 100 feet high from street level to cornice. The depth of the foundation walls is to be 24 feet, and their thickness 3 feet at the base. At the bottom the upper wall will be 2 feet 4 inches thick, and 20 inches at the top or roof. The front is to be constructed of brick and iron, trimmed with Wyoming blues'one, while the roof will be brick, with galvanized iron cornices. A large court in the centre will light the interior of the building. It will be heated by steam. Work will commence as soon as the foundations of the old building are removed. This mammoth structure will cost in the vicinity of $300,000. It is expected that it will be ready for occupancy in the autumn of 1882. It will probably be occupied by wholesale stores.

On the southeast corner of Ninth avenue and One Hundred and Twenty fourth street, eight four-story and basement dwellings are about to be put up. They will front on One Hundred and Twenty-fourth street. They are to be 22x68 feet each. The first two stories will be constructed of brown stone, and above of Philadelphia brick. Each house will accommodate four families. Cost $120,000.

About twenty feet from the corner of Lexington avenue, on the north side of Ninety-third street, the New York Mutual Improvement Company have just purchased property, on which they will erect seven three-story brick dwellings, with high stoops. They will be 14x35x63, and cost $6,500 each. Forty per cent. of the cost will buy one, and the balance can remain on mortgage payable in yearly installments of $300. Silliman & Farnsworth are the architects. The company has also purchased fourteen lots in another locality on which they will at once erect a row of ten houses from designs of Silliman & Farnsworth. They can be bought for $3,000 apiece.

E. B. Harper & Co., are going to build four four-story high stoop brown stone houses, 18.9x60 feet, on the northeast corner of Lexington avenue and Seventy-second street. They will be sold for $25,000 each. Architects same as last.

Brooklyn.

Parfitt Brothers have just completed plans for an Episcopal Church at Long Beach.

Mercein Thomas has drawn plans for a frame dwelling in South Brooklyn. It will be 22x36 feet, and two-stories in height, with basement, cost $3,500.

Newark.

Mr. A. L. Dennis is about to erect a five-story apartment house, 60x100 feet, on the corner of Lombard and Broad streets. It will be known as the Aldine Apartment House. It will be faced with Trenton brick on the front, and relieved with selected North River stone. On the north side the roof is of slate. It will contain twelve suites of apartments. Besides the drying room, servants' and janitor's apartment, each suite of apartments will have a reception parlor, dining room and kitchen. It will be heated by steam, and have an Otis elevator running from the basement to the upper floor. Wm. Halsey Wood is the architect, and the cost $50,000. This is a new departure for Newark, there having been no call for houses of this description heretofore.

Dr. Wm. Pierson and C. M. Decker are building a three-story brick building, 25x60 feet on Main street, near the brick church, from designs of Mr. Wood. It is to be built in the English domestic style. The front will be of plate glass, and the first floor used as a store. The second and third stories are to be flats. The same architect has completed plans for a large brown stone dwelling, for D. Smith Wood, on Clifton avenue, south of Bloomfield street. It will have towers on the southeast and northeast corners, respectively. This site is a commanding one, overlooking New York and New York Bay on the east, and the entire range of the Orange Mountains on the west. It will be 40x60 feet, and constructed in the French chateau style.

Mr. Wood has designed a house for Mr. Israel Crane, at Montclair, N. J., which is quiet and domestic in tone, and avoids the prevailing exaggerated Queen Anne style.

J. Hawley has just completed a house costing $6,000, at the corner of Central avenue and Clinton street, East Orange. W. Halsey Wood is the architect.

Mr. John Wharton is building a six-story apartment house on Market near Lawrence streets. It will be 72 x72 feet, containing twelve suites of rooms and three stores, and constructed of brick with stone trimmings. It is to have two elevators. Paul Botticher is the architect, and the cost $40,000.

Mr. Botticher has prepared plans for a three-story brick and stone dwelling, to be erected by Louis Lelong on Pennington street near Market street, will be 21x54 feet, and cost $7,0 0.

Charles W. Compton is putting up a four-story brick factory on Mechanic street, in the vicinity of Broad, 40x87 feet, from designs by Mr. Botticher, at a cost of $10,000.

On the City Dock, John Rendell will erect a three-story brick factory, 40x60 feet, architect same as last, cost $4,000.

Hoboken.

Alderman Timken is going to build an apartment house on the corner of Sixth and River streets from plans drawn by Wm. Jose. It is to be 50x60 feet, four stories in height, and built of brick and Nova Scotia stone. There will be seven rooms in each suite, and each floor will accommodate two families. It will have two main entrances, one in front and one in the rear. The structure is to be ventilated by open shafts and constructed similar to the same kind of houses in New York. It will be called the Trenton Apartment House and cost $26,000. It is the first flat ever built in Hoboken.

OUR WATER FRONT.

A pier 100 feet wide and 590 feet long at the foot of Chambers street is approaching completion. In addition to this there will be a wall 560 feet long, to which two piers will be attached. The New York, Lake Erie & Western Railway Company are erecting sheds for their use, and will pay $90,000 a year rent.

The new wall at the foot of North Moore street is about 200 feet in length and has already been finished. Plans have been made for a pier 75x560 feet, which the Morgan Steamship Line will occupy.

At the foot of Beach street a wall 125 feet long has been built and a pier for the Old Dominion Steamship Line. A wall of the same length has been finished at the foot of Laight street, and a fine pier will be built for the occupancy of the Pennsylvania Railroad Company.

A wall 3,400 feet long, extending from the south side of Canal street to the foot of Perry street, has just been finished. Old pier 49 has been demolished, and new pier 41, which will be completed in about three months, will take its place.

Pier (new) No. 36, recently built, will occupy the site of pier (old) No. 44. The Inman Steamship Company is at present building a double-decked shed over the pier. About the 1st July the company will be in full blast on this pier.

Work is going on briskly along the river front above West Twenty-third street. The river wall is being constructed from the foot of West Twenty-third street up to the middle line between West Twenty-seventh and West Twenty-eighth streets. Contracts have been made for the constructing of the new piers Nos. 54, 55, 56 and 57. They will be 80x512 feet.

The new pier 60x306 feet at the foot of West Fifty-eighth street is about completed. It will be used for the cattle trade.

New piers for the benefit of the lumber trade will also be built at the foot of West Nineteenth and West Twenty-first streets. The ground near the piers is well adapted to this class of business, and will afford all the required advantages.

MARKET REVIEW.

REAL ESTATE.

☞ **For list of lots and houses for sale see pages vi and vii of advertisements.**

The sale on Saturday last, at the Exchange Salesroom, by Scott & Myers, of the four-story brown stone house, No. 11 East Forty-third street, 18x100, attracted a number of bidders, and until $25,000 was reached there was a general participation in the contest. After this point the fight resolved itself down to two persistent opponents, who, by easy stages of $50, with an occasional bluff raise of $250, ran the price of the dwelling to $32,600, when it was knocked down to Henry Allen. This price was certainly a large one, although the representative of the purchaser afterwards remarked his limit was $35,000. A shrewd operator remarked he did not see why persons should pay this price for 18-foot houses, and built some years ago, when for but little more money they could go in good East Side locations near the park, buy a lot and build a home to suit themselves.

Sales at the Exchange did not amount to much this week, as the annexed list shows. The list of conveyances shows a falling off, compared with the last two months; but the brokers continue to do heavy business in their offices.

A list of the mortgages shows how heavy is the speculative building now going on in New York. Certain real estate lawyers, probably with rich clients behind them, are advancing heavy sums to builders, and taking mortgages on the property. These lawyers, speculating for their clients, make a profit on the bricks and all the materials. Having many blocks of houses at one time, they buy brick, stone and other material by the wholesale, and charge the builders the ordinary quoted rate, thereby making a handsome profit. There is a vast deal of speculative building going on in New York and Brooklyn, and the mortgage list shows that it is the capitalist who advances the money, who will make the profits, and not the builder.

Horatio Seymour, Jr., State Engineer and Surveyor, will sell at public auction, on July 6th, 1881, at his office, in the city of Albany, certain lots in the city of New York, situated on Eighth avenue and One Hundred and Forty-eighth street, One Hundred and Eighteenth street, One Hundred and Forty-eighth street, One Hundred and Sixteenth street, One Hundred and Thirteenth street, One Hundred and Thirty-fourth street, One Hundred and Forty-third street, Seventieth street, Fifty-third street and Seventy eighth street, and some lots of the Dyckman Estate, situated in the Twelfth Ward of the city of New York.

Gossip of the Week.

Barnard Hickman has sold the four-story brick tenement 25x60x100, known as No. 149 West Fifty-first street, for $15,500, to John Hector.

Mr. Howard W. Coates has sold a plot of ground on the east side of the Boulevard between Ninety-fourth and Ninety-fifth streets, 42x138, for $12,650.

Messrs. Riker & Co. have sold a lot and stable on West Fifty-sixth street, between Sixth and Seventh avenues, 25x75, for $10,500, and two lots on One Hundred and Twenty-ninth street, running through to One Hundred and Thirtieth street, between Seventh and Eighth avenues, for $18,000.

The same brokers have also sold a parcel of unimproved west side property, for $97,500.

Messrs. Butler & Matheson sold, on Thursday last, a block of unimproved realty, comprising sixty-four

city lots, located on the west side of Central Park, above Fifty-ninth street, for $304,000. Although particulars are withheld, we hear the purchaser is an old real estate operator who has not been in the market for a number of years.

James E. Ray has sold his two four-story brown stone flats, Nos. 21 and 23 East One Hundred and Twenty-seventh street, 18.9x78x99.11 each, for $40,000 to a Broadway photographer.

Chas. Buek & Co. have sold another of their new houses on Lexington avenue, No. 301, to Mr. James H. Humphrey, for $40,000.

This is the third, out of the five houses being erected here, that has been sold. Messrs. Buek & Co. have been so much encouraged by this, that they purchased, a short time since, the adjoining corner on Lexington avenue, with a frontage on the avenue of 156 feet, for $95,000. This plot is now being excavated, and in the fall they propose to erect a row of handsome dwellings, such as are being, or have been, lately erected on Lenox Hill.

P. A Cassiday has sold property on the northeast corner of Forty-ninth street and Third avenue. It is 50 feet 6 inches on Third avenue, and 115 feet on Forty-ninth street. The property has been in the Odell family for fifty years. The amount received is withheld.

E. B. Harper has sold the house and lot, No. 180 East One Hundred and Ninth street, for $9,700, for which he paid but $8,000 a few months since.

Mr. J. B. Smith has re-sold the eight lots on the south side of Seventy second street, between First and Second avenues, that he bought six weeks since for $5,000 per lot, at the rate of $6,125.

Messrs. Lespinasse & Friedman have sold the plot of ground on Fifty-eighth street, 100 east of Seventh avenue, running through to Fifty-ninth street, 50x200.10, to John O'Connor for $100,000, and the adjoining lot, 25x200.10, to the same buyer for $47,500; also the plot still further east, 75x200.10, to C. H. Holt and others for $150,000. These, with the frontage on Seventh avenue from Fifty-eighth to Fifty-ninth street, the sale of which was exclusively reported in the REAL ESTATE RECORD three weeks since, are to be used for the erection of a palatial apartment house that will eclipse anything yet attempted in this country, the principal feature of which will be a court yard of unique design.

V. K. Stevenson, Jr., has sold three lots on the north side of One Hundred and Seventeenth street, 335 west of Fifth avenue, to the Hon. Edward Kearney for $3,000 each, and for which he has since refused an offer of $3,300.

Messrs. Scott & Myers have sold for Mr. P. Milligan five lots and gores on the north side of Sixty-eighth street, near Eighth avenue, for $44,000.

Brooklyn Gossip.

I. C. Simonson has sold the three-story frame dwelling, No. 185 Nassau street, for $7,500.

The following are the sales at the Exchange Sales room for the week ending June 24:

** Indicates that the property described has been bid in for plaintiff's account:*

RICHARD V. HARNETT.

Ludlow st, No. 87 w s, 26.11x87.6, two-story brick dwell'g. H. B. Ward $8,900

*Park av, n s, 325 e Throop av, 25x100. Oliver Bronson et al, trustees..... 3,000

Total..... $7,019

THE ASSESSMENT COMMISSION.

The commissioners, consisting of Edward Cooper, John Kelly, Allan Campbell, Geo. H. Andrews, and Daniel Lord, Jr., met on Thursday. In the matter of the petition of Jno. H. Sherwood and others in regard to the regulating, grading and macadamizing of Sixth and Seventh avenues, the closing testimony and arguments were heard. Mr. Chas. E. Miller, for the petitioners, contended that the work was done in an extravagant manner, and that it was the duty of the commission to first find the value of the work done and then place one-half of this on the property owners and one-half on the city as in the case of the Boulevard improvements. Total cost of the work as assessed on the property is $1,910,371.

The commission rendered a decision vacating the assessments for the underground drains in Inwood and Dykeman streets, One Hundred and Seventy-third and One Hundred and Eighty-third streets, Ninety-sixth and One Hundred and Eleventh streets, and One Hundred and Tenth and One Hundred and Twenty-fourth streets, on the ground that the city built the drains across private property without consent of the owner or without having a title to the same.

Application was made yesterday before Judge Lawrence, in Supreme Court Chambers, for an extension of the time for which the Assessment Commission is to receive evidence and render decisions. The counsel representing the property owners asked for an extension of one year, while the Corporation Counsel thought December 1st would be sufficient. The Judge took the papers and reserved his decision. The Commission have upwards of 2,000 cases, involving the assessments upon 20.000 lots, amounting to between $4,000,000 and 5,000.000, yet to consider.

HOUSES COMPLETED AND FOR SALE.

We notice in passing through One Hundred and Twenty-third street, near Mount Morris avenue, that the six elegant houses just finished by Robert McGinnis are now ready for inspection. They are really fine dwellings and can be bought at a reasonable price. This property is sure to prove a safe and paying investment. The locality is unsurpassed.

BUILDING MATERIAL MARKET.

BRICKS.—On the market for Common Hards sellers have had decided advantage and found little reason to complain, except upon the subject of supply. The offering, in fact, has been constantly behind the requirements of the demand, and upon this basis the improvement took place. The actual consumption of stock is daily increasing as buildings gradually commence to grow above the foundations, and cargoes, as they come to hand, generally find buyers waiting for them, and especially when on sailing vessels. The barge loads occasionally are the cause of some little trouble, as from their size they are not adapted to the wants of all customers, but the delay in sale is not great and nothing of importance has been carried from day to day afloat, until the asking rate came up to $7.75 per M This for a time was a point at which buyers manifested some resistance, but was finally submitted to and has become an established figure, though at present somewhat extreme. Quotations may be named at $7.37½@7.75 for Haverstraw, and $7.00@7.25 for "Up River." Advices from the river report manufacturers busy pushing the production with all the expedition possible, though still feeling the influence of unfavorable weather, and scarcely recovering ground on the previous delay to the same extent that consumption increases, and hence the strength of the position. It may be noted, however, that buyers are working closer and closer to immediate and imperative wants as the cost increases, and in a great many cases are utilizing old brick, so that there is a prospect that gradually supply will overtake demand and some re-action follow. Out of town inquiries are occasionally to be heard, including one or two from the South. Pale Brick are still valued at $2.75@3.00 per M., but rather tend upward on a good free demand, which exhausts the supply. Of course it is intended that all this class of brick shall go to Brooklyn, etc., but now and then a choice cargo is said to slip into city consumption, "by mistake."

HARDWARE.—On the general market business is in a slow and uncertain condition, and not, as a rule, very promising so far as regards any early revival may be concerned. Stocks, too, are pretty full, with holders in some cases anxious to realize, though making no open attractions in the way of reduced cost, etc. In fact, the mid-summer dull tone commences to develop itself, and there is, apparently, no expectation of an early revival of trade for several weeks. Local consumption is also rather slow at the moment, but an increase may be expected in about thirty days. Prices, in the majority of cases, are about steady. At recent meetings the manufacturers of Augers and Bits, and also of Chisels and Drawing Knives, decided to make no changes. It is also announced that the Ohio and Sandusky Tool Companies have agreed upon the following: First quality Bench and all Fancy Planes, discount 30 and 10 per cent.; second quality Bench Planes, discount 40 and 10 per cent.

LATH.—The market has worked into somewhat better shape, and the feeling evidently is more cheerful. A comparatively full amount of stock has been offered, but against this was found a good demand, and prompt bids through which sellers gained a small advantage. Some additional sales were made at $1.70 following our last, but later $1.75 was obtained, and the latter rate is as low as sellers will accept at the present writing, notwithstanding quite a fair amount of stock at hand. Actual consumption is not liberal, but dealers see it ahead and are preparing for it.

LIME.—Offerings have continued moderate and uncertain, but there was no doubt about a steady full demand, and everything available could be readily placed. This of course gave support to values and full former prices remain current with some hints of another advance at no very distant day.

LUMBER.—We still notice an absence of anything in the way of extravagant views or an inclination to talk "boom," but there is well preserved a tone of quiet confidence which carries strong conviction to searchers after information. In short, while receivers, dealers, &c., have really nothing positively new to report this week, they reiterate the former cheerful statements regarding the present and prospective condition of the market with such unanimous voice as to leave no room to doubt the healthy state of trade. Irregularities crop out occasionally as a natural result of any large business, and shrewd or lucky buyers will gain some advantage, but the changes are slight and generally only temporary, more especially on first-class goods, of which a scarcity prevails in all grades of lumber. The distribution of supplies is general, including building, manufacturing, domestic shipment and export, and the accumulation in hand said to be smaller than usual for this season of the year.

Spruce of good quality can find an outlet for all manufacturers appear ready to offer, and no very heavy concession on price would be necessary, except under an unusual liberal accumulation of cargoes. Shippers, however, who send in all sorts of cuts and assortments, with the schedules containing a large percentage of inferior stuff, and expect to find buyers ready to grab the offering as soon as made, will be sadly disappointed. Use can be found for almost anything merchantable, on this market, to be sure, but an undesirable article will only be handled at a just valuation, especially at a season when sources of supply are all open, and there is no necessity for the majority of buyers to take "just such stock as they can get." The latest transactions indicate about former rates ruling, and the range on randoms may be placed at $14@16 per M. On specials $17 is the average top, but for extra difficult cuts 50c. and $1 per M. more is asked, especially for early delivery.

White pine has accumulated to some extent, but the amount is not sufficient to have the least influence upon the position of the market, indeed could be materially increased before attracting much attention. A great many of the arrivals are at once delivered on contract for consumption or shipment, and the demand still continues good, especially for seasoned stuff, of which the available quantity is greatly reduced. Interior advices continue strong, as a rule, and the cost at primary points in many cases continues above a parity of our market. We quote $17.00@19.00 per M for West India shipping boards; $24.50@26.00 for South American do; $16.00@16.50 for box board; $17.00@17.50 for do wide and sound do.

Yellow pine does not vary greatly from the position noted last week. The pressure upon the mills has been somewhat relieved through the "catching up," on many of the heavier contracts, and all have more or less business on hand, and agents are in constant receipt of a fair run of new orders. A portion of these are for export, and a goodly number for local consumption in the way of ordinary building, etc., pier work, etc. Values are generally well sustained, the principal fluctuation being over the time of delivery, an occasional buyer, anxious to get stock in hand quickly, being willing to name a premium. We quote random cargoes at about $24.00@26.00 per M; ordered cargoes, $26.00@28.00 do. green flooring boards, $24.50@26.50 do; and dry do do, $27.00@29.00. Cargoes at the South, $15.00@19.00 per M for rough, and $20.00@24.00 for dressed.

Hardwoods are firmly sustained and in good demand. Indeed buyers are more anxious if anything, and some who early in the season refused to submit to the rates asked on Walnut now seem to regret their action, though the regret comes too late to secure much stock. We quote at wholesale rates by carload about as follows: Walnut: $77@85 per M; ash, $35@38 do.; oak, $40@45 do., maple, $30@35; chestnut, 1st and 2d, $30@35; do. do. culls, $18@20 do.; cherry, $50@55 do.; white wood, ⅛ and ⅝ inch, $25@27.50, and do. inch, $33@35 do.; hickory, $35@45 do., for Western, and $65@75 for good nearby stock.

Shingles sellers readily on most home outlets and at full rates with the supply not very abundant. We quote Cypress at about $6.00 for saps and $8.50@9 for

hearts; pine shipping stocks, $4 for 18-inch, and Eastern saw grades at $2.50@4.50 for 16-inch, as to quality and to quantity. Machine dressed cedar shingles quoted as follows: For 30-inch, $16@22.25 for A and $28.75@32.25 for No. 1; for 24-inch, $6.50@16 for A and $16.75@23 for No. 1; for 20-inch, $5@10.50 for A and $11.25@11.75 for No. 1.

From among the lumber charters and engagements recently reported, we select the following:

A Br steamer, 1,622 tons, from St. John, N. B., to London, Liverpool or Bristol, deals, 55s, c d., a Br steamer, 976 tons from St. John, N. B, to Bristol Channel, London or Liverpool, deals, 55s. c. d., a Br steamer, 884 tons, same; a Br ship, 1,317 tons. from St. John, N. B., to Liverpool, deals, 54s., c. d ; a Br brig, 137 tons, from St. John, N. B., to Drogheda, deals, 60s; a Br barque, 998 tons, from St. John, N. B., to Marseilles, deals, 67s. 6.; a Br brig, 349 tons, from St. John, N. B., to Bordeaux, deals, 62s. 6d.; a Br barque, 497 tons, from Fernandina to Bowling (Clyde), sawn timber, £5 17s. per standard; an Am barque, 543 tons, Fernandina to Montevideo, lumber $18, or Buenos Ayres, $19; a Br barque, 536 tons, from Fernandina to Buenos Ayres, lumber, $18 net; a Br barque, 309 tons, hence to the River Plate, lumber, at about $16 per M; an Am ship, 1,173 tons, from Montreal to Montevideo, lumber, $14, or Buenos Ayres, $15; a Br barque, 733 tons, from Montreal to the River Plate, Lumber, $14.50; an Am schr, 108 tons, hence to Point-a-Petre, general cargo, 75c. per bbl., and lumber on deck, $5; an Am brig, 431 tons, from Tuspan to New York, Cedar, at or about $750; an Am brig, 248 tons, hence to Point-a Petre, white pine boards $5, option of Moule, Guadaloupe, $9; an Am brig 462 tons, hence to Port Spain, lumber $5; a Br schr, 137 tons, from Chatham, N B., to Vineyard Haven for orders to a Sound port or New York, lumber $5; a Br barque, 357 tons, from Boston to the River Plate, lumber $13; a schr, 350 M lumber and timber, from Savannah to Noank, Conn., $7.50 and $8.50; a schr, 400 M lumber, from Pensacola to New York, $9; a schr, 190 M lumber, from Jacksonville to New York, $9.50; a schr, 275 M lumber, from Darien to New York, $7.50; a schr, 178 tons, hence to Pilatka, railroad iron, $2.50, and back from Jacksonville, lumber $10; a brig, 220 M lumber, from Pensacola to New York, Sound or Providence, $9, or if to Boston, $9.25; a schr, 240 M lumber, from Fernandina to Baltimore, $7; a schr., 320 M lumber, from Brunswick to Baltimore, $6.75; a schr, 117 tons, hence to Pilatka, railroad iron, $2.50, and back with lumber, $9.50; a brig, 302 tons, from Pensacola or Pascagoula to Aransas Pass, railroad ties (three trips), $8; a brig, 381 tons, from Pensacola to New York, lumber, $9; a schr, 170 M lumber, from Jacksonville to New York, $9.50, option of Providence or New Bedford, $9.75.

Exports of lumber from the port of New York:

	This Week, feet.	Since Jan. 1, feet.
West Indies	849,040	20,282,560
South America	447,781	12,785,600
East Indies, Africa, etc	487,543	3,346,396
Europe, Continent	129,583	654,233
Europe, United Kingdom	101,550	2,147,029
Total	2,015,497	39,215,818

GENERAL LUMBER NOTES.

STATE.

Albany Lumber Market, as reported by The Argus

FOR THE WEEK ENDED JUNE 21, 1881.

We have not any change to note in our quotations for Pine Lumber; the market is firmly held with a steady business. The quantity of Lumber moving from the District, from the river and canal sides, is about up to the average. Philadelphia was represented among the buyers in the District this A M. The large and general consumption of Lumber throughout the country gives much firmness to the market here, and the confident expectation of high prices in the near future, especially for the best grades. The Michigan and Canadian markets are very strong.

Hardwoods are steadily held with a good business.

Coarse Lumber is in good demand at quotations, which are very firmly held; the Northern mills are without their needed supply of water; the condition of the Hudson river here shows how light the fall of rain has been on the upper branches of that stream.

The receipts of Lumber by lake at Buffalo for the week ending June 20th were 7,248,000 feet and by rail 110 cars. The receipts by lake at Oswego for the week were 9,074,300 feet.

The receipts by canal at Albany from the opening of navigation to June 15th were:

	Bds.&Sctl.,ft.	Shgles,m.	Timber, ft.	Staves,lbs.
1881	59,948,000	48	.....	459,000
1880	85,978,400	100	.....	.....

The receipts of lumber at Chicago, from January 1st to June 17th, were 408,899,000 feet, against 372,546,000 feet for a corresponding period in 1880; the shipments, 270,617,000 feet against 254,787,000 feet. The stock of Lumber on June 1st was 270,317,000 feet, against 228,257,000 feet on May 1st, and 222,408,030 feet on June 1st, 1880.

The shipments from the Saginaw from the opening of navigation to June 15th are 136,557,000 feet against 195,840,000 feet in 1881.

Freights from Bay City to Buffalo and Tonawanda, $3 00 per M.; from Saginaw, $3.25. From Buffalo to Albany, $2.25 per M. From Tonawanda to Albany, $2.15. Lake Ontario freights to Oswego, 90c. from Port Hope; $1.15 from Toronto; from Oswego to Albany, $1.60@1.65. From Ottawa to Albany, by boats, $3.00@3.50 per M. feet.

River freights are:

To New York, ₱ M ft	@1 00
To Bridgeport	@1 37½
To New Haven	@1 37½
To Providence, Fall River and Newport	2 00@2 25
To Pawtucket	2 25@2 50
To Norwalk	1 25@1 30
To Hartford	@2 00
To Norwich	@2 00
To Middletown	@1 75
To New London	@1 75
To Philadelphia	@2 00

THE WEST.

SAGINAW VALLEY.

Lumberman's Gazette.

The market continues active and prices steady and unchanged. Sales have been less numerous, the spring rush being about over. Another cause has operated to decrease the number of sales, and that is, the large amount of lumber on the river already sold, which is estimated as amounting to a quantity greater than can be sent forward in a full month. The figures are stated at 165,000,000 feet. That there should be a letting up in purchases under the circumstances is not remarkable. Still we hear of sales at market rates of lumber yet in the log. When stock is disposed of in this manner it is a sure indication of a firm market and unusual confidence in the situation remaining favorable for some time to come.

TOTAL FROM THE RIVER.

The total shipment of lumber, lath and shingles from the river to date, with comparisons, is as follows:

	1880.	1881
Lumber	211,650,362	164,839,269
Shingles	35,320,000	31,558,600
Lath	12,969,650	2,746,000

Freights remain steady and unchanged at $2.50 @2.75 to Ohio ports and 3.00@3.25 to Buffalo and Tonawanda, the outside figures being from up-river points.

General quotations here are:

Shipping culls	$6.00@ 8.00
Common	12.00@16.00
Three uppers	30.00@36.00

We have received from Mr. George W. Hotchkiss, Secretary of the Chicago Lumberman's Exchange, his review of the Chicago market for the month of May. The retrospective of the course of the market is a little late to be of value here now, but we make room for the following interesting figures:

Comparative statement of stock on hand June 1st.

	1881. Lumber and Timber.	1880 Lumber and Timber.
January 1	497,840,673	451,282,059
February 1	444,924,272	403,981,900
March 1	398,800,030	338,996,421
April 1	322,491,234	263,452,591
May 1	228,256,644	238 483,874
June 1	270,317,046	292,467,878

Comparative statement of Stock on hand June 1st for a series of years.

	Lumber and Timber.		Lumber and Timber.
1875	188,212,169	1879	225,739,690
1876	205,552,022	1880	292,467,878
1877	216,150,895	1881	270,317,046
1878	248,865,400		

The Northwestern Lumberman contains the following:

NEWS FROM THE DRIVES.—Except in the western part of the northwestern logging district, the drives seem to be suffering from a lack of water. Complaints of dry weather and slow work on the streams come to us from Michigan, and even on this side of the lake the rise noted last week has subsided, without, in some cases, bringing down as many logs as was expected. It is not yet certain, however, that we will not have more rain during the present month, though it is not so likely to come as it was earlier in the month, and it may be that the doubtful stock will still be secured. In from two to three weeks it will be possible to tell more about the result on the different streams, and to estimate more nearly the amount of logs hung up. Without more rain, this item promises to amount to something, though probably not enough to make any important reduction in the stock for this season's manufacture. The mills are all of them pretty well supplied for the present, and before they need any more, rain enough may be looked for to bring the logs in.

CHICAGO, June 15, 1881.

Lumber continues to sell freely at the Exchange docks, and is rather firmer than it was a week ago, with a slight tendency to higher figures. It is reported that good piece stuff of standard lengths—eighteen feet and under—sold to-day at $10.25, and some of the sellers say that for cargoes containing longer stuff a higher average than this has been realized. There is no question but that piece stuff has been scarce on the market this season, while the demand for it has been greater than usual. The commission men think they could sell it at higher figures if they should make the attempt, but so far they do not seem to have considered it advisable to do so. Buyers seem to think that the manufacturers ought to be satisfied with the returns they are getting, and assert that no dealer can afford to pay any more for lumber than he is compelled to now. Many of them still hope for a break in the market later, basing their expectations to some extent on the fact that the present boom has started in so early. They are of the opinion that reaction is likely to follow, and perhaps carry prices down to a lower point than they have touched this season. Producers and commission men, of course, will not admit that there is any likelihood of such a turn in the course of the market, which they expect will be steadily upward through the season.

Inch lumber is firm but without any quotable change. Consignments are readily placed, choice stock being in particularly good demand. Shingles are wanted, and buyers are willing to pay a trifle more for them than they gave last week. Extra A's have been sold as high as $2.70, and we hear of a load of Chapin's shingles that brought $2.80.

The supply on the market has not been very large, though the report of the week shows very heavy receipts. A large part of the lumber goes directly to the yards. Much of it is sold to arrive, some of the commission men having disposed of the cut of the mills they represent for one or two months ahead in this way. The dealers have also bought largely from the mill men and are getting their stuff into the yards as fast as possible. The present prospect is not very promising for big fleets during the next few weeks, though the cargo market is too uncertain a subject for speculation to warrant us in saying that it will not be well supplied with offerings.

Freights remain as they were last week. The demand for vessels is fair and rates are firmly maintained. The movement of lumber on the lakes is probably the largest ever known, and there is plenty of business for all the craft in this trade.

HARDWOODS.—Prices at the yards are without change. Cargoes are arriving somewhat freer and there are moderate arrivals by rail. The demand is fully up to the supply of dry lumber, and nothing in the way of dry stock is accumulating. The Secretary of the Exchange reports the stock on hand June 1 at 12,063,911 feet.

LUMBERMAN AND MANUFACTURER, MINNEAPOLIS, MINN.

The condition of the lumber markets of the West continues most favorable for the producers. Retail dealers now seldom go beyond the first yard they can get their orders filled at, and ask no concessions from regular prices. Their chief trouble is to find the stuff they need. A large part of all the lumber used or shipped is fresh from the saw, owing to a lack of dry stuff.

At Chicago the contest between the dealers and manufacturers waxes hot, but so far no great advantage has been gained by either party. Prices are better maintained than might be expected, when a majority of the lumbermen of the city are bent on breaking them down. Green dimension stuff continues to bring $10, and boards and strips as high as $20 by the cargo, which figures will not admit of any serious cutting of yard rates. One-fourth of the year's cut are already landed at the docks (over 550,000,000), and no serious break made yet, is a most encouraging circumstance. The fraternity of the city meet from time to time, and resolve to abide by the present yard list.

St. Louis sells about 8,000 000 feet per week, and is receiving large stocks via the river. Minneapolis sells 5,000,000 per week, and is not running around begging for trade, either. All the other markets are doing as much business as the railroads will permit. The log drives are much nearer safe than they have been for a number of years at this time in June, and no fears need be entertained now that any appreciable per cent. will be hung up anywhere. The demand for lumber in the water is excellent along the river. One contract for 16,000,000 feet mill run delivered below this week brought $15 cash, or $90,000, which is about 40 per cent. advance on the prices of two years ago. The St. Croix now holds a monopoly of the log market for all desirable grades, and long stuff is getting good figures for her crop. Manufacturers are crowding their mills to the utmost, and are loaded down with orders for special sizes.

THE EAST.

The Boston *Journal of Commerce* reports:

The market continues firm and active, with a good demand for both local and outside distribution. Lower grades, however, have not a very firm feeling. As they appear to be in over average supply, they are not quite so susceptible to the upward tendencies of the finer grades. In fact, dealers are predicting that when eastern cargoes begin to come in, the supply of these grades will be increased to such an extent as to compel holders to sell a good deal under present rates. As regards the finer qualities of stock, reports from the West show holders to be very firm in their views. This position seems to be supported by the fact that everything points to a very large demand in the future, which, of course, will necessitate drawing very heavily on the western markets for supplies. Hard woods are, as previously reported, quite scarce, with holders firm and in every case unwilling to sell, except at regular rates. Southern lumber is in good demand, and remains as previously quoted. Timber is firmly held.

THE SOUTH.

The Savannah Morning News as follows:

TIMBER.—Market comparatively quiet; light receipts.

Shipping timber by the cargo f. o. b.—

700 feet average	$9 00@11 00
800 " "	10 00@11 00
900 " "	11 00@12 00
1,000 " "	12 00@14 00

Shipping timber in the raft—

700 feet average	$6 00@ 7 00
800 " "	7 00@ 8 00
900 " "	8 00@ 9 00
1,000 " "	9 00@10 00

Mill timber $1 below these figures.

Lumber.—Mills are supplied with work for the present. Demand good Prices range about as follows:

Ordinary sizes	$16 00@18 00
Difficult sizes	18 00@22 00
Flooring boards	18 00@20 00
Shiffstuff	20 00@22 00

FREIGHTS.

LUMBER—*By Sail.*—Tonnage for coastwise business has been in better supply during the past week, but vessels are in good demand, and all offerings will find

ready business at full rates. Our figures include the range of Savannah, Darien and Brunswick, from 50c. to $1 being paid here for change of loading port We quote: To Baltimore and Chesapeake ports, $6.00@6.50; to Philadelphia, $6.50@$7.00; to New York and Sound ports, $7.50@8.00; to Boston and eastward, $7.50@8 50; to St. John, N. B., $8.50@$9 00; [Timber $1.00 higher than lumber rates]; to the West Indies and windward, $8 00@10.00; to South America $19 00; to Spanish ports, $14.50@15.30; to United Kingdom for orders, timber 34s@35s, lumber £5 80s.

METALS—COPPER.—Ingot has sold very slowly and buyers almost without exception refuse to handle supplies except on a basis of early and positive wants. Offerings in the meantime quite full and prices gradually declining, closing weak and nominal at about 17@17½c. for Lake. Manufactured copper in about the average trade demand and former list rates retained. We quote as follows: Brazier's Copper ordinary size over 16 oz. per sq. foot. 28c. per lb.; do. do. do., 16 oz. and over 12 oz. per sq. foot, 30c. per lb.; do. do., 10 and 12 oz., per sq. foot, 32c. per lb.; do. do., lighter than 10 oz., per sq. foot, 34c. per lb.; circles less than 84 inches in diameter, 31c. per lb.; do. 84 inches in diameter and over, 34c. per lb.; segment and pattern sheets, 31c. per lb.; locomotive fire box sheets, 28c. per lb.; Sheathing Copper, over 12 oz., per sq. foot, 26c. per lb., and Bolt Copper, 28c. per lb. IRON—Scotch Pig was offered freely from landing parcels and occasionally at very low rates, which induced some buying. The natural demand, however, is limited and business a a rule unsatisfactory. Quoted somewhat nominally, $20@23 per ton, according to brand and quantity. American pig, in spite of "great expectations" and long-winded articles written in the interest of a few companies, to attempt showing why bottom prices are now touched, continues dull and drooping, and stocks cannot be placed until the buyer secures some advantage. The pressure, however, is not severe, and measures to materially reduce the production are under way. We quote at $23.00@24.00 per ton for No. 1 X foundry; $21.00@22.00 do. for No. 2 X do. do., and $19.00@20.00 do. for gray forge. Rails have been more active in view of the fact that manufacturers reduced their prices to meet the competition from foreign stock. A large number of the sales have been for Southern delivery. Old Rails and Scrap Iroff have met with only a moderate, uncertain call, and there was no regular market. We quote Rails at $44@46 for iron, and $55@59 for steel, according to delivery. Old Rails $25.50@27.00 per ton; Scrap, $25.00@27.00. Manufactured iron selling moderately, with no change of importance to note on prices ate the moment. We quote Common Merchant Bar, ordinary sizes at 2 3@2.5c. from store, and Refined at 2.5@3.5c; wrought beams at 3.3. Fish plates quoted at 2¾@2½c; track bolt and nuts, 3½@3½c; railway spikes, 3c; tank, 3@3.1c; angle, 3c; best flange, 6c; and domestic sheet on the basis of 3½c, for common Nos. 10@16. Other descriptions at corresponding prices, with 1-10c. less on large lots from cars. LEAD.—Domestic Pig not much wanted beyond the ordinary run of trade; orders and the tone of business quite dull. The supply, however, appears to be under very good control and holdrs not inclined to offer except at about former rates. We quote at about 4⅜@4½c. The manufactures of lead are steady and quoted: Bar, 6c.; Pipe, 6½c., and Sheet, 7c., less the usual discount to the Trade; and Tin-lined pipe, 15c.; Block Tin Pipe, 40c., on same terms. TIN—Pig has gone out slowly and principally in small lots as wanted for immediate consumption. The supply, however, is carefully adjusted to the wants of the market and held quite steadily. We quote 20¼@20½c. for Australian, 20¾@21⅝c. for Straits, 20¾@21c., for English Refined, 20½@21c. for do. Common. Tin Plates secure a fair jobbing outlet and the market a stead tonee but without inclination to buoyancy. We quote I. C. Charcoal, third-class assortment, $5.75@6.00 for Allaway grade, and $6.12½@6.25 for Melyn grade; I. C. Coke, $4.81½@5.00 for B. V. grade; $5.12½@5.37 for Yspitty grade; Charcoal terne, $5.20@5.37½ for Allaway and Dean grade 14x20; $10.50@11.00 for do. 20 x28; Coke terne, $4.87½@5.00 for Glais grade 14x20, and $10.00@10.12½ for do. 20x28—all in round lots. Spelter slow of sale and of somewhat uncertain value. Quoted nominally at 4⅞@5¼ asto brand, etc. Sheet Zinc has an ordinary ofbbing sale and a pretty steady market. We quote at 7@7¼c. from store, according to quality, quantity, etc.

NAILS.—Business still a litte irregular, and not altogether satisfactory to manufacturers and dealers. There is considerable stock going out, but the movement does not appear to have a stimulating influence upon the position, and values fail to secure good solid suppore. Indeed, large invoices could be obtained below the regular list eates.

We quote at 10d to 60d, common fence and sheathing per keg, $3.05@3.15; 8d and 9d, common do, per keg, $3.30@3.40; 6d and 7d, common do, per keg, $3.55@3.65; 4d and 5d, common do, per keg, $3.80@3.90; 3d and 4d, light, per keg, $4.55@4.65; 2d, fine, per keg, $5.30@5.40; 2d, per keg, $5.30@5.40.

Cut spikes, all sizes, $3.30@3.40; floor, casing and box, $3.80@4.60; finishing, $4.05@4.90.

CLINCH NAILS.

1⅛ inch, $5.50@5.60; 1¾ inch, $5.25@5.35; 2 inch, $5.00@5.10; 2½@2¾ inch, $4.75@4.85; 3 inch and longer, $4.50@4.65

PAINTS AND OILS.—A slow, uncertain movement is reported in most descriptions of paints, etc., and no early revival is anticipated, while prices under the circumstances are a little shaky. The stocks, however, are not very full, and this prevents any serious pressure to realize, an attempt at which would surely precipitate a decline. Advices from the country are still of a hopeful character regarding the prospects for the fall trade. Linseed Oil has sold from "outside" sources somewhat lower, but crushers as a rule, ask former rates. We quote at about 50@52c. for city, and 58@59c. for Calcutta from first hands.

PITCH.—About the same old story all around, and nothing on the market worthy of extended note. We quote at $2.5@2.25 per bbl. for City, delivered.

SPIRITS TURPENTINE.—Consumption continues small, and buyers will take nothing except as a matter of the most imperative necessity. The wholesale market has continued unsettled, in view of the speculative charaeter of most of the operations and values during the greater portion of the time since our last favored the seller. Offerings small and no inclination shown to realize except at full rates. As this report is closed the quotations stand at about 45@47c. per gallon, according to the quantity of stock handled.

TAR.—Supplies have met with about the usual attention, and the market in a generel way shows strength for the best parcels, especially on jobbing lots. Offerings, in fact, have become quite moderate, and cannot be reached except at a further advance. We quote $3.12½@3.25 for Newberne and Washington, and $3.25@3.37½ for Wilmington, according to size of invoice.

Proposals for doing the work and furnishing the materials required in the demolishing and rebuilding of the front and two gable walls of the house of Engine Company No. 13, No. 99 Wooster street, will be received at the Fire Department until 10 A. M., July 2d, 1881.

The Commissioners of the Department of Public Parks have been directed to proceed with the repairing of the pavement of Third avenue, between Harlem Bridge and One Hundred and Forty-seventh street, and also with the relaying of the flagging, and the resetting of the curb and gutter stones on the streets intersecting said avenue.

The Commissioner of Public Works has been directed to notify the owners of the vacant lots on the north side of East Fortieth street, 150 feet from First avenue, said to belong to the "Cutting estate," that their property is dangerous in not having a sufficient wall, and imperfect drainage.

The Common Council have been requested to pass an ordinance for the paving of East One Hundred and Eleventh street, from Second to Third avenues.

CONVEYANCES.

NEW YORK CITY.

Braisted. 1879. 300

Last will and testament of Eberhard Faber, dec'd. Exemplified copy.

MORTGAGES.

NOTE.—*The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.*

Whenever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

JUDGMENTS.

*In these lists of judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. * means not summoned. Judgments entered during the week and satisfied before day of publication do not appear in this column, but in list of Satisfied Judgments.*

NOTES AND ITEMS.

In New York insurance circles, business has not been so good for years.

The two recent losses in Brooklyn, ought to have a tendency to stiffen rates in that city. They can not fail to make many companies more cautious of taking risks on property accounted the best.

It is stated that the instigators of the old blanket form, have been forced to abandon it, and give the railroad companies a new form of policy, denoting number and name of the floats covering a limited amount on each, which can be changed on notice to the insurance company. Under this rule, the railroad companies are compelled to pay eight times as much as last year for insurance. The companies can stand the rise. The increased risk is certainly entitled to higher premiums.

The rates of insurance upon $800,000 of property belonging to an old and wealthy West Side estate, if known, would be astonishing, they are so low.

English and American companies are now placing lines on stocks of merchandise at very liberal rates. Heretofore, the discriminations in rates has been made in favor of buildings. It is to be hoped that companies have made no mistake in adopting this liberal policy.

The Pennsylvania Railroad Company are about to start a new oil line from the Point of Rocks, in Jersey City, running through the meadows to the old slaughter house at Communipaw crossing Montgomery street in Jersey City, about one thousand feet from J. O'Reilly's cider bottling establishment. They have purchased the property for the line at a high rate, and the survey was completed last week. It is also said, that the Standard Oil Company, will, in the fall, erect a large oil works at the Communipaw terminus.

Mr. S. C. Gaul, a civil engineer, of Philadelphia, proposes to solve the question of rapid transit in that city, by constructing a subterranean road, to be symbolized by the letter S instead of L. The line suggested commences at the upper end of Thompson street, and extends through various streets to the foot of Market street.

The Legislature has authorized the property owners to lay out two small new parks on Forty-second street, between First and Second avenues. They have also authorized the enlargement of the building of the Metropolitan Museum of Art in Central Park.

It is pretty well settled among practical investors that the house-heating in the future will be by heated water and steam. The time will come when it will be regarded as wasteful and untidy to use coal and wood for other than heating purposes. People planning to build houses would do well to keep this in mind, and, before deciding what to do, a call should be made on Q. N. Evans & Co., No. 60 Duane street. They will there see a steam-heating and ventilating apparatus, adapted for public and private buildings.

St. Louis is getting to be a great city, and the connections to New York are getting closer every day. Anyone wishing to transact real estate business in that city, would do well to employ Brolaski & Voorhis, No. 514 Pine street, St. Louis. Their references are of the highest character.

In accordance with an act passed May 20, 1881, the Park Commissioners have been authorized to complete the entrances to Central Park on Eighth avenue, between Seventy-seventh and Seventy-eighth streets. A tax, not exceeding $50,000 a year, will be levied for the completion of this project.

Jay Gould owns 163,000 shares of the new stock of the Western Union Telegraph Company. On the 15th of July he will draw a dividend of $489,000. Mr. Gould says he holds Western Union as an investment.
